The two counters, R. C. Mahoney and Herfurth, D. MacArdle, A. Russell and doing promising work: B. Pinkham, --ers, the following men have been held every day, the program for this week being Tuesday and Thursday at the Gym, and Monday, Wednesday and Friday at the Oval. Among others, the purpose of the meeting and giving information regarding tickets, Abrams introduced Mr. Morse, manager of the Boston Theatre Opera Company. Mr. Morse told in detail the purpose of the meeting and giving information regarding tickets.

Tickets Are Now On Sale For The “Passing Show.” Plans for Tech Night after Field Day on November the sixth are slowly progressing. The Committee in charge, in accordance with the custom of previous years, have decided to see “The Passing Show of 1914” at the Shubert. All the seats in the house have been turned over to the Committee who have put them on sale in the corridor in Rogers from one to two, every day both this week and next. The prices are the same as the regular theatre prices.

Mr. Nasmyth To Discuss Importance of Peace. Mr. Nasmyth was one of the first and foremost originators of the “Cosmopolitan Club,” now found in nearly every large city. The fact that Mr. Nasmyth has spent the last three years in Germany adds to the interest in his subject.

Mr. Nasmyth To Discuss Importance of Peace. Mr. Nasmyth was one of the first and foremost originators of the “Cosmopolitan Club,” now found in nearly every large city. The fact that Mr. Nasmyth has spent the last three years in Germany adds to the interest in his subject.

HARE AND HOUNDS Important Run Will Be Held This Afternoon. This afternoon all cross country men and members of the Hare and Hound Club are expected to take part in a practice run over the usual course, starting at Highland, West Roxbury, and ending at the old Tech Field, a distance of about 4 1/2 miles. The train will leave Back Bay at 12:30 and the fare for the round trip is twenty-five cents. The men should take dress suit coats with them. Any men who wish to join the Hare and Hound Club may procure membership by paying 50 cents to the chase captain, H. P. Gray.

ELECTION COMMITTEES The members of the election committees from 1915, 1916 and 1917 will meet in the Union at 4 today. ADK
The track at the new field is still too soft for any good times to be made in Saturday's meet. The jumping pits are among the missing.

Colleary, the former Holy Cross jumper and New England intercollegiate broad jump champion, is working out at the field every day. He is eligible to represent the Institute this year and will prove a valuable acquisition to the team.

Coach Kennaly is not worrying about the outcome of the three-mile on Saturday. Even though the Harvard men may have the advantage at present, he is confident that the table will be reversed when the cross country teams meet at the J. C. A. A. A. A. run in New Haven.

COMMUNICATION

To the Editor of THE TECH,

Dear Sir:

Two weeks from Friday night all loyal Tech men will turn out to see a show selected by a committee as a show which will satisfy the tastes and ideals of the average Tech man. This committee, whoever they may be, have selected as the play supposed to suit these conditions, "The Passing Show," which someone has described as "the most undressed thing that they ever saw." If one cannot admire the taste they can certainly admire the brazen conceit of those individuals who hold so little esteem the high ideals of an educational institution.

It is a fact that men are not judged by what they say but what they do, and a school as a whole is to be judged as lovers of the suggestive or non-obscene because of the fact that a few men endowed with the power to act have chosen thus for them. There is not a Tech man who does not feel that he should go to TECH NIGHT, and he is now given

(Continued on Page 6.)
At the last meeting of the Executive Committee of Technology, the following appointments to the instructing staff were made:

- Pei Huang Hau, research assistant in the Chemistry of Sanitation;
- Lester F. Hamilton, colonel of the Tech regiment last year, assistant in Military Science and Tactics;
- Gerald Walter Lakeby, assistant in Heat Measurements;
- P. H. Pierce, research assistant in Electrical Engineering;
- Martin J. Shugrue, instructor in Economics;
- Alexander S. Jonnes and J. P. Loed, instructors in Architecture, and
- Lacey D. Cashen, assistant in History.

The reappointments include the following assistants:

- John E. Bird, Drawing;
- W. J. Kennedy, History;
- George T. Rooney, Physical Training, and
- John E. Bird, Mechanical Drawing.

Francis H. Ashard, is reappointed research assistant in Electrical Engineering.

Leave of absence has been granted to H. P. Thompson, research associate in Electrical Engineering.

MECHANICALS MEET

Mr. Fay To Speak On Fall River Work At Smoker.

The first meeting of the Mechanical Engineering Society will be held a week from tomorrow, on Thursday evening, October 28th. At this meeting, which is to be a smoker, the speaker will be Mr. Fay, of the firm of Fay, Spooner & Thorndike, consulting engineers. Mr. Fay is to the first of Fay, of the firm of Fay, Spooner & Thorndike, consulting engineers. The first of this firm's names was a name that was given to the Tech.

HARVARD MEET

(Continued from Page One)

of the Harvard stars are not entered, but Coach Donovan has had over one hundred men working on the stadium track and is sure to have a strong and well balanced team. One hundred and fifteen men are at present working out under Coach Randy, and give promise of forming one of the strongest track squads ever produced at the Institute.

Owing to the fact that the new field has not been ready for use, none of the men have been able to get the proper training. The sprinters have worked at starting at the gym, and though no distance available is forty yards. The cross-country squad, while in good condition for a hard hill and dale run of five or six miles, is in no condition to go on the track in a distance as short as the three-mile race, when the pace will be much faster than that at which they have trained.

