HOLY CROSS ENTRIES FOR SATURDAY MEET

Tech's Opponent Has Many Good Men - Especially Upon Relay Team.

When Tech meets Holy Cross Saturday, there will be an interesting struggle to see whether Tech can win, for a victory will mean excellent prospects in the future events to be held at the Stadium. The Holy Cross team is made up mostly of men who have had experience and have established a reputation. They won the 40-yd. dash at the H. A. A. meet in 1913 and was the All-intercollegia-

sprint champion of the State of Maine while a student in the Holdren High School. Lee from Natick High school was third place at the New England last spring, putting up a fine time, thus beating Tech's time for three years. Higgins was second in the 1000-yd. run at the New England last spring, beating Captain Dumphey was on the team is made up mostly of men who have had experience and have established a reputation. They won the 40-yd. dash at the H. A. A. meet in 1913 and was the All-intercollegia- sprint champion of the State of Maine while a student in the Holdren High School. Lee from Natick High school was third place at the New England last spring, putting up a fine time, thus beating Tech's time for three years. MECHANICALS BANQUET WITH NOTED SPEAKERS

Election Returns Give Purinton
As New Chairman For Society.

"Technical school is not the education of an engineer,—it is merely the foundation upon which the complete structure of education is built by work, experience and further study." So Mr. Chas. T. Main, '76, expressed his ideas of the engineer and his training before the banquet of the Mechanical Engineering Society last evening.

Mr. Main, who has been prominent in the American Society of Mechanical Engineers and is the president of the Boston Engineers' club, and Mr. William Kent, author of Kent's Handbook and well known engineer, were the principal speakers on the program. Mr. Main, who was introduced by Chairman Treat, gave much valuable advice to young engineers.

Mr. Kent brought the greetings of the parent A. S. M. E., of which he is a charter member, and centered his remarks upon the rotation of "Engineering andHeroic Sense." He

FRESHMEN ADVISORS

Upper-Classmen Urged To Attend Meeting This Noon.

This noon, at 1230, there will be a meeting in the Union of all upperclassmen who wish to act as advisors for the Freshman class next year. Dean Bowers, who is in hearty sympathy with this branch of the T. C. A.'s work, is expected to present. It is to be hoped that enough men will report to fill the vacancies left by graduating Seniors.

Mr. L. H. Talbot, the General Secretary, of the T. C. A., will also be at the meeting to outline the plan and explain any details desired.

DRILL THIS AFTERNOON

Thursday Battalion Will Report At Two O'Clock.

The Thursday battalion will drill this afternoon at the usual hour. It is important that all men attend some of the time to be given up to explanation of the rifles, naming of parts and general information. Skirmish work will also be reviewed and perfected. This is the last drill before the governmental inspection, which comes next Wednesday.

FRESHMAN BOARD

There will be a meeting of the Executive Board of the Freshman class in the Union at 4 o'clock on Friday, May 10. Important business in regard to various financial matters is to be taken up and a full attendance is desired.
Little difficulty is expected in getting the first two places in the hundred and the first in the quarter, mile and two-mile with the stars that we have in those events.

The opinion of track men at Bowdoin last week when the team went there was that Technology would probably be the winner in the New Englands this spring.

There will be plenty doing at the field Saturday with the track meet and the tennis match against Holy Cross.

Tom Guething is out for first in the quarter on Saturday. Lee jumped Guething at the finish of the double furlong in the N. E. I. C. A. meet last spring, and Guething is out for revenge.

Cook is confident of making a good showing on Saturday. The entry list for the Spring tournament at Jarvis field Saturday has been announced as yet, the Technology team will probably be picked for the season.

The Holy Cross meet will be a much more interesting one to watch than the one at Brunswick. Both teams are strong in the running events and weak in the weights, giving fairly close competition in every event.

The half on Saturday will show some good running when "Cy" Guething and Higgins get together. Higgins ran second to Taber in his record breaking half at the New Englands last year, but "Cy" is a strong finisher and will take lots of beating.

TELEGRAPH ASSOCIATION

Although neither the team which will represent M. I. T. nor that representing Holy Cross in the tennis tourney at Jarvis field Saturday has announced as yet, the Technology team will probably be picked from the following men: E. R. Goodwin, R. A. Warren, H. H. Peck, B. G. Stowell, and B. M. Woodbridge.

The entry list for the Spring tournament closed tonight at 6 o'clock.

ATHLETIC ASSOCIATION

Everett K. Briggs, '17, of Johnstown, N. Y., was elected to the position of Assistant Manager of the Track Team at a meeting of the M. I. T. A. held Tuesday afternoon. He prepared for Technology at Andover, and is a member of the Phi Kappa Sigma Fraternity. A special award of "T" was made to James M. White, '14, the manager of last year's Track Team.
Crew Pictures to Be Taken Today

Poor weather makes postponement necessary—all men must be on today. Time trials and three and four-mile endurance rows will be the work of the crews from now until the first race on Saturday, May 9th. The coach has narrowed his squads down to first and second crews, although all the men who reported on the first day are still rowing, for no one has been cut, and every afternoon, when the sun is up, the men are out to improve their form.

The Sophs have had the hardest work to date, for their form has not been up to what was anticipated. They have been out on several long rows trying to develop more regularity in their sweep. At present the rowing is too individual and not sufficiently machinelike, but now that the racing form can be looked for. The crewmen are still fighting it out. The first day are still rowing, for no one has been cut, and every afternoon, when the sun is up, the men are out to improve their form.

