### TECHNOLOGY WINS FROM DARTMOUTH

Cool, O'Hara and Loomis Place In Open Events — Relay Record Broken...

The varsity 300 relay made up for defeats it had suffered at the hands of Holy Cross and Harvard, by defeating Dartmouth in the closest race of the night at the B. A. A. meet Saturday, covering the 1860 yards in 2 min. 14 sec., breaking the Technology record for the event by a second.

The Institute also showed up well in the open events, especially in the invitation forty yard dash where O'Hara and Loomis tied for second place in the final heat which went in 4.5-6 seconds. Cook, running from the third forty yard mark, took third in the mile run, easily beating McGuire of Harvard who started ten yards ahead of him.

O'Hara and Allison told the mark on the first stretch of the relay, Dartmouth won the toss, giving Allison the pole, but O'Hara got off fast, beating him to the first corner. Altough Technology held till the third mile, O'Hara let out a burst of speed and handed Reed a six yard lead. Brann, the Dartmouth hurdler, went out after Reed and succeeded in gaining four yards back. Reed handed Gushing two yards.

Gushing was running against Latourette in the second in the fast six hundred at the B. A. A. last year, but "Cy" had the race well in hand all the way, handing over a five yard lead. Colleary at anchor ran against Worthington, the fastest man on the Green team. Both men held even at the halfway mark. Here Worthington started to close up, and on the last corner tried to jump the lead. Colleary beating him to the tape by a foot in the closest finish of the night.

### HOCKEY TEAM LOSES

The Technology Hockey team was outclassed by the fast Dartmouth seven last Thursday at Hanover. 2-2, being defeated by a score of 4 to 1. Although the home team was handicapped by the loss of its crack rover and captain. Bag Wanamaker, it made up for poor offensive work by the clever defense of Donahue, the old Somerville high goal tender. The visitors were slow on the ice. Winton, who caged the one and only goal for Technology, was easily the star of the game.

### INSTITUTE COMMITTEE

The regular meetings of the Institute Committee will be resumed on Tuesday, February 9, 1915, at 3 p.m. in 8 flag. C. Many important matters will come up since the last meeting of the committee, making it necessary for every member to be present.

### REGIMENTAL DANCE COMES NEXT FRIDAY

Horticultural Hall To Be Scene Of Annual Cadet Corps Hop...

All arrangements are complete for the annual dance of the Cadet Corps, which will be given at Horticultural Hall on Friday, February 12. As usual, this will be an affair not only for the officers and cadets of the Regiment, but for the whole student body, and the committee in charge is expecting a good representation from the "civilians" as well as from the "soldiers."

The members of the Regiment are expected, as in former years, to appear in uniform, with the side arms. The dance will open with a march at 8 o'clock, after which will be a Reel of dancers. The doors may be had at the Cage.

Tickets are $2.50 a couple and may be obtained at the Cage, or of any of the officers or members of the dance committee.

### FRESHMAN WRESTLING

Wrestling May Be Substituted For Gym Work...

Freshmen will be allowed to substitute wrestling for gym work during the second term. Beginning Monday, Feb. 8, the freshmen may leave the gym classes entirely and put in two periods a week of wrestling.

### ROCHESTER EXPERIMENT

New Scheme To Be Tried Out This Coming Term.

Although Technology is known to be a school with unusually high ratio of instructors to students, there has often been difficulty in getting close contact between them. To obviate this state of affairs the "Rochester Hour" has been established. This is an appointed time in which any student may approach the Rochester experiment man in an informal way and ask anything which has been of trouble to him.

The hour decided upon for this advisory work is from 1 to 2 every day at the Union. The group of men selected for the advisory work includes: Robert S. Williams, assistant professor of chemistry; C. L. E. Horner, assistant professor of mathematics; R. B. Rogers, instructor in English; F. H. Kennedy, assistant in drawing; J. W. Howard, assistant professor of civil engineering. They are all young men and in sympathy with the students, and wish are not so far from their own student life to have forgotten the peculiarities of their own school days.

### CALENDAR

- **Monday, February 8, 1915.**
  - 9:00 — School starts.
  - 4:00 — Meeting of Managing Board of The Tech.

- **Tuesday, February 9, 1915.**

PORTFOLIO PICTURES AND STATISTICS

Proofs Are Due Before Feb. 15—Statistics Blanks Ready

At The Cage.

Less than three weeks remain for the Seniors to have their sittings for the Senior Portfolio. In order to assure the success of Technique 1916 and Senior Portfolio under the present arrangement, all pictures must be taken before the last day of February. Appointments may be made at the Union every day between 1 and 2 p.m. From now on, the committee will be unable to make appointments unless sufficient notice is given. Every effort, however, will be made to make a new appointment in the case of unsatisfactory proofs. Statistics blanks to be filled out are ready at the "Cage" or they may be obtained from C. N. Runels, W. B. Spencer or C. W. Wood. Blanks are due at the "Cage" before Feb. 15, 1915.

Giving to a mistake of the printer, insufficient space has been left after some of the headings. In case there is not room on the front, the rear of the Report may be used. Short, concise information is desired.

Proofs must be returned to Notman's at once and in any case in three days after their receipt. Technique reserves the right to print the best picture according to its own judgment if proofs are not returned promptly.

TECH SHOW SMOKER

(Continued from Page One)

most automatically becomes first assistant next year, and manager of his department in his Junior year. He then has an excellent chance of becoming General Manager of the Show in his fourth year.

The work of second assistant does not require much time and is not difficult. He must, however, know the rudiments of harmony and be able to read music. He will assist in the prompting at rehearsals and with the manager and assistant, have general oversight of the properties of the play. The actual staging is done under this department.

Stage Manager Coverther Coleman will meet those who are interested at 5 p.m., Friday, Feb. 12, in the show room. He will outline fully the duties of second assistant stage manager and give the necessary information about the competition.

PRESIDENT MACLAURIN SPEAKS AT NEW BEDFORD
Talks At Harvard-Technology Reunion On Advantages Of Combination.

President Maclaurin spoke at the Harvard-Technology reunion at New Bedford, January 29th, concerning in general the tendency toward educational co-operation and in particular, the agreement between Technology and Harvard. He also brought out the fact that the new Technology plant in Cambridge will be the best equipped engineering school in the world and that with the combination of the instructing staffs of the two institutions unequalled facilities for students at

MUSICAL CLUBS TRIP
(Continued from Page Two)

"The Mandolin Club proved particularly strong, and in the first number, 'The Crescendo' by Odell, showed the results of careful practising. The Glee Club sang the lovely Brahms lullaby with tenderness and expression. They were at their best in the lightsome and whimsical sort of things as in 'Swing Along' and 'Alexander.'" The Banjo Club led in an entertaining bit of dramatic playing when they treated the audience to a realistic Indian war dance.

The solos by H. C. Williamson were varied and well rendered while Mr. Alexander Martin, as reader, surely deserved all the praise and applause that he received. The Hawaiian Quartet proved that they were capable of rendering the sweet, melodic Hawaiian music as well as popular music.

The management on behalf of the men in the clubs wish to express their gratitude and appreciation to all those who in any way helped to make the trip so successful.
