

THE TECH

VOL. XXXIV. NO. 16.

BOSTON, MASS., WEDNESDAY, APRIL 22, 1914.

PRICE TWO CENTS

FINAL ARRANGEMENTS MADE FOR TRACK MEET

Team Will Leave for Bowdoin Friday at 12.50 from North Station.

The varsity track team will leave Friday on the 12.50 train from the North Station for Brunswick where they will meet Bowdoin in one of their most important track meets of the year. All the men who intend to make the trip are looking forward to it with great interest as it extends through the best section of Maine and to one of the prettiest colleges in New England.

The outcome of the meet is still uncertain because little is known concerning the Bowdoin team. The only known track event held this winter in which Bowdoin participated was the relay race held at Providence between Bowdoin and Boston College, in which the Bowdoin team showed up remarkably well and won by a good margin.

The track at Bowdoin has a reputation of being fast and, with weather conditions favorable, record times are expected in several events. The following are the names of the men from whom the final M. I. T. team will be chosen. There will probably be at least three men picked to run in each event.

100 yards—Wilson, Wilkins, Loomis, O'Hara, Erb, Cady, Laurison, Atwood, G. Reed.

200 yards—Wilson, Wilkins, Loomis, O'Hara, Erb, Cady, Laurison, Atwood, G. Reed.

440 yards—H. Guething, Thompson, Peaslee, Dean, Williams, Loomis, Donnelly, C. Guething.

880 yards—C. Guething, H. Guething, Donnelly, Thompson, Brock, Dean, Benson, Guernsey, Peaslee, F. H. Kennedy.

1 mile—Benson, C. Guething, Cook, Brown, Graff, Donnelly, Brock, Nye, Guernsey.

2 mile—Cook, Benson, Graff, Nye, Brown, Wall, Litchfield, Allen.

120 hurdles—Curtis, Huff, Foster, Sewell.

220 hurdles—Sullivan, Reid, Atwood, Lieber, Curtis, Huff, Foster, Sewell.

High jump—Teeson, Hall, Gokey, Sullivan, Doon, Sewell, Childs, Reed.

Broad jump—Fox, C. Reed, Atkinson, Cady, Morse, Gokey, Doon, Sewell, G. Reed.

Pole vault—Laurison, Knapp, Sewell, Doon, W. A. Wood, W. C. Wood.

Shotput, hammer throw and discus—Leslie, Millar, Conway, Sewell, Pinkham, Seymour, Stevens, Beach, Lowengard, Fox.

WEATHER

Fair tonight and Wednesday; moderate west to northwest winds.

TALK ON PROBLEMS INVOLVING SAFETY

M. E. Society to Hear H. F. J. Porter Today at Meeting in 11 Eng. B.

The danger to life in crowded buildings has recently been emphasized to such an extent that it has assumed national and even international importance. This menace has developed so gradually and by such natural processes that its presence was unobserved and practically unknown until Mr. H. F. J. Porter called attention to it in 1908. Since then Mr. Porter has devoted the greater part of his time to the study and publicity of this vital subject, and his talk on "Fire Traps, Fire Escapes, and Fire Drills versus Sectional Buildings" will embody much of the results of his study.

Mr. Porter is associated with Mr. Himmelwright in his professional work. The problems which they have to face in eliminating danger to life in its various phases in existing buildings are difficult and complex. The difficulties presented by every old building are as numerous as the buildings themselves, and a satisfactory solution for each one must be worked out. Mr. Porter will discuss some of the more important of these problems and will also outline the general methods which can be applied to the design of new buildings.

Messrs. Porter and Himmelwright, on account of their wide experience, were engaged in an advisory capacity by the New York State Factory Investigating Commission in 1911 to make a comprehensive study of factory buildings throughout the state. As a result of this investigation they evolved and devised the first complete plan for eliminating danger to life in these buildings, and Mr. Porter will discuss this and other subjects before the Mechanical Engineering Society today at 4.00 P. M. in Room 11, Eng. B.

CONCERT TONIGHT

Combined Musical Clubs To Play At Roxbury Masonic Temple.

The Combined Musical Clubs will give a concert tonight in the Roxbury Masonic Temple at 171 Warren Street. The concert is to be followed by refreshments and dancing, and in former years has proved to be one of the most enjoyable affairs of the season.

The Club members will leave Copley Square in a special car at 8.15 P. M. and are to meet in front of the Copley Plaza Hotel at 8.10.

There is also to be a concert at Hingham in Weld Hall, Saturday, April 25, which will be followed by a dance.

JASPER WHITING TO ADDRESS STUDENTS

President of Alumni Association Will Speak At Convocation in Huntington Hall.

