SOPHS PLAY TODAY

Boston English High Expected To Put Up Stiff Game.

The Sophomore baseball team goes up against Boston English High this afternoon at the field at four o'clock. Several shifts have been made in the line-up of the Sophomores and will be tried out today and may be used, if successful, against the Freshmen in the next game of the interclass series. Today's weather will be lovely in the box with Gushing being the bat. This will be Gushing's first tryout and it is hoped that it will strengthen the weak spot in the team. Tagley will cover shortstop and Merritt will be shifted to third base. Hollings, Krigger and Ross will hold down the field positions. The remainder of the line-up will be as usual,

Crew Captains Elected Yesterday Afternoon

Shake-Up in Soph First Boat for the Best—Juniors Well Balanced.

At an interesting crew meeting held yesterday afternoon in which A. a. boxhouse on the Charles River, the various classes elected crew-cap-

tains for the ensuing year. S. C.

of the Freshman class. The Juniors elected C. V. Mannard, who was stroke of last year's Freshman crew, and stroke of the present Sophomore boat, elected the captainship of the 1916 crew. Although the two other classes elected their captains, the Seniors did not follow suit.

In a race between the twoSopho-

INSPECTION OF CADETS

Efficiency of Regiment To Be Judged by Army Officer.

Yesterday's drill was the last before the Government inspection, which comes next Wednesday. At that time the Cadet Corps will be reviewed and inspected by an Army officer. The standing of the Institute in military matters is of the utmost importance to the Cadet Corps and they are sure of the full attention of the Cadets. The inspection of the Corps is expected to be held on the quad, and the Corps will be at full strength.

OFFICERS CHOSEN FOR NEXT YEAR'S FRESHMEN

First Officers Under New Constitution—Point Committee Reports at Meeting.

At the meeting of the Institute faculty yesterday the following men were appointed from the present Sophomore class to act as temporary officers for the class of 1918:

In Charge of this Issue

Assistant: J. G. Fairfield, '16.
A. D. Netu, '17; N. E. Pautault, '17.

On rather short notice there has been called a meeting to be held in Huntington Hall in the interest of equal suffrage. Other Eastern Colleges have gone so far as to form equal suffrage clubs and Tech should not be backward in proving itself abreast of the times. Regardless of a man’s belief on the subject, a spirit of fair play should make him want to attend the meeting this noon and hear what the speakers have to say. The success obtained by the suffrage party this far in Massachusetts gives promise of final victory for the cause and it were a shame if an Institution like Tech should not be interested enough in the matter to take an active part with the other Institutions of the community. The spirit of open discussion of all up-to-date topics is a spirit to be encouraged and one which is certainly indicative of Tech and its progressive ideals.

Yesterday by the action of the Institute Committee there was set in motion a procedure which is to be encouraged and one which is certainly indicative of Tech and its progressive ideals.

ENGINEERING AND SCIENTIFIC NOTES

A Single Boat Davit.

Many catastrophes on the sea have illustrated the insufficiency and danger of the system of lowering life boats by a system of two davits. The two tackles being totally independent, it is no easy matter to lower both at the same rate during a confusion and thus keep the keel of the boat level and to quickly and surely disengage the tackle the instant the water is reached. With a view of eliminating these dangers, a Glasgow shipowner has designed a single davit to handle a 28-foot boat weighing one and three-quarters tons. The davit has a swivel bearing on the pole and deck and moves through a gland to the boat deck. The lifeboat is hoisted by a tackle the instant the water is reached. No hauling is necessary and no fouling is possible. This new davit has been subjected to exhaustive tests by the British Board of Trade, and has been given a certificate of approval for passenger vessels.

American Radium.

A chemical manufacturing company of Pittsburg has just announced its manufacture and sale of the first pure radium salt produced in America. The United States Bureau of Mines to start for the new industry. The salt was extracted from Colorado carnotite deposits which are considered by the United States Bureau of Mines to be the largest deposits of radium ore in the world.

Opening of the Canal.

According to the latest reports, Capt. Goethals announces that the Panama Canal will be opened for commercial vessels about July first unless unforeseen difficulties arise. Mr. Burton spoke briefly at the meeting of the T. C. A. yesterday noon signifying their willingness to act as advisers to new students next year. The aim of the Association is to have 100 such advisers, and to extend the work beyond that already done.

Over sixty men banded in their names at the meeting of the T. C. A. yesterday noon signifying their willingness to act as advisers to new students next year. The aim of the Association is to have 100 such advisers, and to extend the work beyond that already done.

Did you ever see a Union Suit that was Coat Cut, with actual closed crotch and a closed back? Well, here's one, and the only one—

COAT CUT UNION SUITS

LARGE GATHERING OF FRESHMEN ADVISERS

Dean Burton and Talbot Give Short Addresses Outlining Future Plans.

Mr. Talbot, General Secretary of the T. C. A., then explained some of the details of the work. It was important, he said, that those in charge of sending out the lists have the names and summer addresses of all the advisers. Lists of Freshmen are sent to the T. C. A. they should do so at once. They may leave their names and summer addresses at the T. C. A. office or send them by mail to L. R. Talbot.

Advisers having friends who expect to enter the Institute next September, may give the names to the T. C. A. Secretary, who will be as far as possible 'follow out the suggestions made.'

A new plan will be started next year in addition to the regular work of helping Freshmen in registration. Men from each of the more important courses will be appointed to confer with students entering from other colleges and technical schools, especially in regard to getting work signed off and securing advanced standing.
