

THE TECH

VOL. XXXIV. NO. 8.

BOSTON, MASS., THURSDAY, APRIL 9, 1914.

PRICE TWO CENTS

OUTCOME OF LONG DISTANCES UNCERTAIN

Strong Competition Causes Keen Interest in Coming Spring Meet.

The fact that many good men are entered this year in the long distance runs is causing much talk among the classes as to who will be picked for possible winners in the 880-yd., mile, and two-mile runs. In each of these events over nine men have already signified their intentions of entering and all three places will be contested for hotly.

At previous meets held this year the outcome has in most every case been assured, and the probable winner designated. The contests in the Spring Meet, however, will present entirely new difficulties, for even the coach, who has seen the men practise every day, is in doubt as to the winners.

Because of the Batchelder Cup, which will be given to the winner of the mile run, many good men who would otherwise run in the 880-yd. are planning to enter the mile. This fact alone will make the 880 especially close, and the following men will make the run a fight to the finish: C. T. Guething, '16; Donnelly, '17; Bock, '17; Gagnon, '16; Gurney, '15; Kennedy, '14; and Peacock, '17.

In the mile run many surprises are expected and C. T. Guething, '16; Benson, '16, and F. L. Cook, '14, are especially well fitted to take their places. H. Allen, '17; Graff, '16; Polard, '15; Milliken, '14; R. G. Brown, '16, and Pyle, '16, are all ready to make the contest an exciting one and it is from these men that the unexpected may happen.

(Continued on Page Three)

ELECTRICAL SOCIETY

Nominations for the offices of President, Vice-President, Secretary and Treasurer of the Electrical Engineering Society are due Saturday, April 11th. The nominations are to be left with Miss Payson in 15 Lowell and must be signed by at least five active members. The elections will take place during the week of April 20th.

WEATHER FORECASTING

Professor Alexander G. McAdie, Director of the Blue Hill Observatory, will give an illustrated lecture before the Boston Scientific Society next Tuesday evening on the subject, "Forecasting the Weather." The meetings of the society are held in its hall in the Chauncey Hall Building. John Ritchie, Jr., head of the Institute's news service, is president of the Boston Scientific Society.

PLANS OF NEW ATHLETIC FIELD AT MASS MEETING

Arrangements Completed For Largest Mass Meeting In History of the Institute

With the suspension of classes at four-thirty, every Tech man is expected to answer present at the big mass meeting this afternoon. Final plans for the mammoth convocation have been brought successfully to the date of the event and everything is ready. Lapel tags have been given out to allow no man an excuse for keeping silent his intention of going.

Organized noise will make up a good part of the program and every Tech man is to help. To assist the singing, which will be as much a drama as for its own sake, a cornet, violin, drum and piano will "give out" the tunes and synchronize the measures. The whole will be led by a song leader who has demonstrated his ability to get music out of a crowd of Tech men. The Glee Club will be on hand to relieve the audience and give an added "All Technol-

ogy" quality to the meeting.

Speakers have been carefully selected to talk between the songs on various phases of Institute activity. "Buck" Dorrance, President of the Senior Class and Chairman of the Institute Committee, will report to the Undergraduate Association for that committee. The Technique rush, which takes place during Junior Week, will be described in detail by "Brute" Crowell, Editor-in-chief of Technique 1915. Athletics will be presented by Captain "Spig" Guething of the track team. General Manager Kieth of the Show will tell what may be expected of Tech Show next week.

It has also been given out on good authority that the plans of the new athletic field, which is to be ready next fall, will be made public at the convocation.

INSTITUTE COMMITTEE HOLD BUSY MEETING

Makes Changes In Alumni Advisory Council—Reports Are Accepted.

The regular meeting of the Institute Committee was held yesterday and all but three men were present. The minutes of the last regular meeting and the special meeting were read and accepted. The reports of the Union Point System and Bulletin Board Committees were also heard and accepted. The committee in charge of the Undergraduate Mass Meeting reported on the progress being made upon the mass meeting to be held today in Huntington Hall.

Mr. F. H. Hunter, '02, chairman of one of the committees of the Alumni Council, spoke about the proposed changes in the Alumni Advisory Councils of the various student activities. He read a report on a new system of advisory councils which would consist of the T. C. A., Tech Show, THE TECH, Musical Clubs, and Athletics.

A motion to indorse the report read by Mr. Hunter was discussed and accepted. The report of the Tech Advisory Council was read and, after some discussion, was accepted. The meeting adjourned at 6.15 o'clock.

BANJO CLUB

The rehearsal of the Banjo Club, which was announced as half past four Sunday afternoon, should have read half past two. The mistake was caused by misprint.

