

# THE TECH

VOL. XXXIV. No. 87.

BOSTON, MASS., FRIDAY, FEBRUARY 12, 1915.

PRICE THREE CENTS

## MILITARY HOP WILL BE HELD TONIGHT

All Students May Attend—Members Of Regiment Expected To Wear Uniforms.

The annual Military Hop conducted by the Officers' Club of the Technology regiment is to be held tonight in Horticultural Hall. This dance, as in previous years, is not solely for the benefit of the members of the regiment, but for any student, and a large number of these other students are expected to attend. The matrons are Mrs. Maclaurin, Mrs. Cole, and Mrs. Miller. The grand march will start at eight o'clock and will be led by Colonel Keller, followed by Major Tobey. All the members of the regiment are expected to appear in uniform, though this is not required.

## INSTITUTE COMMITTEE

Officers' Club Secures Representation.

The first meeting of the second term was held by the Institute Committee yesterday afternoon. The reports of the various committees were first heard, and the Point System Committee recommended that K. Dean and P. Duff lower the total of their points. The Budget Committee brought out the necessity of raising money for Athletics and the Finance Committee recommended that the conditions of the Chemical, Mining, and Architectural Engineering Societies be investigated. It was next decided that an exhibit should be sent to the Alumni Meeting at Pittsburg which would illustrate the standing of the activities at the Institute.

After a prolonged discussion the petition of the Officers' Club for representation was granted, because the present standing of the Club is very good, the members all showing a very active interest. On account of the constitution of the Institute Committee which prohibits two consecutive absences, the Electrical Engineering Society and the Technology Christian Association lose their representation.

The following members of the Institute Committee were absent: K. M. Sully, C. A. Blodgett, W. Harrington, and F. B. Hastie.

## ATHLETIC DEPARTMENT

There will be a meeting of all men in the Athletic Department of the Tech today at 1.30 in the lower office. A full attendance is required.

## FACULTY NOTICE

Mathematical Laboratory, M 54, will meet on Tuesdays and Fridays at 8 a. m., in Room 26 Lowell. The first exercise will be on Tuesday, Feb. 16th.

## APRIL VACATION CHANGED TO SUIT JUNIOR WEEK PROGRAM

Spring Concert and Dance Friday, April 16; Tech Show Saturday; Junior Prom Monday — Freshmen to Attend Prom This Year

The Junior Prom Committee, consisting of K. M. Sully, chairman; K. Dean, P. H. Duff, J. Evans, O. P. Pyle, and W. Farthing, upon its election was unable to obtain the ball room at either the Somerset or the Copley Plaza Hotels for Friday evening, April 16th. This is the evening on which the Prom would have ordinarily taken place.

The committee felt that the Prom by reason of precedent and the fact that it is the largest social event of Junior week, should terminate the festivities. Hence it was desired that the Prom should be held on Monday evening, April 19th, which is a legal holiday. Accordingly the Prom committee petitioned the faculty to change the Junior Week vacation from April 15th-19th, inclusive, to April 16th-20th inclusive. At its last meeting before the Mid-year vacation the Faculty considered the petition and granted the change in vacation, notice of which was given in the Tech of last Wednesday.

This year the Prom will be given at the Copley Plaza Hotel and dinner will be served about midnight in the main dining room. All the details have not as yet been arranged but the committee is working to finish all the arrangements within a few weeks. Programs are to be selected next week from representatives of prominent engravers from New York and Philadelphia.

A step which the Prom committee has taken this year, over an apparently well established precedent is allowing the freshmen to attend the Prom. Last year the freshmen had a dance of their own given on the same evening as the Prom. In previous years freshmen were allowed to attend the Prom only after every effort had been made to sell the limited number of tickets to upper classmen. But this year tickets will be opened for sale to freshmen after they have been put on sale to upper classmen. Thus with a new and better arrangement of festivities for Junior week the prospects for a most enjoyable and successful Prom are very good. The house parties this year will probably open on Friday for the Spring Concert and Dance. Sunday can be used to good advantage as a rest day for the Prom which will wind up the events on Monday evening.

