## PROTECTION AGAINST FIRE IN FACTORIES

### Mr. Porter Shows Superiority of Sectional Buildings Over Fire Escapes.

This is an age in which even those things which were formerly supposed to be governed by chance are being reduced to sciences. Mr. H. F. J. Porter at the Mechanical Engineering Society talk yesterday showed how protection from fire has been reduced to a science. He himself has been the chief contributor to this knowledge.

He first explained how he got into the study of fire protection. He was the superintendent of a factory which employed a large number of girls on each floor. The Iroquois Theatre fire in Chicago and the fire in Baltimore shortly after inspired him to make a crusade in his own factory for the safeguarding of the lives of his employees. He made a thorough study of the conditions existing in the factory, put on the most approved fire escapes on the outside, enlarged the stairways and inaugurated fire drills.

But he found that the fire drills almost invariably resulted in accidents to some of the girls and that a stream of people from an upper

(Continued on Page 3.)

## M. E. SOCIETY

### Nominations Complete—Ballots Ready for Voting.

The official ballots for the election of officers of the Mechanical Engineering Society have been printed and placed at the Cage. They must be filled out, signed and left at the Cage by 4 p. m., April 23th. The nominations are as follows:

Chairman: F. G. Purinton, '15; E. A. Teeson, '15.  
Vice-Chairman: N. E. Kimball, '15; K. W. Roy, '15.  
Secretary: W. A. Houser, '15; H. E. Morse, '15.  
Treasurer: C. G. Norton, '15; G. A. Palmer, '15.  
Governing Board: Two from '15 Class, F. L. Cook, K. E. Engstrom, W. R. Hanchett, F. R. Jones, H. I. Lewis, D. P. Rogers. One from '16 Class, G. R. Duryea, O. C. Norris, J. C. Whitaker.

## CHAUNCEY HALL CLUB

The limit of time set for handing in ballots for the Chauncey Hall Club elections has been extended to Friday, April 24th. All members who wish the club to continue are urged to vote, as the number of ballots will indicate the number of people in favor of its existence.

## MEDFORD WINS PRIZE DRILL

### Individual Medals Carried Off by Richardson and Bogrette.

The annual interscholastic prize drill was held yesterday in the South Armory, six schools sending teams of three men each. The team prize, a suitably inscribed shield, was won by the Medford team, composed of Ernest Richardson, A. E. Bogrette and Edwin Baker. Richardson and Bogrette won the first and second individual prizes, respectively.

The drill was upon the manual of arms, marchings and facings, and was judged according to the manual in the U. S. Drill Regulations of 1911. The set-up and general appearance of the contestants also counted. The judges were Sergt. Perry G. Schofield, 5th Regt. M. V. M.; Maj. H. T. Bent, M. I. T. C. C.; and Maj. T. D. Parsons. The contestants were very evenly matched and nearly two hours' drill was necessary to pick out the winners. Three squads took part, the commands being given by Lieut.-Col. C. H. Chatfield, Maj. P. Keller and Col. L. F. Hamilton, respectively.

The entire Freshman regiment were interested spectators of the contest, and there were also a few outsiders, chiefly teachers, fond parents and lady friends of the contestants. The eight best men, in order of their excellence, were:

E. Richardson, Medford;  
A. E. Bogrette, Medford;  
Stanley A. Burnham, Gloucester;  
R. W. Davis, Stoneham;  
S. Saliba, New Bedford.  
Edwin Baker, Medford;  
George H. Hansell, Stoneham.  
Ralph S. Bradley, Gloucester.  
Wakefield and Lowell also entered teams, but none of their men were placed.

## GOV. WALSH TO SPEAK

### Commonwealth Executive Guest of Catholic Club.

At 8 o'clock tonight Governor Walsh will speak in the Union under the auspices of the Catholic Club. Dean Burton will also be a speaker at the meeting, to which everyone is invited.

