BIG TAG DAY FOR ATHLETICS

Next Friday, from the rising of the sun to the going down of the same, all Technology will be wearing Tags. This was the verdict pronounced by the Institute Committee at its last meeting, when it became apparent that the unprecedented wave of interest in athletics this year would make the need of more money imperative. An able and vigorous committee has been appointed to execute the mandate, and menus will be prepared the honor of the wearers of a Tag, and the foot and mouth disease campaigners will offer no opposition to those who are “transported and passed” on Friday the 20th.

Rapid strides have already been made by the committee, and no effort has been spared to make Tag Day the glowing event of the year. Andy Mac’s girls are unanimously in favor of the scheme, and this approbation alone assures success. Several fraternity professors who hitherto have deemed it beneath their dignity to help the men.

William Howard

Mr. Hume first became interested in dramatics at the University of California. While a freshman there he ran on the varsity track team, winning his C, but to neglect athletics, he began to neglect athletics and played a leading role in the University productions. He never acted plays but wrote them as well. One of them was the extrave-ganz producing there in 1908. He was Dramatic Editor of the “Occidental” and of the “Daily Californian.” He did not neglect studies when he came to Harvard, where he received the degrees of A. B. and A. M.

His dramatic experience outside college circles is varied, and it is all of (Continued on Page Five)

FENCING IS STARTED

An effort is being made to revive the formerly popular sport of fencing. A meeting has been called next Wednesday at the Union at 5.00 P. M., for those who are interested. At this meeting the possibility of a “Tech” team will be discussed. Arrangements have been made whereby Freshmen can substitute fencing for regular gym work. An instructor will be on hand to help the men.

Mr. Samuel Hume To Coach Tech Show

Will Speak At Annual Kommers’ Dinner—Other Speakers Announced

The Tech Show is to have a new coach. Mr. Samuel Hume has signed a contract to do the entire directing of the production this year and will start work immediately after the Kommers’ Dinner next Thursday.

VULCANIZED FIBRE

Chemical Society Talk Next Friday Night.

Mr. Chas. Allen, Jr., Chemical Engineer of the American Vulcanized Fibre Co., of Wilmington, Del., will speak to the Chemical Society at a smoke talk to be held next Friday evening. Mr. Alay will speak on the subject of “Vulcanized Fibre,” and promises to bring along a number of samples to illustrate his talk.

Mr. Hume promises to bring along a number of line of work, and a most interesting samples to illustrate his talk. He is well known as an authority in his field and a most interesting speaker.

TECH GETS SECOND IN CROSS COUNTRY RACE

Maine Wins Out By Small Margin—Cook Finishes First For M. I. T.

In the closest race ever seen in a New England Intercolligate cross country run Maine took first Saturday morning with a score of 66 points, just nudging out Technology which scored 69. Dartmouth took third with 74 points while the order of others was Massachusetts Agricultural, Williams, Colby, Brown, Worcester Polytech and Amherst.

Tech showed one of the best balanced teams in the race, finishing the fifth man in twentieth place, but the three Maine stars, Pruci, Bull and Dempsey, all of whom finished among the first seven, won the race for their school.

Cook was the first Tech man in taking fourth place, after running a strong race all the way. Tech would undoubtedly have taken first place had Brown been in good condition, but he has been sick for several days and was unable to show his best.

Three hundred yards from the finish he was even with Pruci, but was taken sick and passed by several others.

In his condition he gave a fine exhibition of gameness in finishing at all.

The course was hard, fairly level all the way. At the start the Dartmouth team went off fast and ran well banded all through the race, their five scoring men finishing between tenth and twenty-third place.

(Continued on Page Two)

CHESS TEAM WINS

Brown Is Defeated By Big Score After A Hard Match.

On Friday evening the Technology chess team defeated the Brown team by a score of 5 to 1. Dean, Kenneberg and Neumann obtained advantages early in the game and kept them to the end. Woodbridge, after losing a valuable piece in the opening, finally checkmated his opponent by a brilliant series of moves. Jones of Technology defeated Lewis of Brown only after a four-hour match.

CROSS COUNTRY TEAM HOLDS OPEN HOUSE

Entertainment Is Given At Union To Members Of Visiting Teams.

Last Friday evening the Technology Cross Country team introduced a new feature into the gatherings of the New England association, when it held a reception at the Union for the visiting teams. Runners from Maine, Brown, Williams, Amherst and Dartmouth were the guests of the evening.

SUMMER CAMP REUNION

Dinner In Union Tomorrow Evening.

The reunion of the men who were at the summer camp last year will take place tomorrow evening. Dinner will be served at 6.30 in the Union, after which the men will adjourn to Rooms A and B. Tickets may still be obtained from any of the committee, which consists of R. H. White, ’16, W. Ferring, ’16, and T. A. McSwaney, ’16.

