HOLY CROSS TEAM LOSES TRACK MEET

The Technology track team easily defeated Holy Cross last Saturday afternoon by a score of 73 1-2 to 48 1-2. On account of poor weather and a heavy track, the running was quite difficult and only a few fast times were made. R. G. Brown '16 did the best running for Technology, times were made. R. G. Brown '16 quite difficult and only a few fast and a heavy track, the running was 46 1-2. On account of poor weather afternoon by a score of 79 1-2 to Huff Makes Fast Time In The hurdles, thus equalling the M. I. T. performance of a Technology man in some years past. C. W. Loomis '16 and F. P. O'Hara '17 failed to come up to expectations in the sprints, Kelley of the quarter mile, losing by a narrow margin to Lee of Holy Cross. F. L. Butterworth, '17; Executive Council announces the following elections: President, F. D. Ross, '16; Vice-Pres., C. P. Cellarius, '16; Secretary, C. F. Cellarius, '16; Treasurer, D. H. McLellan, '17; Executive Committees: H. W. Jackson, '16, W. O. Sprague, '16, and H. C. Stearns, '15.

PHOTOS WANTED

The Technology Club of New York City is anxious to get group pictures of club teams, and other campus activities to hang on the walls of their clubhouse, 17 Gramercy Park. If any students who may obtain any papers written by them which are now in the charge of the English Department, may bring them to the office, they will be pleased to receive such photographs.

MUSICAL CLUBS HOLD ANNUAL BANQUET

Last Saturday’s Dinner Given At Copley Square—New Elections.

Last Saturday evening at the Copley Square Hotel the Combined Musical Clubs held their annual banquet. Preceding the dinner W. L. Ogden ’16 was elected leader of the Glee Club, R. S. Howlett ’16 leader of the Banjo Club and M. M. Brann ’16 leader of the Mandolin Club. The managing board announced the following appointments for the coming season: General Manager, W. B. Ford ’17; Secretary-Treasurer, A. M. Webster'17; Manager of Glee Club, P. W. Clar ’15; Manager of Mandolin Club, P. N. Dinkins ’15; Manager of Banjo Club, P. G. Woodard ’17.

After-dinner speeches were made by Professor Bugbee, Professor Russell, and the new manager, W. L. Ford. Retiring Manager Allen Abrams announced the presentation of gold charms to the executive board and to the Seniors who had been with the Clubs for two years, a custom which will be continued in the future.

BOWDOIN TRACK MEET

Maine Athletes Are Strong In The Weight Events.

The next dual meet scheduled for the Technology track team will be held with Bowdoin at the Tech field Saturday, May 8, and from the record of both teams to date, the track management assures a well contested meet. In the recent track meet with Bates, the Bowdoin men did first work in the weight events, Leadbetter winning the shot put with a put of 38 feet 8 8-8 inches and throwing the hammer a distance of 137 feet 11 1-2 inches. Moulton of Bowdoin threw the discus 126 feet 3 1-4 inches and Leadbetter took second place by a throw of 119 feet. From the performance of these two men and together with the work of Wood in the high jump and Smith in the broad jump, the record of the Bowdoin team in the weight and field events has been very good.

The meet this Saturday will start promptly at 3:35 and tickets will be placed on sale for the price of 50 cents.

FACULTY NOTICE

By applying at 16 Rogers, Seniors may obtain any papers written by them which are now in the charge of the English Department.

LARGE NUMBER AT COURSE II BANQUET

Results Of Election Of Next Year’s Officers Announced.

One hundred three men attended the annual banquet of the Mechanical Engineering Society at the Engineers’ Club last Thursday evening. Immediately following the dinner the officers for the past year gave their reports. Secretary J. E. Morse spoke of the trips during the year and of the campaign for members which has brought the membership past the 200 mark. Treasurer C. T. Guething gave the encouraging statement that the surplus in the treasury had been doubled during the year. W. F. Hanocht of the Governing Board summarized the work of arranging the trips and lecture talks. Chairman P. G. Purinton then announced the result of the elections for the ensuing year. They are as follows: Chairman, W. C. Richardson ’16; Vice-Chairman, P. Y. Loo ’16; Treasurer, J. W. Stafford ’16; Secretary, C. F. Sheld ’16; Governing Board, G. W. Tuttle ’16, E. M. Stapler ’17, and E. W. Rounds ’17. A short after speech by the chairman-elect, Mr. Howard Elliot, president-elect.

