

THE TECH

VOL. XXXIV. NO. 34.

BOSTON, MASS., FRIDAY, MAY 15, 1914.

PRICE TWO CENTS

JUNE ISSUE OF MONTHLY WILL APPEAR MONDAY

Variety of Subjects Find Place In Its Pages—Harvard a Contributor.

Next Monday the third issue of the Technology Monthly will be placed on sale throughout the Institute. Arrangements have been made whereby subscribers will get their copies before the general sale takes place.

The cover design of this issue of The Monthly is the work of Miss Elizabeth Greenleaf Pattee, '16, and the leading articles are by Mr. Jasper Whiting, '89, and Professor James Knox Taylor, head of the Architectural Department.

More than the usual number of illustrations have been used in this issue and the general nature of the Monthly assumes a trifle different form. Two technical engineering articles are printed, the first by Professor Laws of the Electrical Department and Mr. Dawes, a graduate of the Institute, now an Instructor at Harvard. The second is by Mr. Whipple of Harvard.

The Name under which this issue appears is The Technology Monthly and Harvard Engineering Journal. The name is to be changed again when the merger of the two Engineering schools is completed.

MECHANICAL SOCIETY

Students Hear Engineers' Club on Boiler Practice.

At the meeting of the American Society of Mechanical Engineers Wednesday night a number of Institute men who are student members of the Society were present. The subject was boiler room practice. The chief speaker was Capt. C. H. Manning, a graduate of Annapolis, who gave an account of developments in this line which he has observed during the last half century. Another speaker was Mr. George H. Dinman, chief engineer of the American Woolen Company, who told some of his experiences.

LATIN-AMERICANS

Next Thursday afternoon at 4 o'clock, there will be a meeting of all the Latin-American Students interested in the Northfield Student Conference, which will be held this June at Northfield, Mass. The meeting will be held in Room A of the Union. Secretary Talbot of the T. C. A. will talk to the men.

An effort will be made to send a delegation to the Northfield Convention this year as was done in previous years. At the Conference this year, however, there will be held a special conference of students from the Latin-American Republics, in connection with the regular conference.

(Continued on Page Three)

ANNUAL PRIZE DRILL COMES THIS EVENING

Prizes To Be Awarded To Best Company As Well As to Individuals.

This evening at 8 the annual Prize Drill of the M. I. T. Cadet Corps will be held at the South Armory. Prizes will be given to the best individual drillers, and to the best company. The Regiment under the command of

COL. L. F. HAMILTON

Colonel L. F. Hamilton will give an exhibition of Butts Manual, after which the different drills will be done. The different captains will have short periods to demonstrate the efficiency of their companies in both close and extended order. The individual contest will be in the manual of arms and marchings. Gold and silver medals will be given the two leaders in this event.

The judge will be Lieutenant McGinnis, of the U. S. Infantry. President Maclaurin and Major Cole will give out the prizes. Tickets may be obtained from the officers of the Regiment at twenty-five cents each.

TECH TO MEET HARVARD

Match Will Be Held at Jarvis Field Tomorrow Afternoon.

The Technology Tennis team will meet the Harvard team at Jarvis field tomorrow at 3.20. The men are matched up as follows: Stewart, M. I. T., vs. Fuller, H.; Goodwin, M. I. T., vs. Campbell, H.; Fay, M. I. T., vs. Faulkner, H.; Polley, M. I. T., vs. Wainwright, H.; Woodbridge, M. I. T., vs. Kettel, H.; and Hurlburt, M. I. T., vs. Peabody, H. In the doubles: Stewart and Goodwin, M. I. T., vs. Fuller and Faulkner, H.; Woodbridge and Polley, M. I. T., vs. Campbell and Kettel, H.; and Hurlburt and Fay, M. I. T., vs. Briggs and Kimball, H.

MUSICAL CLUBS HAVE ANNUAL BANQUET

Abrams Elected General Manager of Combined Clubs and Duryea Secretary.