Prospects for Tech Show 1915 are exceptionally bright. The management is particularly fortunate in hav-

ing an experienced general manager and competent heads of departments. Besides these assets there is a good financial foundation, a large percentage of former Show men back and an exceptional book on which to build the most successful season yet experienced.

C. R. Lord who was business manager last year is general manager this year. Lord proved himself an exceptional business manager last year after serving as second assistant in his freshmen year and first assistant in his Sophomore year. The success which he had last year in putting the Show on a good, sound business foundation more than qualifies him to head the Tech Show 1915.

Tech Show started in 1899, with a production given to aid the athletic association, which was then greatly handicapped financially. The first Show proved to be such a great success, both socially and financially that it has grown each succeeding year, until it is now recognized by all as the largest social activity here at the Institute, and the best college show of its kind in the country.

The Show is distinctly a Tech show, as it is written, managed and produced by Tech men. The only professional men employed are a coach, musical director, and dancing teacher. The success of the production, therefore depends upon the cooperation and support of the student body as a unit. Support depends upon an active interest in all departments, the work of which is so diversified as to make an appeal to practically every student.

There are five general divisions of the Show: namely, the management, the cast, the music, the lyrics, and the orchestra. The management is again divided into three departments, the business, the publicity, and the stage. Each department consists of a manager and two assistants, the manager being directly responsible to the general manager.

The business department has charge of getting out the program, and arranges for the program and sale of seats. The main duty of the publicity department is putting the Show before the public. The posters, articles for all the different newspapers, smokers, dinners, and social events all come under the jurisdiction of this department. The stage manager has direct charge of the cast and chorus, aiding the coach in drilling the men

(Continued on Page 3)

## NEW ENGLANDS TO BE HELD AT TECH FIELD

Before This Year The Contests Have Been Held In Cambridge.

At the annual meeting of the N. E. I. C. A. A., held last Saturday at the Copley Square Hotel, the place for holding the next Track and Field Championships was awarded to M. I. T., to be held on the new Tech Field. The thought of the N. E. I. C. A. A. has for many years been to try to hold its Championships on the Grounds of one of its own members. Through the inaccessibility of some of the grounds or the great cost of getting to them, this has not been possible the last few years and the Meet had to be held at Cambridge. Therefore, when the M. I. T. A. A. offered the use of the new Field at the meeting this year, the Meet was given to them without much opposition.

Our Field, except for the slight difficulty in accommodating all the contestants with suitable dressing rooms, is undoubtedly one of the best places in New England to hold such a Meet. At the present moment, there is some doubt as to the condition of the track owing to recent settlements. This difficulty, however, can be readily remedied.

## CALENDAR

Friday, Feb. 12, 1915.

FRIDAY, FEBRUARY 12, 1915.

IN CHARGE OF THIS ISSUE.

Editor: W. F. Johnson, '17.  
Associate: H. N. Keene, '17.  
Assistants: F. A. Stearns, '17; B. A. Thresher, '18; J. C. Purves, '18.

Tech Show is particularly notable for the opportunities it offers to vary the monotony of Institute life. The experiences connected with rehearsing and presenting the show, no less than the unique enjoyment afforded by the trips, are among the most memorable events in undergraduate life, while the acquaintances formed in this way are absolutely invaluable.

The first year is generally conceded to be the best one for acquiring this experience, as afterward men usually find themselves too busy for such an extensive departure from studies. We hope to see a large quota of candidates, and particularly freshmen, go out for Tech Show 1915.

We wish to express the grateful appreciation of the undergraduate body for the Faculty's considerate change in the spring vacation to accommodate the Junior Week activities. In future, care should be taken to make the Prom reservation far enough ahead so that measures of this kind may be unnecessary.

The low cost to the members of the Combined Musical Clubs' trip is particularly gratifying in view of its bearing on the prospects for organizing trips in future years. This should enable the institution to be made a permanent one.

## TECH SHOW, 1915, STARTS WITH SMOKER

Event To Be Followed Up By  
Voice Trials This  
Afternoon.

