**TUG-OF-WAR**

**FIRST YEAR MEN LIGHT—FIFTEEN OF LAST YEAR'S MEN ON 1917'S TEAM.**

**TUG-OF-WAR FAVOR Team.**
CIVIL ENGINEERS MAKE PLANS FOR THE TERM

Joint Meetings With Harvard
C. E. Society — Arrangements

All members of the Civil Engineering Society are invited to attend a joint meeting with the C. E. Society of Harvard to be held tonight in the Pierce Building, at Harvard. The subject will be German and English Sanitation Methods, illustrated by 100 slides. In addition to this meeting there will be a joint meeting at the same place on Wednesday, November 15th, at which moving pictures, "From the Quarry to the Bag," will show the processes involved in the manufacture of Portland Cement. A third joint meeting, at a date to be announced later, will be held in Huntington Hall, at which Mr. Newell, the head of the United States Reclamation Service, will speak. It is hoped that all members who can, will attend these co-operative meetings.

Trips have been arranged to Fort Andrew, in Boston Harbor, and to the New Tech Site.

among the speakers for the rest of the term are Col. Schäfer, chairman of the Massachusetts Highway Commission, Prof. Whipple, of Harvard, Mr. George W. Andrews, District Attorney, and Mr. Thordike, of Fays, Spofford and Thordike. The Society will end the term with a dinner at the Union. A great many people lie too near one and they will accept no substitutes. masters of industry are looking for;

A sincere, well-mannered, businesslike man, they are discovered. A sincere, well-mannered, businesslike man, they are discovered. A sincere, well-mannered, businesslike man, they are discovered.

"The Value of Manners and Etiquette" and then fail utterly because they acquire knowledge, or "get an education," or "obtain a diploma," or "may endure for a time, but ultimately do not even use the common courtesies of life, or they have to face.

To be well-mannered, however, a man must be chaste. Counterfeits may endure for a time, but ultimately they are discovered. A sincere, well-mannered, businesslike man, they are discovered. A sincere, well-mannered, businesslike man, they are discovered.

The following closely on the heels of Field Day comes another event of unusual interest to the student body: The annual Kommers' Dinner is to be given on Thursday evening, November 19th.

Tech Show Management Planning Attractive Program For Annual Affair.

This dinner, given by the management of the Tech Show, is attended by members of every class and course, and is by no means a money-making affair. Its main object is to bring together all the men in the institution who are interested in the Show. This, of course, gives the new management an opportunity to outline its plans and to get the work of the year started. But, aside from achieving this object, it has acquired such a reputation for offering a good time, that the attendance is always several times the number connected either directly or indirectly with the Show itself. Freshmen will have an opportunity to learn about the various competitions, the ballet, Show orchestra, etc. This is, in fact, the only time during the year that the work of each of the many departments into which the Show is divided is fully explained. Inside information will be given by the General Manager and by the managers of the various departments.

CHEER LEADERS CHOSEN

Freshmen Nominations for Class Officers Due Saturday.

The following men have been selected as cheer leaders for the class of 1918: Geo. Davis, head cheer leader; Van Da Linde, Laddy and Coutrell, assistants. Four men were chosen due to the uncertainty as to conditions at the field, but if a complete cheer section can be obtained only two will be retained, Laddy and Coutrell dropping off. The election committee for the Freshman class is as follows: E. N. Wintoshlow, Chairman, T. F. Hilford and J. W. Damon. Nominations open the day after Field Day and close the following Saturday. Nomination papers, signed by ten members of the class, should be left at the cage, addressed to the 1918 Election Committee.

The offices to be filled are as follows: President, Vice-President, Secretary, Treasurer, Institute Committee (3), M. J. T. A. A. (2), Executive Committee (2)."
CROSS COUNTRY MEN

EXCEPT EASY TIME

Run At Worcester Today Against Holy Cross Should Be Easy Victory.

This afternoon, while the two lower classes are engaged in their annual Field Day contests, the 'Varsity cross-country team will be running against Holy Cross in a return meet at Holy Cross. Last year five Tech men finished before a single Holy Cross man reached the tape. This year, with Tech having a stronger cross-country team than ever, it is expected that

VARSITY CROSS COUNTRY TEAM

not only will the feat be duplicated but also that practically all of the ten men running will finish before any of the Holy Cross team. Holy Cross has only one strong man back out of last year's team, Higgins, but he has not been doing any running to speak of this year. Just how good or bad his condition will be it is impossible to tell. The remainder of the team is slow according to reports so that this year and is more or less out of the running. This year's team, Higgins, but he has not reached the tape. This year, with Tech having a stronger cross-country team than ever, it is expected that

FALL HANDICAP MEET

TOMORROW AT 2:30 P.M.

Running Events Well Contested

---All Men Are Urged To Enter.

