Mass Meeting to Be Tomorrow Evening

Upper Class Election Reports in Huntington Hall—Seven O’clock.

An important mass meeting will be held tomorrow evening between the Sophomores and Hyde Park High this afternoon.

The three classes will be collected at Huntington Hall at which the results of the elections of the three upper classes will be announced. The meeting will be in charge of F. P. Scoully, ’15, who will have the chair until the newly elected senior presidents in each class have been called out before, or supplied by J. B. McDaniel, ’15, at the piano.

Sophomore Football

Team Plays Hyde Park High This Afternoon.

Manager Hunt has arranged to play the high school football team at the Sophomores and Hyde Park High this afternoon. The whole squad will take the trip and men should be at the Back Bay Station in time to get the 3:15 train. Coach Harper has marketed his material into fine shape and everything seems to point to a championship team. Captain Simpson is proving his worth to the team by his all-around efforts. Pearce, worth, the quarter, shows his knowledge of the game by his clever handling of the team.

The left side of the line with Bell, Dexter and Powers, constitutes a strong wall of defense, while the right side, although at present not as strong, is rapidly rounding into shape. The team has a surplus of second string men who are almost on a par with the regulars which makes it very strong in this respect.

Rifle Club Shoot

The Rifle Club will shoot Saturday as usual, at the Walnut Hill Range, leaving the North Station at 2 p.m., track 19. On account of the large number of men out this year, it has been found necessary to divide the squad and, Saturday, only those who either have official duties at the range or who have more than a week’s leave will be at the target. No have shot over 23 are asked to come out. All others will shoot the following Saturday.

Election Booths.

Voting booths will be open in Pierce and Rogers until five this afternoon, while the one in the Union will be kept open until six. Votes for the three classes will be collected at all booths. No one not having his dues this year while a member of the class will be eligible to vote. Each voter should mark the ballot carefully and write his name legibly.

Harvard and Tech in Meet at New Field

Technology’s new field will undergo its initiation Saturday when Tech meets Harvard in a practice track meet. The former enters the meet handicapped somewhat from lack of practice, for this is the first week since which the men have been on the new field. Previous to this, the members worked out at the old and wide the distance men did cross-country work. There has been a surplus of second sprints worked out at the gym, and everything seems to run a fast three miles on the track.

Meals is running both the dashes and throws for Harvard, and has been training since school opened. Tech will pin its faith on O’Hara in the century and funeral, while Heff will undertake the hurdles. The three-mile should be the feature of the meet. McClure, the Harvard captain, will fight Cook for first place in this event and it should be a bat (Continued to Page 3)

Cross-Country Squad

Men Show Much Better Team Work Than Last Year.

The cross-country squad took a run over the Tech Course Wednesday afternoon and showed particularly fine team work. The time of the first, seventh and seventh men in only differed by fifty seconds, which is much better than the team did last year. The first two miles were covered in about twelve-thirty, the squad staying in a bunch. After the two-mile mark, the men let themselves out.

Cook came in first with Nye and Gilchrist following. Graft, Litchfield, Harrington and Wilkins finished in the order named. Benson and Brown did not run. Coach Kaysly was particularly pleased with the work, as it showed improvement over last year at this time. There will be no Race and Roundup run Saturday, all the men going into the three-mile event against Harvard instead.

Books Due Soon

Books, which are to be submitted for 1916 Tech Show competition, must be handed in by the first Monday in November. This is a full month later than the date at which they were called in last year. It is therefore expected that work in them will be practically completed at this time.

Senior Elections Hotly Contested

Struggle For President In Both Upper Classes Of Unusual Interest.

The contest for Class President is in both the upperclass elections today because of the inauguration of the new system of balloting that it promises to be one of the closest in years. This is especially true in the Senior Class, where distinctive differences and characteristics are noted. Coinciding with the weird results of the elections of the three upper classes will be announ’d. The results of the elections of the three upper classes will be announced. The meeting will be in charge of F. P. Scoully, ’15, who will have the chair until the newly elected senior presidents in each class have been called out before; or supplied by J. B. McDaniel, ’15, at the piano.

Technology’s First Grand Opera Night

At Boston Theatre This Evening—Tickets May Still Be Obtained.