Governor Walsh is a member of the Corporation, representing the interests of the Commonwealth on that body. His talk promises to be of great interest to Technology students, dealing with their relations to the state.

The nomination papers for election of officers of the Catholic Club are due tomorrow at 4 p. m. The nominations will be considered closed at that time.

## "A ROYAL JOHNNIE" AT DANA HALL GYM

### Performance Tonight To Be for Benefit of Wellesley College.

Tonight the Tech Show, cast and chorus, will give a performance for the benefit of the Wellesley College fire fund. It will be given at Dana Hall Gymnasium, and all outside arrangements are under the supervision of the principal of Dana Hall.

This method of assisting Wellesley has been considered since immediately after the fire, but the final arrangements were not completed until last Saturday. The management think that it would be showing good spirit if a large number of Technology students should be present at the production, as all profits are to be turned over to the sister college. Business Manager Charles R. Lord has obtained a very limited number of the tickets and will be in the Tech Show office today from 10 to 11 and from 1 until 2 o'clock. No seats are reserved. The price of admission is one dollar and a half.

A special train will leave Trinity Place at 4.40 this afternoon and will return at 11.52 tonight. Excursion rates are offered any undergraduates not connected with the Show who wish to go out on the trip.

## JUNE MONTHLY

### Third Issue of Technology Monthly Goes to Press.

Copy for the third issue of the Technology Monthly must be in by April 27th, next Monday. The forms close at that time and no articles received afterwards can be considered for publication in the June issue, unless by special arrangement. The Board requests that any persons having items of interest and articles for publication will please communicate with one of the Editors at once.

## FRESHMAN BASEBALL

After a day's layoff the Freshman baseball team will try conclusions this afternoon with Brookline High School at the Cypress Street Playground, Brookline. The following men will meet at the corner of Clarendon and Boylston streets at 1.50 sharp: Coach Franks, Stevens, Henderson, Simpson, Cady, Kendall, Medding, Story, Bell, Gardner, McQuaid, Gargan, Atkins, Farnsworth, Rowe, Newall.

The opinions of a number of college presidents on the restriction of immigration and on the proposed literacy test have recently been made public. All of the educators questioned expressed disapproval of this test and all favor a liberal immigration policy.

## THE TECH CALLS FOR MEN FROM FIRST YEAR

### Openings on Institute Daily Especially Promising to Freshmen.

THE TECH again invites any students who wish to profitably invest some of their time in a live activity to become associated with its working staff. This is especially meant for members of the Freshman class, whose opportunities for ultimate advancement to managing positions are especially great.

There are openings in all departments,—news, advertising, circulation. It is especially desired to interest some first year men who can advance rapidly into assistants to the circulation and advertising managers.

Next Tuesday at 1.30 in the lower office of THE TECH the management will meet any candidates who will come out. The different departments will be described and the men will be given opportunity to select the phase of the work which most interests them.

## COSMOPOLITAN CLUB

The election of officers for the Cosmopolitan Club has been set for Saturday, May 9, at an informal dinner to which all members of the club are urged to come. Nomination papers have been sent to all paid-up members. More may be obtained from A. E. B. Hall. Any names omitted from the list should be reported to the Secretary, Turpin Hsi. All nominations are due on Monday, April 27th.

## WEATHER

For Boston and Vicinity: Thursday fair; brisk west to northwest winds.

## CALENDAR

Thursday, April 23, 1914.  
1.30—Technology Monthly Board Office.  
3.00—1916 vs. Dorchester at Dorchester.  
3.00—1917 vs. Brookline at Brookline.  
7.30—Tech Show. Dana Hall, Wellesley.  
7.30—E. E. Society meet in Union to go to Eng. Club.  
8.00—Catholic Club. Union.  
Friday, April 24, 1914.  
7.00—Wrestling Team Dinner. Union.  
7.00—C. E. Nominations Close.  
Saturday, April 25, 1914.  
3.00—1916 vs. 1917, at Field.