At the general Convocation called for today at 1.30 Mr. Jasper Whiting, '89, President of the Alumni Association, will address the students. He will consider the attempts which are being made towards closer co-operation between the undergraduates and the alumni. The student body and the activities have been organized recently by the development of the Institute Committee and the widening of its sphere of influence. It is now desired to bring the men now at the Institute into closer relations with the graduates, for the mutual benefit of both bodies and of the Institute.

Mr. Whiting has interested himself enthusiastically in helping the work of Tech in many ways. He has done considerable work in making Technology known in foreign countries and has also been a moving spirit in the recently announced plan of co-operation between the Institute and the state government. It is his constant endeavor to spread and increase the usefulness and influence of Tech.

President Maclaurin requests a full attendance at the Convocation.

WELLESLEY BENEFIT

"A Royal Johnnie" To be Given At Dana Hall Thursday Night.

"A Royal Johnnie" is to be given at Dana Hall Gymnasium Thursday night for the benefit of Wellesley College. This is being done at the request of Dana Hall, and is to help swell the fund that is being obtained from various sources to make up for the great loss by the recent fire.

Tickets are being sold at Wellesley and all profits are to go to the college there. The Show is to start somewhat earlier than is customary, probably at half past seven. For this reason the special train carrying the members will leave Trinity Place at 4.40 Thursday afternoon.

WRESTLING DINNER

The elections for captain and manager of next year's Wrestling Team will be held at the dinner which the team will give next Friday at 7 P. M. in the Union. All men on the Varsity Team, as well as those on the squad, are expected to be present.

The cost of the dinner will be one dollar. All who wish to come must hand in their names at the Cage for the Wrestling Team before Thursday at 6 P. M.

INTERCLASS REGATTA ON MAY 7 AND 9

All First And Second Crew Men Must Report Regularly. Some Positions Still Open.

The preparatory stages of the class rowing have now passed, all the men have had opportunity to row for two weeks in the shells and they now start on their final preparations for the interclass regatta which will be held on the Saturdays, May 2 and 9. Two crews will be picked from each class by the end of the week and it is probable that four of these eight men will row in the first crew races. No man should think, however, that he has no chance for the first or second boats if he is not in one at present, for no one is being cut from the squad and the coach has his eyes open for any promising material.

The practice of last week showed that the races are going to be closely contested as the juniors are picking up finely and will undoubtedly provide strenuous competition for the seniors. As for the freshmen and sophomores there will yet be all kinds of tryouts before the final boat is made up. In the sophomore boat last year's men are far from being sure of their positions. Lucius Hill is giving the stroke and two men all kinds of trouble to hold down their jobs and Wellington and Makepeace are hot after MacRae's and Duff's positions. It is of the utmost importance that all men on the first and second boats report every afternoon that they are scheduled so that other men may get the necessary practice.

CHAUNCY HALL CLUB

Although the Chauncy Hall Club ballots were due last Friday there have been but eight ballots turned in up to date. The ballot committee of the club requests that the members be as prompt as possible about getting their cards in.

CALENDAR

Wednesday, April 22, 1914.

1.30—Convocation, Huntington Hall.
3.00—Interscholastic Prize Drill, Armory.

6.00—Catholic Club Dinner, Union.
8.00—688th Meeting of the Society of Arts, Huntington Hall.

Thursday, April 23, 1914.

3.00—1916 vs. Dorchester at Dorchester.

3.00—1917 vs. Brookline at Brookline.

7.30—Tech Show, Dana Hall, Wellesley.

8.00—Catholic Club, Union.

WEDNESDAY, APRIL 22, 1914.

IN CHARGE OF THIS ISSUE.

R. B. Stringfield, '15; H. S. McQuaid, '17.

The convocation to be held this noon marks the first application of our co-operative ideal to the relations between the student body and the alumni association. Mr. Whiting has already distinguished himself by his championship of this ideal, and may be expected to give the students something important as well as interesting.

The attractive new calendar for student activities now in view in the Union is much more adequate than the one heretofore in use and reflects great credit on the Union Committee. We hope that the activities will do their part by making it useful as well as ornamental.

The excellent support accorded the Spring Meet shows the appreciation of the student body for the unusual interest attaching to the event. Particularly notable was the energy displayed by the classes in preparation for the relay, resulting in the most interesting race of its kind we have ever had.

The Holy Cross meet on the second of May promises to be of particular interest. We hope it will be correspondingly well supported.

