PLANS FOR WINTER CONCERT AND DANCE ANNOUNCED

Popular Event in Copley Hall, Friday, December 18th—
"Musical Engineers" Will Render Pleasing Program—
Tickets to be Secured From Club Members

Final arrangements for the Winter Concert and Dance, to be held in Copley Hall on Friday evening, December 18th, have just been completed. This annual event, as arranged largely laid aside in anticipation of the Christmas vacation.

The Combined Clubs are under the management of Allen Abrams, a graduate of Washington and Jefferson College; C. H. Duryea, of Springfield, in Treasurer while R. B. Walker, a graduate of Bucknell University is in charge of the Glee Club. W. B. Ford and P. L. Ford, both of New Bedford, are managers of the Mandolin and Banjo Clubs respectively. The Clubs have been practicing faithfully for two months and are now in the best of condition. This fact was demonstrated at the Franklin Square House concert where the organizations were called upon repeatedly for encores. Further opportunities for development will be furnished when the Clubs appear in Brookline and Wellesley College shortly before the Winter Concert.

The program as presented by the "Musical Engineers" will include the usual vocal and instrumental music by the various clubs. W. L. Ogden, a graduate of Michigan University, is leader of the Glee Club, while the Mandolin Club is under the direction of K. T. King, an alumnus of Armour Institute. W. R. Dixon, an instructor in the Institute, leads the Banjo Club. A novelty will be introduced by the appearance of an Hawaiian Quartet playing on ukulele and tenor (Continued on Page Six)

INSTITUTE COMMITTEE

Discuss Ways Of Raising Money For Athletics.

A meeting of the Institute Committee was held on Friday night, November 27. Various methods of raising money for Athletics were discussed, but nothing is to be divulged at present regarding them. The report of Tag Day returns, which amounted to $101.32, was also given. The Architecture, Electrical Engineering and Mechanical Engineering Societies, the M. I. T. A., the T. C. A. and the Union Committee, were not represented at the meeting.

ATHLETIC MEETING

There will be a meeting of the Athletic Association in 8 Eng. C, at five o'clock Thursday. All managers who have previously submitted budgets, must be ready to present them again.

ALLEN ABRAMS, '15 General Manager of the Musical Clubs

by the Musical Clubs, has become one of the most popular social features of the year. The date has been well chosen as studies will have been concluded for the Christmas vacation.

Mr. McDaniel Will Meet Lyric Men

For Athletics. Selling Rapidly.

All arrangements for the annual senior dinner, to be held next Thursday evening at the Westin House Hotel, are now completed. Besides several noted speakers, to be announced later, the committee in charge promises two striking novelties. The affair will be quite informal.

Tickets for the dinner have been selling very rapidly, and C. W. Wood, in charge of the sale, urges the men to procure their tickets at once, and that there will be no fifteen minute shortage. He also requests that each of the men selling tickets leave a receipt for him at the Cage before Wednesday noon, stating the number sold.

NEWS MEN

There will be a meeting of all news men on The Tech today, at 1:30 in the lower office.

TECHNOLOGY DEFEATS BEVERLY Y. M. C. A.

Wrestling Team Opens Its Season Auspiciously—New Men Show Up Well.

Although represented by a practically new team, Technology won their first wrestling meet of the season in a businesslike manner. Only two of last year's team wrestled, Captain Crowell and Goodell. Of the six new men making up the team, three had shown considerable ability in placing third or better in the Association meets.

In the first bout of the evening, Bone, of Technology, won from Young, of Beverly, by decision. Young outweighed Bone nearly eight pounds, but in spite of this handicap Bone threw him to the mat at the beginning of each of the three periods and easily remained on top.

Clark, a freshman, made his debut as a wrestler when he met Atkins, of Beverly. Atkins, who is one of Beverly's best men, showed his experience in throwing Clark with a headlock and harry hold in two minutes.

Another new man for Technology, although not at the wrestling game, made his appearance when Giles threw Torrey of Beverly in about seven minutes. As in the preceding season (Continued on Page Three)

M. E. SOCIETY TRIP

Interesting Plant Will Receive Attention Of Party.

The Quincy Hall Market Refrigeration Plant will entertain a large delegation of students from Technological Society on Monday afternoon. The trip is to be given under the auspices of the M. E. Society, but, as the number for the trip is not limited, men from all courses are invited to attend. The party will be conducted through the works by Mr. H. W. Tinker, general manager of the concern.