Thirteen students are excused of offenses in the last official report of Chicago's Honor Commission.

## IN CHARGE OF THIS ISSUE.

W. A. Houser, '15; G. H. Stebbins, '17.

Mr. Whiting's address at the convocation yesterday was admirably adapted to give the students a good working knowledge of the organization and purposes of the Alumni Association and the various local associations, and of the benefits to be derived from them after graduation. In this connection he dwelt particularly on the broadening influences and acquaintances which they bring into the life of the young graduate. The only unfortunate part of the affair was the almost complete absence of that element of the student body which, taking little or no interest in things outside their technical work, have the greater need for the broadening influences discussed; so that the message failed to reach the men who most needed it. A little wider advertising of the affair among the students might have remedied this deficiency.

The performance of Tech Show to be given tonight at Dana Hall for the benefit of Wellesley College, while it may not be altogether altruistic in motive, is an excellent example of co-operative helpfulness and shows the presence of a spirit of

The class of 1914 is still holding her own place in athletics at the Institute, as was shown in the interclass meet of last Friday.

Cornell's fastest man in the four-mile relay trials held in preparation for the Penn carnival covered the mile in 4:39, which is nearly two seconds slower than Guething's time in the mile at the interclass meet. Cornell's slowest man on the team covered the mile in 4:44. The difference of weather conditions undoubtedly slowed up the trials as they were run on an outdoor track in the rain.

Jimmy Powers, the crack B. A. A. miler, is back from Australia, where he cleaned up things in good style and is now working out on the track at Tech Field.

The mile run in the interclass meet showed up several points that will have to be covered up before the collegiate meets. A little head work goes a good ways towards winning a race.

C. T. Guething can be well congratulated on winning the cup in the mile for the second time. Considering that he was far from being in the best of condition his win is all the more noticeable.

The contests between Loomis and O'Hara afford quite a little amusement. O'Hara seems to delight in trimming Loomis in the hundred but Loomis gets a good comeback in the 220.

It seems too bad that we will not be able to send at least one team to the relay carnival to represent Technology, but the Bowdoin meet will go further to help out the team as a whole than the sending of a few men to Philadelphia.

It is expected that enough men will make the trip to Bowdoin to enter at least three men in each event. In events where we are particularly strong probably more will be taken.

The trip to Bowdoin on Saturday will be the first one that has been taken by our track team outside of Boston for some time and as such is looked forward to with interest.

The Freshmen are to be well represented Saturday on account of their consistent work during the year. Among those probably going are O'Hara, Thompson, Donnelly, Brock, Litchfield, Sewell, Sullivan and Stevens.

The Alumni Baseball team trimmed the Varsity at Chicago the other day.

generosity among those traditionally selfish beings, college students.

## If you have ever been up North far enough

when the snow is over the fence tops, and you can snowshoe it for miles over hill and dale and end up at some lodge where the logs are crackling on the hearth—then you know one of the finest opportunities for the companionship of Fatima Cigarettes. The purity and excellence of the tobacco makes this an ideal cigarette for the man of all sports. The fame of Fatimas first started in the college towns, and today they are the biggest selling cigarettes in the U.S.A. Plain, hand-wrapped package, but inside, twenty of the greatest ever.

**NOMINATIONS CLOSE FOR CIVILS TODAY**

**Annual Banquet To Be at the Copley Square Hotel May Seventh.**

Nominations for the officers of the Civil Engineering Society for next year close this afternoon at 5 o'clock. Only a few nominations are in yet. The papers should be signed by ten men and turned in to the Cage or given to the Election Committee. The following officers are to be elected:

President, Vice-President, Treasurer, three members of the Executive Committee and two members of the Program Committee from the 1915 class and the Secretary and one member of the Program Committee from the 1916 class.

