Dartmouth And Maine Are The Toughest Opponents In N. E. I. C. A. Run.

Tomorrow morning at 11 o'clock the annual cross-country run of the New England Intercollegiate Athletic Association will be held at Franklin Park, Dorchester. Although Technology is picked by many experts to win, Dartmouth and Maine are sure to push the M. I. T. men hard to carry away the honors. Maine has just won the Maine state championship for the third time and has a very strong team.

The other New England colleges have a few stars among them but have no strong teams to back these up. Bell of Maine, Woss of Colby, and Granger of Dartmouth will be the chief contenders for individual honors with Brown and Captain Cook of Tech. Dartmouth is not expected to consist of R. H. White, '16, W. Farrens, '16, and T. A. McSweeney, '16.

Dinner At Union—Interesting Program In Order.

There will be a reunion of the men who were at the summer camp this year on Tuesday, November 17th. Dinner will be served at 5:45 in the Union and tickets may be obtained from any of the committee in charge, which consists of R. H. White, '16, W. Farrens, '16, and T. A. McSweeney, '16.

An interesting entertainment is being prepared. In addition to this, songs which were sung in the minstrel show this summer at the camp will be heard.

CO-OP AND BOSWORTH FOR THE VICTORY.

Mr. Huntington, who captained last year's team, is relying on Co-op and Bosworth for the third time and has a few stars among them but has decided that the treasurers plot graphs indicating the collection of dues or other finances. FINANCE COMMITTEE HOLDS MEETING

Many Important Matters Are Brought Up—Voucher Checks.

The second Finance Committee Meeting of the year was held in the Union last night. It was decided to investigate the matter of voucher checks. It is very imperative that all treasurer's establish a unified system for settling accounts. It is very important that all treasurer's attend the next meeting, for this matter is very important and the opinions of all are essential.

The Committee also decided that the treasurers plot graphs indicating the collection of dues or other finances. The question of having dinner in the Union before the meeting was considered and the proposal was to start on (Continued on Page Six)

BISHOP HENDERSON SPEAKS AT UNION

Gives Lively And Interesting Talk on "Can A Man Pray?"

Yesterday at the Union, Bishop Henderson of New York gave an interesting and straightforward talk on "Can a Man Pray?" He stated his subject in the form of three propositions. In the first proposition he said that man was the only thing on earth that could understand nature or possibilities, good and bad. A man can be "straight" one hour and "crooked" the next.

In the second case, he said, that when a man's higher intellect begins to develop, his lower one immediately vanishes. The man cannot be morally right without a struggle. His third proposition was that a man is a part (Continued on Page Six)

T. C. A. ELECTION

Chairman H. Durkee Elected To The Presidency.

As the result of the T. C. A. election, Chairman H. Durkee, '15, was elected president for the coming year. He is a member of the Mechanical Engineering Society and is taking Courses Two. He has always been an active member of the T. C. A. and last year was chairman of the Boys' Work Committee.

He is a member of the Institute Wrestling Team which won the eastern intercollegiate championship last year and was awarded his insignia. He wrestles in the 135 pound class, and the team is dependent on him this year to fill the gap caused by the graduation of Captain Keller and Manager Smythe-Martin of last year's team.

RIFLE CLUB

On account of the weather and the short afternoons, the outdoor shooting of the Rifle Club will be discontinued until spring. Men having rifles are requested to return them to the South Armory at once. Indoor practice will begin in a few days, the details of which will be announced in the Tech.

The officers of the club express much satisfaction with the results of the fall shooting, the general average of the scores having raised twenty per cent. Dunn, Cammell and Parsons tied for high place last Saturday with scores of 40 out of 50, and a number of others made 9000 scores. Elimination for the outdoor team will begin immediately upon resuming practice in the spring.

OPPOSIT THE SPA

The T. C. A. has received a letter from the Student Volunteer Movement for Foreign Missions, asking a call for a graduate of the Civil Engineering Course, to go as teacher in that course to Matrizcute College, Sao Paulo, Brazil. The call comes indirectly from Dr. McLaren, the president of that college.

The college is the highest institution of its kind in South America, and included in its roll are students in the Engineering Department from all the parts of Brazil. The man needed as instructor should be qualified to teach higher mathematics, and integral calculus. He should preferably be an electrical engineer, for the reason that it is hoped within a few years to open a course in electrical engineering, and an instructor going out now would probably become head of that course. The most interesting part of the letter, however, shows particularly the type of man that is being sought for and that is needed most urgently in the Latin-American countries. The letter states emphatically that a man "with the missionary motive" is wanted, and quoting Dr. McLaren, it goes on to state that the opportunity for reaching the young men who are to be leaders of thought and action in a great country is probably unequalled. The need is for men who are not necessarily to be preachers of the gospel, but men whose influence for good will be greatest.

The latest dances will be given at the Chaff School, N. Y., Tuesday, Thursday, and Saturday afternoon, 5:30 P. M. and Tuesday and Friday evening, 8 P. M. Miss Mulholland, the orchestra leader, will conduct the band.