CALENDAR

Monday, November 30, 1914.
1:00—Candidates for Circulation Manager Meet in Upper Office of The Tech.
1:30—Meeting of all News Men on The Tech. Lower Office.
4:00—Glee Club Rehearsal. Union.
5:00—Mr. McDaniel Will Meet Lyric Men.
Tuesday, December 1, 1914.
5:00—Meeting of Wireless Society.
8:00—Tech Athletic Association Meeting. Room 8, Eng. C.
7:00—Eng. High School Alumni Banquet. Hotel Nottingham.

MONDAY, NOVEMBER 30, 1914.

IN CHARGE OF THIS ISSUE.
Editor: G. H. Stebbins, '17.
Assistant Editors: E. W. Rounds, '17.

We hope that December seventh, the birthday of President Rogers, will not be allowed to pass as it did last year, without public recognition. For this year we do not justify an All-Technology dinner such as was held in 1913. In any event, it is felt to be advisable to hold some celebration in the spirit of the former.

Technology has been requested to do its share in contributing toward the Red Cross Fund. In view of the fact that at the present time there is such a great demand for the students' money, it did not seem advisable to resort to the usual methods of an entertainment or benefit for raising money. The committee in charge, considering the matter, have accordingly made the conclusion that the most feasible plan to pursue is to declare a certain day each month to be Red Cross Day. On this day stations will be established in the Institute build-ings where the student body may donate whatever they wish to the cause of relief. Further details will be announced in ample time for all Tech men to save up at least a few pennies to donate to the cause.

The rather low returns from Tag Day indicate what was apparent at the time—that the canvass

Lecture Preceded by Business Meeting—Friday Night Trip Announced.

At the C. E. Society meeting Friday, Dec. 4, 16, was elected member of the program committee in place of P. R. Foster, 16, who did not return to the Institute this year. Mr. H. B. Dalton, President of the Student Board, resigned from the executive committee in accordance with the point system. This vacancy will be filled from the class of 1916 at the next meeting. A vote of thanks was given to Col. Hahn and the officers of Fort Andover for their courtesy at the recent trip.

Pres. Thomas announced a trip to the new Boston & Albany bridge near Riverside for Friday, Dec. 4. The party will leave Trinity Place at 2.65. Men going on this trip are requested to sign the slips in the Drawing Rooms so that the committee in charge will be able to buy the requisite number of 12-mile commuta-tion tickets. These tickets are sold with a reduction of practically 50 percent for each ride.

After the business meeting, Rev. Dr. Powers of Gloucester addressed the Society on "What We Owe to Germany." According to the lecturer, Germany leads the world in five tests of civilization: (1) In the pro-portion of wealth Germany has no su-

VOLUNTEERS WANTED FOR SOCIAL SERVICE

T. C. A. Sends Call For Student Teachers In Settlement Work.

Several of the settlement houses connected with the Technology Christian Association for volunteers in the social service work. This work does not take more than one or two evenings a week of the following time.

The House of Good Will, 20 Boston Road, a non-sectarian institution, whose work lies among Irish, Italians, Scandinavians and Jews, is in need of teachers of industrial work, vocal and dramatic advisors, leaders of singing, circle and English classes.

r The Ruggles Street Neighborhood Association, a non-sectarian group, is interested in the work, or desiring information may call and see Mr. Cushman, the secretary of the Technology Christian Association, in his office in Engineering B.

COMMUNICATION

To the Editor of the Tech:

On Friday evening last the Civil Engineering Society held a meeting in the Union, at which a dinner was given on the subject of "What We Owe to Germany." On the same date in 12 Pierce Professor John O. Sumner addressed the Architectural Society on "The Present European War." With all the talk and agitation, last year and this, about the conflict of dates, it would seem that such a conclusion need not arise. Either the Societies in question are at fault in not handing in dates for meetings, or else the Calendar Committee at the Union or else the members of the Societies have not made enough effort to induce the secretaries of the Societies to be particular in handing in these announcements.

Certainly if the Calendar System is to be retained the Committee should do something to increase its efficiency. Yours,

...about, Gibs used a head chancery and had held to throw his man. These two bouts were the only ones in which a fall was secured.

Blodgett, who was a member of the wrestling team two years ago, managed to get a decision from Paradise of Beverly. Blodgett made use of his great strength and kept throwing his opponent to the mat.

The best bout of the evening was the one in which Hoffman of Technology defeated Fielding, of Beverly. Although Fielding seemed to be much stronger than Hoffman, his knowledge of the game was less and he lost a hard fought decision. In this best Hoffman was on top of his man practically all the time.

In the next bout, Goodell of Technology, lost a decision to Churchill of Beverly. The bout was very close and an extra period was necessary to decide it. The next bout was similar to the preceding. Bond, after a hard fight, finally succeeded to Rust of Beverly after they had wrestled an extra period.

In the last bout of the evening Captain Crowell won a close decision from Onof of Beverly. The third period of this bout was mostly foot work.

