PRICE THREE CENTS

HOLY CROSS TEAM LOSES TRACK MEET

Huff Makes Fast Time In The Hurdles—Brown Runs A Good Race.

The Technology track team easily defeated Holy Cross last Saturday afternoon by a score of 79 1-2 to 46 1-2. On account of poor weather and a heavy track, the running was quite difficult and only a few fast times were made. R. G. Brown '16 did the best running for Technology, covering the mile in 4 minutes 36 4-5 seconds, which was good time under the circumstances. T. H. Huff '15 easily won both hurdle races, being clocked in 16 2-5 seconds in the high hurdles, thus equalling the M. I. T. record.

Both C. W. Loomis '16 and F. P. O'Hara '17 failed to come up to expectations in the sprints, Kelley of Holy Cross, who won both dashes, being timed at 10 seconds flat in the 100 and at 22 1-5 seconds in the 220. The work of the Technology men in the weight events was unexpected, for W. C. Swain took first place in the hammer throw and second in the shot-put, while N. W. Gockey '17 won the discus event. The throw of 109 feet 13-4 inches by Gockey in the discus is the best performance of a Technology man in some years past.

C. T. Guething ran a good race in the quarter mile, losing by a narrow margin to Lee of Holy Cross. F. L. Cook '15 easily won the two-mile with F. J. Wall '16 a poor second. The

(Continued on Page 2)

COURSE IV ELECTIONS

Results Of Elections Just Over—Announced Below.

The Architectural Engineering Society announces the following elections: President, F. D. Ross, '16; Vice-President, J. P. Uhlinger, '16; Secretary, W. F. Howard, '16; Treasurer, F. L. Butterworth, '17; Executive Committee, I. B. McDaniel, '16, C. P. Wallis, '16, and W. Mellema, '15.

The officers of the Architectural Society for the coming year are as follows: President, T. D. Brophy, '16; Vice-President, S. M. Spaulding, '16; Secretary, C. F. Cellarius, '16; Treasurer, D. H. McLellan, '17; Executive Committee: H. W. Jackson, '16, W. G. Sprague, '16, and H. C. Stearns, '15.

PHOTOS WANTED

The Technology Club of New York City is anxious to get group pictures of clubs, teams, and other Tech activities to hang on the walls of their clubhouse, 17 Gramercy Park. If any students have pictures which they do not want, the Club would be pleased to receive such photographs.

MUSICAL CLUBS HOLD ANNUAL BANQUET

Last Saturday's Dinner Given At Copley Square—New Elections.

Last Saturday evening at the Copley Square Hotel the Combined Musical Clubs held their annual banquet. Preceding the dinner W. L. Ogden '16 was elected leader of the Glee Club, R. S. Rowlett '16 leader of the Banjo Club and M. M. Brandegee '16 leader of the Mandolin Club.

The managing board announced the following appointments for the coming season: General Manager, W. B. Ford '17; Secretary-Treasurer, E. M. Woodward '17; Manager of Glee Club, P. W. Carr '18; Manager of Mandolin Club, P. N. Dinkins '18; Manager of Banjo Club, P. G. Woodward '17.

After-dinner speeches were made by Professor Bugbee, Professor Russell, and the new manager, W. L. Ford. Retiring Manager Allen Abrams announced the presentation of gold charms to the executive board and to the Seniors who had been with the Clubs for two years, a custom which will be continued in the future.

BOWDOIN TRACK MEET

Maine Athletes Are Strong In The Weight Events.

The next dual meet scheduled for the Technology track team will be held with Bowdoin at the Tech field Saturday, May 8, and from the record of both teams to date, the track management assures a well contested meet. In the recent track meet with Bates, the Bowdoin men did fine work in the weight events, Leadbetter winning the shot-put with a put of 38 feet 85-8 inches and throwing the hammer a distance of 137 feet 11 1-2 inches. Moulton of Bowdoin threw the discus 126 feet 13-4 inches and Leadbetter took second place by a throw of 119 feet. From the performances of these two men and together with the work of Wood in the high jump and Smith in the broad jump, the record of the Bowdoin team in the weight and field events has been very good.

The meet this Saturday will start promptly at 2.15 and tickets will be placed on sale for the price of 50 cents.

FACULTY NOTICE

By applying at 16 Rogers, Seniors may obtain any papers written by them which are now in the charge of the English Department.

LARGE NUMBER AT COURSE II BANQUET

Results Of Election Of Next Year's Officers Announced.

One hundred three men attended the annual banquet of the Mechanical Engineering Society at the Engineers' Club last Thursday evening. Immediately following the dinner the officers for the past year gave their reports. Secretary H. E. Morse spoke of the trips during the year and of the campaign for members which has brought the membership past the 200 mark. Treasurer G. A. Palmer gave the encouraging statement that the surplus in the treasury had been doubled during the year. W. R. Hanchett of the Governing Board summarized the work of arranging the trips and lecture talks.