In connection with the coming Relay Carnival at the University of Pennsylvania it is interesting to note that this is the fifteenth affair of its kind held by the University. This contest was instituted in 1895 by Frank B. Ellis, at that time a member of the University of Pennsylvania Track Committee.

An analysis of the Relay Race Championships is interesting. In the One-Mile Championship has been found generally the greatest number of entries. This probably means that a greater number of colleges and universities have felt they had teams that could win that championship than could win in the other two. It has been found that an institution will rarely compete in a championship event unless there is reasonable hope that it may win it. The converse is also true, that with occasional rare exceptions, if a college or university does not put a team in the championship classes, it is because it does not think there is a chance for its team to win in any of them. There have been as many as twelve teams entered in the One-Mile at the Penn games and rarely less than eight, while generally in the Two and Four-Mile Championships there has seldom been over six, and often only four. The presence of Oxford this year seems to have stimulated a greater entry. In the longer races, the trainers are probably able to figure out more accurately the ability of the teams entered, and know whether it is advisable to go in or stay out. Another thought suggests itself; it may be that the American training system develops more quarter-milers than half or one-mile men. A summary of the winners in the carnivals of the past is as follows:

One-Mile Championship—Yale has won it five times; Penn, three; Chicago, five; Syracuse, once; Harvard, four; Illinois, once.

Two-Mile Championship—Penn has won it eight times; Harvard, once; Yale, three; Dartmouth, once; Michigan, twice; Columbia, once; Princeton, once.

Four-Mile Championship—Penn has won it eight times; Harvard, once; Michigan, six; Cornell, once; Yale, twice.

A conclusion may be drawn from the above also that Michigan and Pennsylvania seem to have been most successful in developing distance men, while Harvard and Chicago are more prominent in the dash work, and that Yale combines both qualities to a certain extent.

Last year's results were as follows:

One-Mile Relay—University of Illinois.

Two-Mile Relay—University of Michigan.

Four-Mile Relay—University of Pennsylvania.

Freshmen Relay—University of Pennsylvania.

Preparatory School Relay—Exeter Academy.

High School Relay—Boston English High School.

TECHNIQUE ELECTIONS

Two More Men Chosen for Board. One Position Now Unfilled.

By a mistake the name of Hovey T. Freeman was omitted from the list of men elected last week to the Technique, 1916, board. Freeman was chosen to be Photograph Editor. He comes from Providence, and is a member of Delta Kappa Epsilon.

At the meeting of the Electoral Committee held yesterday Ralph Millis was elected Statistician of the year book. Millis comes from Newport, R. I., and belongs to the Phi Beta Epsilon fraternity. He is Institute Editor of THE TECH, and a lieutenant in the Cadet Corps. He is a member of the Officers' Club and the Civil Engineering Society.

Only one office, that of Grind Editor, now remains to be filled by the Electoral Committee, and it is probable that some one will be chosen for that position in a week or two.

FRESHMEN IMPROVING

Gloucester Game Uncovers Weak Places in Lineup.

The Gloucester game, although a defeat, served its purpose for the Freshmen by showing up the weak positions. In practice yesterday, Kendall was shifted to catch, McQuaid to third, and Bell was played in short. This infield went through a short snappy practice and showed up extremely well. Gargan was placed in the outfield and greatly strengthened that department. It will be a stronger team that faces Brookline next Thursday than met defeat Monday but it will be up against one of the strongest schoolboy teams in the State. Last Saturday Brookline played an excellent game against Milton Academy and was only defeated by one run in the sixteenth inning. Arthur will probably be on the mound for the home team and either Simpson or Cady for the Freshmen.

LAST CHANCE

All Desiring Techniques Must Call At Office Today.

Technique 1915 came out last Wednesday yet there are many who have not called for their books. This delay in calling for the books causes a great deal of inconvenience to the board and especially to the treasurer upon whom falls the task of straightening out and settling all the accounts. This work keeps the treasurer occupied until well into the summer and sometimes into the fall. The Board therefore earnestly requests that all those who have signed up for the book or who intend purchasing a copy call at the office today. The office will be open from one to two and from four until six. For the benefit of those who were unable to sign up for the book or to pay their deposit at the time, it is stated that an opportunity will be afforded these individuals to obtain a book provided they call at the office during the hours stated.

INTERSCHOLASTIC PRIZE DRILL THIS AFTERNOON

Six High Schools Entered in Annual Event Run by M. I. T. Regiment.