SUMMER CAMPERS HOLD ENTHUSIASTIC SMOKER

Seniors Are Addressed By Major Cole And Professor Spofford.

In spite of the rain, about 150 seniors were present at the class smoker held in the Union Friday night. The hosts of the evening were the summer camp counselors, L. I. and XI, the members of which wore a pink as a distinguishing mark. Everybody was given a corn cob pipe with the class numerals upon it, and also a package of tobacco. From 5:30 to 7:30 the meeting was opened by President Dalton until the last strains of the Stein Song had died away, there was not a dull moment.

Professor Spofford, head of the department of Civil Engineering, was the first speaker. His topic was on the influence of the summer camp and he stated that the object of the course was to foster character, judgment, health, general education, some of the training and engineering education, named in the order of their relative importance. Professor Spofford was followed by the Beta quartet, composed of Howlett, Caldwell, McEwen and "Pat" Jackson, who sang "I knew she wouldn’t do." Their selections were received with much applause and three encores were given. Stanley Baxter then executed a difficult clog dance, and after him came several numbers by the Hawaiian Quartet, consisting of McDaniel, King, Williamson and Howlett. The next speaker was Major Cole, who praised the summer camp "trust" for getting up the smoker and commended the opportunity of making friends at the camp. In the course of his remarks he stated the inclusion of the Portfolio in Technique, and also spoke of the excellent trip which had pre-
THE COMMUNICATION

To the Editor of The Tech.

There has arisen a misunderstanding as to the meaning of questions 2 and 3 on the Institute Committee ballots which have been distributed. Some have thought that a $3 or $5 tax for athletics alone would not include admission to all athletic events. This is not the case, as any tax for athletics alone would, of course, include admission to all games and meets, and on payment of $3 or $5 a student would receive a season ticket to all athletic meets.

It is desired that everyone answer all questions.

"Blanket Tax Committee."

vails concerning drill. He mentioned the chances for Tech men in the army and derided the extremists who advocate universal disarmament.

The "Cardinal and the Gray" was then sung by the assembly and this was accompanied by a cheer for 1915, when the noise had subsided, Mc- Daniel played a little ragtime and Derkse and Rounds were the next feature in a wrestling bout of two halves, the first consisting of straight wrestling and the second of the Chinese wrestling in which each man is blindfolded and provided with a newspaper club with which to belabor his opponent. Between the halves "Pop" Wood sang the "Rounding Horn" and "The Banjo Song" which he sang in the summer camp minstrel two years ago. Sid Clark was accompanist. Following the second half of the wrestling, which created much amusement, cheers were given for Professor Spottard, Major Cole, "Jack" Dalton and the class.

Refreshments were then served by Professor Colton, and after that the fellows gathered around the piano and sang, tried to sing, and yelled until the accompanist. The meeting closed with the Stein Song and a "We Are Happy" for the hosts.

Rifle Club

National Rifle Association Qualifications On Fifteenth.

Last Saturday afternoon two squads of the Rifle Club tried their hands at making good scores on two different ranges, but cold weather and adverse conditions conspired to reduce scores considerably below the average. The team squad shot at Wakefield, where the intercollegiate match will be held, while the other members of the club pounded away at the Walnut Hill ranges. From Saturday's showing it was impossible to judge with any accuracy what men will be chosen to represent the Institute, and no team will be picked until after the N. R. A. qualifications have been held. Only the team squad will shoot this week. The following Saturday, May 15, the N. R. A. qualifications will be held. A list of those eligible will be posted on the Union Bulletin board this week. In order to be able to finish the trials in one day it will be necessary to start in the morning, and President Keating has requested that all those intending to take part leave a note at the Cage, stating whether they can go out in the morning and if so at what time.