The annual banquet of the Society will be held at the Copley Square Hotel at 6.30 p. m., May 7th. Three speakers have already been obtained for that night. They are Mr. Desmond Fitzgerald, Am. Soc. C. E., and a member of the Corporation; Mr. H. P. Eddy, President of the Boston Society of Civil Engineers, and a member of the firm of Metcalf & Eddy, consulting hydraulic engineers; and Prof. C. M. Spofford, '93, head of the Department of Civil Engineering. The tickets for the banquet are \$1 and they are for sale by the officers of the Society.

**PROTECTION AGAINST FIRE IN FACTORIES**

(Continued from Page 1.)

floor was always met by another stream at the landings of the stairways and fire escapes, causing jams which resulted in accident. He found the most satisfactory way of safeguarding the lives of his employees and the costly materials used in the factory was not to transport them to the ground by means of stairways and fire escapes, but to take them horizontally from one building to another. In most cases it is impractical to move people and goods from one building to another, so today we have the sectional buildings with fire walls, which cut the building into small divisions, confining the fire to one section. Then it is only necessary for the people to move out of the burning section and to close the fire doors.

After Mr. Porter had perfected this method in his own factory he proceeded to install it in other factories throughout the state. This brought him in touch with a great variety of conditions and gave him the experience which has made him invaluable to the New York State Legislature in passing bills for fire protection.

Mr. Porter showed numerous slides representing very poor fire protection facilities and then in contrast showed diagrams and photographs exhibiting a fire protection equipment of approved design. The talk was punctuated with many of Mr. Porter's personal experiences. He told about the case of the Huyler factory in New York as well as numerous other factories and buildings where a

**OFFICIAL ENTRIES CHOSEN FOR MEET**

**Men Must Report at Field This Afternoon Sure for Instructions.**

The final selections of entries for the Bowdoin meet has been made and the men whose names are below must report, rain or shine, at the Field this afternoon as soon after 2 o'clock as possible. It is very important that all be present to be informed as to the details of the meet.

100-Yard and 220-Yard: Wilson, Wilkins, Loomis. 440-Yard: H. Guething, Capt.; Peaslee, K. Dean. 880-Yard: Donnelly, D. P. Thompson, Brock. Mile: C. Guething, Benson. 2-Mile: Cook, Graff, Litchfield. High Hurdles: Huff, Foster, Sewall. Low Hurdles: Huff, Foster, Sewall, Atwood. High Jump: Teeson, Sullivan, Hall. Broad Jump: Fox, Atkinson, C. Reed, G. Reid. Pole Vault: Lawrason, Knapp, W. C. Wood. Shot Put: Leslie, Conway. Hammer: Miller, Conway. Discus: Miller.

This constitutes the largest team that Tech has ever sent to another college. The trip will be somewhat of a reward for the faithfulness the men have shown during the spring work. In spite of the large team, every man is capable of making a fine showing.

The men will meet at the North Station at 12.50 tomorrow and will be expected to have had their lunches at that time.

**MECHANICALS' BANQUET**

**Results of Elections Will Be Announced.**

The annual banquet of the Mechanical Engineering Society will be held at the American House on Wednesday evening, April the 29th. An attractive menu has been obtained at the nominal sum of \$1.25. Mr. Wm. Kent, the author of Kent's Handbook, will be present and speak to the Society. Prof. Miller, head of the Department of Mechanical Engineering, has also been obtained and the committee in charge of affairs is trying to get other speakers from the faculty as well as men from the outside. Definite information will appear later in the columns of THE TECH.

There will be several musical numbers during the evening which will be supplied by the talent of the Society. The results of the annual elections will also be announced. Tickets are going rapidly and may be obtained from any of the men whose names are on the ballot for next year's officers. The committee believes that the banquet will be one of the most successful ever held if the sale of tickets may be taken as a criterion.

large number of employees work. At the close of the talk many questions were asked, from the floor, which the speaker answered in a very clear manner. The meeting was well attended by a large number of the members of the Society.