Chairman F. G. Purinton then announced the result of the elections for the ensuing year. They are as follows: Chairman, K. C. Richmond '16; Vice-Chairman, P. Y. Loo '16; Treasurer, J. W. Stafford '16; Secretary, C. F. Shedd '16; Governing Board, G. W. Tuttle '16, R. M. Snyder '16, and E. W. Rounds '17.

After a short speech by the chairman-elect, Mr. Howard Elliott, presi-

(Continued on Page 4)

NO CLASS CREWS

Only An Average Of Twelve Men Report Daily.

Owing to a lack of candidates, the work of the Technology crew men so far this season has been confined chiefly to an eight-oared shell. At the present time only an average of twelve men report and there will be no class races this year from lack of candidates. Coach Stevens has provided himself with excellent improvements to use in coaching the crews. Up to date there has been no race scheduled, but an effort will be made to obtain races with Rindge Tech and other schools.

Last Saturday enough men reported to fill the large shell, and a row of eight miles was taken. Although the weather was bad, the rowers showed good form. The boat was filled by the following men: G. D. Robinson '15, bow; T. Z. Haviland '17, 2; J. N. Burford '16, 3; J. M. Ralston '16, 4; J. M. Mulowney '18, 5; G. W. Repetti '16, 6; and H. J. McDonald '17, stroke.

MENORAH SOCIETY

There will be a meeting of the M. I. T. Menorah Society on Tuesday, May 4, at 4.30 p. m., in 11 Engineering B. Mr. Henry Hurwitz, Chancellor of the Intercollegiate Organization, will address the meeting.

SUMMER CAMPERS HOLD ENTHUSIASTIC SMOKER

Seniors Are Addressed By Major Cole And Professor Spofford.

In spite of the rain, about 150 Seniors were present at the class smoker held in the Union Friday night. The hosts of the evening were the summer camp courses, I, III and XI, the members of which wore a pink as a distinguishing mark. Everybody was given a corncob pipe with the class numerals upon it, and also a package of tobacco. From the time the meeting was opened by President Dalton until the last strains of the Stein Song had died away, there was not a dull moment.

Professor Spofford, head of the department of Civil Engineering, was the first speaker. His topic was on the influence of the summer camp and he stated that the object of the course was to foster character, judgment, health, general education, scientific training and engineering education, named in the order of their relative importance. Professor Spofford was followed by the Beta quartet, composed of Howlett, Coldwell, McEwen and "Fat" Jackson, who sang "I knew she wouldn't do." Their selections were received with much applause and three encores were given. Stanley Baxter then executed a difficult clog dance, and after him came several numbers by the Hawaiian Quartet, consisting of McDaniel, King, Williamson and Howlett. The next speaker was Major Cole, who praised the summer camp "trust" for getting up the smoker and commended the opportunity of making friends at the camp. In the course of his remarks he lauded the inclusion of the Portfolio in Technique, and also spoke of the excellent spirit which now pre-

(Continued on Page 3)

TICKET SELLERS MEET

There will be a meeting of all men selling tickets for the Civil Engineering Society banquet tomorrow afternoon at five o'clock in 41 Engineering B.

MONDAY, MAY 3, 1915.

Although the time for filling out the Institute Committee's ballots is already half over, scarcely three hundred have been handed in at the Cage. This number is far less than the number required to obtain a representative expression of student opinion, and unless the ballots come in more rapidly it looks as if the Institute Committee must forever despair of ascertaining whether the students think or what they think.

Any doubts which exist concerning questions 2 and 3 will be cleared up by the Blanket Tax Committee's communication. Dissatisfaction with the present list of activities under question 4 should only serve as an incentive to fill out the ballots with any amendments which seem to be desirable. The opinion of every undergraduate on every question is what the Institute Committee wants, and it is what they will get if the success or failure of the scheme is made the personal concern of every undergraduate.

CABOT MEDAL AWARDS

The Committee on Cabot Medals made their awards on last Friday. The following men have their names engraved on medals, which are to be presented to them by the president at the Field Day Dinner next fall: J. W. Kilduff, P. H. Kennedy, E. Bergman, A. B. Miller, L. A. Stewart, all 1918 men.

The five men given Honorable Mention are: W. J. Henry, D. M. McFarland, D. G. Merrill, G. B. Smith and B. O. Pinkham, also '18 men.

COMMUNICATION

To the Editor of The Tech:

There has arisen a misunderstanding as to the meaning of questions 2 and 3 on the Institute Committee ballots which have been distributed. Some have thought that a \$3 or \$5 tax for athletics alone would not include admission to all athletic events. This is not the case, as any tax for athletics alone would, of course, include admission to all games and meets, and on payment of a \$3 or \$5 tax a student would receive a season ticket to all athletic meets.

It is desired that everyone answer all questions.

"Blanket Tax Committee."

HOLY CROSS DEFEATED

(Continued from Page One)

Technology team had little trouble winning all the field events for the best Holy Cross could do was second and third in the broad jump and third in pole-vault.

The summary:

100-Yard Dash—Won by Kelley of Holy Cross; Loomis, M. I. T., second; O'Hara, M. I. T., third. Time, '10s.

220-Yard Dash—Won by Kelley of Holy Cross; Loomis, M. I. T., second; Lee, Holy Cross, third. Time, 22 1-5s.