CHEMICAL'S ELECTIONS

The Chemical Society elections will be announced at the annual banquet, which will probably be held on May 18.

10 PERCENT DISCOUNT TO TECH STUDENTS.
dent of the New Haven Railroad, was introduced. He is a member of the Technology Corporation and of the visiting committee of the M. E. Society. Mr. Elliott spoke of the opportunities for American engineers which would be given by the European war. He deplored the fact that the voter in this country is so disinterested in political issues. An invitation to visit the New Haven shops at Readville was extended to course II men.

Mr. A. B. Tenney '94, of C. F. Tenney Co., who was the next speaker, amused his audience by relating some of his experiences since he left Technology. Professor Hayward gave a talk on the qualities which make an engineer a successful man. He emphasized the value of meeting other men and establishing a reputation by taking an interest in public affairs.

Professor Miller gave a brief history of the M. E. Society, showing how it was first kept running by the professors and how it had now become strong enough to stand without the aid of the instructing staff.
PROFESSOR PEARSON

HEAD OF DEPARTMENT

Successor To Professor Bates Of English Department Named
— Other Changes.

Professor Arlo Bates retires from the active head of the Department of English at the end of the present academic year. He is succeeded in that position by Professor Pearson, a graduate of Harvard, who has been on the staff of the Institute since 1896. Associate Professor Arberth T. Robinson, also a graduate of Harvard and a member of the staff of the Institute since 1896, has been advanced to the grade of Professor of English. In addition to these changes the Department has been strengthened by the appointment of Professor Frank Aydelotte. Professor Aydelotte has had experience in teaching in Pennsylvania, Kentucky and Indiana. He took his A. B. degree from Indiana in 1900 and received his A. M. degree from Harvard in 1903. In 1905 he proceeded to Basenose College in the University of Oxford, England, from which he received his degree of Bachelor of Literature. On returning to this country Mr. Aydelotte was appointed Associate Professor of English at the University of Indiana, where he is at the present. Professor Aydelotte is most highly recommended as a teacher and scholar, with unusual power of interesting students and stimulating their capacity for clear thinking. He has attracted attention by his articles in the "Atlantic Monthly" and in various educational periodicals. His published works include "College English," a manual for the study of English literature and composition issued by the Oxford University Press, and a volume in the series of Oxford Historical and Literary Studies, published under the direction of C. H. Firth and Walter Raleigh.

Other changes include the promotion of George H. Clark of the Department of Mechanical Engineering to the position of Instructor.

CHEMICAL SOCIETY

The Chemical Society will hold its final meeting and banquet on the eighteenth. The names of the men elected for officers of the society will be announced at that time.

ATHLETIC NOTICE

The meeting of the Athletic Association is scheduled for last evening has been postponed until next Tuesday, May 11.

CATHOLIC CLUB DANCE

The Catholic Club will hold an informal dance in the Union this evening. The attendance is open to anybody desirous of coming. The subscription is one dollar per couple.

BOWDOIN TRACK MEET SATURDAY AFTERNOON

Record Of Maine Athletes Is Mediocrec In Running Events.

Judging from the recent records of the Bowdoin runners, the times that will be made by the Maine athletes in the dual meet this Saturday afternoon will not be especially fast. At the Bowdoin-Bates meet the best time for the 100-yard dash was 10.3-5 seconds. This was made by Wymann of Bowdoin. Loomis and O'Hara have both done better than this during the present season, and in fact the former finished only a yard behind Kelly when the Holy Cross runner covered the distance in 10 seconds flat.

In the 220-yard dash the best the Bowdoin sprinters could do in this event was to take third place. The time of the winner was 23.2-5 seconds. From the past records of the Technology men in this event, the track management looks for a clean sweep.

The 440-yard run was captured by McWilliams of Bowdoin in the meet with Bates. He made the time of 54.4 seconds. In the Spring of this year, C. T. Guesting ran the race in 51.1-5 seconds, and since Reed is capable of 52 seconds, Technology is well represented.

