

THE TECH

VOL. XXXV. No. 3.

BOSTON, MASS., WEDNESDAY, APRIL 7, 1915.

PRICE THREE CENTS

TECHNIQUE RUSH TAKES PLACE ON APRIL 15

Whole Price Of Book Must Be Paid To Be Eligible To Enter.

The Technique sign-up tables which have been open in the Union and Rogers building will continue in operation until the edition of the book is sold. At present the board believes that by the early part of next week all the books will be disposed of, so that there can be no cash sales at the rush or afterwards.

The Technique Rush will come on Thursday, April 15, at one-thirty P. M. As usual the little house will be built behind the Copley Plaza, and the books given out to the men who can get to the window first and stay there. A parade with a band will precede the rush.

Only those who have redeemed their sign-up slips and paid the full price of the book will be allowed to go in the rush, and the men getting the free books will have their money refunded. The remaining price of the books can be paid in the Union any day after Monday, April 12.

DANCE ORDERS RECEIVED

Time Limit To Make Deposits Expires Today.

Last Saturday, the Prom Committee received the order of dance programs from the engravers. Those who have seen them say that they are both novel and highly artistic, surpassing anything of the kind in former years. The programs include a memorandum case for the gentleman, and a vanity case for the lady; both of decorated leather. In the inside pocket of the case are the two supper tickets which will be collected on entrance to the dining room. This pocket also contains an "Instruction sheet," embodying the arrangements and regulations to be observed at the Prom.

The programs may be obtained at the Union from 1 to 2, or 5 to 6, any time after today. The committee may be consulted on Mondays, in Room 8, Eng. C, from 5 to 6. Those who have already signed up may obtain their programs on presentation. (Continued on Page Three)

RELAY CANDIDATES

Official practice is held at the track on Mondays, Wednesdays, Thursdays and Saturdays, on which days Coach Kanaly will surely be present. The track is open, however, every day of the week.

The present intention of the management is to have the Relay Race the last event of the Meet so that every man may have a chance to run and not have to save himself for some future race.

CAST OF "GETTING A-CROSS" IMPROVING FAST UNDER HUME

Six Principals in 1915 Production Have Participated In Previous Tech Shows—Dancing Will Be Strongly Featured.

The preliminary work of preparing this year's Tech Show has been nearly completed by Mr. Hume, the dramatic coach. The cast of sixteen is now in condition to begin working up finer points of their work. In

of the Massachusetts Institute of Technology; J. F. Wallis, Jr., '17, as Comtesse de Parien; A. M. Rennie, '16, as Col. Greene of Kentucky; R. M. White, '16, as Captain Beaucaire; and C. Robinson, '16, as Jacque.

CAST FOR GETTING A-CROSS

the picture the members are as follows:

Standing, left to right: J. M. Brown, '16, as Useless; L. M. Flett, '18, as Master of Ceremonies; L. A. Swan, '17, as the Alpine Guide; A. H. Waitt, '15, as Professor Cannum

Seated, left to right: H. C. Williamson, '16, as Bob Scott; J. F. Staub, '15, as Honoree; I. B. McDaniel, '16, as General LeBoob; K. B. Owen, '16, as Hortense; and R. P. Kennard, '18, as Reggie.

(Continued on Page Four)

BRING THAT GIRL To the SPRING MEET

UNDERGRADUATES GIVE CUPS

Interested in an attempt to raise the standard of the competition in the various field events at the Spring Meet, various undergraduates as representative of certain large positions in the student activities have offered cups.

Thomas H. Huff, '15, president of the M. I. T. A. A. will give a cup for first place in the discus throw. Marshall B. Dalton, '15, president of the Senior class has chosen the hammer throw; and Charles W. Loomis, '16, editor-in-chief of Technique, will offer one for the shot put.

The idea of these men is to encourage competition in the field events, which in past dual meets have proved easy victories for Technology's opponents. With the exception of "Doc" Leslie, who broke the Institute record for the shot put, the Track team for the last few years has been handicapped without men to enter in these events.

CONVOCATION CALLED TO HONOR MR. EDDY

"America And The Chinese Republic" To Be Discussed At Meeting.

