BOSTON, MASS., FRIDAY, OCTOBER 23, 1914.

PRICE THREE CENTS

MASS MEETING TO BE TOMORROW EVENING

Upper Class Election Reports In Huntington Hall—Seven O'clock.

An important mass meeting will be held tomorrow evening at 7 o'clock in Huntington Hall at which the results of the elections of the three upper classes will be announced. The meeting will be in charge of F. P. Scully, '15, who will have the chair until the newly elected senior president is named. Music will be supplied by I. E. McDaniel, '15, at the piano.

SOPHOMORE FOOTBALL

Team Plays Hyde Park High This Afternoon.

Manager Hunt has arranged to play the postponed football game between the Sophomores and Hyde Park High this afternoon. The whole squad will take the trip and men should be at the Back Bay Station in time to get the 3.15 train. Coach Harper has moulded his material into fine shape and everything seems to point to a championship team. Captain Simpson is proving his worth to the team by his all around playing. Farnsworth, the quarter, shows his knowledge of the game by his clever handling of the team.

The left side of the line with Bell, Dexter and Powers, constitutes a stone wall of defence, while the right side, although at present not as strong, is rapidly rounding into shape. The team has a surplus of second string men who are almost on a par with the regulars which makes it very strong in this respect.

RIFLE CLUB SHOOT

The Rifle Club will shoot Saturday as usual, at the Walnut Hill Range, leaving the North Station at 2 p. m., track 19. On account of the large number of men out this year, it has been found necessary to divide the squad and, Saturday, only those who either have official duties at the range, have not been out before, or have shot over 29 are asked to come out. All others will shoot the following Saturday.

ELECTION BOOTHS.

Voting booths will be open in Pierce and Rogers until five this afternoon, while the one in the Union will be kept open until six. Dues for the three classes will be collected at all booths. No one not having paid his dues every year while a member of the class will be eligible to vote. Each voter should mark the ballot carefully and write his name legibly.

HARVARD AND TECH IN MEET AT NEW FIELD

Three-Mile Event Between The Cross-Country Squads A Feature.

Technology's new field will undergo its initiation Saturday when Tech meets Harvard in a practice track meet. The former enters the meet handicapped somewhat from lack of practice, for this is the first week during which the men have been on the new field. Previous to this, the sprinters worked out at the gym, while the distance men did cross-country work. There has been no chance for the middle distance men to train for their events at all and the cross-country men, although in good shape for a hard hill and dale run, are in no condition to run a fast three miles on the track.

Meanix is running both the dashes and hurdles for Harvard, and has been training since school opened. Tech will pin its faith on O'Hara in the century and furlong, while Huff will undertake the hurdles. The three-mile should be the feature of the meet. McClure, the Harvard captain, will fight Cook for first place in this event and it should be a "bat-

(Continued to Page 3)

CROSS-COUNTRY SQUAD

Men Show Much Better Team Work Than Last Year.

The cross-country squad took a run over the Tech Course Wednesday afternoon and showed particularly fine team work. The time of the first and seventh men in only differed by fifty seconds, which is much better than the team did last year. The first two miles were covered in about twelve:thirty, the squad staying in a bunch. After the two-mile mark, the men let themselves out.

Cook came in first with Nye and Guething following. Graff, Litchfield, Harrington and Wilkins finished in the order named. Benson and Brown did not run. Coach Kanaly was particularly pleased with the work, as it showed improvement over last year at this time. There will be no Hare and Hounds run Saturday, all the squad going into the three-mile event against Harvard instead.

BOOKS DUE SOON

Books, which are to be submitted for 1915 Tech Show competition, must be handed in by the first Monday in November. This is a full month later than the date at which they were called in last year, and it is therefore expected that work on them will be practically completed at this time.

SENIOR ELECTIONS HOTLY CONTESTED

Struggle For President In Both Upper Classes Of Unusual Interest.