The Maine runners have no man who has run the 880-yard run in between of Course XIV will have a better time in their recent meet, and according to the M. I. T. management, the Technology runners are superior in this event.

Bowdoin does not appear very strong in the mile event so far this season. Cutler has run the distance in 4 minutes 45-5 seconds at Worcester and Allen has been running consistently all season.

From the work of Cook and Wall in the two-mile event, the track management expects little trouble from Bowdoin. Both these men have done under 10 minutes, while Irving of Bowdoin was timed at 10 minutes.

(Continued on Page Three)

COURSE XV TRIP

Through the efforts of Professor Dewey, a large number of the students of Course XV have scheduled for the summer trip which is planned in connection with the course. The trip will be described in detail in a subsequent issue of the "Batesian." The plan is to take the students to various parts of New England and New York. The trip will be supervised by Professor Dewey and the members of the course.

MINING SOCIETY

Professor Lingren will speak to the Mining Society at the smoker which will be held in the Union next Friday at 4:00 o'clock. His subject has not been announced yet. Refreshments will be served.

FRATERNITY FORUM

IDEA GREAT SUCCESS

Plan Will Be Adopted By Nearly All The Chapters Next Fall.

This year for the first time the idea of "fraternity forums" has been carried into effect at the Institute, and from present indications the plan will be adopted by practically all the fraternities at the opening of the school year next fall. The forum plan is to get successful business men of Greater Boston to give informal talks to the men of the different chapters. The fraternities that have been giving this idea a trial are Kappa Sigma, Sigma Chi, Sigma Alpha Epsilon and Phi Beta Epsilon. The scheme is to get the men in the Institute personal contact with men of experience and high ideals. The speaker is invited to dinner, after which the talk has been either an informal after-dinner speech or a general open discussion.

A list of speakers has been made from these the fraternities have chosen their speakers. The types of men that are brought in contact with the students include business men, professional men and lecturers, and may well be illustrated by those who have spoken at the various fraternities.

The list comprises in part, Professor DeWitt G. Wilson of Boston University, Charles E. Fish, Thomas Drier of the University Press, Franklin B. Gannett, Dr. Charles Gray, Walter B. Snow, engineer, and Jefferson T. Harbou, archaeologist and lecturer. Several other prominent men of Boston are on the list, but, as yet, have not spoken at any of the fraternities.

Next fall the plan will be well under way, an exhaustive list of speakers prepared and the forums started. The fraternities, each house having a talk possibly every two or three weeks. The business men who have given talks are as willing as the students to get together and to discuss matters of interest.

INSTITUTE COMMITTEE PROPOSES AMENDMENTS

Revised Method Of Holding Class Elections Departure From Old Scheme.

Next week each class is planning to hold a mass meeting at which each of the amendments for the class constitution suggested by the Institute Committee will be considered. Below are a list of the amendments and the articles which they replace:

Section 1, Article II, of the present constitution reads: "All persons taking a majority of hours with this class shall be eligible for membership." The amendment reads: "All persons entering the Institute with this class shall be eligible for membership." This permits a man who has dropped back a year to take a five-year course to be eligible for membership in the class with which he entered and paid his dues.

Section 2, Article II, of the present constitution reads: "Any member who shall, after becoming a member of this class, take, for any reason, a majority of his hours in another class, shall thereby forfeit his membership in the class with which he entered." This will necessarily be stricken out if the previous amendment is adopted.

A proposed amendment called Section 3, Article II, reads: "A person entering the Institute from another college shall be a member of the Class with which he takes a majority of his subjects." This is to provide for those students who do not enter the Institute as freshmen.

