MECHANICAL ENGINEERS
HEAR FALL RIVER TALK

Mr. Fay on River Improvements—Proposed Constitution Amendment.

At the smoker of the Mechanical Engineering Society last night in the Union, Mr. Fay spoke about 90 men of the improvements on the Quenechan river at Fall River. There are two ponds to the east of Fall River, which empty into the Quenechan river, flowing through the heart of the city. There exist conditions on this important manufacturing river that Mr. Fay characterized as rotten. The health and future wealth of Fall River demanded that something be done, and the 1913 legislature authorized a commission of five persons to consider the matter.

The most important consideration is the public health, as the river in its short course through the city is exposed to several sources of pollution, among which are the absence of sewers in a large portion of the city.

ARE YOU WEALTHY?

"Polecon" Class Could Buy Six Fords With Pocket Money.

How much pocket money do you carry? One cent or a hundred dollars? This is the question put to the class in "Polecon" by Prof. Dewey last Tuesday. Here are the interesting results tabulated from data gathered by the 570 members of the class.

There were 793 pennies in the crowd, one slot machine enthusiast having as many as 32. One man admitted his entire wealth at one cent.

The fabulous sum of "$100.00 or over" was in the possession of one "Mr. Smith." Prof. Dewey claimed that this amount was well within the curve of probability but the department of mathematics is said to be undertaking a scheme for revisting the curve.

COURSE VI ELECTIONS

As a result of the elections of the course, last Wednesday, G. E. Sifton was elected vice-president and R. E. Curtis treasurer. The elections were exceedingly close.

TECH MONTHLY CALLS FOR WRITERS

November Sixteenth. Date of Next Issue—Articles By Institute Men.

Monday, November 16th, is the date set for the appearance of the first number of the Technology Monthly and Harvard Engineering Journal. This issue will be composed mostly of technical articles, although one or two short stories will be included in the table of contents. Among the list of contributors are Mr. Leonard C. Watson, '91, Professor E. B. Wilson of the Mathematics Department, F. E. Sarti, '36, and others well known to Technology men.

The Monthly wants articles by students and any man who wishes to write is invited to see the editor at the Office in the Union Building or leave a note at the Desk, Box 41.

PUBLICITY COMPETITION

All Freshman Candidates To Meet This Noon.

At half past one today all men who have entered the competition for Assistant Publicity Manager of the Tech Show are expected to meet in the Show Office. New assignments will be given at that time. As a cut will soon be made, it is extremely important that no one be absent who expects to try for the position.

TECH SHOW BOOKS DUE

Directives for this year's Tech Show must be handed in at the Show office before 9:30 on Monday, November 20th.

This date is a month later than the one for last year's book. Losses must be avoided, and with the book itself will be given first consideration when, later on in the season, the selection is made. It will be attempted to have the book chosen in time to announce the name of the successful author at the Kom- mer's Dinner which comes during the month of November.

RIFLE CLUB NOTICE

The Rifle Club will hold its usual practice at the Walnut Hill range to-morrow. On account of the large capacity of the facilities only the following men will report tomorrow: Sawyer, Peterson, Stahl, Campbell, Lewis, Ennis, Moore, MacPhail, Fehr, Avery, Ennis, Blatchford, Knowland, Brown, Lefeldt and all others who have not yet come or for practice this year. The train will leave at 5 p.m. from the North Station on track 15. Men can obtain orders for rifles from Casselman at the Union from 5 to 6 today.

The Tech Smoker. Tonight at half past seven. Lower Office.

ATHLETIC ASSOCIATION ELECTS OFFICERS

The First Meeting Under The New Constitution Is Held.

At a special meeting of the M. I. T. Athletic Association, the officers for the coming year were elected as follows: President, T. H. Hintz; Vice-President, H. P. Flanagan; Representative on the Institute Committee, W. R. Thiemann; and the members on the Advisory Council of Athletics: T. H. Huff, H. Croswell and D. B. Webster.

On account of the new constitution being under consideration the offices of Secretary and Treasurer were left vacant until after its adoption. These offices will be elected from the student body, the treasurer being a Senior and the Secretary a Junior.

The next meeting of the Athletic Association will be on November 3rd in Engineering C at 6 P. M. All members should make a special effort to be present.

GERMAN BOOKS NEEDED

On account of the war, the demand for German books used in the Modern Languages Department cannot be met. There is at present need for the book "Die Mechanische Technologie" by Landies, used by second year students. Professor Vogel has made the request through The Tech, asking all students who have the book in question and who are not using it at the present time to see him personally and turn the book over to the Department so that those in need may be supplied.

