VOL. XXXV. NO. 29.

BOSTON, MASS., MONDAY, OCTOBER 18, 1915

PRICE THREE CENTS.

TECHNOLOGY TEAM DEFEATS AMHERST

Brown Leads Cross Country Men To Victory Over "Aggies."

Although none of the men who were sent to Amherst last Saturday had ever before run over the hilly course there, they succeeded in winning from the "Aggies," 33 to 23. Captain Brown was first across the line, finishing in 27 minutes 30 seconds. Aiken, M. A. C., finished second, with his team-mate, Richards, a close third.

Aiken and Richards took turns holding the lead for the greater part of the distance, but Brown spurred the last eighth of a mile, and won by 15 yards.

The first five men placing for each college and their positions were:

Brown, M. I. T., first; Aiken, M. A. C., second; Richards, M. A. C., third; Guething, M. I. T., fourth; Parker, M. I. T., fifth; Bradley, M. I. T., sixth; McVickar, M. I. T., seventh; Lyons, M. A. C., eighth; Glover, M. A. C., ninth; Mitchell, M. A. C., tenth. Starter—Dickinson, M. A. C. Timer—Kanaly.

SHOW CANDIDATES

Scenario Writers And Business Dept. Men Meet Today.

Today at 5.00 o'clock there will be a meeting in the Tech Show office of all men who expect to submit scenarios for the main plot or for the specialty acts. Coach Hume will be present to give suggestions and to explain the requirements.

Tech Show of 1916 will be a radical change from the shows of previous years in that an attempt will be made to maintain the interest of the audience by a succession of episodes rather than by the stereotyped form of musical comedy. For this reason a call has been issued for suggestions of comical situations and catchy dialogues to be used either alone or in connection with the specialty acts. Men who have ideas along this line are requested to attend the meeting today.

There will be a meeting at 5.00 o'clock to day at the Show Office for all men who have come out for the business department, and for new men who wish to try out.

TECHNIQUE ELECTION

At a meeting of the Technique Board held last Friday afternoon, J. T. Cronin of Spokane, Wash., was elected Art Editor to fill the vacancy caused by the resignation of K. Day. Cronin is a Course IV man, and a member of the Chi Phi Fraternity.

UPPER CLASSMEN TURN IN NUMEROUS NOMINATIONS

Polls Open Friday—Class Dues Must Be Paid To Have Privilege Of Voting—Senior Week Activities Also Demand Payment Of Dues

The names of the nominees for the various officers of the three upper classes together with a provisional list of the activities in which they have taken part while at the Institute, are given below. The nominations closed last Saturday afternoon at five o'clock and hence inaccuracies and omissions are probably present in the list of activities. Anyone having any corrections to make to the list may turn them in at The Tech Lower Office by Tuesday at five o'clock and the changes will be published on the first page of Wednesday's issue.

The polls will be open from 8.30 a. m. to 4.30 p. m. on Friday of this week, in the Union. Class dues must be paid to vote and may be paid at the polling places. Seniors preferring to lose their vote rather than pay their dues must pay them before being allowed to participate in any of the activities of Senior Week next June.

SENIOR CLASS.

PRESIDENT—W. J. Farthing: Course I, Kappa Sigma, Osiris, Theta Tau, Junior Prom Committee, Cosmopolitan Club, Walker Club, Executive Comm. of C. E. Society, Niemand zu Hause.—C. R. Lord: Course II, Delta Kappa Epsilon, Osiris, Beaver Club, Business Manager Tech Show 1914, General Manager Tech Show 1915, Institute Committee.—H. B. Shepard: Course II, Phi Gamma Delta, Osiris, Beaver Club, Electoral Committee, Business Manager Technique 1916, Treasurer Musical Clubs, Member Musical Clubs, Institute Committee, Finance Committee.

VICE-PRESIDENT—E. J. Barney: Course VI, Kappa Sigma, Vectors—G. H.

Gaus: Course II, Phi Sigma Kappa.—N. MacRae: Course II, Chi Phi, Osiris, Commodore Boat Club, Manager Hockey Team, Tug-of-War.—C. S. Makepeace: Course II, Phi Gamma Delta, Beaver Club, Walker Club, Assistant Business Manager Technique 1916, Second Assistant Business Manager Tech Show 1913, Tug-of-War.—T. F. McSweeney: Course XI, President Cosmopolitan Club, Calendar Committee, Vice-President C. E. Society, Tug-of-War.—K. C. Richmond: Course II, Alpha Delta Phi, Chairman M. E. Society.

(Continued on Page Three)

TECHNOLOGY MAN DIES

Injuries Causing Death Received In Service Of French.