The contest for Class President in both the upperclass elections today will be watched with more than the usual interest, because of the inauguration of the new system of balloting and the fact that it promises to be one of the closest in years. This is especially true in the Senior Class, where the three candidates are from different courses and different elements in the school, and are all well known and popular men.

M. B. Dalton is a member of Phi Gamma Delta fraternity, and Osiris. He has been manager of the Glee Club, Freshman Class Treasurer, member of Junior Prom Committee, and was Chairman of the Council and manager of the Minstrel show at the Summer Camp. Dalton is taking Civil Engineering. It is expected that he will receive most of the Course I vote which generally votes solidly and is the largest Course vote in the school.

Guernsey A. Palmer is the Secretary of the Undergraduate Finance Committee, for which he inaugurated the new filing system, and worked on the uniform receipt books. He is also Treasurer of the Mechanical Engineering Society, undergraduate member to The Tech Advisory Council, has been Treasurer of The Tech, and member of the Institute Committee. He is studying in Course II. Palmer is not a fraternity man and is one of the first non-fraternity nominees for years. He will probably get a large part of the non-fraternity vote, together.

(Continued to Page 6)

TUG-OF-WAR TEAM

Freshmen And Sophomores Making Good Progress.

With Field Day only two weeks away, the 1917 and 1918 tug-of-war teams are making great efforts to get in shape. The Sophomores have been coming out steadily and in large numbers. This afternoon the men will be measured for their jerseys. Next Wednesday the men will be weighed and strength test will be made. Thursday or Friday the team will be picked. There is a fine lot of material to pick the Sophomore team from as most of last year's men are out as well as several husky new ones.

Yesterday 28 Freshmen reported for practice, about 16 of whom have appeared regularly. There is still room for more men on the team. Today the first strength test will be made and it is important that all men report. Measurements for jerseys will be taken next week.

TECHNOLOGY'S FIRST GRAND OPERA NIGHT

At Boston Theatre This Evening—Tickets May Still Be Obtained.

Tonight will mark the occasion of the first Technology Grand Opera Night at the Boston Theater. Verdi's "Masked Ball" is the production, with an all-star cast including Misses Fox and Lynbrook, Messrs. Blanchart and Opezzo. In view of the fact that a special reduction in the prices has been offered to Technology men, and that there will be no Boston Opera season this year, the opportunity is an unusually good one to hear a first-class production. Tickets for floor seats may still be had at the Cage for \$1.50 and \$2.

As the evening will be of an informal nature full dress will be in the minority. For the benefit of those who may wish to become more familiar with the story of the opera, librettos will be on sale for a reasonable price at the theater.

In a detailed review of the production of this opera on Tuesday night, by the same artists the Boston Post said in part:

"The performance was a brilliant one, and few operatic performances given in this city of late years have

(Continued to Page 4)

FRESHMAN FOOTBALL

The Freshman football team will play Dorchester High School on Saturday, October 24th, at the Dunbar Avenue grounds. Dorchester has one of the strongest teams representing Boston High Schools, so a good game is expected. The Freshmen have made a good showing so far this season, especially Wednesday, when they defeated Mechanic Arts, and have a good opportunity to annex another victory.

CALENDAR

Friday, October 23, 1914.

3.15—Football. 1917 vs. Hyde Park. Leave Back Bay at 3.15.
4.30—Mandolin Club. Union.
8.00—"The Masked Ball." Boston Theater.

8.00—Arch. and Arch. Eng. Smoker for Prof. R. A. Cram.

Saturday, October 24, 1914.

2.00—E. E. Society Trip to Stewart St. Station.

2.30—Harvard Track Meet. New Field.

3.00—Freshman Football. Dunbar Avenue Grounds.

5.00—Competition for 2nd Ass't Track Mgr. Closes.

7.00—Mass Meeting. Election Returns. Huntington Hall.

Monday, October 26, 1914.

5.00—Glee Club Rehearsal. Union.