INSTITUTE COMMITTEE

At the first meeting of the new Institute Committee yesterday the following elections were made: K. M. Salley, vice-president; W. M. Shakespear, Secretary-Treasurer; F. F. Irick and H. L. Leek, members of the Executive Committee.

The following elections of the Tech Show Board were ratified: G. A. Colesman, Stage Manager; R. A. Fletcher, Treasurer; C. C. Carpenter, Business Manager; and R. H. White, Stage Director.

One hundred sixty dollars was voted to the M. I. T. A. A. for athletic expenses. It was also decided to hold a tag-day for the benefit of the Track Team.

The Committee took into its own hands the control of all future Night celebrations. It voted that no outside advertising be permitted on public Institute bulletin boards.

A committee was appointed to look up the question of granting representation to The Technology Monthly, and to report at the next meeting.

CHEMICAL COURSES BANQUET TONIGHT

Mr. W. D. Livermore Of The American Woolen Company To Speak.

This evening, at 6:30 in the Union, the Chemical Society will inaugurate its season with a dinner, at which are invited all men interested in chemistry, as well as those who think they might be interested.

As announced in Wednesday's Tech, Mr. Livermore, of the American Woolen Company, will talk on "The Chemist's Relation to the Textile Industry." Mr. Livermore is the head chemist at the American Woolen Company of Lawrence, Mass. Mr. Livermore will not confine his talk strictly to the technical side of his subject, but will also speak of the chemist's relation to the plant management, and will probably touch on the effect the war has upon his line of work.

Several of the professors will bethose in state, and there is persistent rumor that some of them will have more or less to say before the evening is over.

New men will have a good opportunity to meet the older men in the Society. Course X men, who survived last evening's M. E. Society affair are especially desired. Tickets can be obtained at the Cope or from either Spees, Casselman, Webster, Lucey, or Poitard.

METZ FACTORY TRIP

The Metz Automobile factories at Waltham will be visited November eleventh and twelfth by the Mechanical Engineering Society on its first fall excursion. Thirty members, in squads of ten, will be accommodated on each trip. Applications for the first trip must be made to Hashevet, Kinshall or Shield. Each of these men will sign up the first nine members who apply for excursion tickets. The squads for the second trip will be under Palmer, Poutinet and Nordin. The train tickets will cost fifteen cents.

SOPHOMORES SCRIMMAGE WITH SOMERVILLE

Both Teams Put Up Hard Fight — Sophomores Have Upper Hand.

The 1917 football team played a short scrimmage with the Somerville High School eleven, Wednesday afternoon, during which the Sophomores played a very erratic game. The play at times, however, was very good, but the tackling was poor. Every man realizes that the freshman game is the only one that counts and all the squad is determined to win at any cost.

The score of Wednesday’s game was Sophomores 15, Somerville 0, and the lineup was as follows:

1917 Somerville

HUNTINGTON TECH CLUB

A number of Institute men who were formerly students at the Huntington preparatory school have organized a club which will be known as the “Huntington Tech Club.”

The following men are the present members of the club: J. Folan, If.; H. Newcomb, 1b.; A. D. Dickson, 2b.; J. C. Adams, 3b.; A. Farburo, 1b.; O. R. Petersson, 2b.; N. M. Marsillie, 3b.; W. F. MacDonald, 1b.; R. P. Wermond, 3b.; E. D. Higgins, 1b.; D. G. Morse, 3b.; A. Miller, 3b.; J. Gould, 3b.

At the first meeting of the club the following officers were elected: President, N. M. Marsillie, 3b.; Vice-president, A. D. Dickson, 1b.; Secretary, E. P. Wermond, 1b.

Any Huntington man who has ever been a student at the Huntington school is eligible for membership, and should get in touch with one of the officers.

THE TECH SMOKER

The first smoker of the year for the men on The Tech will be held this evening. The men are to meet at the lower office at 7:30; all prospective candidates,_seeners, business and news men are invited.

Refreshments will be abundant, and a varied program is promised. The musical numbers will include both vocal and instrumental selections, and Howard Mann, ‘16, reader for the Glee Club, will take part in the entertainment. Sidney Clark, ‘15, will preside at the piano.

MR. ELLIOT DISCUSSES
FORUM BIBLE STUDY
Explains Why Fifty Thousand
College Men Engage
In It Today.

Yesterday afternoon in the Union,
Mr. Harrison S. Elliot spoke on "Why
Fifty Thousand College Men Are
Studying the Bible." Mr. Elliot first
discussed the chief reasons why
young men do not give up time to
Bible study, and then proceeded to
show how the Book helps in solving
many modern problems.