Tonight will mark the occasion of the first Technology Grand Opera Night at the Boston Theatre. Verdi’s “Masked Ball” is the production, with an all-star cast including Minnie Fox and Lynneback, Memra Blanchehart and Ostric. In view of the fact that a special reduction in the prices has been offered to Technology men, and that there will be no Boston Opera season this year, the opportunity is an unusually good one to hear a first-class production. Tickets for those cents may still be had at the Cage for $1.50 and $2. The performance was a brilliant one, and few operatic performances given in this city of late years have

Freshman Football

The Freshman football team will play Dorchester High School on Saturday, October 23th, at the Dunbar Avenue grounds. Junior Prom Committee is the strongest teams representing. Boston High School, on a good game as expected. The Freshmen have made a good showing so far this season, especially Wednesday, when they defeated Mechanical Arts, and have a good opportunity to annex another victory.

Calendar

Friday, October 23, 1914.
4.30—Mandolin Club. Union.
5.00—“The Masked Ball.” Boston Theater.
8.00—Arch. and Arch. Exp. Smoker for Prof. R. A. Gray.
9.00—Field Day only two weeks away, the 1917 and 1918 tug-of-war teams are making great efforts to get in shape. The Sophomores have been coming out steadily and in large numbers. This afternoon the men will be measured for their jerseys. Next Wednesday the men will be weighed and strength test will be made. On Friday the team will be picked. There is a fine lot of material to pick the Sophomore team from the last year’s men, as well as several new faces. The Sophomores have been coming out steadily and in large numbers. MR. NASMYTH SPEAKS ON WORLD PEACE

Tells Of Conclusions Brought Home By Present Conflict

Yesterday afternoon in the Union, Mr. George W. Nasmyth, head of the University Department of World Peace, told of his recent observations in Europe, and the general conclusions which they forced him to draw. His own conclusion was that universal peace, if it is ever to come, must result from a co-operative and constructive, rather than a competitive and destructive policy.

As to the undesirable nature of the prevailing war spirit, Mr. Nasmyth prefaced his argument with a description of America as Europe as he recently saw it. He said that, when five million men were called to the field in three days, there was prevalent war spirit, but rather a re-signed sorrow. Three hundred fifty million peoples of millions are plunging into a chaos of "collective homicide" because each country thinks it is fighting in self-defence. The blame apparently is not with the rulers or the nations, but with the outworn system of political philosophy. The speaker affirmed that the Bernhardi-Nietzsche philosophy of force to the chief cause of the present "collapse of civilization."

This philosophy, the doctrine of militarism, does not realize that all men are members of society; it claims that any nation must inspire either contempt or fear. It will not admit the inter-dependence of nations, nor the fact that no country will ever gain by war. The only way to change it, however, is to examine and alter its foundations so as to bring about co-operation.

The socialists, according to Mr. Nasmyth, offer a very logical plan, which unfortunately has many practical defects. The true solution is given in the New Testament, the teachings of Christ, whom Mr. Nasmyth characterized as the "great social engineer." The reason we have been unable to reap the greatest benefits from our stupendous scientific advances is this failure to recognize the laws of human relationships.

Mr. Nasmyth gave several examples of the New Testament philosophy, recommending particularly for careful analysis the Sermon on the Mount. He condemned force as economically, socially and morally wrong, and said that only under a policy of co-operation can love and peace be established.

He concluded by emphasizing the fact that Europe looks to the United States, not merely for mediation, but for a corrective plan; and, for such a plan, suggested the main features as, first, a replacement of secret diplomacy and destructive competition by federation; second, a respect for every nation, however small; and, third, the nationalization of armament industries. He admitted that these principles may be called rather Utopian, but said that the only alternative to them is regularly recurring cataclysms like the present one.

Clarkson Says—the Backfield Works Together For
Touchdowns.

The Freshmen team in the second
game of the year met Mechanic Arts
High School Wednesday afternoon
and came off the field winners by a
score of 27 to 13. Mechanic Arts is
rated as one of the strongest Boston
High schools playing the game and the
win of the Freshmen over them promises great confidence for the team.
In the beginning of the game the
Freshman line did not work with
much uniformity and showed some
lack of team work. However, the
men played hard and succeeded in
opening up several big holes in their
opponents' line, letting the backfield
gain yardage for substantial gains.
The backfield showed up strong and
worked together well, showing good
team work. Their work was so uniform
that it would be hard to pick out the
individual player. Malley scored in
two touchdowns from punters, each
time running with the ball for eighty
gardens or more. Ryan and Malley scored the other
touchdowns and Gleason kicked three
goals out of three chances.