IN CHARGE OF THIS ISSUE.

Editor: G. H. Stebbins, '17.
Associates: H. S. McQuaid, '17;
M. A. L. Eales, '18.

The paramount duty of every upper-classman today is not merely to cast his ballot, but to make it represent his best judgment, arrived at after earnest investigation and consideration, as to the men best qualified to hold positions of trust and responsibility in his class. Every indication points toward a record-breaking vote. Let us all help toward making it notable for quality as well as quantity—for good results as well as good intentions.

We are in complete agreement with our communicant of last Wednesday as to the undesirable nature of the show selected for Tech Night. There are, however, many extenuating circumstances. A good, clean musical comedy would be the ideal choice, but unfortunately there were none available at the right time. Moreover, the "spirited" actions of Tech men at similar occasions in the past have closed the doors of almost all the theatres to their successors. On the whole, the committee seems to have made the best of a bad situation.

The meet with Harvard tomorrow gives us our first opportunity to see our Track Team in action on the new Field. Incidentally, it will show the men who give their time and energy to uphold our honor, how well we intend to back them up in their efforts.

MR. NASMYTH SPEAKS ON WORLD PEACE

Tells Of Conclusions Brought Home By Present Conflict.

Yesterday afternoon in the Union, Mr. George W. Nasmyth, head of the University Department of World Peace, told of his recent observations in Europe, and the deductions which they forced him to draw. His own conclusion was that universal peace, if it is ever to come, must result from a co-operative and constructive, rather than a competitive and destructive policy.

Mr. Nasmyth prefaced his argument with a description of Europe as he recently saw it. He said that, when five million men were called to the field in three days, there was no prevalent war spirit, but rather a resigned sorrow. These three hundred fifty millions of people are plunging into a chaos of "collective homicide" because each country thinks it is fighting in self-defence. The blame apparently is not with the rulers or the nations, but with the outworn system of political philosophy. The speaker affirmed that the Bernhardt-Nietzsche philosophy of force is the chief cause of the present "collapse of civilization."

This philosophy, the doctrine of militarists, does not realize that all men are members of society; it claims that any nation must inspire either contempt or fear. It will not admit the inter-dependence of nations; nor the fact that no country will ever gain by war. The only way to change it, however, is to examine it, and alter its foundations so as to bring about co-operation.

The socialists, according to Mr. Nasmyth, offer a very logical plan, which unfortunately has many practical defects. The true solution is given in the New Testament, the teachings of Christ, whom Mr. Nasmyth characterized as the "great social engineer." The reason we have been unable to reap the greatest benefits from our stupendous scientific advances is this failure to recognize the laws of human relationships.

Mr. Nasmyth gave several examples of the New Testament philosophy, recommending particularly for careful analysis the Sermon on the Mount. He condemned force as economically, socially and morally wrong, and said that only under a policy of co-operation can love and peace be established.

He concluded by emphasizing the fact that Europe looks to the United States, not merely for mediation, but for a corrective plan; and, for such a plan, suggested the main features as, first, a replacement of secret diplomacy and destructive competition by federation; second, a respect for every nation, however small; and, third, the nationalization of armament industries. He admitted that these principles may be called rather Utopian; but said that the only alternative to them is regularly recurring cataclysms like the present one.

Two nicely furnished sunny rooms, suitable for one or two. All modern conveniences.

FRESHMEN EASILY TRIM M. A. H. S. TEAM

Clarkson Stars—The Backfield Works Together For Touchdowns.

The Freshman team in the second game of the year met Mechanic Arts High School Wednesday afternoon and came off the field winners by a score of 27 to 13. Mechanic Arts is rated as one of the strongest Boston High schools playing the game and the win of the Freshmen over them promises a great outlook for the team. In the beginning of the game the Freshman line did not work with much uniformity and showed some lack of team work. However, the men played hard and succeeded in opening up several big holes in their opponents' line, letting the backfield go through for substantial gains. The backfield showed up strong and worked together well, showing good team work. Their work was so uniform that it would be hard to pick out the individual stars. Clarkson scored two touchdowns from punts, each time running with the ball for eighty yards through a broken field. Ryan and Malley scored the other touchdowns and Gleason kicked three goals out of three chances.