"Getting A-Cross," the Tech Show for 1915, was started last night in a manner differing somewhat from the beginnings of previous Tech Shows. A smoker was held which, before the evening was over, proved itself such a success as an opening of the term's activity that the precedent will undoubtedly be followed by succeeding managements.

The most interesting part of the program was the reading by the new coach, Mr. Samuel Hume, of several excerpts from the play. This was the first time that the student body has had a chance to see Mr. Hume in action.

The reading was followed by the singing of several of the songs and by short talks by those connected with last year's Show.

It was announced during the evening that the voice trials of candidates for both the cast and the chorus would be held this afternoon under the supervision of Mr. Howard, in the Union. It is extremely important that every man who expects to come out for any part report to-day, between four and six o'clock. Rehearsals will start immediately.

## JUNIOR CLASS DINNER

Annual Event Tuesday Night In  
Union Dining Room.

The class of 1916 will hold its annual class dinner on Tuesday, Feb 16, at half past six in the Union Dining Room. The event promises to be a great success since Dean Burton, Professors Norton, Dewey, and Hayward, and Mr. Blachstein have been secured as speakers. Besides this an unusual surprise has been prepared to take the place of the "Movies." Tickets may be purchased at the Cage and from the following Juniors: R. H. White, W. Farthing, T. M. McSweeney, K. M. Sully, Charles Lawrence, P. H. Duff, K. Dean, E. H. Clarkson, James Evans, and H. L. Bickford.

## LOST

Lost: Small, Loose-leaf, Leather-covered pocket-size Note-book containing valuable data has been lost. Return to Cage will be appreciated.

HEADQUARTERS FOR TECH

**FRESHMAN SHOW  
COMPETITION REOPENS**

**Three Assistants In Business  
Department To Be Chosen  
From Freshmen.**

Owing to the fact that several of the candidates for the business department of the Tech Show have been compelled to drop all outside activity because of their scholastic records, the competition which was started last term is to be reopened to freshmen.

At the close of this competition three men will be chosen, who will be appointed Second Assistant Business Managers, which position they will hold for the remainder of the year. Next year they will have an excellent opportunity to become First Assistants, and will receive further advancement in the third season with the Show.

The work done by the department, the parts of the work placed in charge of the assistants on the various trips, as well as the methods by which they are chosen, will be explained in detail by the present Business Manager in the Show Office at five o'clock this afternoon, or at the same hour on Monday.

**JUNIOR WEEK**

(Continued from Page One)

and attending to the costumes and scenery.

In the musical comedy proper, there is room for varied talent in acting dancing and many clever stunts find a place here. A man does not have to be an accomplished actor or a finished musician in order to qualify. All he needs is a fair voice, a little average talent, and grit.

This year, the Show will take the same trips as last year's Show, opening in Northampton on April 15, and closing in Malden on April 26. The Boston performance will be on April 17th. Since the Henry Jewett Players are in control of the Opera House, it is not certain where the Show is to be given. However, the management hopes that the Jewett Players' engagement will come to an end before the date of the Show. The provisional list of dates for the performance is as follows.

Northampton, Thursday, April 15th.

Boston, Saturday, April 17th.

Providence, Thursday, April 22nd.

Malden, Monday, April 26th.

As is customary, the musical clubs will begin the festivities of Junior week with their spring concert and dance. This will be held in Copley Hall on Friday evening, April 16th.

The clubs have just returned from their mid-year trip, during which they made a splendid record. In order that they may be in good condition for the spring concert, a number of dates will be filled during the intervening time. Concerts have been scheduled for the Edison Service Company, Lynn, Mount Holyoke College, and Wheaton College.

