MUSICAL CLUBS’ DINNER POSTPONED

Will Be Held Next Wednesday—G. R. Duryan Elected Secretary.

At a meeting of the executive committee of the M. E. Musical Club yesterday, it was decided to hold the annual dinner next Wednesday, May 13th, at 6.30. This stop was unusual to make possible the attendance of many men who could not have been present. It was also decided to hold the annual business meeting next Friday afternoon at five o’clock, in the Union instead of before the banquet, as has previously been done. Fortunately, no one who is absent from this meeting without good excuse will be allowed to attend the banquet.

During the meeting the resignation of H. C. Norton from the office of secretary was accepted, and G. R. Duryan was elected to fill his place.

M. E. MEETING DRAWS LARGE AUDIENCE

Seven Hundred Students Attend Illustrated Lecture on Auto Construction.

Approximately seven hundred students attended the illustrated lecture illustrated with moving pictures which was given before the Mechanical Engineering Society yesterday afternoon in Huntington Hall. The lecture was given by Mr. Harry J. DeBear of the Maxwell Automobile Company. The meeting was open to everyone and even from all courses were present.

The whole process of auto manufacturing was made very realistic. The testing of springs and shafts was done to give any bad advantages. Test data were made by dropping a steel ball on the metal and noting the height to which it bounced. There were several views of the chemical laboratory where the steel is tested for sulphur, phosphorus, carbon and other constituents. The boring of the cylinders with multiple drills, crank turning, milling, and the balancing and weighing of the moving parts were illustrated, and assemblages of the various parts of the auto such as transmission, motor, frame, and body were shown separately. There were also many pictures of general interest to engineers, among which were seen of dropping forgings and cold press.

Perhaps the most interesting films shown were those depicting the testing of the finished cars. The cars were shown tugging up over the test road at the plant, and the men in the audience shouted no desire to be in the position of the driver. However, a clever appearance on the screen of the "little lady," who was trying to induce papa to spoil a perfectly good new car in favor of the Maxwell Company, brought a round of applause, and at the close when her success was assured, the audience was completely satisfied.

INSPECTION OF DRILL

BY CAPT. SCHINDL

To Be Held Today at Armory—Necessary. All Men Be Present.

The regular annual inspection of the M. E. T. Cadet Corps will be held this afternoon at the South Armory. The inspecting officer is Capt. F. J. B. Schindel of the General Staff of the United States Army. It is expected that a much better showing will be made this year than last.

This year sheets have been distributed among the men, giving descriptions of the principal parts of the rifle, and other general information. All of the men are expected to know the contents of this sheet, as well as to be able to answer any questions concerning drill in general. Since the standing of the Institute in military training will be determined by the report of Capt. Schindel, it has been requested by MillerCole that every man have his uniform and equipment in the best condition possible. Every one is expected to be present and no one will be excused.

CHAUNCY HALL CLUB

Results of Elections Show Close Vote for Vice-President.

The officers of the Chauncy Hall Club elected for the coming year are: Kenneth H. Bailey, president; Harold W. Whiting, vice-president; and Kemmel H. Whiting, secretary and treasurer.

The vote for vice-president was very close between H. W. Whiting and E. L. Kemp, the former winning out by a slight majority.

CATHOLIC CLUB BANQUET TONIGHT

Result of Election of Officers Will Be Announced This Evening.

Final arrangements have now been completed for the Catholic Club banquet tonight. As speakers there have been secured State Treasurer Frederick W. Menard and Mr. Jeremiah O'Neill of the Mechanical Engineering department. As it is the custom, the result of elections of officers will also be announced after the dinner.

Since this is the last meeting of the year, all members are urged to attend. The banquet is to be held at the Hotel Thorndike and will begin sharply at 6.30. Tickets may be obtained from J. J. Hickey, J. F. Phe- lan, J. A. Gargan or from any officer of the club. The price is $2.50 per plate.

SATURDAY'S LECTURE

Students and Their Friends Will Have First Chance For Tickets.

The Monthly wishes to emphasize the fact that the tickets for Saturday night's illustrated lecture are free, and can be obtained either at the Cage or at the Monthly office. Tickets will be held for the students and their friends until Thursday noon, after which the general public will be allowed to secure them. It is suggested that students obtain their tickets before that time, as outsiders have shown considerable interest in the lecture already.

The lecture will be in the nature of a travelogue, taking the audience through the Canal and out on the Pacific side. A brief series of pictures showing the Oriental countries to be affected by the changes in trade routes due to the opening of the Canal, and their natural relation to San Francisco, will be shown. The lecturer will also present and explain the complete layout and arrangement of the Exposition. All of the slides are up to date, many of them never before shown before. The lecturer is Mr. Byron L. Lick, one of the best known speakers on the Pacific Coast.

As the lecture starts at eight o'clock and is given at Huntington Hall, those attending the Cosmopolitan Club dinner will have time to hear it. Admission will be by ticket only.

Wardrobe Trunk News

We are pleased to announce that we have secured an Agency for the Genuine Inovation Wardrobe Trunk

The constantly increasing output of these famous Inovation Trunks—the world's standard for wardrobe trunks—has enabled the manufacturer to establish a lower fixed level for his prices than ever before, while the construction and finish have been improved wherever possible. The style and convenient arrangement peculiar to Inovation Trunks, remains the same.

"Chemotherapy" the subject at last smoker of the year. The last smoker of the Chemical Society for this year will be held tomorrow evening in the Union. The talk is to be given by Prof. Henry P. Talbot, '85, head of the Chemistry Department of the Institute.

Prof. Talbot's subject is "Chemotherapy," a subject of which the average chemist knows nothing, and is expected to prove interesting as well as instructive. Chemotherapy deals with the practical application of chemistry in the prevention and cure of disease, and is the science used by the medical research laborator of the manufacturing drug companies to find new remedies and cures. Dr. Talbot will explain and discuss their methods, and will take up particularly the discovery and properties of the specific "606."

The meeting will be at 7:30 p.m. and anyone interested in the subject is invited to attend.