In the first period Mechanic Arts kicked off to the Freshmen and Bar-rat succeeded in running the ball back for about twenty yards. By a series of rushes 1918 carried the ball down the field into their opponents' territory and, after changing hands several times, Ryan carried the ball over for the first touchdown. On the kickoff to Mechanic Arts they fumbled, and Hall, playing center for the Freshmen, got the ball. 1918 was forced to punt and the period ended without further score. The second period opened with a series of punts and rushes until Clarkson ran the ball down the field for a touchdown. Mechanic Arts then worked the forward pass in an effort to get a jump on the Freshmen and finally succeeded in making a touchdown. After the kick-off the game see-sawed back and forth near the middle of the field until Clarkson again got the ball and repeated his performance of the first period.

Tech got the ball down to Mechanic Arts' second yard line in the opening of the second half, from where Malley scored a touchdown. The punt out for position failed. Abbott of Mechanic Arts later in the period intercepted a forward pass and the high school carried the ball well into Tech's territory by the end of the period. Three rushes in the opening of the last period carried the ball across the line and a kicked goal gave Mechanics her 13 points. The game ended without further score.

The summary for Tech '18: Gleason, re; Wiley, rt; Musolino, Welles, Harris, rg; Hall, c; Nangle, Cutts, Kaler, lg; Mead, Jones, lt; Howe, Porter, Cordeau, le; Clarkson, qb; Ryan, Malley, rhb; Johnson, lhb; Barritt, fb. Score—M. I. T. '18, 27; M. A. H. S., 13. Ryan, Clarkson (2), Murphy, Connor; goals from field, Gleason (3).

CHEMICAL BANQUET

Mr. W. D. Livermore To Give First Talk Of Year.

The Fall Banquet of the Chemical Society will be held Friday evening, October 30, at 6.30 p. m., in the Union. Mr. W. D. Livermore, of the American Woolen Company, has been secured as speaker of the evening. His subject will be "The Chemist's Relation to the Textile Industry," and it is expected that he will also touch on the effect of the war upon the American chemical situation.

Those who have heard Mr. Livermore say that he is a most interesting speaker, and his subject is one upon which he is particularly fitted to speak. The banquet will be 50 cents per plate and tickets may be secured of Spear, Casselman, Lucey, Webster or Pollard.

COMMUNICATION

The Boston Y. M. C. A., through the T. C. A., wishes to call the attention of all Tech men to its Sunday afternoon program. Every Sunday afternoon at 3.45 there is held in the parlors of the Y. M. C. A. an informal get-together meeting of young men to hear experts present their convictions on real, present-day problems—social, economic, moral and spiritual—which young men are constantly up against. The talk is followed by a twenty-minute discussion. From five to six there is held a social hour in the lobby, during which time a musical program is given by the Association Orchestra and able soloists. At six p. m. a luncheon is served in the cafe.

The speaker this Sunday is Mr. Jay William Hudson, Ph.D., Professor of Philosophy, University of Missouri. His topic will be "America's Message to Europe."

All Tech men interested are welcome.

NOTICE

There will be a meeting of the Cosmopolitan Club Friday, Oct. 30th, at 5 o'clock in 8 Eng. C. A full attendance is desired as the details of the dance are to be decided and other important business transacted.

GYMNASIUM TEAM

More Tumblers and Side-horse Men Are Needed.

So far most of the work done by the men out for the Gym team has been on the horizontal and parallel bars. Not much ring work and no tumbling or side-horse work has been attempted. The management wishes more men for these three things.