The bouts were of three periods, two consecutive and one three-minute. If no decision was reached after the fifteen minutes, another three-minute period was required.

(Continued on Page Six)
other places. In their attempts to estab-
lish a protectorate over Venezuela they
took into the Monroe Doctrine, while
France objected to their de-
signs on Morocco. There was dan-
ger of war at this time because
France held Algeria but the large
German "call" loans held in England
France held Algeria but the French
in the present war.

In 1898 Germany received a rail-
way concession from Abdul Hamid,
sultan of Turkey, for a line across
Asia Minor to the Persian Gulf, with
the idea of developing the lands
about the Tigris and Euphrates rivers
valleys, with a possibility of getting
India. Austria also cherished the
wish of getting a foothold on the
Aegean Sea by a railway through the
Balkans. Most of the Balkan states
were liberalized from Turkey by the
aid of Russia but Serbia had been
helped by Austria and, down to 1906,
when several members of the Ser-
bian Royal family were assassinated
she looked to Vienna rather than St.
Petersburg or Petrograd for political
guidance. The new ruling house
changed the order of things and
brought the Balkans under the
sphere of Russia.

This rather spoiled the German
Austrian idea of a continuous rail-
road line for colonization and mili-
tary purposes from Europe to the
new eastern lands; the railway is now constructed across
Asia Minor as far as the Euphrates.

In 1897 England and Russia agreed
to use Persia to offset the German
railway. Persia was to be divided
into three sections, the northern
sphere under Russia, the southern
under England and the middle neu-
tral. A railroad was to be built from
Teheran to India. These plans were
hard on the Persians, who had start-
ted to reorganize their government
under Mr. Schuster, an American,
but it was felt necessary to inter-
fer on account of Germany's rising
influence and build a railroad paral-
eling the German line, so that Eng-
land could rush troops to India. Ser-
bia, under Russian influence, is to-
day no longer a small, struggling
state, and her efforts have effective-
ively blocked the Austrian plan for a
railway to the Aegean.

Professor Cram predicted many
changes in Europe following the con-
clusion of the conflict. Among these
were a King of Prussia, but of a
German state, and his efforts have effective-
ively blocked the Austrian plan for a
railway to the Aegean.

Professor Cram declared that the
war was the greatest historical event
since the fall of Rome. He said in
part:

There are essential and profound
questions of right and wrong before
us. We have no fear or anxiety
against the German people. Their
ideals are our ideals. But what about
Prussia? Prussia and Germany are
divided by the whole circumference
of the universe. When Kehlau Cath-
ery was being built, original Prus-
ia was just becoming Christianized.

Professor Cram predicted many
changes in Europe following the con-
clusion of the conflict. Among these
were a King of Prussia, but of a
small Prussia similar to the old
East; an independent Hungary; and
Poland, a united independent state.

harp, the weird music of those instruments, together with the odd words of the songs, will produce a unique effect. There will also be an instrumental trio composed of 'cello, flute and piano. As usual the vocal quartet will appear in humorous selections.

Following the program there will be a dance from 19 o'clock to 2 o'clock. Poole's Orchestra will furnish the music, as they have done in years past. The catering will be under the direction of Madeline who has had charge of the refreshments at former affairs.

In accordance with the usual custom the wives of faculty members have been invited to act as matrons for the occasion. Numerous house-parties have been planned for the week end. In order that such parties may be satisfactorily accommodated the management has arranged to reserve seats in 'blocks of ten or more. These will be allotted impartially and may be secured by any party of sufficient size. Requests for such reservations should now be placed in the hands of the manager.

Tickets for the Concert and Dance may be secured from the Club members, while reserved seats will be placed on sale about December 10th. In order that no confusion may arise preliminary dance orders will not be issued until about December 10th.

The Comradeship of "Bull" Durham

There is something about ripe, mellow "Bull" Durham Tobacco that appeals to clean-cut manhood the world over.

Wherever two "Bull" Durham smokers meet, each recognizes in the other a man to his own liking. A comrade in the world-wide brotherhood of "the Makings."

GENUINE "BULL" DURHAM
SMOKING TOBACCO
(Enough for forty hand-made cigarettes in each 8-cent pack.)

Millions of experienced smokers find the cigarettes they roll for themselves from pure, ripe "Bull" Durham tobacco better suited to their taste and more satisfactory than any they buy ready-made. The rich, fresh fragrance and smooth, mellow flavor of "Bull" Durham hand-made cigarettes afford healthful enjoyment and lasting satisfaction. Get the "Makings" today and learn to "roll your own."

FREE With every purchase of a "Bull" Durham - "Roll your Own."