TRAVELLER TO SPEAK IN UNION THIS NOON

Dr. W. A. Knight, Allston Pastor, Will Give Last T. C. A. Talk of Year.

For the last talk of the school year Secretary Talbot of the T. C. A. has secured the Rev. Mr. W. A. Knight to talk on his travels in Palestine, around Jerusalem. Mr. Knight has chosen for his topic "A Ramble Outside the Walls of Jerusalem." This noon's talk promises to be one of the best of the year.

Mr. Knight, who is pastor of the Brighton Avenue Congregational Church in Allston, has done considerable traveling in Palestine. He has, in fact, spent months and long periods of time in the Holy Land, and has thus been placed in position to speak most capably of the country, its people and their customs. The talk will probably be somewhat different from the regular T. C. A. talks, and the officers of the T. C. A. wish to make this noon's meeting a big and worthy wind-up for the year, and for this reason Mr. Knight has been asked to give the final talk.

Mr. Knight is quite well known as an author. His stories are principally on his travels, which have been far and extensive. "The Song of Our Syrian Guest" is probably his best known work. "Outside the City Walls," "No Room at the Inn," and "On the Way to Bethlehem" are also well known works of his.

COSMOPOLITAN CLUB TO BANQUET TONIGHT

Dr. Edwin Mead Will Speak at Harvard-Tech Dinner At Thorndike.

The banquet of the combined Technology and Harvard Cosmopolitan Clubs, which has been planned and prepared under the auspices of the Tech Club, will take place at the Hotel Thorndike at 8.15 o'clock. The committee in charge has secured Dean Burton to act as toastmaster and addresses will be made by the three speakers who have been selected.

President Z. Y. Chow, of the Technology Cosmopolitan Club, will speak for the Institute and President Lionel DeJersey Harvard, of the Harvard Cosmopolitan Club, will represent the visitors. As the guest of both clubs the committee has invited Dr. Edwin Mead, ex-president of the Twentieth Century Club, to speak before the banqueters. Dr. Mead is associated with the World's Peace Foundation. The committee has arranged special entertainment in addition to these speakers.

Half a hundred Tech men are expected to be present with forty or more from Harvard. Non-members may attend by seeing Mr. Z. Y. Chow, the cost per plate being \$1.50.

WEATHER

For Boston and Vicinity: Thursday rain; moderate south to east winds.

CALENDAR

Thursday, April 9, 1914.

4.00—Tech Show Rehearsal. Union.
4.30—Convocation. Huntington Hall.
7.30—Finance Committee. Union.
8.00—321st Corporate Meeting. Huntington Hall.
8.15—Cosmopolitan Club Banquet. Hotel Thorndike.

Friday, April 10, 1914.

2.30—Courses VII vs. XIII. Baseball Game.
4.00—Tech Show. Dress Rehearsal. Union.
4.30—Banjo Club Rehearsal. Room 6, Lowell.
6.30—Annual Andover Banquet. Harvard Club.
8.00—Society of Arts. Huntington Hall.

Saturday, April 11, 1914.

2.00—Show Dress Rehearsal. Union.
7.30—Chess Club. Union, Room A.

The Yale Baseball team left late yesterday evening for the South.

The Harvard Golf team began its season yesterday afternoon.

MASS MEETING TODAY 4:30

THE TECH

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

THURSDAY, APRIL 9, 1914.

IN CHARGE OF THIS ISSUE.

W. A. Houser, '15; G. H. Stebbins, '17.

Convocation Day has come. This afternoon at 4.30 every student who has a spark of loyalty in his heart will be in Huntington Hall, singing the songs of his Alma Mater. We have come to the point where the deplorable condition of the past, of having these songs known only in a fragmentary way and by a small number of students, must give way to one more in harmony with the spirit of New Technology, one in which the Freshman who does not know every word of every song will be a marked man until he repairs the deficiency.

One specific application of this general purpose is directed toward the proper accomplishment of the thing that was such a dismal failure at last year's Tech Show—the singing of our songs between the acts. Such a failure would not have been possible in the most insignificant college in the country; it certainly should not at Tech, and will not if the students enter into the spirit of this mass meeting.

More effective advertising could not have been expected of any committee; a better reason for going cannot be expected on any occasion whatsoever, so it is now up to each individual student to do his part and make as many as possible of his fellows do theirs.

The Yale Crew held its first practice yesterday afternoon.

The Freshman-Sophomore meet scheduled for next Saturday will be well contested. The Sophomores are out for blood to make up for their defeats in the indoor meet and the cross-country run last Saturday. The Freshmen will miss one of their good men in the mile in Parker, who is out of school with the mumps.