In the first period Mechanic Arts
kicked off to the Freshmen and Bar-
said on the field. Their work was so uniform
that it would be hard to pick out the
individual player. Malley scored in

Mr. W. D. Livermore To Give
First Talk Of Year.

The Fall Banquet of the Chemical
Society will be held Friday evening,
October 30, at 6.30 p.m., in the
Union. Mr. W. D. Livermore, of the
American Woolen Company, has been
secured as speaker of the evening.
His subject will be "The Chemical
Relation to the Textile Industry," and
it is expected that he will also touch
on the effect of the war upon the
American chemical situation.

Those who have heard Mr. Liver-
mores say that he is a most Interest-
Gymnasium Team

More Tumblers and Side-horse Men Are Needed.

So far most of the work done by
the men out for the Gym team has
been on the horizontal and parallel
bars. Not much ring work and no
rumbing or side-horse work has been
attempted. The management wishes
more men for these three things.
At present the present is very good.
D. P. Rogers, White, Y. C. Kennedy,
E. P. Blakes and R. L. Fletcher are
showing up very well. White was on
the Roster team last year and will
undoubtedly add much to the strength
of the team. H. Mendelesohn, a Yale
student, studying at the Institute, is
doing very valuable work in coaching
the men and overseeing the practice.
In a week or two, when the men get
to know each other a little better, a
captain and manager will be chosen
and a series of meets arranged. Prac-
tice is held every afternoon at five
o'clock at the gym.

rally. "Cook has the faster rec-
dard at the distance but is not in con-
tion, to present, to show his best.
Although the majority of the con-
test are in, Coach Reshelly is willing
to start any man who appears at the
field, and it is especially anxious to
have new men report. Since the meet
is absolutely free, a large attendance
is expected.
The list of Tech entries is as fol-

COMUNICATION

The Boston Y. M. C. A., through
the T. C. A., wishes to call the attention
of all Tech men to its Sunday after-
noon program. Every Sunday after-
noon at 4.45 there is held in the par-
lor of the Y. M. C. A. an informal
session with the members of the Asso-
ciation of the Y. M. C. A. People
are expected to attend who have new

talk is followed by a twenty-minute
discussion. From five to six there
is held a social hour in the lobby,
during which time a musical program
will be presented by a group of the
Association.

The second talk of the year will be
"Tumbling," by Mr. W. A. Osterlind.
This talk will be followed by a particu-
larly fine exhibition of tumbling.

There will be a meeting of the Cos-

been greeted with more enthusiasm. There was an interesting cast, there were instances of excellent solo work; there was a security and a unity of spirit that we have observed lacking in more pretentious performances.

"The love scene of the second act ranks high among the most impassioned pages that Verdi ever penned. Mr. Opezzo again displayed the freshness and the dramatic quality of his voice, a voice of rare promise. Mr. Blanchet's Raimondo was a genuinely dignified and tragic figure. Miss Fox sang with tonal beauty as the Witch.

"Last night the chorus again distinguished itself. After both the first and second acts there were many re-calls for the singers and long-continued applause."

FINE ARTS LECTURE

Mr. C. H. Cotter, instructor in English at the Institute, will speak on Copley's Portrait of Mr. and Mrs. Leland at the Museum of Fine Arts Sunday. The lecture will be given in the Library of Early American Paintings at 3:15 p.m. This will be free to all.

TEEN CLUB MEETS

It was decided at the meeting of the Tennis Club, held Wednesday afternoon, that all matches in the preliminary round would be defaulted Saturday morning to the upper classmen, if not played off. The first round would be played off by Thursday morning, Oct. 29.

MASS MEETING

Elections To Be Announced And Tech Songs Sung.

The mass meeting Saturday night will start promptly at seven o'clock and the program has been so arranged that those present will not be kept after quarter to eight, thus leaving the major portion of the evening free.

In addition to the announcement of elections, there are to be speeches on student activities and singing of Tech songs. Field day night is only three weeks away; there will be singing in the theater that evening and the concerted singing tomorrow should result in better success at the theater than has been the case during the last few years.

COURSE IV SMOKER

Cram Will Talk To Architects Before Combined Societies.