Another proposed section called Section 4, Article II, reads: "The temporary football manager, a Sophomore, shall be elected by the In-

COMMUNICATION

To the Editor of The Tech:

In years past it seems to have become a custom for those who had the opportunity to get away with as many of the musical scores of Tech Show as they could. Realizing that the show management was possibly responsible to the extent of not keeping temptation out of the way, an earnest effort was made this year to keep the scores out of sight and in a safe place. In spite of these precautions, however, some sixty scores were taken. It happened that for a few minutes in Benson and Malden there could be no one to stand guard over them and on these two occasions and one other bundles were broken into and the scores stolen. That last is a strong word, but we fail to see how any other can be used, as taking a score is normally no different from taking a dollar ticket out of the box office. The management has a pretty good idea who the offenders were, and it hopes that now that the matter has been presented to them they will realize that taking the scores without paying for them are believing the interest in the Show which we suppose they thought they were manifesting by wanting a score at all.

There will be some source in the Show office daily this week from 4 to 5 to receive scores or most pertinent questions asked.

TECH SHOW

CIVIL ENGINEERS

Banner Banquet Comes Tomorrow At Copley Square Hotel.

Tomorrow evening at 6.15 o'clock the members of the C. L. Society will convene at the Copley Square Hotel to hold the final get-together gathering under the present officers. The committee in charge of the affair has obtained good speakers and arranged a lively and entertaining evening. The ticket sale up to date has been large, according to reports handed in at the recent meeting. The dinner is to be informal.

Addresses will be given by Governor David L. Walsh, Mr. Howard Eliott, Professor Charles M. Spofford, Mr. George W. Anderson and Mr. Henry E. Baker.

MENORAH SOCIETY

Mr. H. Hurwitz addressed the Menorah Society at the meeting yesterday at 4.30 o'clock. He talked on "Menorah Ideals and the Relation of America to the Question of Zionism."

CREW PRACTICE TODAY

Broken Rudder Keeps Men Off River Yesterday.

The Technology Crew, as it is now made up, is as follows: 1. Toy, 2. Haviland, 3. Wellington, 4. Mufford, 5. Robinson, 6. Hill, 7. Wornum, stove. McDonald and ex. McMullin. Practice is held every day week at 4.30 o'clock and Saturday at 2.30 o'clock. The Coach could not take the crew out yesterday as the rudder on the shell was broken. The rudder is expected to be repaired in time for today's work.

ART COMPETITION
All Material Due At Five This Afternoon At The Cage.

Candidates for the position of Art Editor of Technique 1917 must submit all material by five this afternoon at the Cage. The material should be addressed to the "Committee on Art Editors Competition." Contestants who have not completed each of the requirements of the competition will be allowed to turn in all the work finished.

The Electoral Committee will meet Friday afternoon of this week in eight Engineering C at 5:10 o'clock. The elections of Art Editor and Portfolio Editor, the last two offices to be filled, will take place.

COURSE IV FRESHMEN
Students who have not taken their corrected problems in Perspective should call for them at Room 34, Pierce. In a number of cases problems several weeks old, marked "incorrect; to be corrected and returned," are still uncalled for. The records of the students to whom such problems belong are deficient.

OFFICERS' PICTURES
The commissioned officers of the M. I. T. Cadet Corps will have their picture taken at Notman's, at 1:25 o'clock this afternoon. All men who have drilled as commissioned officers this year are to be included in this picture and for this reason those who dropped out at the end of the last term are asked to be present.

Six Brown University men are going to join the American Red Cross in Servia, where a campaign against the ravages of typhus fever is being conducted. They are to start for Servia on May 13, at the same time that contingents from several other colleges are sent.

The recently organized hospital department of the Cadet Corps of Cornell University received its first real tryout on the last drill day when a cased was severely stabbed by a bayonet in a charge up a hill. The cadet was stabbed in the thigh when his rear rank man failed to heed the command of halt and collided with him. He was carried to the hospital on a stretcher.

Plans have been announced to locate the College of Physicians and Surgeons, the Medical School of Columbia University. The buildings are to be on the former American League baseball grounds and are to cost $10,000,000. The expense will be borne jointly by Columbia and the Presbyterian Church, the former giving $7,500,000 toward the project. The limit of time set for raising the money is five years.

**INSTITUTE COMMITTEE**

(Continued from Page One)

The committee in January previous to September when the new class enters.”