The program which is being prepared by the committee is very interesting. Various ones who were at the camp will relate some of the incidents which occurred last summer. Denver White will tell how he and Maze and Mills caught the bear; Dip McBride will sing again, "Just plant a watermelon on my grave"; and Lilian's first and only expert on feminine charms, will be present to answer all questions on love and sentiment.

Minstrel songs sung at the camp are to be sung again. According to the spirit shown already by the camp fellows, the affair is to be a great success. An example of this spirit was shown on Tech Night when a number of them had a little reunion at the Theatre. Those in charge desire that every camp man be present on Tuesday evening.

MEETING OF CHINESE STUDENTS IN UNION

Seven Institutions Represented in Gathering Last Saturday

A very interesting gathering was held Saturday afternoon in the Union when sixty Chinese students, ten of them girls, were entertained by the Institute Chinese Club, Technicon.

Harvard, Boston University, Radcliffe, Wellesley, Dana Hall and Bradford Academy were represented.

The speakers were Dean Burton and Mr. John Ritchie, Jr.

H. K. Chow, a graduate in Course II, presided at the meeting, and in his introductory remarks stated that the purpose of the meeting was to acquaint the Chinese students with each other.

Dean Burton, the first speaker, told how the foreign students affected the courses in American colleges, saying that the students of today largely shape the student life themselves. He was followed by Mr. Ritchie, who called attention to the fact that Chinese students are here on a two-fold mission: To learn Western knowledge and to bring to the country the discoveries which the Chinese made independently centuries ago.

After one of the Wellesley girls had played some recent piano selections very effectively, J. Z. Zee, Course VI, made some exceedingly clever blackboard caricatures showing the development of Chinese costume. He indicated the fashions of the Ming and Manchu dynasties and the present day. He even went into the future, showing the Chinese student of 1925.

Mr. M. Chow entertained the company with lantern slides of auto chromosomes or "colored pictures," which he had taken around Boston and New Hampshires. Refreshments were served.

Boston University was represented by Mr. Tang. Among the ladies present were the Misses Tung, Wang and Soong from Wellesley, Misses Chow, Thang and Chang of Bradford Academy and Misses Ling and Yang of Dana Hall.

M. E. SOCIETY TIP

Three Squads Visit Factories of Metz Company

Three squads of the Mechanical Engineering Society visited the three Vitas automobile factories in Welham last Friday. The party was accompanied by Walter Metz, son of the owner.

The operations and machinery seen were very interesting, and showed all stages of automobile manufacture. The men saw electric welding, forging, casting, hardening, annealing by crude oil and by vaporized gasoline, forming, galvanizing, compressed air hoisting, tool-making, sheet metal and wood working, motor testing, painting, drying and upholstering operations.

Among the machinery, much of which was special, were automatic gear cutters, automatic valve grinders, milling machines of all types, broaching machines, Norton grinders and various kinds of planers and lathes.

What is a "Scotch Mist"?

A "Scotch Mist" is a Rogers Peet overcoat made from typical Scotch cheviots cleverly constructed so that they may be rainproofed. Smart, rain or shine, medium and heavy weights. Regular and Raglan shoulder.

$28 to $35.

Young men's suits.

Smart "snappy" models, but always the quality and workmanship that insures a lasting style.

At the Tech Office, Tech Union, this Friday, November 20th.

CAMBRIDGE TO GET FIVE SCHOLARSHIPS
Institute Treats City Liberally By Recently Made Rules.

The Cambridge scholarship question has been settled by the set of rules formulated by the Executive Committee November 10. These rules have been communicated to Mayor Good by President Macaulain and are as follows:

1. The scholarships will be awarded to students of either sex about to enter the first year class at the Institute who are graduates of schools in Cambridge and children of local residents of that city.
2. Applicants must produce evidence satisfactory to the faculty that they seek scholarship aid to enable them to pay the tuition fees at the Institute.
3. The scholarships will be awarded annually on the results of the regular entrance examinations at the Institute held in June of each year. Scholarships will be confined to those students who obtain clear records and reach a standard corresponding in height to that normally required by the Faculty in awarding scholarships to students beyond the first year. The order of merit in the entrance examinations will determine the distribution of scholarships. The maximum number thus granted to students of the first year will be five.
4. Those to whom scholarships are awarded in the first year will receive scholarships in their second, third and fourth years, provided that they have maintained in the previous year a clear record as high as that normally required by the Faculty in its award of undergraduate scholarships, and that they continue to furnish evidence of need.
5. Students to whom scholarships are awarded on the results of the entrance examinations must enter the Institute at the beginning of the next academic year.
6. Those receiving aid must conform to all the rules of conduct imposed by the Faculty or forfeit their scholarships.
7. The amount of each scholarship will be $250 and will take the form of remission of tuition fees.
8. Those to whom scholarships are awarded must complete their course within the limits thus granted.
9. Recipients of these Cambridge scholarships who receive State scholarships during the same year will forfeit the Cambridge scholarships to the extent of the aid received from the State.
10. Applications must be made on a form to be obtained from the Registrar and filed at his office during the months of May and June of the year in which the applicant is to enter the Institute.