Others will run the sprints and al-

ENGINEERING AND SCIENTIFIC NOTES

Although there was a decrease in the production of natural asphalt in the United States in 1913, including all the varieties of natural asphalt and asphaltic sandstone and limestone, there was a far greater corresponding increase in the output of manufactured or oil asphalt, according to the United States Geological Survey. Oil asphalt obtained as a by-product from the distillation of Mexican Gulf and California asphalt oils, and even from those of the Middle West, is becoming more and more available. There is correspondingly less interest in the development of new sources of natural asphalt.

Kentucky is one of the few States in which asphalt is produced, and in 1913 the output was nearly double in quantity and value that of 1912. Other mineral products are asphalt, cement, iron ore, lead, lime, mineral water, oilstone, sand and gravel, sand-lime brick and zinc.

The consumption of white arsenic in the United States in 1913 amounted to about 7,300 tons, valued at $220,000 of which 2,513 tons, valued at $158,216, was produced in this country as a by-product from copper and precious-metal smelters, and the remainder was imported largely from European countries. For the present, imports of arsenic will probably be seriously diminished by the European war. The American smelters can save much more arsenic than they do now, for the cheapness of the product has prevented the saving of all that was practicable, and the war would seem to open the way for an increase in the American output.

Works for the exclusive production of arsenic have been erected at only two places in the United States—Britton, Wis., and Mineral, W. Va. It is difficult for such plants to produce arsenic to be sold in competition with the by-product of the smelters except in periods of high prices, such as may again prevail if the war and its industrial disturbances are long continued.

NEW MEMBER ELECTED TO THE CORPORATION

Albert F. Bemis, '03, Will Fill Vacancy Left By Death Of Mr. Draper.

At the last meeting of the Corporation of the Institute, Albert Farrell Bemis, '03, of Chestnut Hill, was elected life member. The vacancy thus filled is that caused by the death of Eben S. Draper, also an alumnus of the Institute. Mr. Bemis is president of the Bemis Brothers Bag Company, and has been since 1911 in the city government of Newton. He is past president of the M. I. T. Alumni Association and a Trustee of Colorado College. He has been a member of the First Corps of Cadets and in the management of the National Association of Cotton Manufacturers. He has always been greatly interested in Tech and has been very active in the establishment of the summer engineering camp at East Machias, and, in fact, a member of the committee which secured and developed the location.

FRESHMEN FOOTBALL
1918 Team Will Play Mechanic Arts High School Today.

Today the Freshman football team played its second game when it clashed with the Mechanic Arts High School at North Brighton. This is to be a regular game, in spite of the fact that Mechanic Arts has it on their schedule as a practice one. It was necessary to do this since the management of the High School team wishes to make their school in order to make it a regular game. That is also the reason why the game is not advertised in the daily papers.

About twenty-three men reported for the scrimmage practice at the Huntington Avenue field yesterday. Practice lasted from four to five o'clock, and considerable results were obtained. The Freshmen will play the third game of the season on Saturday, with Dorchester High School, at the Chesterfield Grounds.

Harvard meet (Continued from page 3.)

...the team over the three-mile route, but he will find himself severely handicapped by the limited amount of track work he has done this season.

Past times cannot be expected in the meet for the track has not settled as yet, and is still very heavy. The same is true of the jumping events, for the ground about them is still too soft to provide a good take-off.

Coach Kanaly said last night that if it were a dual cross-country run, he would back Tech to the limit, but that owing to the poor training facilities of the past few weeks, he was only willing to say that it would at least be a good fight.

Hare and Hounds. Leave Back Bay 4:30 today.

Class Election Committees Union.
Four o'clock.

Show Books due a week from next Monday.

GLEE CLUB

There was a very successful rehearsal of the Glee Club Monday evening at the Union. Several new songs were gone over and by the results the prospects seem encouraging to the manager. There is quite a lot of new material which will prove a great help to the club. The next rehearsal will be held in the Union at five tonight when the Musical Director will be present.

MANDOLIN CLUB

Nearly all the members of the Mandolin Club reported for rehearsal at the Union yesterday afternoon. Although the meeting lasted but a short while, a large amount of work was accomplished and the management was well pleased with the way the men turned out the music.

President King wishes that any man who can play a tune drum report to him for that position at once, as it is still vacant.

Only two weeks and two days to Field Day.

1918 Wrestling Practice. Gym.

CLASS NOMINATIONS (Continued from Page One)

in Huntington Hall, at which the results of the elections for the three upper classes will be announced. Sculby, '15, will be in the chair until the newly elected Senior President is named; and I. B. McDaniel, '15, will preside at the piano.

Of the nominees for Senior President, M. B. Dalton was class treasurer during his freshman year, Chairman of the Band, Student Council, and Manager of the Camp Minstrel Show, Manager of the Give Club, and member of the Junior Prom Committee. He is a member of Phi Gamma Delta and of Osiris.

Guernsey A. Palmer has been Treasurer of the Technique Electrical Committee, and Business Manager of Technique 1915. He is a member of the Institute Committee, Secretary of THE TECH and of the Mechanical Engineering Society, Secretary of the Finance Committee, and Business Manager of Technique 1916. He is a member of Sigma Alpha Epsilon and of Osiris.