Henry Lamy, '13, a graduate of the Mining Department, died a few days ago as the result of injuries received while at the front in Champagne. While at the Institute he was a member of the Walker Club, the Mining Engineering Society and the Cosmopolitan Club.

GLEE CLUB REHEARSAL

There will be a rehearsal of the Glee Club in the Union, Room B, today at 5.00 o'clock.

WALTHAM 42, 1918. 0

Lose To Waltham Through Lack Of Practice.

Waltham High defeated the 1918 team at Waltham Saturday. The Sophomores had the heavier team, but showed lack of training. Forward passes, good kicking, and alertness marked the playing of the Waltham eleven throughout the game.

CATHOLIC CLUB

The first monthly supper and reception to new members will be held in the Union next Wednesday evening. All students who are of Catholic faith have been invited to be present.

INCREASED INTEREST SHOWN IN FIELD DAY

Revival Of Spirit Brings Forth Relay Candidates In Large Numbers.

The freshmen still have the advantage over the Sophomores in the number of men out for relay with forty-seven against twenty-seven, but the interest in the 1918 tug-of-war has picked up during the past week so that the two classes are now about even in this activity with thirty candidates each. Of the men out for the relay teams, twelve freshmen and six second year runners are, at the same time, out for Cross Country. Some of the Class of 1919's best men have reported only once or twice, and Coach Kanaly has dropped their names from his list. He would, however, like to see them out again.

HARE AND HOUNDS

Twenty Men Run Over Melrose Course Saturday.

The Hare and Hounds Club held a practice run over the Melrose course last Saturday. Twenty men made up the squad which was divided into two sections. The squad left the North Station at 2.30 o'clock, with Brock in charge. Although weather conditions were very favorable, no attempt at speed was made as the run was only a workout.

BANJO CLUB MEETING

There will be a meeting of the Banjo Club today at 5.00 o'clock in Room A, at the Union. Music will be assigned to the members.

CALENDAR

Monday, Oct. 17, 1915.

3.00—Track and Cross Country. Technology Field.
4.00—Tug-of-War. Oval.
4.00—Tug-of-War. Gym.
4.30—Student's Mass Meeting for Missions. Sanders Theatre, Harvard University.
5.00—Banjo Club Meeting. Room A, Union.
5.00—Glee Club Rehearsal. Room B, Union.
5.00—Rifle Club Executive Meeting. Union.

Tuesday, Oct. 19, 1915.

1.05—News Meeting, The Tech. Lower Office.
2.00—Rifle Club Trip. North Station.
3.00—Track and Cross Country Candidates. Technology Field.
4.00—1918 Tug-of-War. Oval.
4.00—1919 Tug-of-War. Gym.

THE TECH

Entered as second-class matter, Sept. 16, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.
Published tri-weekly during the college year by students of the Massachusetts Institute of Technology.

MONDAY, OCTOBER 18, 1915.

THE CLASS OFFICERS.

The office of Senior President, while carrying with it perhaps the greatest honor that can come to an undergraduate, is far from being an honorary position. The Senior President represents far more than the Senior Class. As president of the Institute Committee and chairman of the Executive Committee of the Institute Committee he is chief executive of the undergraduate body, and as such should be well versed in the traditions of the Institute and of undergraduate life. Unlike the Editor-in-Chief of Technique, whose success or failure is known throughout the Institute the moment his book is published, the Senior President may prove a glorious success or a complete failure, and the chances are that only those few undergraduates who are most intimately connected with Institute affairs will ever know about it. How all-important it is then, that the Senior Executive should be a man who has within himself the ambition and the power to make good where the incentive of public opinion is not felt!

The Senior Secretary has the most highly specialized job of any officer that the undergraduates elect. His is a life office; his work consists of keeping a record of his classmates and, in general, attending to all the affairs of the class after graduation. The chief requisites for such a position are a personal and active interest in the members of the class and a reputation for painstaking and business-like methods.

The Junior President is primarily the social light of the class. It is he who is chairman of the Prom Committee, and it is his brain that must plan out a successful program and his personal appearance that must bear the critical inspection of the guests at the Prom. Further, it must be remembered that the Junior President is for one month President of the Institute Committee the following fall, and upon his aggressiveness will depend the manner in which the Institute takes up its work at the beginning of the year.

The Sophomore President's chief work lies in the successful conduct of the Technique Electoral Committee, of which he is chairman ex-officio. Under him are perhaps the twenty-five busiest men in the class, and he alone is responsible for the rapidity with which the business is carried on. This, together with his responsibility for placing the next year's freshman class properly on its feet, requires that the Sophomore President be an executive of the first order.