The average college men, said Mr.
Elliot, claim lazily that they
"haven't the time." He believes, how-
ever, that this is only another way of
saying that they do not value their
time; it is a universal excuse, so
certainly that it is ordinarily realized
as such, and consequently amount-
to very little. Mr. Elliot mentioned
several cases, particularly one in the
University of Wisconsin, where the
busiest men, leaders in the busiest
activities, enjoy this voluntary Bible
study. They even assert that they
would give up other pastimes for it.

The reason that these men like the
study, the speaker said, is that it
is religious study. This statement
creates a wide impression at first
among many people believe that re-
ligion is "what we die by." As a mat-
ter of fact, religion is what we live in the
spirit, character and ideal of
everyday living. It is a universal
question, and one which is subject to
universal opinion. Even in engineering,
the most practical men and
the professional man, the employer asks is of a religious nature: "Can the engineer be trust-
ed?"

Thus Mr. Elliot is sure that every
man believes in religion, if not strictly
of the orthodox kind. But why, he
asks, should we use the Bible in our
study, the speaker said, is that it
is up to date. The
he says is where we make our mis-
understanding, not get something up to date? Here,
search for solutions and ideals? -Why
asks, should we use the Bible in our study, the speaker said, is that it
is up to date. The

HEADQUARTERS FOR TECH

THESE ARE THE FOUR PRINCIPAL TECH SONGS
Freshmen and Others Can Show True Tech Spirit By Learning Them.

A STEIN SONG.
Give a stein, then, in the May-time,
For a life that knows no fear!
Turn night-time into day-time,
With the sunlight of good cheer!
For 'tis always fair weather,
When good fellows get together,
With a stein on the table
And a good song ringing clear;

Chorus:
For 'tis always fair weather,
When good fellows get together,
With a stein on the table
And a good song ringing clear.

On, we're all frank and twenty
When the spring is in the air;
And we've faith and hope aplenty.
And we've life and love to spare;
And it's birds of a feather
When good fellows get together,
With a stein on the table
And a heart without a care;

Chorus:
And it's birds of a feather
When good fellows get together,
With a stein on the table
And a heart without a care.

For we know the world is glorious,
And the goal a golden thing,
And that God is not censorious
When his children have their fling;
And life slips its tether
When good fellows get together,
With a stein on the table
In the fellowship of spring;

Chorus:
And life slips its tether
When good fellows get together,
With a stein on the table
In the fellowship of spring.

When the wind comes from Cuba,
And the birds are on the wing,
And our hearts are patting juba
To the banjo of the spring,
Then life slips its tether
When good fellows get together,
With a stein on the table
In the fellowship of spring;

Chorus:
Then life slips its tether
When good fellows get together,
With a stein on the table
In the fellowship of spring.

DEAR OLD M. I. T.
The sun with glowing crimson
Has ting'd the sky's dull gray;
The glory of the sunset
Uplifts our flag today;
When good fellows get together,
With a stein on the table
In the fellowship of spring;

Chorus:
When good fellows get together,
With a stein on the table
In the fellowship of spring.

Fighting onward 'cross the field,
With hearts that never yield,
Our boys are fighting onward,
Fighting onward 'cross the field,
Our boys are fighting onward,
Fighting onward 'cross the field,

Chorus:
Fight on, boys, we are cheering for you,
For we want you to win today;
Do your best, we are all behind you,
And you're wearing the Red and Gray,
Though the odds may be great against you,
Full of sturdy courage be;
And we'll raise a song of victory
For dear old M. I. T.

Before old Harvard's crimson,
Before the rocks of Brown,
Before the green of Dartmouth
Our colors will not down:
Though Amherst's white and purple
OUR colors high will ever fly,
All shout and sing for the Cardinal and the Gray.

With all shout and cheer and let them hear
The men are strong, the battle long,
Cheer Tech-Cheer Tech-Cheer for the victory.
For Tech is best and all the rest
When Tech is out, we all will shout,
Fight with all your might,
Rah-Rah--Rah--Three cheers for Tech-
Fight with all your might and give to Tech the victory.
Cheer Tech-Cheer Tech-Cheer for the victory.

And we'll show them how to win,
Will soon be left behind.
Our voices all will hear,
Take me back on a special train.