At present the outlook is very good. D. P. Rogers, White, V. C. Kennedy, M. P. Bliss and R. L. Fletcher are showing up very well. White was on the Exeter team last year and will undoubtedly add much to the strength of the team. H. Mendelsohn, a Yale man studying at the Institute, is doing very valuable work in coaching the men and overseeing the practice. In a week or two, when the men get to know each other a little better, a captain and manager will be chosen and a series of meets arranged. Practice is held every afternoon at five o'clock at the gym.

HARVARD VS. TECH

(Continued from Page 1)

the royal." Cook has the faster record at the distance but is not in condition, at present, to show his best.

Although the majority of the entries are in, Coach Kanaly is willing to start any man who appears at the field, and is especially anxious to have new men report. Since the meet is absolutely free, a large attendance is expected.

The list of Tech entries is as follows:

100-yard Dash—O'Hara, Kwann, Erb, Doon, Adams, Avery, Read, Colleary, Dean, Ford, Hulburt, McDonald, Mumford.

220-yard Dash—O'Hara, Kwann, McDonald, Adams, Doon, Read, Mumford, Erb, Avery, Gardner, Ford Smyth, Jufthein, Sullivan, Howard, Clark.

120-yard Hurdles—Huff, Sewall.

220-yard Hurdles—Huff, Sewall, Clark, Clarkson, Day, Hamilton, Hadley, Dean, Donovan, Havilan, Lorenz.

440-yard Dash—Howard, C. S. Reed, K. Dean, Hamilton, Hadley.

880-yard Run—Gagnon, Guething.

Three-mile Run—Litchfield, Jennings, Parker, Harrington, Spencer, Graff, Goldstein, Wall, Costello, Whitall, Wilkins, R. G. Brown, Brock, Bradley, Adams, Campbell.

High Jump—P. Brown, Colleary, Doon, Gokey, McKinnon, Sullivan.

Broad Jump—Atkinson, Avery, C. S. Reed, Morse, Cady, Colleary, Day.

Pole Vault—Lawrason, Luddy.

Shot Put—Goss, Swain.

Hammer Throw—Swain, Whitney, Bannister.

E. E. SOCIETY

Members of the Electrical Engineering Society, who were unable to go on the trip last Saturday to the Stewart Street Station of the Edison Electric Company, will be given a chance to see the station Saturday, October 24. All those who intend to take the trip are to meet at two o'clock in Lowell Building.

TECH'S FIRST OPERA
 (Continued from Page 1)
 been greeted with more enthusiasm.
 There was an interesting cast, there
 were instances of excellent solo
 work; there was a security and a
 unity of spirit that we have ob-
 served lacking in more pretentious
 performances.
 "The love scene of the second act
 ranks high among the most impas-
 sioned pages that Verdi ever penned.
 Mr. Opezzo again displayed the fresh-
 ness and the dramatic quality of his
 voice, a voice of rare promise. Mr.
 Blanchart's Renato was a genuinely
 dignified and tragic figure. Miss Fox
 sang with tonal beauty as the Witch.
 "Last night the chorus again dis-
 tinguished itself. After both the first
 and second acts there were many re-
 calls for the singers' and long-contin-
 ued applause."

FINE ARTS LECTURE

Mr. C. H. Colleston, instructor in
 English at the Institute, will speak
 on Copley's Portrait of Mr. and Mrs.
 Izard at the Museum of Fine Arts
 Sunday. The lecture will be given in
 the Gallery of Early American Paint-
 ings at 3.15 p. m. This will be free
 to all.

TENNIS CLUB MEETS

It was decided at the meeting of
 the Tennis Club, held Wednesday aft-
 ernoon, that all matches in the pre-
 liminary round would be defaulted
 Saturday morning to the upper class-
 men, if not played off. The first
 round must be played off by Thursday
 morning, Oct. 29.

MASS MEETING

Elections To Be Announced And
 Tech Songs Sung.

