SPRING MEET AROUSES INTEREST OF CLASSES

New Records Expected To Be Made Because of Quality of Entrants.

The Interclass Track Meet which is to be held Friday, April 17, at Tech Field promises to be one of the most interesting and most eventful meets ever held at Tech Field. The competition in the dashes and in the 440-yard run will be especially attractive because of the talent that has been enlisted throughout the classes. Each class is entering well selected men who are well fitted to make good attack at these records: the following men are well fitted to do the work in the 440-yard run will be especially noted.

T. C. A. Cabinet Members:
- Thompson '17 and B. Williams '17.
- H. Guething '14, Zimmele '14, W. B. Roper, '14, Wilkins '14, Loomis '16, and E. Puritan '15, by that time.

Thompson and Wilkins will bring out several new men who have reported for this event are: T. Wilson '14, Wilkins '14, Loomis '16, Roper is best known to his class, and a member of the team last fall. He was recently chosen Circulation Manager of the Technology Monthly, and a member of the team last year, and a member of the class was accepted, to the unexpired term. C. W. Lacy and 1916. Regiment, Battalion and Company, be approved. Faculty and Students of other classes and members of the Faculty are invited to be present.

Andover Alumni:
- Annual Banquet To Be Held Friday Night.
- The Annual Banquet of the Boston Andover Alumni Association will be held next Friday, April tenth, at 6.30 p.m., at the Harvard Club, 274 Commonwealth avenue.

Andover Alumni Association:
- Annual Banquet To Be Held Friday Night.
- The Annual Banquet of the Boston Andover Alumni Association will be held next Friday, April tenth, at 6.30 p.m., at the Harvard Club, 274 Commonwealth avenue.

Important Meeting To Be Held This Afternoon:
- The Institute Committee will hold a meeting this afternoon at 5 p.m. in Room 8, Eng. C. Mr. F. H. Hunter, chairman of one of the Committee of the Alumni Advisory Councils of the various student activities. Several important changes will be suggested, principally in regard to the Advisory Council on Athletics. Furthermore reports on the Union, Point System, and Bulletin Board Committees will be heard.

T. C. A. CABINET:
- On account of the Nave Meeting Thursday at 4.30, the meeting of the T. C. A. Cabinet scheduled for that afternoon will be omitted. All business due to come up will be deferred until the next regular meeting, Thursday, April 26th.
According to the Northwestern University Library the students of that institution paid over a hundred dollars this year in fines of lost and overdue books. Thirty-three thousand, five hundred and sixty-eight volumes circled during the year.

"The Physical Education department has compiled statistics showing that 44% of the students in the department bathe once a week; 41% bathe twice a week; 19% bathe three times a week; 5% bathe five times a week. Other students bathe once every two weeks and oh, horrors—one man takes a bath only once a month!"

Ohio State University

Three audiences, aggregating nine thousand students, Faculty members and guests of the University had "Jolly" Sunday's stirring speeches in Weightman hall at the University of Pennsylvania. During his talk such epigrams as were shot at the audience: "Size depends on brain, not bulk, and it is a sad day when Taft's overcoat won't make him a vest." "Look at David, how he soaked Goliath between the lamps." His subject at one of his evening meetings was "The Devil's Boomerang Up To Date, or Hot Cakes Off The Griddle."

Purdue has gained much undesirably notoriety in the public press during the past week. Several senior co-educational students have been named as defendants in a damage suit instituted by one of the Freshmen. Damages are claimed for attempted hazing. The Purdue newspaper upholds the traditional right of the upperclassmen, and claims that in any case nothing will be gained by taking legal steps.

The Virginia Polytechnic Institute has decided that a truly "Tech" song must be written and with this worthy purpose ten dollars has been subscribed to remunerate the author. This is simply another instance of the promiscuous use of the word "Tech." The student paper at Carneige is called "The Tartan" but in a news column it refers to itself as "The Tech." Similarly "Tech News" out of Worcester deems itself "The Tech." It might be well for the old and others to remember that true Tech was originated at M. I. T. and also that THE TECH has been in existence for thirty-four years, whereas they are comparatively young organizations.

M. I. T. FORUM

At the meeting of the M. I. T. Forum yesterday H. A. Meyer, '14, was elected President, vice Julius Kuttner, resigned. Meyer was formerly Secretary-Treasurer, and I. Pais was elected to fill the vacant position. The meeting also discussed the proposition of placing scientific literature in the union files.

YOUR EYES WILL DANCE WITH JOY

Upon beholding our display of spring woolsens just placed on our counters, foreign and domestic wovens—designs and colors for every taste—the largest selection of exclusive patterns we have ever shown—and that means something.

Priceworthy, prices—courteous service—and a guarantee of entire satisfaction—you know these.

STUDENTS MAY GET TRADE AT DISCOUNT

Advertisements in Show Program Taken in Exchange for Credit.

