The chief engineer was Mr. George H. Dinman, chief engineer of Annapolis, who gave an account of developments in this line of engineering schools is completed.

LATIN-AMERICANS

Next Thursday afternoon at 4 o'clock there will be a meeting of all the Latin-American Students interested in the Northfield Student Conference, which will be held this June at Northfield, Mass. The meeting will be held in Room A of the Union. Secretary Tabbot of the T. C. A. will talk to the men.

An effort will be made to send a delegation to the Northfield Convention this year as was done in previous years. At the Conference this year, however, there will be held a special conference for students from the Latin-American Republics, in connection with the regular conferences. (Continued on Page Three)

MUSICAL CLUBS HAVE ANNUAL BANQUET

Abrams Elected General Manager of Combined Clubs and Dursey Secretary.

Last evening at the Copley Square Hotel the Technology Musical Societies held their annual dinner and election for the coming year. Two technical engineering articles are printed, the first by Professor Laws of the Electrical Department and Mr. Daves, a graduate of the Institute, now an instructor in Harvard.

Rifle Club To Shoot in Outdoor Match—Member's Match.

The recently elected Program Committee of the Civil Engineering Society has arranged for a trip to the new Customs House tomorrow afternoon at 2 o'clock. The same course will be rowed, from the Cottage Bridge to the Harvard Bridge. As crewmen showed up about eleven o'clock, the first four, and three of five innings the odds were even, only poor support in the case of the Freshman team. The men were defeated by Newington High School to run up a large score.

ANNUAL BANQUET

Abrams was elected General Manager of the Musical Advisory Council. The first speaker was Professor Edward E. Bugbee who told of his first association with musical interests. The second speaker was Professor George E. Russell who explained Institute life of former times with life of the present.

The elections resulted as follows: For the Combined Clubs: General Manager, Allen Abrams, 1914, from Butler, Pa. He gained his A.B. degree at Washington and Jefferson University where he had two years' experience as manager of the Clubs. He is a member of the Phi Gamma Delta Fraternity. For Secretary and Treasurer, George H. Parvin, 1916. He had been previously connected with the Clubs for the past two years. Parvin is a member of the Phi Beta Kappa Fraternity. William L. Ogden, 1916, was elected leader and Ray E. Walker, 1915, Manager of the Glee Club for the following year. In the Mandolin Club Kenneth T. King, 1917, was elected leader and W. S. Ford, 1917, Manager. The Chime Club was elected as leader, R. H. Dickson, 1914, and Fred L. Ford, 1917, as Manager.

Rifle Club To Shoot in Outdoor Match—Member's Match.

The Newton pitcher was touched for only four hits, one of which was a three-bagger by Story, who covered third for the Freshmen. McLaughlin caught for Simpson the first part of the game, after which Kendall was put at catch. Kendall as a whole played well, but not at all discouraged by their defeat, since Newton defeated the Sophomore team but a short while ago by the score of twenty to nothing.

FOUNDRY LECTURE

The usual foundry lecture will give place next week to an illustrated talk on general foundry practice, at the following times and places.

RACES TOMORROW

1.40—Interclass Regatta.

The Freshman rowing team was defeated by Newington High School yesterday afternoon by the score of eleven to two. In the first four, five innings the odds were even, only poor support in the case of the Freshman team. The men were defeated by Newton High School to run up a large score.

The announcement of a course in Engineering Administration is made by the Technology Benevolent Association, held its annual banquet, at which the employees of the Institute were present. A musical program was arranged, and Dur-
SUMMER SHOP WORK
Mr. R. H. Smith, of the Mechanical Laboratories, wishes to call attention to the fact that the Institute offers summer courses in woodwork and pattern-making, forging, vice and bench work, and machine tool work. These courses are given primarily with the object of giving undergraduates and college men an opportunity to anticipate their regular work in these subjects, thus gaining time for other subjects of study and thesis work.

Some of these courses begin June 16th, and others June 18th. Students may arrange to take two courses during the summer sessions.

Speaking to a representative of THE TECH yesterday, Mr. Smith stated that many upperclassmen return to their studies in the fall of the year, only to find out that they could have disposed of their work in the machine shops during the summer. He emphasized the fact that the courses are given for the benefit of the students, principally to give them more time during the ensuing school year.

FACULTY NOTICE
The English Department has authority from the Faculty to substitute for the Condition Examination in June for the making up of F in First Term, First year English, special work to be done under the supervision of the department; also to substitute for the Condition Examination given in September for the making up of F in Second Term, First Year English the repeating of the last nine weeks of the work of the First Term.

COMMUNICATION
To the Editor of THE TECH:
"It was a great surprise to me, on looking over a book of Tech songs, to find that very few of them are known to the student body. In fact there are only four, and two of those are alumni songs and two are athletic.

I did not know that there was a Tech "Alma Mater" song until I saw it in the book. The four songs mentioned are fine ones but not one of them is what you could call a real Tech song. "On Rogers' Steps" and "Take Me Back to Tech" are distinctly athletic, while "Dear Old M. I. T. and "Three Cheers for Tech" are both athletic.

"The Stein Song," although written by a Tech man is not really a Tech song as it contains no reference to Tech.

All other colleges have their "Alma Mater" songs and the students all know them. I doubt if there are 50 men at Tech that know that we have one. A campaign should be started at the beginning of next year to learn the Alma Mater.

Yours truly,
WILLIAM JOHNSON, '17.

LATIN-AMERICANS
(Continued from Page One)
which takes place June 19 to 28. All Latin-American students attending this special conference will be the guests of the Northfield Conference from June 22nd to June 29.

CLASSIFIED AD.

Wardrobe Trunk News

We are pleased to announce that we have secured an Agency for the Genuine

Inovation Wardrobe Trunk

The constantly increasing output of these famous Inovation Trunks—the world's standard for wardrobe trunks—has enabled the manufacturer to establish a lower fixed level for his prices than ever before, while the construction and finish have been improved wherever possible. The style and convenient arrangement peculiar to Inovation Trunks, remains the same.

Inovation Wardrobe Trunks
Formerly $60.00 Now $25.00
Inovation Wardrobe Trunks
Formerly $55.00 Now $35.00
