At the effective of THE TECH: I would recommend to you that FUSSELL'S FINISH be placed on sale Wednesday afternoon. If you can do so at that time, it may be possible to supply a little extra. My purpose seem to have gained quite a little information, according to my custom. During the past few days and I think that this habit should reach a speedy conclusion so as to allow shakely undergraduates to study now. Who would believe that I won't find me abuse my royalty?

The crew race, which were staged Saturday afternoon were pretty good although not altogether close. While watching the races, I noticed a well-known member of the English department, Dr. Smith, who is partial to this hue. TheTransparent's solemn look around the Union is quite justified here. It is the one who has been confusing me all his life. While as to whether these optimistic offerings are a little stroll. Remember that there is always some indication of a trick in the air.

In Saturday's issue I see a long article on the crew races, which were staged Saturday afternoon. The Transparent's solemn look around the Union is quite justified here. The Transparent's solemn look around the Union is quite justified here. The Transparent's solemn look around the Union is quite justified here.

I hear from certain quarters that Chollie Ellis and Percy Watling have been putting their heads together and that they have reached the conclusion that due to the extra money that they need only to arrest Elstie Weaver. Therefore, I am told, that Elstie's solemn look around the Union is quite justified here. I don't think he is the one who has been confusing me all his life. While as to whether these optimistic offerings are a little stroll. Remember that there is always some indication of a trick in the air.

There will be a very important meeting of the Foundry Section at the B. A. A. meeting of the Atlantic and Pacific. Mr. Lick opened his lecture with slides of the Panama Canal, showing some of the points of interest along the big ditch. Among the more interesting of these were the steam trains employed in putting the concrete in place, the big gaffs, the various locks and the latest of the slides, which is yet to be entirely removed. A slide was also shown of the dynamiting of the Gamboa dike, and the consequent meeting of the Atlantic and Pacific.

From the Panama Canal Mr. Lick took his hearers to the Exposition grounds, first conducting them on a tour of Cook's tour over the route to be first visited before the ground, themselves would come into view. This meant slides of many of the points of interest along the westward route, including Glacier National Park, the Grand Canyon of Colorado, Shasta, the Yosemite Valley and numerous other points of interest. Having arrived at the Exposition, the visitors were shown all the plans for the future and also their origin in the San Francisco Chamber of Commerce. The arrangement of all the buildings, including the Massachusetts building, Cornstalk, and also the plans for the rather startling conservations. Mr. Lick closed the enjoyable lecture by a cordial invitation to all his hearers to attend the Exposition in person and see for themselves the immense project which he could only parley.

There will be a special issue of THE TECH on Wednesday at twelve o'clock, in which will be published the provisional Final Examination Schedule.

The question of raising the athletic dues at Penn, and then giving members a free ticket to all home games would make it possible for a Penn student to see a football game for $12.50 cents.

Crewe's Row Races: Saturday Afternoon

Juniors, Freshmen, and Sophomore Seconds Win by Several Lengths' Margin.

With a fair crowd watching the finish from the Harvard bridge the class crews rowed the first races to settle the class championship Saturday afternoon. In the first contest, the Freshmen proved too strong for the Sophomore four, leading at the finish by about four lengths. The Freshmen got their lead early in the race and held their position in spite of the hard struggle of the 1916 men to come up. The Sophomore boat did not show the good form of the Freshmen and the row from the leading boat caused much splashing.

The Juniors made easy work of the Sophomore in the second race. Holding up a good 34-stroke at the Cottage Farm bridge the Junior four jumped a three-length lead before the race was a third over and after that had only to hold their position. The Seniors seemed to be in a much worse

(Continued on Page Four)

Chemical Society
Banquet To Be Held Tomorrow Evening

The attention of members of Chemical Society is called once more to the annual banquet to be held tomorrow evening at the Copley Square Hotel. There will be two prominent speakers, Mr. Marsh and Dr. Carmichel. The former is the president of the North Eastern Section of the American Chemical Society, and Dr. Carmichel is a prominent consulting engineer. At the banquet the new shingles will be given out to all those who have those names to the officers by noon today.

Mr. Ritchie to Speak

Mr. John Ritchie, Jr., who is to speak on "Nooks and Corners of the Massachusetts State before the Boston Scientific Society, S8S Boylston street, tomorrow evening at eight o'clock, invites Tech men who are interested to attend his talk. He will tell of ramblings through the hill towns of Massachusetts, largely west of the Connecticut. The lecture gives a view of the state that illustrates the watchword, "See Massachusetts first."

Tag Sale a Success

The members of the Boat Club are very grateful to the student body for the generous support of the tag sale. Nearly six hundred tags were sold.

Track Men Satisfy Coach at B. A. A. Meet

Peasele Runs 460 in Fast Time—Cook Beats Atwater in 1 1/2 Mile Run.

Last Saturday the track team had a practice meet with H. A. A. at the field in Brookline. As this meet was merely intended to give the men extra experience no points were scored, and the distances of several of the races were shortened. Coach Kanaly was pleased at the showing of the men as a whole. The surprise of the meet was Peasele, 20, who won this quarter-mile in a time that is fast enough to place in the New England Championships. Tom Guething did not run in this race on account of a slight injury he received last Thursday. Freddie Cook ran his fast race as usual, beating out Atwater, last year's intercollegiate 2-mile champion, for second place in the 1 1/2 mile run. Hedlund, the B. A. A. distance man, won this race. The times of the meet were so good that Coach Kanaly hopes to keep them unpublished for the present.