This afternoon the two hours of freshman drill will be interrupted for about twenty minutes for the Interscholastic Prize Drill. This drill takes place annually at the South Armory under the auspices of the M. I. T. Regiment. There are at present six teams from the following High Schools: Gloucester, Lowell, Medford, New Bedford, Stoneham and Wakefield. Each team consists of three men, drilling in three rounds. The number of men will be cut in each round so that there will be eight men in the squad in the last round. There will be three prizes awarded, two individual and one team prize. The prizes are to be awarded according to the points made in the last round, the first man getting 8 points, the second 7, and so on down to one. The team prize goes to the team getting the largest number of points in the last round. The drilling will consist of the manual of arms, and the marching and facing. Sergeant Perry Schofield and a member of the Coast Artillery will act as judges.

LAST A. E. S. MEETING

Prominent Engineers To Attend Smoker on Apr. 30.

About a hundred engineers from various parts of the country will be present at the Smoker of the Architectural Engineering Society which is to be held April 30. "Flat Slab Construction" will be the subject that will be discussed, the speakers being Mr. J. R. Nichols and Mr. A. B. McMillan.

Mr. Nichols will lead the general discussion in which everyone will take part. It is expected that the subject will be thoroughly threshed out as many prominent engineers will be present. The Harvard Engineering Society has been invited and the members of the Institute Societies will be welcomed. The meeting which will be the last one of the year is at 7.45 in Room 11 B.

PROF. WALKER TO SPEAK

Illustrated Lecture At American Chemical Society Friday.

The Northeastern Section of the American Chemical Society will hold their regular April meeting Friday, April 24, at 8.00 P. M. preceded by the usual dinner at six o'clock. These meetings are held at the Engineers Club, corner Arlington and Commonwealth Avenue, and student members of the Society are cordially welcomed. Those who do not desire to attend the dinner are at liberty to come at eight o'clock for the meeting only.

The speaker of the evening will be Prof. Wm. H. Walker, head of the Chemical Engineering Department at M. I. T. He will speak on the subject of "The Manufacture of Steel Pipe," and will trace the process from the mining of the ore in Michigan to the shipping of the finished product. The talk will be fully illustrated by moving pictures and slides.

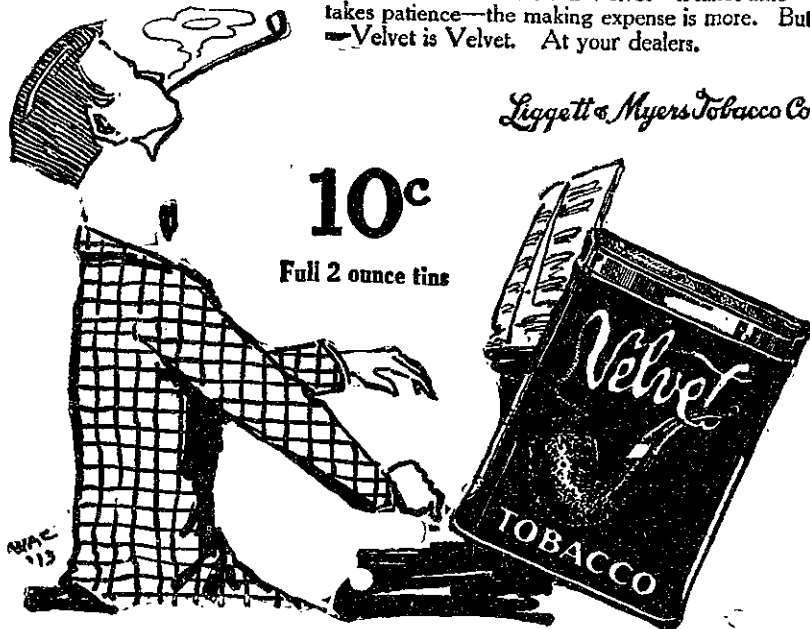

Velvet

THE SMOOTHEST TOBACCO

It goes equally well with the Moonlight Sonata or Rag—The leaf, the selection of experts—aged hanging in the warehouse for two years. A maturing that is seldom accorded any leaf. What happens—all harshness gradually vanishes—it becomes a leaf of rich mellowness—a flavor as seductive as the strains of good music—too smooth to bite the tongue.

The true art of producing smoking tobacco is manifested in Velvet—it takes time—takes patience—the making expense is more. But —Velvet is Velvet. At your dealers.

**GOVERNOR WALSH AT
TECH TOMORROW**

To Speak in the Union Under
Auspices of the Tech Cath-
olic Club.

On next Thursday evening at 8 o'clock, Governor David I. Walsh and Dean Burton will speak at a meeting in the Union under the auspices of the Tech Catholic Club. Everyone is invited, and the officers hope that a large number of the instructing staff and students will be out to greet the Governor.