The annual banquet of the Civil Engineers Society will be held at the Copley Square hotel on May 7th from 5 to 7 p.m. The speeches obtained for that night are as follows: Mr. R. P. Reddy, president of the Boston Society of Civil Engineers; and a member of the firm of Metcalf & Eddy, consulting hydraulic engineers; and Professors C. M. Stafford, head of the Department of Civil Engineering at the Institute. The pictures for the banquet are one dollar and are for sale by the officers of the society.

The following is the list of nominees for the offices of the Society for the coming year:

Vice-President: J. S. Gulliver, '15; W. F. Pike, '15; R. V. Tiffany, '15.

Secretary: H. E. Bennett, '15; F. B. Haste, '15; C. J. Spear, '16.

Treasurer: C. L. Hall, '15; C. F. Watlo, '15.

Program Committee (two from each class): S. M. Fox, Jr., '15; H. N. Pickering, '15; M. B. Pinkham, '15; J. A. Tobey, '15; M. P. Curtis, '15; W. J. Farthing, '15; F. R. Foster, '15; E. W. V. C. Lecua, Jr., '16.

Ballots have been left at the desks of the members, in the drawing rooms. These should be signed and left at the Cage by 4 p.m., Wednesday, May 6th. A few men, who have not paid their dues, can get their ballots by paying them and seeing the Secretary of the Society. The results of the election will be announced at the banquet.

Mechanical Banquet with Noted Speakers

(Continued from Page 1.)

mechanical engineering as "the science and art of overcoming the resistances of nature, including human nature," and added that it might well be defined as "applied common sense." In touching upon the probable success of an engineer, Mr. Kent emphasized that the quality of leadership meant more than mere scholarship. The field which an engineer may enter is exceedingly broad, the commerce offering great advantages for the future. He stated as his belief that the engineer would in the future have much to say and do with the accumulation and distribution of wealth.

The faculty of the Institute was represented by Professors Haven, Russell and Miller. Prof. Haven gave

RIFLE CLUB TO HOLD ANNUAL MEMBERS, MATCH
Opportunity To Qualify For National Association Buttons.

Outdoor practice of the Rifle club has been going on for about a month at the Walnut Hill Range with great success and on Saturday, May 18th, it is announced that the annual "Member's Match" will be held. The conditions of this match are the same as those of the Intercolligate matches, namely: At 300 yards, ten shots slow fire, sitting, eight-inch bull's-eye; at 500 yards, ten shots slow fire, prone, twenty-inch bull's-eye. There is only one Saturday last on which members can practice for this match, before the 9th. The prize is a bronze medal. All members have a good chance of winning this medal since the conditions of the match are as unfamiliar to the old men as to the new.

There will be no outdoor practice on Saturday, May 18th, as on that date a team representing M. L. T. will shoot in the Intercolligate Outdoor Match against teams from other colleges. This team is composed of six men and will be picked on May 9th from among those making the best scores in the Members' Match. On Saturday, May 25th, an opportunity will be given to members to qualify for the "Marksmans," "Sharpshooter," and "Expert" buttons given by the National Rifle Association. The qualifications are not difficult, so no practice will be required for them.

Further information in regard to these matches and orders for rifles may be obtained from E. J. Cassels, 25 Tremont.

ELECTION OF OFFICERS
Architectural Society Holds Annual Election.

At a meeting of the Architectural Society held yesterday afternoon in Room 41 Pierce the following officers were elected for the ensuing year: President: H. P. Sahle, '13; Vice-President: E. P. Norberg, '15; Secretary: R. J. Linn, '15; Treasurer: E. H. Jackson, '16. Executive Board: F. S. Wehrt, '14; O. R. Freeman, '15; U. C. Scherer, '15. The smoker will be held this evening in Room 11 B. "Flat Slab Construction" will be the subject for the lesson.

The fourth annual tournament for the interscholastic titles in singles at Jarvis Field May 9th and 11th.

Tuffs had thirty candidates report for the track squad, nine of whom were veterans.

LOST

Sigma Xi key, engraved with name, W. R. Duran. Return to 25 Walker.

Theta Xi fraternity pin, marked on back, C. H. Woolsey. Return to 283 Newbury Street and receive reward.

MECHANICAL BANQUET WITH NOTED SPEAKERS

(Continued from Page 2.)

Prof. Miller concluded the formal speeches for the evening with a description of the A. S. M. E. and the advantages obtained by student membership in it. He emphasized the care taken to preserve the society's reputation for a high standard of integrity, and emphasized that as an important quality for the engineering student to cultivate. The banquet, which was held at the American house, was attended by over seventy-five members of the Society. After the meal the chairman announced the results of the election of new officers. They were: Chairman, F. G. Purinton; vice-chairman, N. E. Kimball; secretary, H. E. Morse; treasurer, G. F. Palmer; governing board—F. L. Cook, W. R. Barss. Return to 25 Tremont

ANNUAL ELECTION.

(Continued from Page 1.)

crowd of spectators they will not be at all sure of victory. Come out and yell for M. I. T. if you wish to enjoy the guests.

Professors and students have been discussing the probable origin of the pyramids. His remarks are interesting discussion of the probable time gigantic astronomical observations of Egyptian kings, but were in their three hundred years ago with an interesting trip follows:

Help the team.