Tomorrow at half past two the Annual Fall Handicap Meet will be run off at the New Field in Cambridge. Entry books have been placed at the Dalton and also at the Field and since the closing time has been set for the closing of entries, men may enter any time up to the running of the event. An admission fee of twenty-five cents will be charged for the general public.

RIBBONS will be awarded to the winners of the first four places in each event.

In the 100 yards Loomis, Bih, Day, Sullivan and K. Deen are entered. O'Hara will not be able to run in the handicap race a result of the death of his brother. In both the 100 and 200 yards the larger proportion of entries are from the Freshman class. At the present time there are very few entries in the high and broad jumps and weight events

RELAY RACE

(Continued from Page 1).

as several of last year's men are again back and have the pay passing down "cold." Most of the men on the team have had considerable experience in competition and can be relied on to do the right thing at the right time.

Several of the men on the Sophomore team have shown their strength in the meets of last year, several being able to take places. The loss of O'Hara will be keenly felt by the team as he was their fastest man last year. Quibot, Holindr, Brub and Sullivan are among the best men on the team and it is expected that they will play the feature part in the race. The team is feeling confident of a victory and expect to easily show the Freshmen their heels.

1918 Relay Team.

The prospects of the Freshmen winning the Relay Race this afternoon appear better than those of any other Freshman class during the past seven years. Although not in the least overconfident the team has shown remarkable improvement during the last week and feel that they will at least give the Sophomores a hard race. The odds are now two to one on the Freshmen while a few days ago odds of eight to five on the Sophomores were heard. Several men on the team have had some experience running before, Stuyts, a quartermiler from Dorchester, McDonald of the Irish-American A. A., while Justhein, Read, and Mumford have run at Mechanic Arts. Avery has...

FRIDAY, NOVEMBER 6, 1914

On this occasion of enthusiasm for our individual classes, let us not forget Technology as a whole. Let us remember that, from her point of view, a successful Field Day is one which brings forth nothing, either from spectators or contestants, or at the theater in the evening, which would tend to reflect on the honor of any of her sons.

The arrangements for spectators at the theater and at the stadium are undoubtedly inadequate. Although the original plans for seating capacity covered accommodations for twenty-five hundred to thirty thousand people, and incidentally better arrangements for dressing rooms and toilets, the amount of money allowed was insufficient. This made it a case of having either a first class field and track and semi-temporary accommodations, or else "half and half." This latter alternative was deemed unsuitable by the corporation as well as the athletic management. As a result, we have a field and accommodations probably equal to any in the world, but in regard to accommodations we will have to get along as best we can until some interested alumna, class or friend provides the means to erect larger and more permanent facilities.

The flags which will decorate the theater tonight are donated for the occasion; if they are damaged they will be replaced at class expense. Any broken seats must also be paid for, by agreement with the theater. If common decency does not suffice to prevent wanton destruction of property, we hope the self-interest and class interest thus involved will do so.

THAT OVERCOAT FOR THE FOOTBALL GAME.

Have just secured a lot of English, Scotch and Irish Woolens made up for the trade of the United Kingdom, but left on hand because of the war.

Bought at sacrifice prices, and you'll get the benefit. Don't delay making your choice.

HOW THE FIELD DAY CUSTOM ORIGINATED

Annual Event Substituted Over Decade Ago For Bloody Cane-Rush.

The final cane rush between the Freshmen and Sophomores, classics occurred on November 15, 1906. The rush was much the same as in former years, the Freshmen being given possession of the cane, while the second year men attacked their formation with flying wedges. The scrimmage lasted nearly a fortnight and never entirely recovered. He was confined to a dark room for nearly a fortnight and never entirely recovered.

In a class meeting a few days previous to the rush, Moore spoke briefly to his fellows, advising them to stop the struggle when the pistol was fired as signal and the rush. Following his own advice, he wrapped himself bodily around his end of the cane at the moment the shot was fired. At this point the struggle became more enthusiastic. New men joined the struggling lower-class men.

It was a signal for the fiercest fighting. When the men were cleared away it was a signal for the fiercest fighting. The struggle when the pistol was fired as signal and the rush. Following his own advice, he wrapped himself bodily around his end of the cane at the moment the shot was fired. At this point the struggle became more enthusiastic. New men joined the struggling lower-class men.

The clothes puzzle! We're here to help you solve it.

With three offices, conveniently located in different sections of Boston, the Old Colony Trust Company offers exceptional banking facilities for Technology men.

Modern safe deposit vaults at all offices.

ATHLETIC ADVISORS

Council Considers Hockey Budget And Other Matters.

At a meeting of the Institute Advisory Council on Athletics, held at the Technology Club last Tuesday, November 1st, the following were present: Members: Dr. Rockwell, Gram, Hoff, Webster, Row; Geeset, DuPont and MacLae. The meeting was called to order at eight o’clock by the chairman, Dr. Rockwell. The budget of the hockey team for the coming season was first presented by MacLae, and the details were discussed, after which, it was referred to the Institute committee for final action. The final arrangements for Field Day were considered and formal reports were heard from Misers, DuPont and Rowe. The details of the proposed reception to the visiting Cross Country Teams for the New England meet were discussed. The advisability of entering into two-year reciprocal contracts for dual meets was debated, and the lists of possible competing colleges canvassed. The meeting adjourned at 10:15 P. M.
senior parade in honor of new field

line forms on rogers steps at 1:30—All Classes in the Parade.