440-Yard Run—Won by Lee of Holy Cross; Guething, M. I. T., second; Reilly, Holy Cross, third. Time 52 2-5s.

880-Yard Run—Won by Higgins of Holy Cross; Burke, Holy Cross, second; Brock, M. I. T., third. Time, 2m. 33-5s.

Mile Run—Won by Brown, M. I. T.; Dunphy, Holy Cross, second; Allan, M. I. T., third. Time, 4m. 36 4-5s.

Two-Mile Run—Won by Cook, M. I. T.; Wall, M. I. T., second; Litchfield, M. I. T., third. Time, 10m. 8 3-5s.

120-Yard High Hurdles—Won by Huff, M. I. T.; Sewall, M. I. T., second; Mooney, Holy Cross, third. Time, 16 2-5s.

220-Yard Low Hurdles—Won by Huff, M. I. T.; Mooney, Holy Cross, second; Foster, M. I. T., third. Time, 26 4-5s.

High Jump—Won by Teeson, M. I. T.; Doon, M. I. T., second; Sullivan, M. I. T., third. Height, 5ft. 6in.

Broad Jump—Won by Reed, M. I. T.; D. Sullivan, Holy Cross, second; Lee, Holy Cross, third. Distance, 21ft. 1in.

Pole Vault—Won by Lawrason, M. I. T.; Reeve, M. I. T., second; Gokey, M. I. T., and McManus, Holy Cross, tied for third. Height, 10ft.

Shotput—Won by Brawley, Holy Cross; Swain, M. I. T., second; Brownie, M. I. T., third. Distance, 37ft. 7in.

Hammer Throw—Won by Swain, M. I. T.; Brownie, M. I. T., second; Lee Holy Cross, third. Distance, 100ft. 5in.

Discus Throw—Won by Gokey, M. I. T.; Brawley, Holy Cross, second; Dolan, Holy Cross, third. Distance, 109ft. 13-4in.

vails concerning drill. He mentioned the chances for Tech men in the army and derided the extremists who advocate universal disarmament.

The "Cardinal and the Gray" was then sung by the assembly and this was accompanied by a cheer for 1915. When the noise had subsided, McDaniel played a little ragtime and then Williamson sang some of his Tech Show songs. Durkee and Rounds were the next feature in a wrestling bout of two halves, the first consisting of straight wrestling and the second of the Chinese wrestling in which each man is blindfolded and provided with a newspaper club with which to belabor his opponent. Between the halves "Pop" Wood sang the "Sounding Horn" and "The Banjo Song" which he sang in the summer camp minstrel show two years ago. Sid Clark was accompanist. Following the second half of the wrstling, which created much amusement, cheers were given for Professor Spofford, Major Cole, "Jack" Dalton and the class.

Refreshments were then served by Professor Colton, and after that the fellows gathered around the piano and sang, tried to sing, and yelled until about midnight. The meeting closed with the Stein Song and a "We Are Happy" for the hosts.

RIFLE CLUB

National Rifle Association Qualifications On Fifteenth.

Last Saturday afternoon two squads of the Rifle Club tried their hands at making good scores on two different ranges, but cold weather and adverse conditions conspired to reduce scores considerably below the average. The team squad shot at Wakefield, where the Intercollegiate match will be held, while the other members of the club pounded away at the Walnut Hill ranges. From Saturday's showing it was impossible to judge with any accuracy what men will be chosen to represent the Institute, and no team will be picked until after the N. R. A. qualifications have been held.

Only the team squad will shoot this week. The following Saturday, May 15, the N. R. A. qualifications will be held. A list of those eligible will be posted on the Union Bulletin board this week. In order to be able to finish the trials in one day it will be necessary to start in the morning, and President Keating has requested that all those intending to take part leave a note at the Cage stating whether they can go out in the morning and if so at what time.

CHEMICAL'S ELECTIONS

The Chemical Society elections will be announced at the annual banquet, which will probably be held on May 18.

dent of the New Haven Railroad, was introduced. He is a member of the Technology Corporation and of the visiting committee of the M. E. Society. Mr. Elliott spoke of the opportunities for American engineers which would be given by the European war. He deplored the fact that the voter in this country is so disinterested in political issues. An invitation to visit the New Haven shops at Readville was extended to course II men.

Mr. A. B. Tenney, '94, of C. F. Tenney Co., who was the next speaker, amused his audience by relating some of his experiences since he left Technology. Professor Hayward gave a talk on the qualities which make an engineer a successful man. He emphasized the value of meeting other men and establishing a reputation by taking an interest in public affairs.

Professor Miller gave a brief history of the M. E. Society, showing how it was first kept running by the professors and how it had now become strong enough to stand without the aid of the instructing staff.

Needn't be careful with Moore's

PROFESSOR PEARSON HEAD OF DEPARTMENT

Successor To Professor Bates Of
English Department Named
—Other Changes.