The summary:

Tech Defeats Tufts

Takes Every Match at Medford—Tufts Wins Two Sets.

The Tech Tennis Team repeated its stunt of taking every match by defeating Tufts College at Medford Saturday by a score of 6 to 0. Tufts did not take a doubles set from Stewart and Goodwin. The summary:

- Polley, Tech, defeated Burritt, Tufts, 64, 62.
- Cook, Tech, defeated Turner, Tufts, 75, 61.
- Woodbridge, Tech, defeated Gifford, Tufts, 63, 61.
- Stewart, Tech, defeated Murphy, Tufts, 64, 71.
- Stewart and Goodwin, Tech, defeated Turner and Murphy, Tufts, 60, 14, 63.

Woodbridge and Polley, Tech, defeated Burritt and Gifford, Tufts, 61, 60.

Battalion Drill

In preparation for the Final Prize Friday evening drill will be held Wednesday from three to five o'clock. The Monday battalion will drill from three to four and the Thursday battalion from four to fire.
THE TECH, BOSTON, MASS., MONDAY, MAY 11, 1914.

THE TECH

Entered as second-class matter, Sept. 29, 1913, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

238.—TECH FOUR M10

IN CHARGE OF THIS ISSUE.

M. R. Lewis, '14.
J. M. Desch, '17.

Several complaints have been heard of late regarding the poor appear-
ance of a few of the posters on our bulletin boards. It does seem
rather a disgrace for a college that stands for good work and efficiency
to have the careless and carelessly
announcements that occasionally ap-
ppear. They are particularly conspic-
ous among the majority of well con-
considered and well executed notices.

The new trophy case is certainly
an addition to the Union, though the
woodwork might to advantage have
been finished to correspond with the
rest of the room.

FACULTY NOTICE

By applying at 18 Rogers Seniors
may obtain any papers written by
them which are now in charge of the
English Department.

DONT forget the address.
We make a special effort to win the
ace of Tech men.

Peacock is wearing the quarter for the
first time, and he will be right with
Glasgow at the finish in the New
England's. His finish on Saturday
was the feature of the meet.

Bill Bruce, Harvard's track cap-
tain, made good in the sprints at the
Cornell meet. His time of 21 6-5 is
only 1-5 of a second slower than the
world's record for the furlong.

Huff will be up against a strong
man when he meets Braun of Dart-
mouth in both the high and low hur-
les at the New Englands. Braun
topped the high sticks in 15 4-5 at
Pennsylvania Saturday.

Weiss of Celby, last year the na-
tional Interscholastic two-mile chon-
man, who was expected by many to
win the event at the New Englands,
was defeated by Druppy of Holy
Cross in 50-14 on Saturday.

Olson, Dartmouth's sprint star,
pulled a tendon in the hundred at
Pennsylvania and will probably be
out of the New Englands. As Tech
is strong in the sprints, it will help
our score as well as lowering Dart-
mouth's.

Hedlund's sprint was too much for
Cook Saturday, but the B. A. A.
man was forced to his limit in order to
win.

Sullivan is coming into form on
his jumps, and as all the New Eng-
land colleges are weak in this event,
he should score in the intercollegi-
ates.

Fifteen teams are entered in the
Fraternity Baseball league at Penn.

TRACK MEET
(Continued from Page One)

One Mile and One-Half Run—Won by Oscar Hedlund, B. A. A.; Cook, M. I. T., second; Atwater, B. A. A., third.

High Hurdles—Won by High, B. A. A.; Huff, M. I. T., second; Foster, M. I. T., third.

Broad Jump—Won by Fox, M. I. T.; Rawes, M. I. T., second; Morse, M. I. T., third.

Shotput—Won by Connors, B. A. A.; Wyman, B. A. A., second; Rouke, B. A. A., third.

Discus Throw—Won by Meanix, B. A. A.; Connors, B. A. A., second; Wyman, B. A. A., third.

Why is it always twenty minutes to four in the Union? Because the clock can't go.

COSMOPOLITAN CLUB
 HOLDS MEETING

Alfaro Elected President—Few Changes in Administration of the Club.

A fairly large number attended the annual supper of the Cosmopolitan Club, which was held in the Union last Saturday evening. During the evening various matters concerning the future management of the Club were discussed. The executive committee advocated a reduction in dues, as the Club has a surplus of over $200, but this proposal was finally turned down.

Two new offices, those of Business Manager and Associate Editor for the national magazine of the United Cosmopolitan Clubs of the United States, were formed.

Neat shingles were given out, after which S. E. Clark, '15, was elected an American member. At the conclusion of the meeting, the election of officers for next year took place, the following men being elected:

President, Rafael Alfaro, '16; First Vice-President, T. C. Hsi, '15; Second Vice-President, V. M. Checa, '17; Secretary, Rudolf Beaver, '15; Associate Editor, K. E. Sarti, '16; American Representative, Stewart Keith, '16; Latin American Representative, G. A. Salandrakas, '16.

Reveries of the Freshman

"How well do I remember the day I first struck college, with one soft, damp chicken sandwich left over from my box of home lunch, and expecting every minute to be ducked in the pond, and then stood on my head. Do I remember Fatima Cigarettes? Here have one—I've stuck to them ever since those good old days, Nothing better than Fatima."

Fatima Cigarettes have become the biggest selling brand of cigarettes in America—the loyalty of its smokers to these pure, choice tobacco cigarettes is unprecedented in the history of cigarettes.
