

THE TECH

VOL. XXXIV. No. 93.

BOSTON, MASS., MONDAY, MARCH 1, 1915.

PRICE THREE CENTS

NIEMAND ZU HAUSE

The Denouement

Time passed. How much our hunter did not know. Perhaps it was thirty seconds, perhaps five minutes, perhaps an hour. With his whirling brain, with his thoughts of Niemand zu Hause the passage of time together with all the other occurrences in that crowded hall were as a dream.

Suddenly he felt a moving object about his feet. The sensation gave him a distinct shock. He looked down and, behold, there was his faithful dog. But what a different picture he presented than that which was drawn in the first installment of our story. No longer was he the eager chaser hot on the trail of the scurrying rabbit. Alas! he had found in this artful dodger Niemand zu Hause. He was now dejected—chagrined. His very tail hung low.

But to the hunter he served to quiet his wildly distorted brain, to bring him to his senses. No longer did the crowd seem confused, no longer was the scene distorted and indistinct. Visionary objects took on certain shapes. Vague outlines assumed definite forms. He almost forgot Niemand zu Hause.

Then he suddenly realized what was going on. The hall was an auditorium—our own Huntington Hall. The occasion was an entertainment. The entertainment was exceptionally high-class vaudeville. The throng was the vastly interested audience. And the performance was NIEMAND ZU HAUSE given by the Institute Committee of our own college for the benefit of the Athletic Association.

What is the date of this affair? Your curiosity is natural but you must wait until the Wednesday issue of The Tech to have it satisfied. What is to be the nature of the performance? That too is soon to be disclosed. What the cost? Likewise you will be informed of this. Can you fuss? Shame for such a question! You—a greatly overworked "stude" with time for such a thought! But again have patience and you will find that even "she" may be allowed to see this epoch-making "drammer."

OFFICERS' CLUB MEETING

Last Friday evening Lieutenant Renwick of the machine gun company recently organized for men of the Institute and of Harvard, addressed the Officers' Club meeting in the Union on the machine gun and its operation. Captain Burnham of the same company later spoke on its organization and invited any interested to join.

SENIORS REQUESTED TO SIGN UP NOW

Freshmen And Sophomores Also Fail To Take Advantage Of Technique Sale.

The sign-up campaign for Technique which has been going on during the past week has been fairly successful in many ways, but has brought out the fact that most men feel that February is too early to sign up. In answer to this the Technique board make the following explanation:

"The book this year has as a leading feature the individual picture of nearly every Senior, which has been counted on to materially increase the sales. Just how large this increase will be is a matter of some doubt, and must be determined by the middle of March, for at that time the order for the issue is placed. If the issue is too small, many men will be obliged to go without books, simply (Continued on Page Two)

HARVARD VICTORIOUS

Technology Swimming Team Is Defeated In Meet.

The varsity swimming team was defeated by Harvard in a closely contested meet at the Cambridge Y. M. C. A. pool on Friday. Harvard won the three dashes and the relay race, while Technology took first in the plunge and fancy diving. Captain Fullerton of Harvard, who won both the 100 and 200 yard dashes, was the individual star of the meet.

The summary:

Relay race—Won by Harvard (Fullerton, Wentworth, Seymour, Jenney). Time—1m, 27 3-5s.

Plunge—Won by Hazard (T), 54 ft.; second, Dixon (H); third, Munroe (H).

50-yard dash—Won by Wentworth (H); second, Foster (T); third, Jenney (H). Time—28 4-5s.

220-yard dash—Won by Fullerton (H); second, Bond (T); third, Gay (T). Time—2m, 54s.

Fancy diving—Won by Bevins (T); second, Jackson (H); third, Munroe (H).

100-yard dash—Won by Fullerton (H); second, Wentworth (H); third, Foster (T). Time—1m, 4 1-5s.

CHESS TEAM TIES

The Institute tied Y. M. C. U. last Friday evening in a chess match played in the Union. Woodbridge, Sanger and Johansen won their matches. This gives the team sixth place in the Metropolitan league with a standing of two matches won and four lost.