President Maclaurin has called a convocation to be held in honor of Mr. George Sherwood Eddy on Wednesday, April 14, 1915. The President will preside at the meeting, which will begin at one-thirty. Mr. Eddy graduated from Sheffield Scientific School, Yale, in 1891. He has been connected with the Y. M. C. A. ever since, doing most of his work in foreign countries, and is now Supervising Secretary of Asia. He has recently conducted a tour in China, over two thousand people attending his meetings. He became familiar with the officials in every province which he visited and, during the trip, paid especial attention to industrial and moral conditions of the country.

Mr. Eddy's subject will be "America and the Chinese Republic." President Yuan Shih-kai of the Chinese Republic, in a conference with Mr. Eddy, said: "China needs America's friendship,—a friendship which can be shown by developing her industrial concessions and by lending money to her manufacturers."

Mr. Eddy believes that China today stands at the crisis of her history. He says: "The change of

(Continued on Page Six)

STUDENTS' MEETING

Assembly In Rogers—To Be Held Next Week.

Every member of the student body is invited to attend the annual mass meeting which will be held in Huntington Hall at 4.15 next Wednesday. Freshmen are to be excused an hour earlier in order that the whole Technology Regiment may be present.

Plans of everything that is to happen during Junior Week are to be made clear; the Track management will explain the events of the coming season, rules and regulations governing the Technique Rush will be made public—in short representatives of all student organizations and activities will be present to make an interesting all-student meeting.

CALENDAR

Wednesday, April 7, 1915.

3.00—Regimental Inspection. So. Armory.

4.30—Class Day Committee. 11 Eng. B.

Thursday, April 8, 1915.

Nominations open for C. E. Society Officers. Cage.

1.00—Circulation men for The Tech. Upper Office.

PROM PROGRAMS IN THE UNION--1 TO 2 AND 5 TO 6

THE TECH

Entered as second-class matter, Sept. 16, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published tri-weekly during the college year by students of the Massachusetts Institute of Technology.

WEDNESDAY, APRIL 7, 1915.

It is gratifying to those students who are supporting Institute activities to have the concurrence of the Chemical Department in the belief that a technical training cannot of itself produce a well rounded engineer. The recent Chemical Society "Revival Meeting" instituted by Dr. Walker is a positive step toward the recognition by the Faculty of the importance of students participating in affairs outside their regular school work.

It has been the attitude of some members of the Faculty to look with displeasure upon the men in their courses with only average scholastic standing who are interested in outside affairs, and the number of Professors who have actually advised students to enter activities is distressingly small. We sincerely hope that the whole Faculty will adopt Dr. Walker's principle of "not letting one's studies interfere with one's education." The advisors in the Rochester Experiment could help spread this doctrine by extending their attention to those men who are "down in activities." Moderation in all things is the foundation principle. No student, of course, should devote so much of his time and energy to his outside work that he neglects his assigned duties to the point where Faculty action becomes necessary. Neither should any student who gets a "C" report feel that he has done his duty to himself and to the Institute unless he is connected with some outside organization.

BLUFF CALLED !

As is customary at this time of year the valiant inkslingers of The Tech are going to make another attempt to induce the technique board to do battle for the championship of Institute activities in the renowned American game of baseball.

HENCE—

The Tech therefore does hereby challenge technique to meet them in a game of clean baseball at some time during Junior Week, the exact time to be arranged by the General Manager of The Tech and the editor-in-chief of technique. (In case the editor-in-chief has not recovered from his twilight sleep, the business manager or his assistant is to act).

The Tech, knowing technique as it does and owing to the fact that the offices are not as far apart as the former might wish, is doubtful whether the technicians will have the nerve or the stamina to accept this challenge. The low brow crew that amassed last year's bundle of junk were duly handed a mitten by us and after accepting the intended insult by gluing revolting literature upon our front door refused to show up and he trimmed on account of a slight drizzle which they thought might spoil their bats. As a result The Tech was left with a perfectly good "third base umpire" on their hands. In case of such a deflunk this year The Tech faithfully promises to flood the technique office with the sour contents of the third sack.

REGIMENTAL INSPECTION

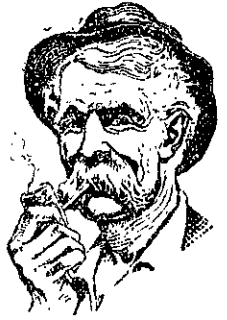

Today at three o'clock the Technology Regiment will be inspected by Adjutant General Charles H. Cole of the Massachusetts Volunteer Militia, accompanied by the following staff: Major William J. Casey, and Captains Charles T. Dukelow, William B. Stearns, Frank M. Gunby, Dana T. Gallup, James D. Coady and William J. Kelville. This will be the first official review by the state authorities.