The Cambridge scholarship question has been settled by the set of rules formulated by the Executive Committee November 10. These rules have been communicated to Mayor Good by President Macaulain and are as follows:

1. The scholarships will be awarded to students of either sex about to enter the first year class at the Institute who are graduates of schools in Cambridge and children of local residents of that city.
2. Applicants must produce evidence satisfactory to the faculty that they seek scholarship aid to enable them to pay the tuition fees at the Institute.
3. The scholarships will be awarded annually on the results of the regular entrance examinations at the Institute held in June of each year. Scholarships will be confined to those students who obtain clear records and reach a standard corresponding in height to that normally required by the Faculty in awarding scholarships to students beyond the first year. The order of merit in the entrance examinations will determine the distribution of scholarships. The maximum number thus granted to students of the first year will be five.
4. Those to whom scholarships are awarded in the first year will receive scholarships in their second, third and fourth years, provided that they have maintained in the previous year a clear record as high as that normally required by the Faculty in its award of undergraduate scholarships, and that they continue to furnish evidence of need.
5. Students to whom scholarships are awarded on the results of the entrance examinations must enter the Institute at the beginning of the next academic year.
6. Those receiving aid must conform to all the rules of conduct imposed by the Faculty or forfeit their scholarships.
7. The amount of each scholarship will be $250 and will take the form of remission of tuition fees.
8. Those to whom scholarships are awarded must complete their course within the limits thus granted.
9. Recipients of these Cambridge scholarships who receive State scholarships during the same year will forfeit the Cambridge scholarships to the extent of the aid received from the State.
10. Applications must be made on a form to be obtained from the Registrar and filed at his office during the months of May and June of the year in which the applicant is to enter the Institute.

President Macaulain added in a personal letter that the Institute cannot, out of sympathy, or out of any obligation to maintain these scholarships indefinitely. The full tuition grants are exceedingly liberal, as very few students, however meritorious, receive more than half tuition scholarships.

FOR ALL OCCASIONS.

Mr. Hume is an interesting talker,

and his varied experiences, which in-

clude a season spent in a mining

tump on the Arctic Circle, gives him

pleasure to talk about. Manager Lord

has asked him to speak at the Rem-

der’s Dinner and believes that his

presence will go a long way toward

making that affair a success. This is

probably the only opportunity that

undergraduates other than those who

later take an actual part in the Show

will ever have to talk about. Manager

Mr. Hume.

other pleasing after-dinner experts

will assist in making the event one

that will be remembered. Dean Burton

and Mr. Blackelette will be the principal

speakers from the faculty. They have

a reputation which they have never

failed to live up to.

Representing the show orchestra,

Mr. William Howard will outline the

plans for this department. It was

Mr. Howard who made last year’s or-

chestr a one of the best the Institute

has ever had. He is an accomplished

violinist, but spends most of his time

teaching ensemble music and direct-

ing musical productions. For several

years he has had charge of all the

Boston Municipal Concerts. He ex-

pects to start work here very soon

after the Dinner.

Still another speaker is Mr. Alexan-

der Macomber, Chairman of the

Alumni Advisory Council. When a

student here Mr. Macomber was Asso-

ciation Manager and then General Man-

ager of the Show. As he has only

been Chairman of the Comittee a short

time he is not known by men now in the

Institute. He undoubtedly will have

plenty of anecdotes of former shows

with which he was connected.

Attendance at the Dinner is not

limited to those who expect to come

out for the Show later. The manage-

ment wishes to give every student a

chance to hear these men speak as

well as to participate in the good

times. They feel that this will also serve to

make the Show itself more enjoyable

when it is seen next April.

THE AMERICAN TOBACCO COMPANY

"Bull" Durham an
International Favorite

Men prominent in the social, business and public
life of many nations find supreme tobacco
satisfaction in the deliciously fresh, mild cigarettes of unique
flavor they roll for themselves, to their individual liking, from "Bull" Durham tobacco. Their distinguished
example has made it correct, smart, fashionable to
"Roll Your Own" upon every occasion.

GENUINE
"Bull" Durham
SMOKING TOBACCO

There is no purer, milder tobacco in the world than
"Bull" Durham—none other with such a sweet, mellow, irresistible fragrance. This rare, balmy aroma is
as delicate and elusive as it is distinctive and pleasing,
and can only be retained and enjoyed in the fresh-rolled cigarette.
"Bull" Durham hand-made cigarettes afford wholesome enjoyment and lasting satisfaction to more millions of men than all other high-grade smoking tobaccos combined.

FREE
An Illustrated booklet, showing how to "Roll Your Own" Cigarettes and a Book of cigarette papers
will both be mailed to you free on postal request. Address "Bull" Durham, Dur
ham, N. C., Room 129.