WRESTLING TEAM MEETS HARVARD

All Bouts Promise To Be Close —Tech Team Appears Stronger.

The second collegiate wrestling meet of the season for the Technology team will occur this Wednesday in the gym at eight o'clock. Harvard will be the opponent, and since Tech won the dual meet last year by a score of 5 to 1, the Cambridge team is out to even matters up. Five of last year's team are lost to Tech and thus a weaker team will be put on the mat, however the strength of the Crimson team has not appeared anything unusual as it was defeated by Clapp Memorial on Saturday night to the tune of 4 to 2.

The Technology team will be strong in the 115, 135 pound and heavyweight classes, while Harvard has shown its best form at the 125 and 145 weights. The 115-pound class should prove very fast, when Loo, the Chinese star of Tech, meets Dewart of Harvard. Loo is now in his third year of wrestling for Tech, and has yet to lose a match. He also possesses the unique distinction of being the first Chinese student to win a varsity letter in any eastern college. Dewart has been showing fine form all season and his easy victory over Webb of the Clapp Memorial (Continued on Page Two)

DATES ANNOUNCED

Tech Show Given In Jordan Hall And The Shubert.

There will be three performances of Tech Show in Boston this year. On Friday afternoon, April 16, the customary performance for the Institute students will be given at the Shubert. Saturday afternoon at Jordan Hall will be presented a special performance intended for students from schools around Boston. On Saturday night the Show will again be given in Jordan Hall, primarily as an alumni affair.

ELECTORAL BOARD

At the first meeting of the recently elected Technique 1917 Electoral Board last Friday, the usual constitution, with a few minor changes, was adopted. A. P. Farnsworth was elected vice-chairman, and J. M. DeBell secretary and treasurer. Nominations for the office of Editor in Chief were considered.

The next meeting of the board will be held Wednesday at 5.10 in 8 Eng. C.

PROM SIGN-UPS COMMENCE TODAY

Seniors And Juniors Will Be Considered First—Deposit Required.

Junior Prom Sign-ups will be conducted in the Union from one till two today and this will be continued until further notice. W. J. Farthing, secretary, and J. M. Evans, treasurer of the Prom Committee, will be in charge. A deposit of one dollar is required for all sign-ups, but the whole expense will not exceed six dollars. The Prom will be held on Monday evening, April 19th, at the Copley Plaza, and from present indications it will be a "Prom Extraordinaire." The Committee promises an unusually attractive program and it is whispered that there will be an innovation in the dance orders. The contract for the printing was given to Fry & Co. of Philadelphia, and the Prom Committee announces that until within two weeks or ten days of the Prom, the dance orders will not be given out, but preliminary orders can be obtained.

Music will be furnished by twenty pieces of Urquid's orchestra, and the musical selections have been chosen with extreme care. All students must remember that the number of sign-ups is limited, and that Sophomores and freshmen who sign-up now will be the first to receive recognition.

INSTITUTE COMMITTEE

Electrical Engineering Society Is Reinstated.

The third meeting of the term was held by the Institute Committee last Thursday. The reports of the various sub-committees were first heard, the budget committee emphasizing the necessity of securing money for athletics, because this is the first year that the student body (Continued on Page Two)

6.00—Naval Arch. Society Meeting. Room B Union.

JUNIOR PROM SIGN-UPS OUT TODAY

THE TECH

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

MONDAY, MARCH 1, 1915.

The T. C. A. talk given last Thursday in the Union by Rabbi Levi of Temple Israel was one which, if heard and taken to heart by every Tech man, would go far toward alleviating some of the more flagrant types of narrow-mindedness to which we, as a class, are subject. The condition of children under the present industrial system was rightly presented as the foremost phase of the problem with which the New Morality must deal, since the whole future of the race lies in the hands of its children.

The enlarged conception of the duty of the state is another phase of the same idea. It is no longer considered enough for the government to see that every individual is let alone; in the present state of industrial development such a phrase could have meaning only on a Crusoe's island. The protective duty of the state is already being expanded by public opinion to include the bringing up of children to be useful citizens, and more radical interpretations are constantly growing in the public mind.