The University of Southern California is going to send four men to the Penn relay carnival. They are Kelley, Borgstrom, Ward and Howard Drew, whose time of nine and three-fifths in the hundred was recently allowed.

J. O. Johnstone, Harvard's crack high jumper, has been declared eligible to compete in meets the rest of the year. Johnstone has been on probation the entire year.

Members of the class relay teams are showing signs of activity these days with the spring meet but little over a week off.

Wall, one of Tech's good long distance men, has started in spring work in preparation for the spring meet and the dual meets. Wall will probably run with Cook in the two miles in the meets this spring.

The University of California has sent personal letters to over four hundred high school track managers on the Pacific Coast with invitations to participate in an Interscholastic meet.

CHEMICAL SOCIETY

Nominations for New Officers Are Now Complete.

The nominations for the offices of the Chemical Society have been handed in and the following are declared candidates for the respective positions:

President: M. F. Brandt, '15; E. J. Casselman, '15; F. Hall, '15.

Vice-president: R. H. Walcott, '15; H. I. Knowles, '15.

Secretary: L. H. Bailey, '15; D. B. Webster, '16.

Treasurer: H. W. Lamson, '15; P. H. Duff, '16; H. J. Lucey, '14.

Program Committee: R. B. Stringfield, '15; R. F. Pollard, '15; C. W. Lawrence, '16; L'R. G. Bousquet, '16; F. B. Hastie, '16.

Petitions were received nominating E. J. Casselman for both president and vice-president but, according to custom, he has been entered as candidate for the higher office.

Printed ballots will be sent out shortly to the members of the society, upon which they may vote for their choice of the men who have been nominated.

Biff! Bang!!
Competition is the spice of life!

The first Fatima Cigarettes were sold in college towns—biff—bang! Everybody delighted! Today more Fatimas are sold in America than any other cigarettes—all because they are pure, good, choice tobacco, and better than some others

**PRESIDENT REVIEWS
REGIMENTAL PARADE**

**Major Cole Expresses Pleasure
At Quality of Drilling
Yesterday.**

President and Mrs. Maclaurin, together with several of their friends, reviewed the regiment yesterday afternoon. The regiment was first formed, followed by the regimental parade and review by Dr. Maclaurin. The Rifle Exercise as prescribed by Major Butt's Manual and "double quick" time were demonstrated. All of the evolutions passed off to the complete satisfaction of the visitors and Major Cole was also very much pleased with the drilling.

Following the review, the regiment was inspected by Col. Hamilton and ex-Col. Taft. Finally, the commissions were given out to the commissioned officers and warrants to the non-commissioned officers.

There will be no drill on Wednesday, April 18th. The next will be held on the 22nd.

FRESHMAN BASEBALL

The Freshman baseball game scheduled for this afternoon with Somerville High school has been cancelled so as not to conflict with Mass Meeting. A practice game with the Juniors will be played tomorrow at the Field at 4.30.

DON'T forget the address

We make a special effort to win the esteem of Tech men.

COPLEY SQUARE PHARMACY

**CIVIL ENGINEERS TO
NOMINATE OFFICERS**

**Nomination Lists Close April
Twenty-Third—Banquet
May 7th.**

Nominations for the following offices of the Civil Engineering are opened this morning and will close April 23rd. Papers must be signed by ten men and turned in to the Cage for the Secretary. The following offices are to be filled with men from the classes as given:

President, Vice-president, Treasurer, three members of the Executive Committee, and two members of the Program Committee from the 1915 class. The Secretary, Assistant Treasurer and two members of the Program Committee are to be from the 1916 class.

The Civil Engineering Society's annual banquet, which is their final meeting of the year, will be held on May 7th. Two speakers for that night have already been secured. They are Mr. D. Fitzgerald, Am. Soc. C. E., and a member of the Corporation, and Prof. C. K. Spofford, head of the Department of Civil Engineering.

The Society will hold another meeting before the banquet, the date of which will be announced in THE TECH later.

SHOW ORCHESTRA

The Tech Show orchestra will rehearse at four o'clock this afternoon. They will not go to the Opera House tomorrow, but will have practice in the Union.

**RARE LEAD DEPOSITS
LOCATED IN MEXICO**

**Paper by Former U. S. Geologist
Tells of Lead-Antimony
Ore Discovery.**

A meeting of the Technology Geological Conference was held yesterday afternoon in Room 11 Pierce. A joint paper by Professor Waldemar Lindgren and Mr. W. L. Whitehead of the Geological Department on "The Lead-Antimony Ores of La Sirena, Mexico," was read. These deposits were located by Professor Lindgren while on a trip in northeastern Mexico, during March, 1913, and are of an exceedingly rare nature, there being only one other of the same kind known. This exception was described by Ransome and is situated in Humboldt County, Nevada. The Mexican deposits are part of the edge of a high cliff and are approximately a thousand feet long and a hundred feet thick. The ore, which is obtainable by letting men down the side of the cliff on long ropes, contains eight percent of lead. Many geologists and engineers engaged in practical work and from Harvard were present.