Some of the advertisements in the Tech show program this year were taken in exchange for credit. This credit will be sold to Technology students at twenty percent discount. Among the things which may be obtained at this greatly reduced rate are suits, shoes, photographs and smokers' supplies. One trade advertisement was accepted from a reliable hotel in the city, and it is suggested it be used as a means of reducing the expenses of out of town friends who are planning to make a short stop here.

The credit may be obtained by application to Arthur T. Munyan, Treasurer of the Student, at the Tech show office in the Union. The following concerns have placed the advertisement:

- Mrs. O. McMorrow, shoes; 
- W. B. Ederin, tailor; 
- Massachusetts Avenue: Turkish Little; McMinn and Van Noor, tailors; 
- Victoria Hotel, Cuban cigar store, L. F. Zacharias, photographers.

GARRISON TEAM WINS

The Garrison team of the Technology Bowling League strengthened their hold on first place yesterday afternoon when they took four points from the Pierce team. High scores were made by all the team and the team total high, set by them earlier in the season, went by a few pins. The Rogers team is now second and the Pierce's third. Vose, the high average man, fell off a little, but is still one of the contenders for the prize. Mr. MacKenzie being the only man near him.

To the Editor of THE TECH,

Dear Sir,

The reader of Tech news in the daily papers probably does not realize that this news is written up by students who are paid by the inch for what they write, and are in many instances more interested in the number of inches that they write than in the truthfulness of their statements. Does such a condition augur well for the representation of the Institute in the daily press? Is it not possible that some anxious scribbler may give to the press those statements which may do more harm than good? This possibility was brought up the other day when a certain news writer was busy making a lengthy article of an epidemic of the mumps at the Institute if the daily papers were to continue such a practice. The reader of Tech news is written up by students who are paid for what they write, and are in many instances more interested in the number of inches that they write than in the truthfulness of their statements.

SOCIETY OF ARTS
LECTURE ON FRIDAY
Prof. Richard S. Lull of Yale To Speak on “Evolution of the Elephant.”

One of the series of lectures that is being given by the Society of Arts of The Massachusetts Institute of Technology will be given in Huntington hall Friday night at 8. The first of this series which was given last Wednesday on the “Radiation Situation” contained a great deal that was of interest to the audience, and the lecture Friday on the “Evolution of the Elephant” will present the subject of evolution of animal life in its most remarkable phases.

The speaker is Professor Richard S. Lull, professor of vertebrate paleontology at Yale University. He will discuss the ancestry of the elephant, its original home, and its world-wide wanderings under many different forms, such as the mammoth and mastodon. The history of the changes wrought upon the internal skeleton and the external appearance of the elephant previous to and during these wanderings, forms an important chapter in the story of evolution of animal life; and the present speaker is one of the foremost authorities on this subject.

The lectures are free and those who are interested in the recent advances in the practical application of the sciences are cordially invited to attend.

FRESHMAN BOARD MEETS
The Freshman Executive Board held their regular meeting yesterday afternoon. P. G. Woodward, L. L. MacCready and L. I. Noyes were elected Freshman members of the Co-operative Board.

Final plans for the Freshman Glee Club are being made. The Executive Board wishes to know the definite number of those who will attend.

Work on the Yale bowl, which was stopped during the winter, was started again this week and it is expected that it will be ready for the Harvard-Yale game in the fall.

Couch George F. Conners of the Exeter Track Team is reported as successor to Mike Murphy at Penn.

JUNIOR CLASS PICTURE
There are still several Junior Class Pictures at the Caps which have not been called for by the men who signed up for them. The committee in charge of the sale of these pictures requests that they be called for before Saturday, as the pictures cannot be held for them after that date.

FOOTBALL
The return match with Brown which was to be played this week, has been postponed until after Junior week, the former having defeated Jones by 1-0. The latter having been postponed until after Junior week. The return match with Brown which was to be played this week, has been postponed until after Junior week, and will probably be played Saturday, April twenty-fifth, at Brown.

SMALLHOLDERS' LECTURE ON FRIDAY
Prof. Charles E. Cutter of Wheelock College To Speak on “Smallholding in England.”

One of the series of lectures that is being given by the Society of Arts of The Massachusetts Institute of Technology will be given in Huntington hall Friday night at 8. The first of this series which was given last Wednesday on the “Radiation Situation” contained a great deal that was of interest to the audience, and the lecture Friday on the “Smallholding in England” will present the subject of the application of the sciences to agriculture in its most remarkable phases.

The speaker is Professor Charles E. Cutter of Wheelock College, one of the foremost authorities on the subject. He will discuss the advantages of smallholding in England over largeholdings under many different forms, such as the manorial and demesne systems. The history of the changes wrought upon the internal skeleton and the external appearance of the smallholding in England, its world-wide wanderings under many different forms, such as the manorial and demesne systems. The history of the changes wrought upon the smallholding in England, its world-wide wanderings under many different forms, such as the manorial and demesne systems.
