TECH CLEANS UP IN BOWDOIN MEET

Take All Track Events—Records Broken by Cook and Leslie.

Tech made a clean-up of the track meet with Bowdoin Saturday, winning by a score of 92 3/4 to 26 1/4. The Institute showed a well balanced team in the running events, giving Bowdoin only three third places, although the Maine team came back strong in the weights, taking all places in the hammer and discus.

The individual stars of the meet were Leslie and Cook. Leslie took first place in both the shot put and his heave of 42 ft. 11 1/4 in. betters the old Tech record of 41 ft. 6 in. made by O. W. Turner in '13. Leslie made 295.55 in the twomile, breaking the Maine state record by a second.

Tech took all three places in the century with Wilson, Loomis and Will in finishing order. Lococos lived up to expectations in the hurdles, and

OXFORD TEAM WINS

Penn Four Just Losses in Four Mile Championship Race.

As was expected Oxford came in as the winner in the four-mile world's championship relay race at the Penn relay carnival Saturday on Franklin Field. They had no easy time winning, however, for the Penn team finished only four feet behind. Jackson, the Oxford anchor man, braving out McCurdy of Penn by only a foot in a hair raising finish. The time was 8 minutes, five seconds.

Harvard won the mile championship, winning from U. of P. in three minutes, 52.54 seconds. Illinois came in first in the twomile relay with Michigan second and Chicago third. The time in this race was 8 minutes, four seconds. Howard Drew, the colored flier, now running for the University of Southern California, won the hundred in 10.9.5.

DRILL THIS AFTERNOON

There will be a drill period this afternoon from two to three for the regular Monday battalion. The two-hour Wednesday period for all the regular Monday battalion. The two-hour Wednesday period for all the regular Monday battalion. The extra drill is necessary to prepare for the visit of the Governor Inspector, which takes place May 6th. All men who have been transferred from the battalion in which they were at the beginning of the term should report with their battalion this week.

NEW PROMOTIONS IN TECHNOLOGY FACULTY

Meesas, Lewis, Haven, Prescot and Breed Given Full Professorships.

At the meeting of the executive committee of the Massachusetts Tech- nology Institute the following promotions were made in the teaching staff:

From the Grade of Associate Professor to the Grade of Professor:

A. A. Blanchard, of inorganic chemistry; A. S. Gunn, of sanitary biology and public health; A. T. Robinson, of English; A. G. Woodman, of food analysis.

From the Grade of Instructor to the Grade of Assistant Professor:

Charles W. Green, in electrical engineering; Henry W. Keith, in naval architecture; John N. Norton, in chemistry of solution; Joseph W. Wieland, in inorganic chemistry; George W. Scott, in machine design; Frederick H. Holley, in geology.

From the Grade of Assistant Professor to the Grade of Associate Professor:

Carroll W. Duren, of economics; A. A. Blanchard, of inorganic chemistry; S. F. Guinn, of sanitary biology and public health; A. T. Robinson, of English; A. G. Woodman, of food analysis.

From the Grade of Instructor to the Grade of Assistant Professor:

Charles W. Green, in electrical engineering; Henry W. Keith, in naval architecture; John N. Norton, in chemistry of solution; Joseph W. Wieland, in inorganic chemistry; George W. Scott, in machine design; Frederick H. Holley, in geology.

ELECTRICAL SOCIETY

Ballots Due Today—Next Meeting Wednesday.

The Electrical Engineering Society ballots are due today at 4 o'clock in 15 Lowell. All men who have not yet handed in their ballots should hand them in to Miss Parson. Due must be paid to have the votes counted.

The next meeting of the society will be held Wednesday at 6.30 p.m. at the Engineers' Club, corner of Commonwealth avenue and Arlington street. Mr. E. W. Rice of the General Electric Company will be present as a guest. Members who expect to attend should leave their names with Miss Parson in 15 Lowell.

CLASS DAY COMMITTEE

There will be a meeting of the Class Day Committee today at 5 p.m. in 27 Rogers.

The faculty at Lafayette has restated the fifty-four Sophomores invited was penalized last week for hazings.

ANNUAL BANQUET OF MECHANICAL SOCIETY

Attractive Program Is Being Planned—Elections To Be Announced.

Probably the event that is looked forward to above all others in the activities of the Mechanical Engineering Society is the annual banquet which is held toward the close of the college year. With this in view the committee has arranged to make the banquet this year even more enjoyable than those in the past. Final preparations have been made with the American house to have the festivities there Wednesday evening, and the menu that has been submitted is most satisfactory.

Several exceptionally good speakers have been obtained and the program will be interspersed with interesting musical numbers. More definite information will be given in a later issue of THE TECH when the details have been finally arranged. The results of the annual elections will also be announced during the evening. The ballots are to be handed in before 4 o'clock on Tuesday, the 28th. It is hoped that all those who wish to attend will get their tickets today, since the caterer must know in advance how many are coming. Those who have been given tickets to sell will be asked to give a report on the number sold.