Last evening at the Copley Square Hotel the Technology Musical Clubs held their annual dinner and election of officers. Following the elections and dinner the Clubs were addressed by two members of the Musical Clubs Advisory Council. The first of these speakers was Professor Edward E. Bugbee who told of his first association with musical interests at Tech nology. The second speaker was Professor George E. Russell who contrasted Institute life of former times with life of the present.

The elections resulted as follows For the Combined Clubs: General Manager, Allen Abrams, 1915, from Butler, Pa. He gained his A. B. degree at Washington and Jefferson University where he had two years' experience as manager of the Clubs. He is a member of the Phi Gamma Delta Fraternity. For Secretary and Treasurer, George R. Duryea, 1916. He has been prominently connected with the Clubs for the past two years. Duryea is a member of the Phi Beta Epsilon Fraternity. William L. Ogden, 1916, was elected leader and Ray B. Walter, 1915, Manager of the Glee Club for the following year. In the Mandolin Club Kenneth T. King, 1915, was elected leader and W. B. Ford, 1917, Manager. The Banjo Club elected as leader, R. H. Dickson, 1914, and Fred L. Ford, 1917, as Manager.

Rifle Club To Shoot in Outdoor Match—Member's Match.

Tomorrow afternoon the M. I. T. Rifle Club will shoot in the Intercollegiate Outdoor Rifle Match. The team is composed of Haslam, Dunn, Parsons, MacRea, Casselman, Stringfield and Strahlman. All of these men who can, are requested to take the 9.14 train for Wakefield on Saturday morning. Those who cannot will take the 1.40 train. The Rifle Club's members match will also be held on Saturday. Besides the members of the team the following are eligible to compete in the match: Roberts, Swain, B. T. Hall, Peterson and Sawyer. They are requested to meet either of the two trains and need not bring rifles or ammunition. Others desiring to practice will take the two o'clock train for Walnut Hill as usual.

CUSTOMS HOUSE TRIP

The recently elected Program Committee of the Civil Engineering Society has arranged for a trip to the new Customs House tomorrow afternoon. Men taking the trip will leave the Union at 2 o'clock. If a large number wish to go, the party will probably be run in two sections.

FINAL CLASS CREW RACES TOMORROW

Freshmen and Juniors To Meet To Settle Interclass Rowing Championship.

The Junior and Freshmen crews, winners of the races last Saturday will meet for the class championship tomorrow afternoon at 3 o'clock. The same course will be rowed, from the Cottage Bridge to the Harvard Bridge. As crews showed up about the same, the coach says that a close and fast race is expected tomorrow. The men will probably row the same positions as last week.

The Freshmen have called off their race with Brookline High, but a race will be rowed with another high school crew, probably Rindge Technical High next Tuesday.

FRESHMEN DEFEATED

Newton High Has Little Trouble In Piling Up Runs.

The Freshman Baseball team was defeated by Newton High School yesterday afternoon by the score of eleven to two. For the first four or five innings the odds were even, then poor support in the case of the Freshman team allowed the Newton High team to run up a large score.

The Newton pitcher was touched up for only four hits, one of which was a three-bagger by Story, who covered third for the Freshmen. McLaughlin caught for Simpson the first part of the game, after which Kendall was put at catch.

The Freshman team as a whole played well, and are not at all discouraged by their defeat, since Newton defeated the Sophomore team but a short while ago by the score of twenty to nothing.

FOUNDRY LECTURE

The usual foundry lecture will give place next week to an illustrated talk on general foundry practice, at the following times and places. For the Monday section, Monday at 12, Room 20 B; Tuesday and Wednesday sections, Tuesday at 12, 21 A; Thursday and Friday sections, Thursday at 10, 21 A.

The trip to the Walker Pratt foundry for the Friday sections will be made today as announced Wednesday, meeting there at 1.45.

CALENDAR

Friday, May 15, 1914.

Tennis-Tech vs. Holy Cross, Worcester.

1.45—Foundry Trip.

8.00—Grand Prize Drill. Armory.

Saturday, May 16, 1914.

1.40—Rifle Club leaves North Station for Wakefield.

1.30—1916 Baseball Team Meets at Union before going to Wellesley.

4.00—Interclass Regatta.