Professor Arlo Bates retires from the active head of the Department of English at the end of the present academic year. He is succeeded in that position by Professor Pearson, a graduate of Harvard, who has been on the staff of the Institute since 1893. Associate Professor Archer T. Robinson, also a graduate of Harvard and a member of the staff of the Institute since 1896, has been advanced to the grade of Professor of English. In addition to these changes the Department has been strengthened by the appointment of Professor Frank Aydelotte. Professor Aydelotte has had experience in teaching in Pennsylvania, Kentucky and Indiana. He took his A. B. degree from Indiana in 1900 and received his A. M. degree from Harvard in 1903. In 1905 he proceeded to Basenose College in the University of Oxford, England, from which he received his degree of Bachelor of Literature. On returning to this country Mr. Aydelotte was appointed Associate Professor of English at the University of Indiana, where he is at the present. Professor Aydelotte is most highly recommended as a teacher and scholar, with unusual power of interesting students and stimulating their capacity for clear thinking. He has attracted attention by his articles in the "Atlantic Monthly" and in various educational periodicals. His published works include "College English," a manual for the study of English literature and composition issued by the Oxford University Press, and a volume in the series of Oxford Historical and Literary Studies, published under the direction of C. H. Firth and Walter Raleigh.

Other changes include the promotion of George H. Clark of the Department of Mechanical Engineering to the position of Instructor.

CHEMICAL SOCIETY

The Chemical Society will hold its final meeting and banquet on the eighteenth. The names of the men elected for officers of the society will be announced at that time.

ATHLETIC NOTICE

The meeting of the Athletic Advisory Committee which was scheduled for last evening has been postponed until next Tuesday, May 11.

CATHOLIC CLUB DANCE

The Catholic Club will hold an informal dance in the Union this evening. The attendance is open to anybody desirous of coming. The subscription is one dollar per couple.

BOWDOIN TRACK MEET SATURDAY AFTERNOON

Record Of Maine Athletes Is
Mediocre In Running
Events.

Judging from the recent records of the Bowdoin runners, the times that will be made by the Maine athletes in the dual meet this Saturday afternoon will not be especially fast. At the Bowdoin-Bates meet the best time for the 100-yard dash was 10 3-5 seconds. This was made by Wyman of Bowdoin. Loomis and O'Hara have both done better than this during the present season, and in fact the former finished only a yard behind Kelley when the Holy Cross runner covered the distance in 10 seconds flat.

In the 220-yard dash the best the Bowdoin sprinters could do in the meet with Bates was to take third place while the time of the winner was 23 2-5 seconds. From the past records of the Technology men in this event, the track management looks for a clean sweep.

The 440-yard run was captured by McWilliams of Bowdoin in the meet with Bates. He made the time of 54 seconds. In the Spring Meet this year, C. T. Guething ran the race in 51 1-5 seconds, and since Reed is capable of 52 seconds, Technology is well represented.

The Maine runners have no man who has run the 880-yard run in better time than 2 minutes 5 1-5 seconds in their recent meet, and according to the M. I. T. management, the Technology runners are superior in this event.

Bowdoin does not appear very strong in the mile event so far this season. Cutler has run the distance in 4 minutes 45 4-5 seconds only. At least two of the Technology runners have been doing better than this. Brown has credit of 4 minutes 36 4-5 seconds at Worcester and Allen has been running consistently all season.

From the work of Cook and Wall in the two-mile event, the track management expects little trouble from Bowdoin. Both these men have done under 10 minutes, while Irving of Bowdoin was timed at 10 minutes

(Continued on Page Three)

COURSE XV TRIP

Through the efforts of Professor Dewey, a large number of the students of Course XV will have a chance to see the interior workings of the Boston Clearing House. The party will leave Rogers Building this morning at 9.20 o'clock and will proceed directly to the place of interest. A lecture will be given by one of the officials of the Clearing House and the normal working operations of that organization will be observed.

FRATERNITY FORUM IDEA GREAT SUCCESS

Plan Will Be Adopted By Nearly
All The Chapters
Next Fall.

This year for the first time the idea of "fraternity forums" has been carried into effect at the Institute, and from present indications the plan will be adopted by practically all the fraternities at the opening of the school year next fall. The forum plan is to get successful business men of Greater Boston to give informal talks to the men of the different chapters. The fraternities that have been giving this idea a trial are Kappa Sigma, Sigma Chi, Sigma Alpha Epsilon and Phi Beta Epsilon.

The scheme is to give the men at the Institute personal contact with men of experience and high ideals. The speaker is invited to dinner, after which the talk has been either an informal after-dinner speech or a general open discussion.

A list of speakers has been made and from these the fraternities have chosen their speakers. The types of men that are brought in contact with the students include business men, professional men and lecturers, and may well be illustrated by those who have spoken at the various fraternities. The list comprises in part, Professor DeWitt G. Wilcox of Boston University, Charles E. Fish, Thomas Drier of the University Press, Franklin B. Ganse, Dr. Charles Gray, Walter B. Snow, engineer, and Jefferson I. Harbour, author and lecturer. Several other prominent men of Boston are on the list, but, as yet, have not spoken at any of the fraternities.