It was hard to be dragged away so
I'm crazy after Calculus
Dressed in my dinky uniform,
Of the constant pi that made me sigh
With nothing to do but analyze air
But how I would love to go again
I'd shun the physical, quizzical Prof.,
I yearn for the inspiration of
'Rah for TECHNOLOGY!
'OLOGY, 'Ology, oh-
Glorious old TECHNOLOGY!
'Ology, 'Ology, 'Ology.

BID the Red and Gray to yield,
Our cheer, still strong and clear, boys,
Will ring across the field.

Cheerful
On the days that are before us
We will gather as of yore,
And raise in everlasting,
The grand old cheer once more.
And when the battle's o'er
Then at the close of day.
Once again we'll raise our colors,
Victory crowns the Red and Gray.

THE CARDINAL AND THE GRAY.
The team is out, all sing and shout,
We'll show them how to win,
The men are strong, the battle long,
And now they're digging in.
So about and cheer and let them hear
That Tech is with them now,
Cheer Tech-Cheer Tech-Cheer for the victory.

Chorus:
Three cheers for Tech—Our lay will surely win the day;
All shout and sing for the Cardinal and the Gray.

With every "'T" let your voice and spirit be,
Fight with all your might and give to Tech the victory.
Rah—Rah—Rah—Three cheers for Tech—
Our lay will surely win the day;
All shout and sing for the Cardinal and the Gray.

With every "'T" let your voice and spirit be,
Fight with all your might, and give to Tech the victory.
When Tech is out, we all will shout,
And loudly we will cheer,
Our dare high will ever fly.
Our voices all will hear,
For Tech is best and all the rest
Will soon be left behind.
Cheer Tech—Cheer Tech—Cheer for the victory.

TAKE ME BACK TO TECH.
First
I wish that I were back again
At the Tech on Boylston Street,
Dressed in my dinky uniform,
So dapper and so neat.
I'm weary after Calculus;
I never had enough.
It was hard to be dragged away so young;
It was horribly, awfully tough.
Oh, give me some 'Ology!
'Tra-la-la-la-lala-lala-lala-
Any old kind of 'Ology!

Chorus:
Take me back on a special train
To the glorious Institute—
I yearn for the inspiration of
A Technological toot—
I'd shun the physical, quizzical Prof.,
And chapel and all that—
But how I would love to go again
On a Scientific Bat!

Second
Oh, back to the days that were free from care,
In the 'Ology Variety shop,
With nothing to do but analyze air
In an astronomical top;
Or the differentiation
Of the trigonometric powers
Of the constant pi that made me sigh
In those happy days of ours.

'Rah for TECHNOLOGY!
'OLOGY, 'Ology, oh—
Glorious old TECHNOLOGY!
'Ology, 'Ology, 'Ology.

Third
Mas-sa-cus-setts Institute
Of Technology.

'Rah for TECHNOLOGY!
'OLOGY, 'Ology, oh—
Glorious old TECHNOLOGY!
'Ology, 'Ology, 'Ology.

SOPHOMORES ELIGIBLE
For the Holy Cross Run.

The business department of the Tech Show opens a competition Monday which is open to members of the Sophomore class. Two men are to be finally chosen, who will act as first assistants in that department during the ensuing year. One of them will then become Show Treasurer and the other Business Manager. They may then compete, together with the Publicity and Stage Managers, for the position of General Manager of the Tech Show.

CROSS COUNTRY TRIALS
Ten Men To Be Picked For The Holy Cross Run.

The cross country trials for the Holy Cross run will be held at Worcester Saturday when the team will be chosen to make the trip to the U. S. A. in a dual meet. The men are to leave the North Station at 2.34 and the fare will be forty cents, round trip. Capt. Cook, Brown, Coats, Benson, Dabour, Glaser, Litchfield and Harrington are among the atmosphere and will probably make the team. Powers, Greene, Belmar and Coach Randal's brother will be among those running for the trip. A. A. M. McDougan and Rowan can also be expected to show up and there is a possibility that Medow and Rose will run, according to weather conditions.

Ten men are to be picked Saturday for the Holy Cross run that comes Field Day at Holy Cross and from those ten the team for the New England and for the big intercollegiates will be chosen.

TECH MEN INVITED
A Hallowe'en party will be given Saturday night, Oct. 31, at eight o'clock by the Young People's Social Club of the First Baptist Church. Technology men are cordially invited to come and join the fun.

FRESHMEN TUG-OF-WAR
Practice of the Freshman Tug-of-War team is going on every afternoon and the showing made during the last day or two is more encouraging than it has been for some time. Yesterday there were thirty-six men out for practice which is the largest team being only about 1.0 pounds. The chief drawback at present is weight, the average for the candidates who have come out at all is about forty-two. The total number of can-