**OUTCOME OF LONG
DISTANCES UNCERTAIN**

(Continued from Page One)

Because so many men are entered in the two above events it has been said that the two-mile contest will not have as many competitors. From the following list, however, it will be seen that more men are actually interested than for either of the others. F. L. Cook, '14, is the possible winner and F. J. Wall, '15, will be a close second. The third place will be closely contested and Litchfield, '17, will make all the others hustle for the position. Besides these there are eight men in to make the contest close and who may entirely change affairs.

The same men are in many cases entered in two events and this will make a great difference in the final outcome of each race and make the chances much stronger for the men of less experience.

The Tech records for these events are as follows: 880-yd. run, 1 min., 58 sec.; P. D. White, 1911. Mile-run, 4 min., 27 sec.; E. B. Germain, 1913. Two-mile run 9 min., 52 and four-fifths sec.; S. M. Udale, 1907. With good weather and a fast track these records may be equalled and in all cases it is certain that the meet will be the closest held in years.

NEW MANAGEMENT OF THE TECH ELECTED

New Boards and Staffs Assume Duties — Many Men Promoted.

Today the management of THE TECH, Volume XXXIV, assumes its official capacity. The entire staff is composed of men, who it is expected will maintain the standard set by the former board. The new General Manager has been connected with the paper since entering the Institute with the exception of a short period immediately preceding his election. He was its Managing Editor for two years. The Editor-in-Chief was elected to that capacity on Volume XXXIII from the position of Societies Editor. The Managing Editor formerly served as Assignment Editor. Of the final three members the Advertising Manager and the Treasurer were on the Business Staff and the Circulation Manager was the Institute Editor.

The complete list of the elections is shown at the top of the first column on the second page.

FACULTY NOTICE.

The class in Argumentation and Debate will not meet today. The debate will take place on Tuesday. The written assignment for Tuesday remains unchanged.

C. H. COLLESTER.

WELLESLEY SUPPLIES

Institute Sends Apparatus To Help Burned College.

The new Institute auto truck yesterday took a three-ton load of geological apparatus, charts and lantern slides to Wellesley to replace some of the material burned during the recent fire. The load also included scientific instruments and specimens from the Natural History Museum as well as a number of boxes of similar material from the Harvard Museum.

Quick on the Trigger With a Snap-Shot Eye

THE crack trapshooter has to have steady nerves and muscles absolutely under control — always ready to swing his gun into place and bring down his claypigeon. This means trained, not to the minute, but to the split-second.

We present the names of some famous crack shots. They like to smoke, but take no chances on a tobacco that might "throw them off." They use Tuxedo because it is mild, relaxing, steadying — strictly pure.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made of only the finest, choicest, selected leaves of perfectly aged Burley tobacco. It is made by the original "Tuxedo Process" which removes every trace of bite and sting and develops all the wonderful mildness, fragrance and flavor of the Burley Leaf in a way that no other brand of tobacco has ever successfully imitated.

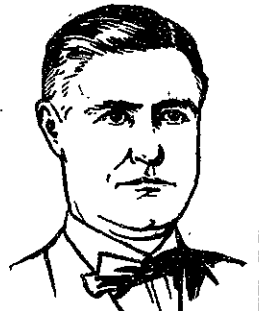

YOU CAN BUY TUXEDO EVERYWHERE

Convenient pouch, inner-lined with moisture-proof paper 5c
Famous green tin, with gold lettering, curved to fit pocket 10c

In Glass Humidors, 50c and 90c

FREE Send us 2 cents in stamps for postage and we will mail you prepaid a souvenir tin of TUXEDO tobacco to any point in the United States. Address

THE AMERICAN TOBACCO COMPANY
Room 1105 111 Fifth Avenue New York

GEORGE W. MAXWELL
leading trapshooter
"I find complete enjoyment in Tuxedo. It's a nerve steadier and a sure fire, slow-burning tobacco."

Geo W Maxwell

TOM A. MARSHALL
famous crack shot
"Tuxedo tobacco is unquestionably the acme of perfection; smoking Tuxedo makes life better worth living."

Tom A. Marshall

FRED GILBERT
celebrated trapshooter
"The coolest, most fragrant tobacco to my experience—Tuxedo. Leads in mildness and purity."

Fred Gilbert