Next fall the plan will be well under way, an exhaustive list of speakers prepared and the forums started in all the fraternities, each house having a talk possibly every two or three weeks. The business men who have given talks are as willing as the students to get together and to discuss matters of interest.

MINING SOCIETY

Professor Lingren will speak to the Mining Society at the smoker which will be held in the Union next Friday at 7.30 o'clock. His subject has not been announced yet. Refreshments will be served.

SOPHOMORE BASEBALL

The 1917 baseball team will practice this afternoon at 4.00 o'clock at the field near the Art Museum.

CLASS DAY COMMITTEE

The Senior Class Day Committee will hold an important meeting at 4.30 o'clock this afternoon in 11 Eng. B.

INSTITUTE COMMITTEE PROPOSES AMENDMENTS

Revised Method Of Holding
Class Elections Departure
From Old Scheme.

Next week each class is planning to hold a mass meeting at which each of the amendments for the class constitution suggested by the Institute Committee will be considered. Below is a list of the amendments and the articles which they replace:

Section 1, Article II, of the present constitution reads: "All persons taking a majority of hours with this class shall be eligible for membership." The amendment reads: "All persons entering the Institute with this class shall be eligible for membership." This permits a man who has dropped back a year to take a five-year course to be eligible for membership in the class with which he entered and paid his dues.

Section 3, Article II, of the present constitution reads: "Any member who shall, after becoming a member of this class, take, for any reason, a majority of his hours in another class, shall thereby forfeit his membership in this class." This section will necessarily be stricken out if the previous amendment is adopted.

A proposed amendment called Section 3, Article II, reads: "A person entering the Institute from another college shall be a member of the Class with which he takes a majority of his subjects." This is to provide for those students who do not enter the Institute as freshmen.

Another proposed section called Section 3, Article III, reads: "The temporary football manager, a Sophomore, shall be elected by the In-

(Continued from Page One)

dent of the New Haven Railroad, was introduced. He is a member of the Technology Corporation and of the visiting committee of the M. E. Society. Mr. Elliott spoke of the opportunities for American engineers which would be given by the European war. He deplored the fact that the voter in this country is so disinterested in political issues. An invitation to visit the New Haven shops at Readville was extended to course II men.

Mr. A. B. Tenney, '94, of C. F. Tenney Co., who was the next speaker, amused his audience by relating some of his experiences since he left Technology. Professor Hayward gave a talk on the qualities which make an engineer a successful man. He emphasized the value of meeting other men and establishing a reputation by taking an interest in public affairs.

Professor Miller gave a brief history of the M. E. Society, showing how it was first kept running by the professors and how it had now become strong enough to stand without the aid of the instructing staff.

Needn't be careful with Moore's

'Course not—Moore's is a pen to work with—not to nurse. Use it any way you like—carry it any way you like—tucked in a book or dropped in a purse—it's SAFE anyway. For it's the original "won't leak" pen.

Starts writing at a touch—and shuts up bottle-tight when you close it. Always writes RIGHT. See the 127 styles, \$2.50 up.

PRICE THREE CENTS

PROFESSOR PEARSON HEAD OF DEPARTMENT

Successor To Professor Bates Of English Department Named —Other Changes.

Professor Arlo Bates retires from the active head of the Department of English at the end of the present academic year. He is succeeded in that position by Professor Pearson, a graduate of Harvard, who has been on the staff of the Institute since 1893. Associate Professor Archer T. Robinson, also a graduate of Harvard and a member of the staff of the Institute since 1896, has been advanced to the grade of Professor of English. In addition to these changes the Department has been strengthened by the appointment of Professor Frank Aydelotte. Professor Aydelotte has had experience in teaching in Pennsylvania, Kentucky and Indiana. He took his A. B. degree from Indiana in 1900 and received his A. M. degree from Harvard in 1903. In 1905 he proceeded to Basenose College in the University of Oxford, England, from which he received his degree of Bachelor of Literature. On returning to this country Mr. Aydelotte was appointed Associate Professor of English at the University of Indiana, where he is at the present. Professor Aydelotte is most highly recommended as a teacher and scholar, with unusual power of interesting students and stimulating their capacity for clear thinking. He has attracted attention by his articles in the "Atlantic Monthly" and in various educational periodicals. His published works include "College English," a manual for the study of English literature and composition issued by the Oxford University Press, and a volume in the series of Oxford Historical and Literary Studies, published under the direction of C. H. Firth and Walter Raleigh.

Other changes include the promotion of George H. Clark of the Department of Mechanical Engineering to the position of Instructor.

CHEMICAL SOCIETY

The Chemical Society will hold its final meeting and banquet on the eighteenth. The names of the men elected for officers of the society will be announced at that time.

ATHLETIC NOTICE

The meeting of the Athletic Advisory Committee which was scheduled for last evening has been postponed until next Tuesday, May 11.

CATHOLIC CLUB DANCE

The Catholic Club will hold an informal dance in the Union this evening. The attendance is open to anybody desirous of coming. The subscription is one dollar per couple.

BOWDOIN TRACK MEET SATURDAY AFTERNOON

Record Of Maine Athletes Is Mediocre In Running Events.