One of the more conspicuous non-economic accomplishments of the New Morality mentioned by Rabbi Levi is the gradual replacement of the infamous double standard of morality, with its one stone-blind side, by a just and impartial morality which looks both ways.

HARVARD MEET

(Continued from Page One)

rial team shows that Loo will have no easy task on his hands.

In the 125-pound class, Rounds and Davidson will oppose each other and the bout appears to be quite even. Rounds has had considerable difficulty in making the weight this year and may find himself somewhat weakened as a result. Tech certainly appears strong in the 135-pound class with four men very evenly matched. Giles, a former Texas amateur champion, will meet Carter of Harvard and seems to be the favorite.

In the 145-pound class Tech is not so well represented, being forced to use Hoffman, a 135-pounder, while Captain Brennan of Harvard, his opponent, is the only veteran of the Crimson team. Harvard also seems very strong in the 158-pound class, for Brennan will oppose Jack Wood and, if the former is not too much tired by his first bout, Wood will have a very difficult match to win.

In the light weight class Weatherhead of Harvard will have a ten-pound advantage over Bond and should win the bout, but things are evened up in the heavy weight division when "Brute" Crowell, one of the best in New England in that class will go on the mat a favorite over Cook of the Cambridge team.

INSTITUTE COMMITTEE

(Continued from Page One)

has had control of the finances for athletics. From present indications it appears as if there will be a deficit of \$200 and it was expressed by the committee that it was the duty of every student to co-operate in meeting this obligation. The blanket-tax seems a definite way out of the difficulty, but for the present it is entirely up to the students.

The petition of the Electrical Engineering Society which requested a reinstatement on the Institute Committee was granted with the provision that a fee be paid amounting to that of the initiation expense.

In conclusion the point system committee notified that K. M. Sully and R. H. White are over points and it will be necessary for their total number of points to be lowered.

COURSE VI LECTURE

Telephone Equipment Subject Of Friday's Talk.

At the meeting on Friday, Feb. 26, of the Electrical Engineering Society, Mr. L. F. Morehouse of the American Telephone & Telegraph Co., gave an instructive talk on "Telephone Central Office and Switchboard Equipment," illustrated with lantern slides.

Elections were held for an Entrance Committee of the society. The men chosen were H. E. Schabacker, '16; W. C. Greene, '16, and D. W. Penn, '15.

TECHNIQUE SIGN-UPS

(Continued from Page One)

because they did not sign up when first asked. On the other hand, if the issue is too large, the board loses a large amount of money on each book they fail to sell. The natural conclusion is that the order will be under rather than over-estimated, and books will be scarce at the time of the rush. Those men signing up before the middle of March will be given the preference when it comes to the actual sale of the book.

"Another fact which has been brought home to the board is the feeling that the book is only for Juniors and Seniors. This year, more than ever before, it will be an Institute, not a Class, publication, and every man, be he freshman, Soph, Junior or Senior, should think twice before he lets slip the opportunity to buy one."

The work on the book continues to give promise of a wonderful Technique, one which will be really different from those of previous years. The art work to date has surpassed even "Fanny" Freeman's efforts, while the grinds, the informal pictures, the statistics, and the athletic section are brim full of "pep." The Senior section is practically completed, a few men only have not returned their proofs or passed in their statistics, and this feature bids fair to be a remarkable success.

Ask the board about the scandal in the Chem. lab.—they probably won't tell you, but it's all in the book.

THE man that's always flyin' off the handle don't crack many nuts in this world.

Velvet Joe

A cool, contentful smoke of friendly VELVET is a wonderful help when you've got a hard nut to crack. Its mellowness will "keep you on the handle." 10c tins and 5c metal-lined bags.

WRESTLING TEAM WINS FROM SALEM Y. M. C. A.

Four Out Of Seven Bouts Won By Tech Team—New System Of Referees Tried.

The Wrestling Team was victorious in its meet with the Salem Y. M. C. A. last Saturday night, winning four out of seven bouts. A system of two judges and a referee was tried. The decisions were given by the judges, the referee deciding only in case of their disagreement.

