“Getting A-Cross” Well Under Way—Ballet and Chorus Picked—Business Competition Closes—First Proof of Poster

Plan for “Getting ‘A-Cross,” the Tech Show for 1915, is beginning to materialize. The dates for the Boston performances are definitely known. The production will be given in the Shubert Theatre on Friday, the sixteenth of April; and in Jordan Hall on the following afternoon and evening. It now seems probable that it will be seen in Madison on the twenty-first and in Northampton on April twenty-fourth.

To the Editor of The Tech:
As one who is always interested in things and whatever appears to be improvement, I was both interested and pleased at the fact that at the first meeting of the Senior Class Day Committee a precedent of two years standing was abolished. There seems to be a tendency at the State to fall into customary ways of doing things and assuming that the way of the least resistance is always productive of the best results. In selecting for the First Marshal a man other than he who received the highest vote for the committee there seems to be the premise that at last the school has shown signs of life and that perhaps this year's class will be able to give us something worth while for Class Day. Like the exercises of former years, matters of election and promotion have favored childishness and mere blind following of the leader under the guise of "precedent." There is bound to be more or less criticism of so radical a change, and there will probably be those who, bound by the idea of precedent, will, like the proverbial chicken, fly wildly about for a time, but upon examination it will probably be found that they deal largely in personalities; and after all, petty criticism is for petty men, and every fellow who is big enough to see in the change the awakening of the State from its monopsonistically directed lethargy of former years will pay little heed to whatever more personalities may be induced into the inevitable discussion resulting from this change.

Yours truly,
O. H. Freeman.

Editor of The Tech:
For a great many years there has been the custom of electing the man receiving the largest number of ballots on the Class Day Committee election First Marshal of the class. It is true that this is nothing more than a popularity contest, and may be open to objections. However, it is acknowledged that when the more popular and best-liked man receives the largest number of votes, he should certainly receive the position of First Marshal.

On hearing the result of the ballot in the meeting last night, I was absolutely dumbfounded. It seems to me impossible that such a situation could be put over without being worked out previously, and I am willing to state right now that I believe the affair was "fixed up." When a man with thirty-nine votes, next to the list, and whose only claim to the consideration is that he has been a Business Manager of the class executive committee and a member of one of his class teams can be elected to the highest Class Day position in place of a man who has done as much for his class and the Institute as Frank Scully, it looks like a "good state nigger in the woodpile" to me. Scully has been president and vice-president (Continued on Page Three).

of his class, member of the Institute Committee for his class, chairman of the Finance and Budget Committee, manager of basketball two years, captain of the football team his Sophomore year, member of baseball, football and basketball teams in his Freshman and Sophomore years, ex-steward chairman of the New Committee and writer of Tech Sport for two years. In the Technique Electoral Committee and Junior Class Day Committee election he received the greatest number of votes, and when elected president of the class, he received more votes than the other two candidates together. It looks pretty rotten for a man to even accept the position of First Marshal when a man is put up with this record.

It was mentioned in the committee that Urquhart was nearly through with his record. He still has a deficiency in one of his most important lab. courses, and his activities have been so large (?) this year that he was unable to accept the position of Treasurer of the A.A. some two months ago.

When Urquhart was nominated, one of the chief arguments put up by Leeb for election was that it was strictly not an honorary position, but a position for work, and as his candidate would soon have every afternoon off, he was better equipped than any other, who was thus able to do such many activities, he claimed. In nearly every college, the position of First Marshal is strictly honorary, and Urquhart has himself admitted that it is at Technique. There seems to be a little discrepancy between Urquhart and his "henchmen" in this respect.

I simply wish to state to the class as a minority member of the committee representing (?) my view on this subject, and my objection to the injustice done.

Sincerely,

HOWARD C. THOMAS
Member Junior Class Day Committee.

To the Editor of the Tech:

I have been associated with the Institute I have met one of the best things in the student life here was the freedom from politics, the spirit that lets the best man win. Today I regret that I must give up this idea, for I have just seen one of the most ridiculous political deals pulled off that has ever been recorded here. I have been a certain number of cases, most of whom have been