Although the senior class is sponsor for the parade which is to start from Rogers Steps at one o'clock on Field Day, the entire student body has been invited to participate and it is expected that all who are going will do so. None of the other classes have made any definite arrangements for a parade of their own, so that between 300 and 400 men will probably be in line.

(Continued on page seven)

show tickets

Envelopes cannot be exchanged at the Institute for "Passing Show" tickets after 12 m. today. All those who have not had their envelopes re-denied must therefore, meet the committee in charge in Rogers Corridor between 11:30 and 12 m. today. Tickets not exchanged at this time can only be exchanged at the Shubert Theater office

A LIVE SHOW

The show for the Tech Night this year is one of the liveliest and girliest that Tech men have attended in a body. The dancing is excellent, the singing good, the girls are pretty and shapely, and they don't care who knows it.

It is a skillful melange of lingerie and laughter, that is where there is lingerie.

The scenic effects, referring to the stage settings, are excellent examples of what can be done by a skilled artist.

Great form will be shown at the Shubert tonight.

SENIOR PARADE
(Continued from Page Six)

A special enclosure, directly in front of the grandstand, will be roped off for the exclusive occupancy of the seniors, and all who wear the white tag bearing the numeral "15" in red will be admitted to it. These tags, which may be obtained from men in every course, are being sold to the seniors for ten cents each, in order to help pay the expense of the band, which, on account of its size and quality, is rather expensive.

A large white banner bearing the class numerals is to be carried by the seniors and the other classes will likewise have patriotic standards. In virtue of the fact that the state legislature has recently passed a law prohibiting the use of red flags in parades, and in order to avoid unseemly complications with the police, none of these will be carried.

Since this is the first time that the new field, or, in fact, any part of the new Technology, has been used by the Institute as a whole, the executive board of the senior class deemed it necessary to have a celebration, and so the parade was decided upon. The short distance between the old and new Tech made this the ideal route.

Don't forget the parade at half past one.
The Freshman football team is undoubtedly one of the strongest entering class has ever put on the field. They entered the game this afternoon with a good chance to win against the Sophomores. Although only four games were played with local schools the 1918 team has made no names on the hospital list, so the team will be able to present the best lineup on the field. Coach Harper feels that every man will do his best. The members of the squad, although including O’Hara, who is recognized as the fastest man in school in the 220, will be keenly felt. The result of the race will hang upon the flag tests. The results of the four games are as follows:

- Concord High School, 3; ‘18, 6; Mechanic Arts High School, 13; ‘18, 27; Dorchester High School, 3; ‘18, 9; Newburyport High School, ’0; ’18, 0. Total points, 1918, 48; opponents, 19.

Unfortunately the Freshmen and Sophomore teams did not play the same teams so that it is impossible to compare them in this way.

Both Coach Miller and Manager Milliken are very confident of the ability of the team to win the game, as the manager said: “We expect to win.”

The men have shown up at practice faithfully and have worked hard. Captain Clarkeson, who is an Andover man, at quarterback has developed as the manager said: “We expect to win.”

Field Day (Continued from Page One)

noon as they are very evenly matched. As far as is known from the times that could be obtained, the Freshmen seem to have slight odds. The experience of the Sophomores may prove to be the item that will pull them the victory, or the possibility of the Freshman missing a pass. The second year men have several members of last year’s team back, but the loss of other good men, including O’Hara, who is recognized as the fastest man in school in the 220, will be keenly felt. The result of the race will hang upon the flag passing of the two teams and the experience of the Sophomores in part of the work may overcome the slight time handicap.

In the tug-of-war, the Sophomores are generally conceded the victory. Their team is somewhat heavier than the Freshmen and they have an experienced man at anchor, while the first year men have not had the experience of a real contest besides having a rather light man at anchor.

FIELD DAY

1917 Football.
A light signal drill was held yesterday afternoon for the 1917 football team, the entire squad being put through the signals in preparation for the big game. The outlook seems a bit hazy for today as all the men are in fine condition. The old injuries have healed and there are no names on the hospital list, so the team will be able to present the best lineup on the field. Coach Harper feels that every man will do his best. The members of the squad, although including O’Hara, who is recognized as the fastest man in school in the 220, will be keenly felt. The result of the race will hang upon the flag passing of the two teams and the experience of the Sophomores in part of the work may overcome the slight time handicap.

In the tug-of-war, the Sophomores are generally conceded the victory. Their team is somewhat heavier than the Freshmen and they have an experienced man at anchor, while the first year men have not had the experience of a real contest besides having a rather light man at anchor.
