HOCKEY TEAM TO PRACTICE IN GYM

First Game With Harvard On December 17th—Try-Outs Today.

Regular practice, three times a week, for the hockey team will begin this afternoon in the Gym, in preparation for the first game of the season, with Harvard on December 17th. The time this afternoon will be given to practice in shooting the puck, so that it is very important that all men who are coming out for the position of goal should bring skates, gloves and protectors. Coach Ralph Whitten will be on hand to direct the men in this department of the game. Afterwards the squad will take a short run. Captain R. L. Fletcher, who has been out on account of sickness, will be back with the team today.

The following are to report at 4:00 o'clock this afternoon: Host, Sawyer, C. Tuttle, Keary, Young, Watson, Keeler, Jewett, Carson, Woodward, Hoeyden, Woodland, Coward, Ross, Good, Lowengard, McLaurin, Proctor, Tovey, Hirstad, Gray, McNairs, Stewart, Kaler, Glenen, Johnson, D. Tuttle.

OFFICERS CLUB

Elections Held Wednesday—Dance To Be Given.

The Officers Club met in the Armory last Wednesday and elected the following officers: President, Major J. A. Tobey; Vice-President, Major F. A. W. Davis; Secretary and Treasurer, Captain G. W. Wyman; Members of the Executive Committee, Captain T. F. McCary and a Program Committee of three, Colonel Perry Keller, Chairman, Captain Ralph Miller and Captain P. H. Duff.

The matter of a dance was taken up and a committee consisting of the Program Committee and two other members, Captain Leonard Stone and Captain A. C. Licher, was appointed to arrange the time and place and to attend to all details.

JANUARY MONTHLY

An article which is considered by the editors of The Monthly to be the most important ever published in the magazine is being prepared for the January issue. While they do not care to announce the subject until the next issue of The Tech, it is understood that the article is one in which every student, regardless of course or class, will be interested. Full details will appear in Monday's Tech.

PROFESSOR SAGGAR.

Professor Jaggar, and his assistants, making an ascent to study the eruption, were caught in a snowstorm near the summit and were overwhelmed by snow slides while streams of lava were cutting their way down the mountain side. None of the party were seriously injured.

The main building of the Institute's Hawaiian Volcano Observatory, Honolulu, will be Inaugurated next Monday evening at seven o'clock. The speakers, Dean Burton, Professor Jaggar, are expected to give the men excellent and the program exceptionally amusing and farcical numbers. The site was used in the decorations, and, by a manner which kept the company in a state of continuous laughter, and the musical pieces were seriously injured.

ANNIVERSARY DINNER

A dinner complimentary to Professor H. H. Richards on the occasion of his retirement after fifty years as a student and teacher at the Institute is to be given at the Copley Hotel next Monday evening at seven o'clock. Dr. Tyler, chairman of the committee on arrangements, announced that any Technology man whose invitation has failed to reach him may attend to all details.

JUNIOR BOARD

The taking of the picture of the Junior governing board has been indefinitely postponed.

EXHIBITION MEET

SATURDAY NIGHT

Wrestling, Fencing and Gym Teams Show Progress Made.

The wrestlers who will work tomorrow night have been provisionally announced. It is now arranged there will be five nine minute bouts between men of last year's squad and three five minute ones between freshmen. B. Smythe-Martin, '14, manager of last year's team, has been secured as referee. The bouts announced are as follows:

Hose and Loo; Flodgett and Giles; Hoffman and Durkee; Bond and Wood; Goodell and Walters.

The novice bouts are Siegel and Harper; Wooten and McSweeney; DeSalvo and Presno.

The Gymnasium Team, which has been making excellent progress during the past two weeks, will put on the following men: Captains Joseph John Whiton, Fletcher, Blies, Rogers, Sport, Demond and Wood. The Team has several meets arranged and the exhibition is expected to give the men confidence in working before an audience.

The Fencing Team will put on four men. Two bouts will be arranged between them and the winners of these bouts will then be matched.

CHESS TOURNAMENT

Match With Boston Chess Club To Be Played Friday.

Technology will meet the Boston Chess Club in a match to be played at eight o'clock tonight in the room of the latter club at 15 Exchange street. The members of the team and the Executive Committee are to meet in the Union at 7.35 and go from there to the Boston Chess Club. This is a very important meet and it is desired that all be present.

The men to play for Technology are: E. H. Neuman, '16; G. A. Huber, '16; D. E. Woodbridge, '16; A. N. Pray, '14; A. Kenigsberg, '15; C. Dean, '17; A. Banger, '18; C. Johans, '18.

CONVOCATION

Mr. James P. Munroe Will Speak—Monday At 1:30.