This evening at eight o'clock in Room 45 Pierce, Ralph Adams Cram, Senior Professor of the Department of Architecture, will deliver an address before the Smoker of the Combined Architectural and Architectural Engineering Societies. Professor Cram will talk on "The Architect as a Human Being." The officers of the societies wish to state that men from any course may attend.

Y. M. C. A. BIBLE CLASS

Boston Association Cordially Invites Tech Students.

Y. M. C. A. Bible study work is gaining popularity in all the large colleges in the country. In Penn University there are 1555 men interested in it, divided into fraternity chapters in the country. In Penn University there are 1255 men actively in- terested in it. The T. C. A. extends to every Tech man the line of discussion is informal gathering of congenial fel- lows to discuss topics that are of interest to every man. The work under- taken and the line of discussion is not at all theoretical but is rather a study of Bible principles as applied to present-day problems. The T. C. A. extends to every Tech man a cordial invitation to drop in to one of the meetings and get an idea of these discussions.

DREXEL MAN HERE

Mr. E. F. McNally, of the Drexel Institute of Philadelphia, was a visitor at Technology Thursday. Drexel Institute has expanded, under the management of Dr. Hollis Godfrey, to a vocational school authorized to train for and the line of discussion is not at all theoretical but is rather a study of Bible principles as applied to present-day problems. The T. C. A. extends to every Tech man a cordial invitation to drop in to one of the meetings and get an idea of these discussions.

Rapid Progress

On New Institute

Work Well Within Schedule Time—Site Visited by Tech Corporation.

The rapid progress which is being made on the New Technology is shown by the fact that two of the buildings, those making right angles on the two main courts and the Charles River, are already up as far as the roof, while the inner units of the main courts are up to the third story level. The long build- ings along the sides of the main court, in which the departments of chemistry and mechanical engineering will be accommodated, are up to the second floor. All the other parts of the plant, with the exception of the library, have the first floor already poured. This rapid progress brings the work well up within the time of the sched- ule, which calls for the concrete on the roofs to be poured by December 1st.

On last Wednesday the members of the Corporation made a visit of inspec- tion to the site, and each member was presented with an attractive- ly arranged program, made up by Stone & Webster, to illustrate and explain the progress made on the con- struction.

MAYPIAN: Sample box may be procured for 25c at 11 Irvington St., Suite 3. Did you ever eat any? Try some.

APPOINTMENTS FOR CADET OFFICERS

All Commissions in Regiment

Hereafter six afternoons of drill of the list of commissioned officers is announced. Keller, ’15, has been appointed Col- onel while the Cadet Captains were all chosen from the Junior Class. There are eight companies, making two battalions. The appointments are as follows:

Cadet Colonel—P. Keller, ’15.

Cadet Major—M. E. Brandt, ’15.

SENIOR ELECTIONS

(Continued from Page 1)

or with the Course II vote. He is a member of the honorary journalistic society.

G. R. Urquhart was Business Manager of Technique 1916, and was a member of the Electoral Committee. He won his class numerals on the class track team. He is also temporary member of the Institute Committee executive committee. Urquhart is from Course I and is a member of Sigma Alpha Epsilon, Ostria and the Beaver Club. He will get the large part of the votes in the chemical courses.

---

MR. RITCHIE TO SPEAK

Mr. John Ritchie, Jr., Publicity Agent for the Institute, will speak this morning at the Rhode Island State Conference of Chantiles at Way- torly, R. I., on "Co-operative Health Administration—A Technology Experiment."

ALUMNI NOMINATIONS

Technology Club of Ohio Nominees Officers.

The Technology Club of Northern Ohio announces the following nominations on the ballot for the 1914-15 season: P. W. Litchfield, '96; President; Frederick Metcalf, '96; Vice-President; Den Stevens, '11; Secretary-Treasurer. The Directors are: P. A. Smythe, '93; G. E. Merryweather, '96; A. T. Hopkins, '97; E. B. Hall, '98; E. B. Duus, '94; T. W. Carlyle, '91; G. T. Glover, '85; A. D. Hatfield, '96; G. W. Sherman, '94, and A. A. Gould, Jr.

P. W. Litchfield is Factory Manager of the Goodyear Tire and Rubber Co. at Akron, Ohio. Frederick Metcalf is associated with the Chase Machine Co. at Cleveland, while Don Stevens is with the Peerless Motor Car Co. of the same city.