## TELLS OF WORK DONE BY ALUMNI COUNCIL.

### Mr. Whiting Gives Account of How Graduates Aid Institute.

A large body of students and professors gained a clearer idea of the work of the Alumni Association yesterday. At the Convocation Mr. Jasper Whiting, '89, President of the Association, told of the work which is being done by the organizations of graduates for the benefit of Technology.

The Association was originally, according to Mr. Whiting, like other organizations of college graduates, chiefly concerned with giving one dinner each year. The dinner usually had a few speeches and some songs, but was a rather dull affair. Things have changed greatly, however. At present the Alumni take a lively interest in the activities of the undergraduates and in the general work of the Institute.

Technology spirit is the rock on which the Association is founded. Mr. Whiting said that Tech spirit is hard to define, but that it is something better and higher than the ordinary "college spirit." It holds men together in school and after, and recognizes no caste or class distinction. Its strength is largely due to the fact that exists between men who have been scientifically trained, men who do things, who are artists in a large sense. One of its tangible results is that it assures to every Tech man, however young he may be, a cordial welcome wherever other Tech men are.

The purpose of the Alumni organization is to make this somewhat intangible thing called "spirit" a power for good to Technology and to Tech men. For this purpose it is divided into the central organization, which has general control, and the local clubs formed in different places, from Maine to Manila and Tokio. The work falls into two parts, the "field" work, and that done at the headquarters.

The purpose of the field work is to keep all graduates in touch with the Institute and the Alumni Association so that they will be informed of what is going on at their alma mater. To this end clippings and other matter relating to the work of Technology are sent out to the secretaries of the local associations for the information of the members. Speakers are also sent out to dinners given by Tech men all over the country, and lantern slides are also provided for smokers and other entertainments.

The headquarters work consists in

co-operating with the Technology Corporation and Faculty to extend the influence of the Institute and improve it in every possible way. The Association has recently established the Alumni Council to consider ways of helping the Institute, and to act for the Association. This body consists of one delegate from each class and from each local organization, meeting monthly for discussion.

Mr. Whiting gave many examples of the work done by the Alumni through their Council. They have instituted campaigns to raise money, when the Institute was in financial distress. The Council has also worked on the problem of reorganizing the Co-operative Society, has suggested new courses for the Institute, and has conducted extensive publicity work in China and South America.

In conclusion, Mr. Whiting gave to the undergraduates the hearty greeting of all the Alumni. The meeting concluded with enthusiastic cheers for Mr. Whiting and President Maclaurin.

### NOTICE

Today at 1.30 there will be a general board meeting of The Technology Monthly in the Circulation Office. All men connected with the Business and Editorial Boards are requested to be present.

## Why Should I Smoke TUXEDO?

TUXEDO is the logical smoke for millionaires because it is impossible to buy a better tobacco.

Tuxedo is the logical smoke for the economical man because there are 40 pipefuls in a ten-cent tin—making the average cost per pipeful only one-fourth of a cent!

To buy cheaper tobacco means to get less pleasure out of smoking, because it is impossible to make a tobacco as good as Tuxedo at less than the Tuxedo price!

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made of only the finest, choicest selected leaves of perfectly aged Burley tobacco. It is made by the original "Tuxedo Process" which takes all the unpleasantness out of tobacco and leaves all the pleasantness in!

Tuxedo has a deliciously mild, fragrant aroma that is pleasant to all. It is the only tobacco you can smoke in a room full of lace curtains without leaving even a trace of odor.

A trial will convince you that Tuxedo is superior to every other tobacco you have ever smoked. Buy a tin—today.

YOU CAN BUY TUXEDO EVERYWHERE

Convenient pouch, inner-lined with moisture-proof paper 5c  
 Famous green tin, with gold lettering, curved to fit pocket 10c

In Glass Humidors, 50c and 90c

**FREE** Send us 2 cents in stamps for postage and we will mail you a souvenir tin of TUXEDO tobacco to any point in the United States. Address