Southern Club Dinner.

THE TECH

Entered as second-class matter, Sept. 16, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

The announcement of a course in Engineering Administration is far from a radical step on the part of the Corporation. The field which lies

EMPLOYEES BANQUET

Last night at 6.15, the Technology Benevolent Association held its annual banquet, at which the employees of the Institute were present. A musical program was arranged, and Bursar H. S. Ford and Superintendent of Power A. S. Smith spoke. After the dinner, a business meeting was held and the officers for the next year were elected.

midway between engineering and business has so long been important in the practical world that it is surprising how slow educators have been in recognizing the demand it creates for men with a dual training.

The reason doubtless lies in the fact that this demand has in the past been fairly well supplied from two sources,—engineering school graduates with more or less business training, and college men who have acquired engineering experience in the shop or factory. Both types have, by reason of their one-sided training, generally lacked a comprehensive grasp of their work.

The problem of giving in a single course an education along both technical and business lines can probably be solved to the best advantage by the engineering school. Course XV constitutes a timely step in this direction.

An introductory course for Freshmen has recently been organized at Oberlin, the purpose of which is to inform incoming students of the purposes, conditions, and opportunities of college life.

OLUS SHIRTS
COAT CUT

TURN YOUR SHIRT-TAILS INTO DRAWERS
What good is a Shirt-tail anyway?

IN OLUS the outside shirt and underdrawers are one garment.

This means that the shirt can't work out of the trousers, that there are no shirt tails to bunch in seat, that the drawers "stay put," to say nothing of the comfort and economy of saving a garment. OLUS is coat cut, opens all the way down—closed crotch, closed back. See illustration.

For golf, tennis and field wear, we recommend the special attached collar OLUS with regular or short sleeves. Extra sizes for very tall or stout men. All shirt fabrics, in smart designs, including silks—\$1.50 to \$10.00.

OLUS one-piece PAJAMAS for lounging, resting and comfortable sleep. Made on the same principle as OLUS Shirts—coat cut, closed back, closed crotch. No strings to tighten or come loose. \$1.50 to \$8.50.

Ask your dealer for OLUS. Booklet on request.

SUMMER SHOP WORK

Mr. R. H. Smith, of the Mechanical Laboratories, wishes to call attention to the fact that the Institute offers summer courses in woodwork and pattern-making, forging, vise and bench work, and machine tool work. These courses are given primarily with the object of giving undergraduate and college men an opportunity to anticipate their regular work in these subjects, thus gaining time for other subjects of study and thesis work.

Some of these courses begin June 10th, and others June 18th. Students may arrange to take two courses during the summer session.

Speaking to a representative of THE TECH yesterday, Mr. Smith stated that many upperclassmen return to their studies in the fall of the year, only to find out that they could have disposed of their work in the machine shops during the summer. He emphasized the fact that the courses are given for the benefit of the students, principally to give them more time during the ensuing school year.

FACULTY NOTICE

The English Department has authority from the Faculty to substitute for the Condition Examination in June for the making up of F in First Term, First year English, special work in composition to be done under the supervision of the department; also to substitute for the Condition Examination given in September for the making up of F in Second Term, First Year English the repeating of the last nine weeks of the work of the First Term.

COMMUNICATION

To the Editor of THE TECH:

It was a great surprise to me, on looking over a book of Tech songs, to find that very few of them are known to the student body. In fact there are only four, and two of those are alumni songs and two are athletic. I did not know that there was a Tech "Alma Mater" song until I saw it in the book. The four songs mentioned are fine ones but not one of them is what you could call a real Tech song. "On Rogers' Steps" and "Take Me Back to Tech" are distinctly alumni, while "Dear Old M. I. T." and "Three Cheers for Tech" are both athletic. The "Stein Song," although written by a Tech man is not really a Tech song as it contains no reference to Tech.

All other colleges have their "Alma Mater" songs and the students all know them, but I doubt if there are 50 men at Tech that know that we have one. A campaign should be started at the beginning of next year to learn the Alma Mater.

Yours truly,
WILLIAM JOHNSON, '17.