The Treasurers of the three classes have approximately the same duties to perform. Aggressiveness is the primary requisite, for if a creditable percentage of dues is to be collected,

it means practically a man to man canvass of the whole class.

The offices of Vice-President and of Secretary in the Junior class are largely honorary, and little else is required than that the persons holding these offices should be in good standing at the Institute and have the high regard of their fellow classmates.

The importance of the office of member of the Institute Committee is hard to overestimate. When it is realized that, exclusive of class presidents, nearly one-third the members of the most influential body in the Institute are chosen from the four undergraduate classes, it well behooves every voter to exercise particular care and deliberation in his decision. Election to membership on the student governing board should be made, not on the grounds of popularity and personal affability, but because of an intimate knowledge of institute affairs from the student point of view and a willingness to express his ideas freely and ably in the Institute Committee meetings.

The representatives on the Athletic Association should have a good knowledge of athletics, for it is with them that the recommendations for wearing Institute Insignia originate.

The Executive Committees are, with the president, the directors of the class, and it is they who determine how the class funds shall be spent.

The list of the activities in which the various nominees for office have participated should be of invaluable assistance to those who do not happen to know the nominees personally. A careful study of the work these activities have involved and the training the different offices require ought to equip every undergraduate with the will and the knowledge to cast an intelligent ballot at the polls on Friday. The only qualification for voting is payment of class dues, and in the Senior Class this is also required for participation in the affairs of Class Day.

NOVEL CLASS SMOKER HELD BY SOPHOMORES

Members Of Class Furnish The Evening's Entertainment At Unique Event.

The Sophomore Smoker which was held last Friday evening in the Union brought out a large attendance. President Lorenz spoke of the spirit shown last year by the class in preparing for Field Day and called upon the men to continue in the same way this year. Manager Ricketts and Captain Burton of the Tug-of-War team were the next speakers and both urged that more candidates come out for practice. Up to the present time there have been only about twenty-seven men out for this event. Manager Milliken of the football team spoke briefly of the prospects for a winning team this year and said that more candidates were needed. C. W. Loomis, '16, who was chairman of the 1918 class when they entered the Institute, pointed out that the reason 1917 lost field day was that they tried to win on their reputation. He advised the present Sophomores to avoid the same mistake.

EXPERIENCE is a good school, but that ain't any excuse for always stayin' in the same class. When you're done tryin' out the "pretty fair" smokes, try VELVET, the smoothest.

CIVIL ENGINEERS TO VISIT GRAVEL PLANT

Trip To West Peabody Planned For Next Thursday Afternoon.

The Civil Engineering Society will run a trip to the New England Sand and Gravel Plant at West Peabody next Thursday afternoon. The plant is a new invention, worked entirely by machinery and needing only four men to operate it. The washed sand and gravel, such as the plant produces, is rapidly taking the place of crushed rock because it is cheaper and easier to handle, besides standing up equally well in tests. The estimated cost of the plant was \$33,000.

RIFLE CLUB

This week the club plans to make three trips, on alternate days of the week. Sign-up papers for the Tuesday and Thursday parties have already been posted, and that for the Saturday trip will be out tomorrow.

A New Model Typewriter!

The **No. 9**
OLIVER
 The Standard Visible Writer

BUY IT NOW!

Yes, the crowning typewriter triumph is here

It is just out—and comes years before experts expected it

For makers have striven a life-time to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9." Think of touch so light that the tread of a kitten will run the keys!

CAUTION!

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little fingers of the right and left hands. And it lets you write them all with only 28 keys, the least to operate of any standard typewriter made.

Thus writers of all other machines can immediately run the Oliver Number "9" with more speed and greater ease.

WARNING!

This brilliant new Oliver comes at the old-time price. It costs no more than lesser makes—now out-of-date when compared with this discovery.

For while the Oliver's splendid new features are costly—we have equalized the added expense to us by simplifying construction.

Resolve right now to see this great achievement before you spend a dollar for any typewriter. If you are using some other make you will want to see how much more this one does.

If you are using an Oliver it naturally follows that you want the finest model.

17 CENTS A DAY Remember this brand-new Oliver "9" is the greatest value ever given in a typewriter. It has all our previous special inventions—visible writing, automatic spacer, 6½-ounce touch—plus the **Optional Duplex Shift, Selective Color Attachment** and all these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every user can easily afford to have the world's crack visible writer, with the famous **PRINTYPE**, that writes like print, included **FREE** if desired.

TODAY—Write for Full Details and be among the first to know about this marvel of writing machines. See why typists, employers, and individuals everywhere are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to tell you about it.