Governor Walsh is an alumnus of Holy Cross College and of Boston University Law School, and is a member of the Technology Corporation, representing the Commonwealth. At present he is especially interested in a co-operative plan whereby Technology will aid the state in solving engineering problems. Some details of this and other topics will be dwelt upon, and one of the best talks of the year is promised to the large crowd which is expected to attend.

1916 PLAYS DORCHESTER

The Sophomore Baseball Team will play Dorchester High School Thursday afternoon in Dorchester. Captain Smart wishes the following men to meet him in the Union at 1 p. m.: Smart, Lovejoy, Miller, Murdough, Po-teat, Petit, Demerit, Merrit, Allan, Krigger, Holmburg, Lawrence and Ross.

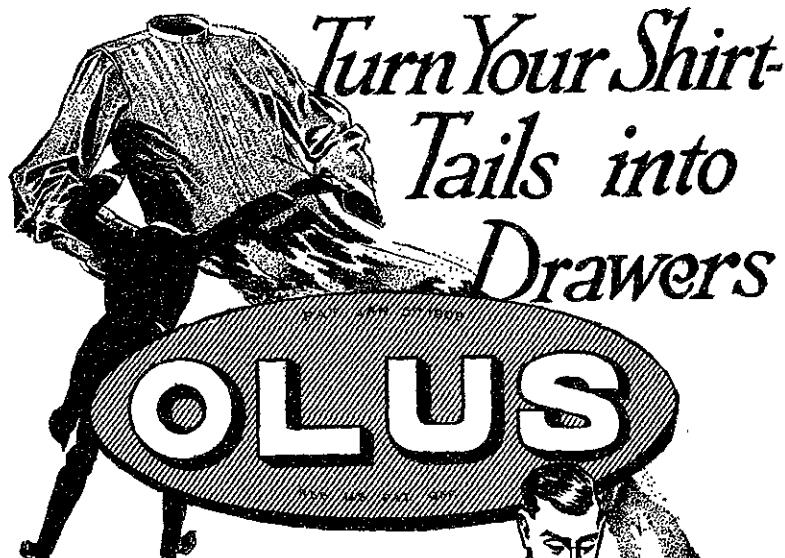

CLASSIFIED ADS.

FOUND

At the Opera House after Tech Show, April sixteenth, a pair of tonic nose glasses, in case. Can be obtained at THE TECH lower office after 5 P. M. on identification.

LOST

Lost in either Walker or Rogers, black looseleaf notebook, about six by eight or slightly larger, containing important notes in Freshman Chemistry, Math., etc., of great value to owner. Name and address of owner, A. E. Keating, on covers. Finder please return to THE TECH office and receive reward.

Turn Your Shirt
Tails into
Drawers

OLUS

IN OLUS the outside shirt and underdrawers are one garment. This means that the shirt can't work out of the trousers, that there are no shirt tails to bunch in seat, that the drawers "stay put," to say nothing of the comfort and economy of saving a garment. OLUS is coat cut—opens all the way down—closed crotch, closed back. See illustration.

For golf, tennis and field wear, we recommend the special attached collar OLUS with regular or short sleeves. Extra sizes for very tall or stout men. All shirt fabrics, in smart designs, including silks—\$1.50 to \$10.00.

OLUS one-piece PAJAMAS for lounging, resting and comfortable sleep. Made on the same principle as OLUS shirts—coat cut, closed back, closed crotch. No strings to tighten or come loose. \$1.50 to \$8.50.

Ask your dealer for OLUS. Booklet on request. Phillips-Jones Co. Makers Dept. C 1199 Broadway, N. Y.

**E. E. SOCIETY ELECTS
OFFICERS THIS WEEK**

Activities of Society Include
A. I. E. E. Meeting And
Dinner.

The E. E. Society is at present exhibiting very strong symptoms of an active organization. To begin with, the ballots for election of officers for the ensuing year will be out today and may be obtained in Room 15 Lowell. The election will be closed next Monday, April 27, at five o'clock as usual. The following are the candidates for the presidency: Loren

G. Miller, Clyde Lacy and C. L. Smith.

The Boston section of the American Institute of Electrical Engineers is to meet at the Engineers Club, Thursday evening and the Tech members of the association are requested to meet in the Union at 7.30 o'clock sharp.

On Tuesday next, the Electricals will again meet to enjoy a dinner provided by Prof. Jackson of the department; the place will be announced later in the columns of the TECH. Mr. Rice, president of the General Electric Company, will be present as honorary guest.

HARVARD DOMITORIES

Students attending the Mass. Institute of Technology are to be eligible to room in the Harvard Dormitories the next college year.