The summary:

125-lb. Class—Loo, Tech, won from Ouimet, Salem, on decision. Time—10m.

135-lb. Class—Stebbins, Tech, won from Lenieux, Salem, by default.

145-lb. Class—Sullivan, Salem, won from Giles, Tech, on decision. Time—15m.

152-lb. Class—Hoffman, Tech, threw Pierce, Salem. Time—9m, 47s.

152-lb. Class—Wood, Tech, won from Morin, Salem, on decision. Time—10m.

158-lb. Class—Mercy, Salem, threw Turner, Tech. Time—5m, 20s.

Light-Heavyweight—Madden, Salem, won from Bond, Tech, on decision. Time—15m.

STUDENT DISCUSSION

Students And Resources Of Japan Taken Up.

Last Thursday afternoon a student discussion was held on the educational condition of Japan. Mr. E. L. Clark of the Institute conducted the meeting. The first speaker was Mr. E. F. Bell who has just returned from Japan, having been an English instructor in one of the high schools there. He said that there seems to be a closer understanding between the instructors and students in that country than in ours. The scholars now sit in chairs and it is noticed that the rising generation is taller than the previous one.

Mr. Clark, who has also served as a teacher for a couple of years in Japan, spoke of the natural and engineering resources of the country. Half the exports come to the United States and we send one-third of ours to Japan.

The next conference will be held next Thursday afternoon and the engineering possibilities of China will be taken up.

INTERESTING TALK IS GIVEN BY RABBI LEVI

Speaker Chooses For Subject "The New Morality"—Many Present.

The Technology Christian Association had its regular weekly talk last Thursday noon in the Union when Rabbi Levi of the Temple Israel was the speaker. His subject was "The New Morality" and the talk was a very interesting and helpful one, being well received by the large number present.

The speaker mentioned the child labor problem, stating that 1,750,000 boys and girls were engaged in wage-earning occupations, many of them four, five and six years of age, having to work from ten to twelve hours a day. Thousands of boys of ten years are in the coal mines. "Children are here in this world to be allowed to live, not to be buried."

"The New Morality" has changed the attitude of society towards the man. The fundamental duty of the state, as is now being recognized, is to protect man. Educationally, the individual is coming into his own, and industrially, man is standing on his own feet. There is also a changed attitude toward woman. There are 6,000,000 women who are wage-earners, while thousands of women are engaged in a wage-earning capacity, who do not need the wage but do the work for charity. Their demand at the present time is for suffrage.

"The New Morality" is changing the attitude toward marriage. The relation between man and woman should be an absolute equality in morality, as in other things. Women are beginning to demand the same loyalty and fidelity from their husbands as the husbands do from their wives. The whole attitude is changing toward poverty, the defective, delinquency and immorality. "The time is coming when we must either rise or fall, sink or swim."

The better the foundation, the stronger the argument for a lasting style.

Our fabrics are always all-wool. Not on somebody else's say-so—

But by our chemical test. Result is—the style lasts as long as the suit.

And the suit? As long as you want it to—usually longer. See our Spring showing at the Tech Office, Tech Union:

SMOKER OF THE TECH

Athletic Men Share Views With Newspaper Board.

The discussion of publicity for Institute athletics was the chief feature of the smoker held last Thursday evening by The Tech. Representatives from the various teams were present as guests, and explained their ideals of journalism. Short talks were given by D. B. Webster, manager of the Track Team; C. W. Loomis, editor-in-chief of Technique; L. Cooley of the Athletic Advisory Council, and W. H. Fielding, President of the Machine Composition Co. H. G. Mann, reader for the Musical Clubs, entertained the company with several well told humorous stories.

COMMUNICATION

To the Editor of The Tech:

Last Sunday two freshmen spent the greater part of an afternoon playing chess in the Union. The Sunday before that two Juniors were playing "rummy." In my opinion gaming on Sunday should no more be permitted in the Union than in any of the famous joints in Providence, which are receiving much attention from the Rhode Island officials just at present.
