SOPHOMORE BASEBALL
Practice To Be Held Three Times A Week—Grounds Chosen.

At the meeting of Sophomore baseball men last Saturday, it was unanimously decided to have practice on Monday, Wednesday and Friday; as most of the games occur on those days, this will mean play four days a week. On account of the present snow-storm, no practice will be held today, the first work taking place Wednesday or later according to weather. Manager C. T. Barnard will meet all candidates at Clarendon and Boylston streets on that day and proceed with them to the field near Cottage Farm Bridge, Cambridge. It is expected that the team will be able to use the B. A. A. boulithouse for dressing; if this is impracticable the Tech Field locker-room will be used for that purpose. The team will elect a captain before the Metrose game.

CIVIL ENGINEERS

Talk On Relations Of Engineers To Contractors.

Mr. J. W. Rollins, ‘74, president of the contracting firm of Holtbrook, Cabot & Rollins, spoke Thursday afternoon to the members of the Civil Engineers Society, his subject being: “The Relations Between Engineer and Contractor.” Mr. Rollins spoke from his experiences of twenty years each as an engineer and contractor. He said that in making contracts, either a very few words should be used, or every detail should be completely covered, so as to cover for every possibility. In many cases the engineer must act as an arbitrator between the employer and contractor; such cases require great tact, and the engineer’s attitude must be entirely fair. The engineer should not supervise much unless he is ready to assume responsibility for any mishaps. Mr. Rollins said that the engineer will do well to tell the contractor just what is to be done, and then leave the contractor to deal with the problem as he desires. Mr. Rollins then gave a number of reminiscences of his firm’s work and showed several lantern slides on foundations.

Now On Exhibition At Union—Committee Will Arrange To Fill Them.

The Junior Prom dance orders, which arrived last Saturday, may be inspected at the Union between 1 and 2, or 5 and 6, daily. The price for those who have signed up, is four dollars. Those who have paid in full may obtain the orders on presentation of both their receipts.

As some of the dance orders are not yet filled, the committee will arrange this matter with anyone who can meet them in the Union at the noon hour today, tomorrow or Wednesday.

TECH SHOW
(Continued from Page One)

Last Saturday afternoon, for the second time, the Show rehearsed in the Opera House. Conditions were much better than on the previous occasion, when the rehearsal had to be held in the semi-darkness of the property room, as the stage was not in shape for use. Yesterday, however, the entire orchestra was in its place, under the direction of Mr. Howard, and the first act was gone through in much better form than has hitherto been shown.

MR. EDDY TO SPEAK

attended each talk. Every man who heard Mr. Eddy was impressed by his sincerity. Mr. Cushman, secretary of the T. C. A., received a letter from last year's manager of the Yale crew which says: "Urge the men to attend the meeting as strongly as possible. Anything which Mr. Eddy says will be a benefit and a source of enjoyment to any man who hears him."