**IT PAYS TO  
PATRONIZE  
TECH ADVERTISERS**

**CATHOLIC CLUB BALL  
BEST HELD IN YEARS**

**Revival of Annual Event Gives  
Evidence of Increased  
Interest.**

The dance given at the Hotel Somerset by the Catholic Club last evening was a pleasant and convivial affair in every detail, and is considered the best that the club has so far managed. The ballroom was filled by the 150 couples present and the program was thoroughly enjoyed from the introduction to the matrons, from 8.30 to 9.00, until the last waltz at 2 a. m., Delaney's fifteen piece orchestra furnished music and the numbers were encored repeatedly. At midnight the assembly retired for an intermission and a buffet lunch was served. The dancing then continued till 2 o'clock.

The matrons for the evening were Mrs. Alfred E. Burton, Mrs. Charles Blodgett, Mrs. John H. Kennedy, and Mrs. Henry Hagan. Besides the patronesses, Fathers Scanlon and Hickey of the Cathedral viewed the festivities. In view of the fact that this affair was so successful it is certain that it will be repeated in following years.

**M. E. SOCIETY**

Only the names of those members who have paid their dues will be published in "Technique" as members of the M. E. Society. The membership lists are posted on the M. E. Society bulletin board and the bulletin boards in the Sophomore, Junior, and Senior drawing rooms. Members should look at these lists to see if they have paid and if their names are entered properly. If they are not marked as paid they should see Palmer, Norris, or Brayton. This must be done right away as the lists will be sent in within the next few days.

**STAGE COMPETITION**

At four o'clock this afternoon a Freshmen competition in one of the principal departments of the Show Management, the Stage Department, will start. The man eventually chosen will be second assistant stage manager, then first assistant, and finally manager. He has an excellent chance of becoming general manager in his Senior year. Candidates will meet the present manager in the Show office at four o'clock today.

**CHEMICAL SOCIETY**

The first Chemical Society talk of this term will be held tonight at 7.45 in room 11 B. Mr. D. W. Bigelow of Washington, D. C., chief chemist of the National Cannery Association will give the talk on "Troubles of a Research Chemist."

**1917 BALLOT COMMITTEE**

The Ballot Committee for the 1917 Electoral Committee has been appointed, and is as follows: W. A. Wood, chairman; R. O. Lowengard, and R. S. Stevens.

Look pleasant, please!  
We're due here at the Tech  
Office, Tech Union:

**ORCHESTRA REHEARSAL**

Tomorrow afternoon the first rehearsal of the Tech Show Orchestra will be held. It will start as soon after two as is possible, and will be under the supervision of Mr. William Howard, who was conductor last year. Men are especially needed who can play the following instruments: Cello, viola, clarinet, French horn, bass viol, and the traps. These instruments will be furnished by the Show if it is necessary.

**SENIOR PORTFOLIO**

Seniors may obtain appointments for sittings at the photographer's any noon between 1 and 2 p. m. The available time for sittings is fast growing shorter, and unless men are more prompt, some of them will be unable to have their pictures taken in time to put them in this year's portfolio.

**SWIMMING TEAM**

Manager Graves wishes to announce that the first meet of the season is to held at Andover tomorrow at 4 p. m. The following men are to report at the North Station in time to catch the 2.14 p. m. train: H. D. Bevin, A. H. Bond, Capt. W. C. Foster, R. N. Gray, J. M. Hanley, F. Hazard, N. V. S. Mumford.

**WIRELESS SOCIETY**

This afternoon at 4 o'clock in 11 Engineering B, a lecture will be given before the Wireless Society on the various types of tuning devices in practical use and their theory of operation. This lecture will be the third of a series which is to be given on the various instruments in use for radio communication.

The plans for the radio room at the new buildings in Cambridge have been completed and will be presented to the society at the meeting today. These plans call for a corner room with two large windows to give plenty of light, and a smaller sound-proof room for operating. A two kilowatt transmitting and receiving set of the latest type has been proposed.

**BOAT CLUB**

At the meeting of the Boat Club Wednesday, it was announced that candidates will be called out in about a week for indoor practice on the rowing machines lent by the B. A. A. P. H. Duff resigned as commodore on account of the point system. M. S. Wellington, vice-commodore is now acting commodore. At the next meeting Wednesday, Feb. 17, a permanent commodore will be elected.