A general convocation will be held in Huntington Hall on next Monday in commemoration of the birthday of William Barton Rogers, the first President of the Institute. The speaker will be Mr. James P. Munroe. Secretary of the Corporation.

JUNIOR PROM BALLOTS

All ballots for the Junior Prom Committee must be handed in at the Union on December 6th. A committee composed mostly of men outside the Institute will act as judges. Since the competition is not limited to architects, all students are eligible.

INSIGNIA WINNERS

All men who have won M. I. T. A. insignia during the season of 1913-14, and who have not received notification or certificate of same are requested to leave their names with dates and events in which they qualified on a sheet of paper provided for that purpose in the office of the Junior Prom Committee at the Union.

Monday, December 7, 1914, 5:00—Technical Poster Competition Start. Gym Office.
FELLOWSHIP REGIONS (Continued from Page One)

pressed his confidence that the same enthusiasm would endure throughout its history. Dean Burton then responded to the toast, "The Bar-Marks of the Tech Man."

Of the chief characteristics of the Tech man, said the Dean, is that you can’t always tell him, and you can tell him something. Conceit is not in his category; he is quick to do things, but does them in an unsustained way. The Dean admitted that Tech men do not always shine in artistic discussions, but showed by several cases that when they do, they rise above those particular lines of activity, they succeed in them. He cited among others the cases of Ballard, author of the Stein Song, and Burgess, novelist and humorist, the creator of Brotherst and Something. He concluded with some amusing definitions of words defined by Burgess in his unabridged dictionary of self coined words.

Next, in "A Few Moments of Absorbed Suspense," Howlett, McDaniel, King and Wells sang some very popular songs, one of the best of which was the "Technology Rag." They rendered a Hawaiian Quartette selection superbly.

Professor Dewey, the next speaker, discussed the Economic Future. He said that the man out of college has two jobs: To get married, and to get a job. In the present world, he said, the second task seems a difficult one, but there are a few grains of comfort. War’s effects are always exaggerated. Recovery from such periods of conflict are usually rapid, because during war the entire population does economic work, and wealth is conserved, not wasted. In this way there is a saving at both ends. We may

over at home during the Christmas vacation before a final decision is necessary.

If the Union Committee delays much longer about sending the vice control record-holders and bringing order out of the present chaos, we mean to collect a few public-spirited individuals and act to the job ourselves.

The circular issued by the Calendar Committee presents an ideal system of reserving rooms in the Union. The activities cannot fail to realize the convenience of this method, and the importance of utilizing it.

SAYIN’ to be bright, don’t have to be bitin’. It can be like VELVET—full of flavor without any bite.

VELVET Tobacco does not have to be "strong" to be full of flavor and fragrance. VELVET proves that. VELVET, The Smoothest Smoking Tobacco, has all the pipe smoking qualities that are natural to Kentucky’s Burley de Luxe, together with an aged-in-the-wood mellowness that is not found in any other pipe tobacco. Use them and be satisfied.

As your shoe commission-

be amused by the tremendous numbers of men and women anxious of money involved in the present war, but we must remember that populations are also immense, and wealth is being produced on a scale never before seen. Nevertheless, ideal conditions cannot exist only when some solution other than force has been found for misunderstandings.

Two blackface comedians, who, after much speculation, were identified as the famous Thomas and Rooney troupes, then entered the situation with jokes and personal hits, which were received with great pleasure.

The final speaker was Professor Robinson, who dived deeply into the 'Qualitative Determination of the Sympathetic Constitution.' After several facetious remarks, the Professor said that he didn't know 'whether he is or is not, but supposed he is not.' He deplored the suppressed, semi-guardian life that a scientific education sometimes breeds, saying that under continuous adverse criticism which a man receives at the hands of teachers in science he grows more and more conventional and suppressed. He remarked on the lack of satire at the Institute, and said that, although a man may and must know to a certain extent to convention, he should not fail to assert himself. A pacificist then at makes an impression on society, and when there is something to be gotten, he usually gets it. Life, he declared, is, after all, more or less of a fight, and to successfully carry it on we must eliminate feminism, and institute self-assurance.

The dinner broke up with the hearty singing of the Stein Song.

**FIELD LOCKERS OPEN**

The lockers at the new field will be open today and tomorrow. After Sat we have to be definitely closed for the winter, and will not be available until the spring outdoor season commences. Everyone who has anything in these lockers at the present time, is urged to get it immediately. Otherwise it will be confiscated.

**LUTHERAN STUDENTS**

A social will be given this evening at seven thirty at the Phillips Brooks House at Harvard, to Luther men and women attending the various colleges around Boston. Technology students are cordially invited. Further information may be obtained from Dr. Kircher, 29 Rogers.
