ANNUAL BANQUET OF CHEMICAL SOCIETY

J. R. Marble and Dr. Carmichael Were the Speakers of the Evening.

The Chemical Society held its annual banquet last evening at the Copley Square Hotel. The two prominent speakers who entertained the gathering were J. Russell Marble and Dr. Henry Carmichael. Mr. Marble, the President of the Northeastern Section of the American Chemical Society, gave a short talk on "The Factors Making for Success in Life." Dr. Carmichael, who was formerly Professor of Chemistry at Bowdoin College is now a prominent local consulting engineer, spoke on "Reminiscences of German Student Life" and also on "Chemical Fakes."

The elections for the following year were announced at the dinner. The results were as follows: President, Theodore F. Spear, '15; Vice-President, Elbridge B. Casselman, '15; Secretary, Donald B. Webster, '16; Treasurer, Henry J. Lucey, '15. Reginald F. Pollard, '15, and L. R. G. Bousquet, '16, were elected on the Program Committee.

FRESHMAN BASEBALL

Team To Leave for Newton One-fifteen Tomorrow.

The Freshman Baseball team will go to Newton tomorrow, meeting at 1.15 at the corner of Boylston and Clarendon Streets. The Freshmen will endeavor to atone for the terrible defeat of the Sophomores the first of the season by Newton. 1917 has reached its stride as was shown by its victory over 1916 last Thursday and may be expected to give a good account of itself. The line-up will probably be the same as began the Soph game. Cady or Henderson is slated to pitch.

The following men will make the trip: Bell, Simpson, McQuaid, Story, Cady, Stevens, Gardner, Atkins, McLaughlin, Kendall, Farnsworth, Gargan, Henderson, Lowengard, Sada.

SOPHOMORE BASEBALL

1916 Team Will Play Wellesley High School Saturday.

Saturday the Sophomore baseball team will journey to Wellesley to play the fast Wellesley High School team. Since the last defeat by the Freshmen, the Sophomores have put in some hard practice sessions and they expect to make a good showing. The lineup will probably be the same as in the game with the Freshmen, with Lovejoy pitching and Guething behind the bat.

The schedule of examinations which comes out today, reminds us that in but two weeks more the finals will be here. Let us not give up in despair at the shortness of the time, or waste precious minutes thinking of what might have been, but rather take a systematic survey of the situation, properly apportion the remaining time, cut out all wastes, and get down to a full load run at maximum efficiency.

FUSSER'S FINISH

Noon Today.

To the Editor of THE TECH:

Yesterday noon when I made the drawings for the first copies of my masterpiece the first envelope I struck contained a remarkably interesting and witty letter bearing the signature of MAJOR FRANK H. BRIGGS and to him belongs the first copy of FUSSEY'S FINISH. My earnest hope is that my great conglomeration of facts and fancies, as my friend, Bill, calls it, will not cause Major as much worry as it will most of the dear readers of your newspaper. The names of the winners of the other nineteen copies as well as that of the lucky man, who collected five Lincoln pennies for the twenty-first copy, may be obtained at THE TECH office.

Yours until mid-years,

Walter Wallip

P. S.—My secretary has just informed me that there was no nickel in the envelope. I have credited the one cent stamp enclosed to Major Briggs' credit and if he will kindly forward a copy of the sculpture of everlasting bluff I will send him the first copy of FUSSEY'S FINISH and also return his stamp. W. W.

Yale expects a victory at the Stadium in Saturday's track meet.

OLD ARCHIMEDES

Once said that if you gave him a place to put his fulcrum and a lever long enough he could move the world. Some little mover Archimedes was. Eh, what.

Getting down to more modern times, or brass tacks, we are some little movers ourselves.

If you have anything movable and want it moved we'll do it.

JOHN RITCHIE TALKS ON BAY STATE NOOKS

Addresses Scientific Society in Interest of State Slogan.

Last evening at the meeting of the Boston Scientific Society in the Chauncey Hall building, Mr. John Ritchie, Jr., Technology's press agent, gave a very interesting illustrated talk on "Nooks and Corners of the Old Bay State." Mr. Ritchie is a firm advocate of the "See Massachusetts First" slogan.

In his talk the lecturer told of thirty years' travels in the out of the way places of the state. He dwelt more especially on the hilltown district of Massachusetts, west of Connecticut, where there exists a section twenty miles square entirely untouched by the railroads.

As the speaker went on, he took his audience into the highest inhabited villages in New England, where the village church spires are from three to six hundred feet higher than the New Hampshire summer resort. One of the most interesting spots formerly in the state is Mt. Washington. This place now belongs to New York state.

BATTALION DRILL

Special drill will be held this afternoon in preparation for the Final Prize Drill which will take place in the armory, Friday evening at eight o'clock. The Monday battalion will drill from three to four and the Thursday battalion from four to five.

RIFLE MATCHES

Intercollegiate and Members' Matches Coming.

Captain Casselman is very well pleased with the showing the Rifle Team is making this year, and considers that M. I. T. has excellent chances of winning the Intercollegiate Match. The men practiced at the Wakefield Range last Saturday, and notwithstanding the fact that this is the first year any of them have shot at the rapid-fire silhouette targets, the scores made averaged very high.

Next Saturday, both club members and team will go to Wakefield where the Intercollegiate Match and the Members' Match will be shot.

TRACK NOTICE

The training table for the track team will start Thursday morning at 31 Newbury street. All the men wishing to eat with the team must sign up for what meals he expects to take. Every man signed up is expected to report for the meals for which he has signed.

GYM CHARTS READY

All first year charts for physical training are now ready and may be obtained at the office of Dean Burton.