Judging from the recent records of the Bowdoin runners, the times that will be made by the Maine athletes in the dual meet this Saturday afternoon will not be especially fast. At the Bowdoin-Bates meet the best time for the 100-yard dash was 10 3-5 seconds. This was made by Wyman of Bowdoin. Loomis and O'Hara have both done better than this during the present season, and in fact the former finished only a yard behind Kelley when the Holy Cross runner covered the distance in 10 seconds flat.

In the 220-yard dash the best the Bowdoin sprinters could do in the meet with Bates was to take third place while the time of the winner was 23 2-5 seconds. From the past records of the Technology men in this event, the track management looks for a clean sweep.

The 440-yard run was captured by McWilliams of Bowdoin in the meet with Bates. He made the time of 54 seconds. In the Spring Meet this year, C. T. Guething ran the race in 51 1-5 seconds, and since Reed is capable of 52 seconds, Technology is well represented.

The Maine runners have no man who has run the 880-yard run in better time than 2 minutes 5 1-5 seconds in their recent meet, and according to the M. I. T. management, the Technology runners are superior in this event.

Bowdoin does not appear very strong in the mile event so far this season. Cutler has run the distance in 4 minutes 45 4-5 seconds only. At least two of the Technology runners have been doing better than this. Brown has credit of 4 minutes 36 4-5 seconds at Worcester and Allen has been running consistently all season.

From the work of Cook and Wall in the two-mile event, the track management expects little trouble from Bowdoin. Both these men have done under 10 minutes, while Irving of Bowdoin was timed at 10 minutes

(Continued on Page Three)

COURSE XV TRIP

Through the efforts of Professor Dewey, a large number of the students of Course XV will have a chance to see the interior workings of the Boston Clearing House. The party will leave Rogers Building this morning at 9.20 o'clock and will proceed directly to the place of interest. A lecture will be given by one of the officials of the Clearing House and the normal working operations of that organization will be observed.

FRATERNITY FORUM IDEA GREAT SUCCESS

Plan Will Be Adopted By Nearly All The Chapters Next Fall.

This year for the first time the idea of "fraternity forums" has been carried into effect at the Institute, and from present indications the plan will be adopted by practically all the fraternities at the opening of the school year next fall. The forum plan is to get successful business men of Greater Boston to give informal talks to the men of the different chapters. The fraternities that have been giving this idea a trial are Kappa Sigma, Sigma Chi, Sigma Alpha Epsilon and Phi Beta Epsilon.

The scheme is to give the men at the Institute personal contact with men of experience and high ideals. The speaker is invited to dinner, after which the talk has been either an informal after-dinner speech or a general open discussion.

A list of speakers has been made and from these the fraternities have chosen their speakers. The types of men that are brought in contact with the students include business men, professional men and lecturers, and may well be illustrated by those who have spoken at the various fraternities. The list comprises in part, Professor DeWitt G. Wilcox of Boston University, Charles E. Fish, Thomas Drier of the University Press, Franklin B. Ganse, Dr. Charles Gray, Walter B. Snow, engineer, and Jefferson I. Harbour, author and lecturer. Several other prominent men of Boston are on the list, but, as yet, have not spoken at any of the fraternities.

Next fall the plan will be well under way, an exhaustive list of speakers prepared and the forums started in all the fraternities, each house having a talk possibly every two or three weeks. The business men who have given talks are as willing as the students to get together and to discuss matters of interest.

WEDNESDAY, MAY 5, 1915.

A simple statement of facts seems to be the best means of emphasizing a condition that, if described in the proper language, no loyal Technology man would believe. The facts briefly are these: The total registration here at the Institute is eighteen hundred and sixteen students; the total number of ballots handed in up to yesterday afternoon for the expression of opinion on the best means of supporting athletics was less than four hundred; the number necessary to obtain a definite expression of opinion is one thousand. In despair the committee in charge has extended the time three days. Present indications seem to point to another period, perhaps one year, perhaps ten years, of traveling in the same old rut, and it looks as if athletics must continue to go in the hole every year, when a little matter of five minutes on the part of every student would settle the matter definitely. Those who have any faith in the faith of Technology men cannot but believe that the utter absence of public spirit which has so far been shown is due to a prolonged state of coma. To believe otherwise would be unfair to the long established reputation of Technology.

While the missing Tech Show scores must be considered stolen, this does not necessarily mean that the persons in whose possession they happen to be are thieves. The offenders will only be considered in this light if they fail to take advantage of the opportunity of restoring the scores of the Show. The sooner they act the less they will be blamed for what is, after all, only a bad habit.

COMMUNICATION

To the Editor of The Tech:

In years past it seems to have become a custom for those who had the opportunity to get away with as many of the musical scores of Tech Show as they could. Realizing that the Show management was possibly responsible to the extent of not keeping temptation out of the way, an earnest effort was made this year to keep the scores out of sight and in a safe place. In spite of these precautions, however, some sixty scores were taken. It happened that for a few minutes in Boston and Malden there could be no one to stand guard over them and on these two occasions and one other, bundles were broken into and the scores stolen. That last is a strong word, but we fail to see how any other can be used, as taking a score is morally no different from taking a dollar ticket out of the box office. The management has a pretty good idea who the offenders were, and it hopes that now that the matter has been presented to them they will realize that in taking the scores without paying for them they are belieing the interest in the Show which we suppose they thought they were manifesting by wanting a score at all.