Section 3, Article IV, of the present constitution reads: “The annual election shall be held on Friday of the fourth week of the school year. The polls shall be opened at 8 a.m. and shall close at 6 p.m. The results of the election shall be announced at a general meeting to be held the following Saturday night.” The proposal suggests amending this section by striking out the words “following Saturday night” and inserting the words “that night” and changing the time of closing the polls to 4:30 p.m. This hour for closing the polls is necessary in order that the election committee may count the votes and prepare the results for the mass meeting that night. The most important amendment is the one concerning the elections which is given below:

The committee on revision of the uniform constitution wishes to make the following recommendations as amendments to the uniform class constitution:

(1) That the old system of class elections be done away with and that a new system as follows be inaugurated:

(a) Nominations are to be made as usual and elections advertised in The Tech and on the bulletin boards.

(b) The elections of the three upper classes are to be held on Friday of the fourth week of the school year; and the freshman class as usual, the 8th day after Field Day.

(c) On the day of elections, polls will be opened in the Union from 8 a.m. to 4:30 p.m.

(d) There will be a table for each class with a representative of the Institute Committee in charge. He will have a list of all members of the class whose class he is conducting. The voter signs his name on the class list and if his dues are paid in full he is given a ballot stamped with a number in one corner. The number is entered on the ballot opposite his name and he is free to take the ballot and fill it in, when and where he chooses. The ballot is returned to the table folded so that only the number shows. The election official compares this number with that recorded on the class roll. If the numbers agree the official enters the name marked “voted” and then tears off the number, thus removing any identification marks and deposits it in the ballot box. If the voter spoils his first ballot he may return it and receive a new ballot, the new number being recorded as before. At the close of the election the number of votes must agree with the number of names marked “voted.”

(e) Electioneering of candidates at the polls is prohibited.

The advantages of this system are:

(1) It brings to the election convenience, uniformity, order and secrecy when desired by the voter, and freedom from ballot box stuffing.

(2) It does away with the possibility of the election committee having more than one vote. The number is entered on the ballot opposite his name and he is free to take the ballot and fill it in, when and where he chooses. The ballot is returned to the table folded so that only the number shows. The election official compares this number with that recorded on the class roll. If the numbers agree the official enters the name marked “voted” and then tears off the number, thus removing any identification marks and deposits it in the ballot box. If the voter spoils his first ballot he may return it and receive a new ballot, the new number being recorded as before. At the close of the election the number of votes must agree with the number of names marked “voted.”

(f) Electioneering of candidates at the polls is prohibited.

The advantages of this system are:

(1) It brings to the election convenience, uniformity, order and secrecy when desired by the voter, and freedom from ballot box stuffing.

(2) It does away with the possibility of the election committee having more than one vote.

The proposal suggests amending this section by striking out the words “following Saturday night” and inserting the words “that night” and changing the time of closing the polls to 4:30 p.m. This hour for closing the polls is necessary in order that the election committee may count the votes and prepare the results for the mass meeting that night.

**Spikes**

The work of Newstetter, the Pennsylvania pole-vaulter, marks him as a likely winner of the intercollege meets this spring. He vaulted 12 feet 10 inches in the Penn Relays, tying for first place with Foss of Cornell, and has done very consistent work all season.

Richards' record of 6 feet 5 inches in the high jump puts Cornell a sure winner in this event in all meets that are entered. O. A. Roll, however, Cornell's best bet in the sprints, was injured in a motor cycle accident some time ago, and it looks as if the Ithacan captain will be out of all races at least for a year.

The Ithacan team should have little trouble with Harvard in the dual meet this Saturday. Last year the Cornell athletes were easy victors by a score of 72 2-5 to 41 3-5, while two years ago Harvard triumphed by a narrow margin. Harvard places most reliance in the sprints, the quarter mile races, and from present records the Cambridge runners should win the majority of places.

The Yale Athletic Association has decided to award the 'varsity "Y" to all of these men will be at Princeton decided to award the 'varsity "Y" to should win the majority of places. O. A.