The mass meeting Saturday night
 will start promptly at seven o'clock
 and the program has been so ar-
 ranged that those present will not be
 kept after quarter to eight, thus
 leaving the major portion of the eve-
 ning free.

In addition to the announcement of
 elections, there are to be speeches on
 student activities and singing of Tech
 songs. Field day night is only three
 weeks away; there will be singing in
 the theater that evening and the con-
 certed singing tomorrow should re-
 sult in better success at the theater
 than has been the case during the
 last few years.

COURSE IV SMOKER

Cram Will Talk To Architects
 Before Combined Societies.

This evening at eight o'clock in
 Room 42 Pierce, Ralph Adams Cram,
 Senior Professor of the Department
 of Architecture, will deliver an ad-
 dress before the Smoker of the Com-
 bined Architectural and Architectural
 Engineering Societies. Professor
 Cram will talk on "The Architect as a
 Human Being." The officers of the
 societies wish to state that men from
 any course may attend.

Y. M. C. A. BIBLE CLASS

Boston Association Cordially Invites Tech Students.

Y. M. C. A. Bible study work is gaining popularity in all the large colleges in the country. In Penn University there are 1255 men actively interested in it, divided into fraternity groups, Chinese groups, class room, dormitory, church groups, etc. Princeton University last year had thirty small groups of Freshmen led by upperclassmen.

This work in Bible study is comparatively recent, and as undertaken by the T. C. A. it takes the form of an informal gathering of congenial fellows to discuss topics that are of interest to every man. The work undertaken and the line of discussion is not at all theoretical but is rather a study of Bible principles as applied to these present-day problems. The T. C. A. extends to every Tech man a cordial invitation to drop in to one of the meetings and get an idea of these discussions.

DREXEL MAN HERE

Mr. E. F. McNally, of the Drexel Institute of Philadelphia, was a visitor at Technology Thursday. Drexel Institute has expanded, under the management of Dr. Hollis Godfrey, to a vocational school authorized to give certain degrees.

Mr. McNally's object was to look up the methods of the Institute in obtaining positions for its graduates, so that these might be applied in the former school.

RAPID PROGRESS ON NEW INSTITUTE

Work Well Within Schedule Time—Site Visited by Tech Corporation.

The rapid progress which is being made on the New Technology is shown by the fact that two of the buildings, those making right angles on the two minor courts near the Charles River Road, are already up as far as the roof, while the inner units of the minor courts are up to the third story level. The long buildings along the sides of the main court, in which the departments of chemistry and mechanical engineering will be accommodated, are up to the second floor.

All the other parts of the plant, with the exception of the library, have the first floor already poured. This rapid progress brings the work well up within the time of the schedule, which calls for the concrete on the roofs to be poured by December 1st.

On last Wednesday the members of the Corporation made a visit of inspection to the site, and each member was presented with an attractively arranged brochure, made up by Stone & Webster, to illustrate and explain the progress made on the construction.

MAZIPAN: Sample box may be procured for 25c at 11 Irvington St., Suite 2. Did you ever eat any? Try some.

SENIOR ELECTIONS

(Continued from Page 1)

er with the Course II vote. He is a
 member of the honorary journalistic
 society.

G. R. Urquhart was Business Man-
 ager of Technique 1915, and was a
 member of the Electoral Committee.
 He won his class numerals on the
 class track team. He is also tempo-
 rary member of the Institute Commit-
 tee executive committee. Urquhart is
 from Course X and is a member of
 Sigma Alpha Epsilon, Osiris and the
 Beaver Club. He will get the large
 part of the votes in the chemical
 courses.

MR. RITCHIE TO SPEAK

Mr. John Ritchie, Jr., Publicity
 Agent for the Institute, will speak
 this morning at the Rhode Island
 State Conference of Charities at Wes-
 terly, R. I., on "Co-operative Health
 Administration—A Technology Exper-
 iment."