There will be someone in the Show office daily this week from 4 to 5 to receive scores or money—no questions asked. TECH SHOW.

CIVIL ENGINEERS

Banner Banquet Comes Tomorrow At Copley Square Hotel.

Tomorrow evening at 6.15 o'clock the members of the C. E. Society will convene at the Copley Square Hotel to hold the final get-together gathering under the present officers. The committee in charge of the affair has obtained good speakers and assures a lively and entertaining evening. The ticket sale up to date has been large, according to reports handed in at the recent meeting. The dinner is to be informal.

Addresses will be given by Governor David I. Walsh, Mr. Howard Elliott, Professor Charles M. Spofford, Mr. George W. Anderson and Mr. Giles W. Baker.

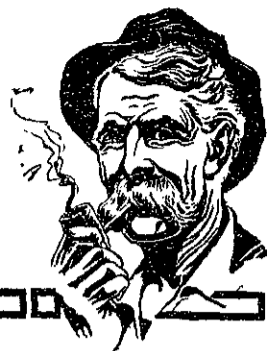

MENORAH SOCIETY

Mr. H. Hurwitz addressed the Menorah Society at the meeting yesterday at 4.30 o'clock. He talked on "Menorah ideals and the relation of America to the question of Zionism."

CREW PRACTICE TODAY

Broken Rudder Keeps Men Off River Yesterday.

The Technology Crew, as it is now made up, is as follows: 1 Toye, 2 Haviland, 3 Wellington, 4 Mumford, 5 Robinson, 6 Hill, 7 Wernuth, stroke McDonald and cox McLaughlin. Practice is held every week day at 4.30 o'clock and Saturday at 2.30 o'clock. The Coach could not take the crew out yesterday as the rudder on the shell was broken. The rudder is expected to be repaired in time for today's work.

ART COMPETITION

All Material Due At Five This
Afternoon At The Cage.

Candidates for the position of Art Editor of Technique 1917 must submit all material by five this afternoon at the Cage. The material should be addressed to the "Committee on Art Editors Competition." Contestants who have not completed each of the requirements of the competition will be allowed to turn in all the work finished.

The Electoral Committee will meet Friday afternoon of this week in eight Engineering C at 5.10 o'clock. The elections of Art Editor and Portfolio Editor, the last two offices to be filled, will take place.

COURSE IV FRESHMEN

Students who have not taken their corrected problems in Perspective should call for them at Room 34, Pierce. In a number of cases problems several weeks old, marked "Incorrect; to be corrected and returned," are still uncalled for. The records of the students to whom such problems belong are deficient.

OFFICERS' PICTURES

The commissioned officers of the M. I. T. Cadet Corps will have their picture taken at Notman's, at 1.25 o'clock this afternoon. All men who have drilled as commissioned officers this year are to be included in this picture and for this reason those who dropped out at the end of the last term are asked to be present.

Six Brown University men are going to join the American Red Cross in Serbia, where a campaign against the ravages of typhus fever is being conducted. They are to start for Serbia on May 13, at the same time that contingents from several other colleges are sent.

The recently organized hospital department of the Cadet Corps of Cornell University received its first real tryout on the last drill day when a cadet was severely stabbed by a bayonet in a charge up a hill. The cadet was stabbed in the thigh when his rear rank man failed to heed the command of halt and collided with him. He was carried to the hospital on a stretcher.

Plans have been announced to relocate the College of Physicians and Surgeons, the Medical School of Columbia University. The buildings are to be on the former American League baseball grounds and are to cost \$10,000,000. The expense will be borne jointly by Columbia and the Presbyterian Church, the former giving \$7,500,000 toward the project. The limit of time set for raising the money is five years.

INSTITUTE COMMITTEE
(Continued from Page One)

stitute Committee in January previous to September when the new class enters."

Section 3, Article IV, of the present constitution reads: "The annual election shall be held on Friday of the fourth week of the school year. The polls shall be opened at 8 a. m. and shall close at 6 p. m. The results of the election shall be announced at a general mass meeting to be held the following Saturday night." The proposal suggests amending this section by striking out the words "following Saturday night" and inserting the words "that night" and changing the time of closing the polls to 4.30 p. m. This hour for closing the polls is necessary in order that the election committee may count the votes and prepare the results for the mass meeting that night. The most important amendment is the one concerning the elections which is given below:

The committee on revision of the uniform constitution wishes to make the following recommendations as amendments to the uniform class constitution:

(1) That the old system of class elections be done away with and that a new system as follows be inaugurated:

(a) Nominations are to be made as usual and elections advertised in The Tech and on the bulletin boards.

(b) The elections of the three upper classes are to be held on Friday of the fourth week of the school year; and the freshman class as usual, the 8th day after Field Day.