ARCHITECTS TO MEET

Mr. Aldrich To Speak on "La Vie à l'École."

Tomorrow evening at 6 o'clock the Architectural Society will be address- ed by William T. Aldrich of the Institute department on the subject of "La Vie à l'École." This meeting, which was scheduled for several weeks ago, will have as its purpose to acquaint Tech men with student conditions at the great French school. The talk will be given in 42 Pierces. Tickets for the earlier talk may be exchanged for those of the one tomorrow evening.

The Architectural Engineering Society will hold a smoker Thursday at 7.45 in 11 Eng. B. A discussion of "Flat Slab Construction" will be given.

The elections of the Architectural Engineering Society will be held at 2.15 p.m., April 28th, in Room 42 Pierces. The elections of the Architectural Engineering Society will be held at 2.15 p.m., April 28th, in Room 42 Pierces.

FRESHMAN BASEBALL

There will be no practice for the Freshman Baseball team this after- noon, but practice will be held as usual tomorrow.

SIMPLIFIED SPELLING AND METRIC SYSTEM

Reasons Advanced by Mr. John Ritchie, Jr., for Their Adoption.

"If it could become a mark of distinction or of breeding for women to speak of "motors" and "kilo's," and a little of the taunting that may put into the movement, the change might be brought about quite quickly," said Mr. John Ritchie, Jr., vice-president of the Boston Scientific Society, in a remarkable interview given yesterday on, "Why we don't use the metric system.

"Every one realizes what a conven- ience the millennium of a one measure- ment system for the world would be, when a machine made in France

(Continued on Page Three)

CATHOLIC CLUB

Nominations Announced for Next Year's Officers.

Ballots will be printed immediately, and may be obtained at the Cage the latter part of next week. They will be due at the Cage before 4 p.m. Wednesday, May 6.

CALENDAR

Tuesday, April 28, 1914.
2.00—Drill for Monday Battalion.
4.00—Electrical Engineering Society Ballots Due. 15 Lowell.
5.00—Catholic Club Nominations Due. Cage.
5.00—Meeting of Senior Class Day Committee. 27 Rogers.
6.00—Junior Baseball Practice.

Wednesday, April 29, 1914.
2.15—Meeting of the Architectural Engineering Society for Elections. 42 Pierces.
4.00—Mechanical Engineering Society Ballots Due. Cage.
5.00—Entry List Semi-Annual Tennis Tournament Closed. Cage.
8.00—Architectural Society Meeting. 42 Pierces.
The Track team is to be congratulated on its showing at Bowdoin. The strength of the sprints even without O'Hara is most encouraging.

Cook's time of 10.56.5 ft is not a Tech record but he will undoubtedly better his time by the necessary two seconds by the end of May.

The Oxford relay team was certainly given a close call by Penn's quartet. Altho the last mile was run in 4.26 it was from all accounts one of the most spectacular in years. Teber found his match in Madiera, much to the surprise of many, who thought the former would run away from the Pennsylvania flier at the finish.

Altho a scrubb meet was scheduled for the Field for Saturday afternoon it had to be abandoned because only six men showed up. Tech's main weakness as shown in the meet at Brunswick is the weight department of the field events.

Laursen's vault of 12 ft. 7 in. shows considerable improvement.

Communication

To the Editor of THE TECH:

It was with regret that I saw that an attempt to refrain from an appearance of self-advertising was interpreted as an effort to disclaim the authorship of the criticism contained in the communication in Friday's THE TECH, which I signed "A Junior." It is to be hoped that my signature below will relieve the feeling evidenced in a later communication.

If I may be allowed a word upon the subject under criticism, I will say that I disclaim connection with the Boston amusement and literary society to which my name is attached, and that I am not the author of the criticism contained in the communication from the heretofore anonymous critic of Technique 1915, to which reference is made in the present discussion I am still unconvinced that the spirit of the class is by any means the same as it is today. The necessity for this class meeting is not necessary, as I have already expressed myself in favor of such a meeting.

As to the last line of the communication from the anonymous critic of Technique 1915, there is no truth in the statement that the material is to be derived from the present discussion I am still unconvinced that the spirit of the class is by any means the same as it is today. The necessity for this class meeting is not necessary, as I have already expressed myself in favor of such a meeting.

Yours truly,

W. A. Houser, '15.

Cigarettes

The inimitable flavor of "Bull" Durham cannot be duplicated in a ready-made cigarette—the delicate, elusive fragrance would escape long before the cigarette is smoked. It can only be retained in the bulk of tobacco in the "Bull" Durham sack—and enjoyed in the fresh-cut "Bull" Durham cigarette. Learn this distinctive form of smoking enjoyment today—"roll your own."