(c) On the day of elections, polls will be opened in the Union from 8 a. m. to 4.30 p. m.

(d) There will be a table for each class with a representative of the Institute Committee in charge. He will have a list of all members of the class whose election he is conducting. The voter signs his name on the class list and if his dues are paid in full he is given a ballot stamped with a number in one corner. The number is entered on the class roll opposite his name and he is free to take the ballot and fill it in, when and where he chooses. The ballot is returned to the table folded so that only the number shows. The election official compares this number with that recorded on the class roll. If the numbers agree the official marks the man's name as "voted" and then tears off the number, thus removing any identification marks and deposits it in the ballot box. If the voter spoils his first ballot he may return it and receive a new ballot, the new number being recorded as before. At the close of the election the number of votes must agree with the number of names marked "voted."

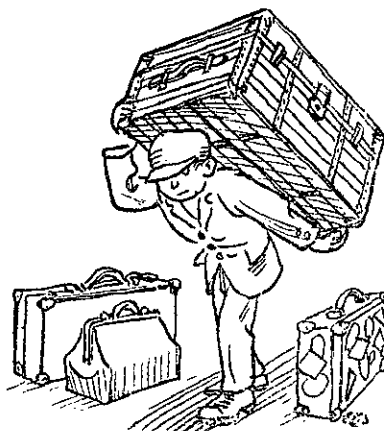

(e) Electioneering of candidates at the polls is prohibited.

The advantages of this system are:

(1) It brings to the election convenience, uniformity, order and secrecy when desired by the voter, and freedom from ballot box stuffing.

(2) It does away with the possi-

The work of Newstetter, the Pennsylvanian pole-vaulter, marks him as a likely winner of the intercollegiate this spring. He vaulted 12 feet 10 inches in the Penn Relays, tying for first place with Foss of Cornell, and has done very consistent work all season.

Richards' record of 6 feet 5 inches in the high jump puts Cornell a sure winner in this event in all meets that are entered. O. A. Reller, however, Cornell's best bet in the sprints, was injured in a motor cycle accident some time ago, and it looks as if the Ithacan captain will be out of all races at least for a year.

The Ithacan team should have little trouble with Harvard in the dual meet this Saturday. Last year the Cornell athletes were easy victors by a score of 722-5 to 413-5, while two years ago Harvard triumphed by a narrow margin. Harvard places most reliance in the sprints, the quarter and half mile races, and from present records the Cambridge runners should win the majority of places.

The Yale Athletic Association has decided to award the 'varsity "Y" to more of the Eli oarsmen than in the past. Under the new ruling seniors rowing in the second 'varsity eight will be given the coveted letter on the same basis as oarsmen of the first boat. Men who have rowed for two years upon the second 'varsity eight will be eligible also for a "Y."

Head Coach Rush of the Princeton football squad announced yesterday the names of four or five assistants. All of these men will be at Princeton during the football season and will be on the field each day.

Established 1850.

CHAUNCY HALL PICNIC

Event Postponed From Saturday Comes Today.

The Chauncy Hall Club will hold its annual picnic and field day at the recreation grounds at Riverside this afternoon. Present members of the school are to run a number of field events during the morning. The club members from Technology will leave Trinity Place for Riverside at 12.45 o'clock. A clam-bake provided by the Principal of Chauncy Hall, Mr. Franklin T. Kurt, is to be ready soon after the crowd from the Institute arrives.

The afternoon will be spent in various sports, teams representing the Institute and the school competing in a Tug-of-war match, Tennis and Baseball.

FRESHMAN BALL GAME

Team To Play Lynn Classical High At Lynn.

This afternoon the freshman baseball team will play Lynn Classical High at Lynn. The following men are to play: LeVine 3b, Spooner rf, Gleason ss, Malley c, Sullivan 2b, Jones cf, Smith lf, Coleman 1b, Wilson, Ryan and DeSalvo p, and Dinkins sub. The party will meet on Rogers' steps at 1.45 o'clock and will take the train leaving the North Station at 2.20 o'clock.

PATRONIZE**ADVERTISERS****CARUSO**

World-famous Tenor, says:

"Tuxedo completely satisfies my tobacco taste. It is mild and has delicious flavor. Most important of all from a singer's standpoint, Tuxedo does not irritate my throat."

"Tuxedo Does Not Irritate My Throat"

The non-irritating quality of Tuxedo which Caruso praises is due to the original "Tuxedo Process" by which the tobacco is treated. This process refines the tobacco and absolutely removes all bite and sting.

Many thousands of men think they cannot smoke a pipe, for fear the tobacco might burn or parch their mouths. Tuxedo has done away with any such possibility. You can smoke Tuxedo all day long, without any irritation whatsoever—indeed with increasing pleasure.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

is made from rich, mild, fragrant Kentucky Burley—acknowledged to be the finest pipe-tobacco in the world—aged until it is pipe-perfect and smokes coolly and slowly.

You cut off an inch of inspiration and real joy every hour you stay away from Tuxedo. Because it's so good, so true, so delicious, so fragrant, its memory lingers every time your smoke-appetite gets tuned up.