M. E. SOCIETY

The M. E. Society will arrange a trip to the Watertown Arsenal on Monday the 12th. This inspection tour is especially for the benefit of the Juniors of the Society, but any others interested may go, as the numbers unlimited. By order of the War department no foreign students will be allowed to be members of the party. Sign-ups may be made with Purinton or Richmond. The start is from Rogers' Steps at 1.45.

The occurrence of a Convocation and a mass meeting in Huntington Hall on the same day, while ordinarily undesirable, should in the present case cause no concern that either will detract from the other. Both are of such unusual interest that no one need fear experiencing brain-fag at the mass meeting if he previously attended the convocation.

HAPPINESS is somethin' we carry inside of us an' bring out once in a while. A ca'm sperit an' a peaceful pipe o' VELVET 'll bring as much happiness t' th' surface as if it cost a hundred dollars.

**WAR DEPARTMENT
WANTS TOPOGRAPHERS**

**Wish College-Trained Men To
Supplement Engineers Corps
In Case Of War.**

The Institute has received the following letter from the War Department in regard to the selection of suitable men whose names will be placed on a list for duty as military topographers with such detachments as may be raised for service in time of war. Men interested in the work can obtain further information from Major Cole, who will, if sufficient men so desire, conduct a class on the military branches of the plane table work.

"In order to obtain a number of young men who have had suitable instruction in plane table methods, such methods being similar to those employed in military sketching in the field, you are requested to initiate and continue a list of names of young men who could easily be trained in such work. The names to be filed at the War College as are the names of those fitted for commissions in the volunteers.

"From the young men who are now undergoing instruction in the engineering colleges of the various institutions can be obtained excellent material and in your investigations you could ascertain easily, whether or not any of these young men at your Institute would be suitable as well as willing to go in for this work.

"This method of getting suitable topographers is adopted so as to supplement the work of men of the Engineer Corps who may be detailed for this purpose from our engineer field units, as well as to assist such members of the Geological Survey who might be assigned for work of the kind and with Army headquarters in the field. It is thought that a number of these young men might be available for just such purposes who would be glad to enlist in time of war. They might be interested and would enlist upon call.

"In case these young men are assigned to this duty, the head of such a section would probably be a member of the Geological Survey, and it is therefore the intention of the War College Division to co-operate with the Geological Survey in this matter.

"Your attention is invited to this proposition which is regarded as important, and you are requested to make report to the officer who makes the annual inspection of your institution."

PROM SIGN-UPS

(Continued from Page One)

tion of the receipts, others upon making the remaining deposit of five dollars required. Today is the last day upon which the deposit of five dollars is to be made.

While the committee, as previously announced, intends to limit strictly the attendance, there are, nevertheless, fifteen or twenty sign-ups left.

There are a few men who have not yet filled out their dance orders. The matter can be easily settled if these men will call at the Union at noon today or tomorrow.

**PIONEER WORK DONE
AT THE INSTITUTE**

**Professor Everett Investigates
Wind Pressure On Sails
Experimentally.**

At the latest dinner of the Naval Architectural Society, Professor H. A. Everett of the Naval Architectural Department described the experiments upon a yacht's mainsail which were carried out in the Aerodynamical laboratory of the Institute in January. So far as is known this is the first time the effect of wind pressure on sails has been scientifically analyzed. The scope of the work was originally intended to include the determination of the location of the true center of pressure for several speeds of wind and for different angles of sail to wind, but as the computations progressed, it was found that the original observations gave the means of determining additional results of great interest.

The successful conclusion of the experiments was largely dependent upon the hearty co-operation of Mr. J. C. Hunsaker, who is in direct charge of the Aerodynamical laboratory.

The sail used was an exact reproduction of a successful sail (mainsail) on one of last season's class P boats and was made accurately on the scale of 3-8 of an inch to 1 foot. As it was considered undesirable to have any sort of body under the sail, the boom was rigidly attached to the mast with the gaff left to swing free in the usual manner. The mast was then mounted in the wind tunnel upon a balance, a copy of the one used in the National Physical laboratory in Great Britain and measuring thrust in the direction of and at right angles to the wind.

In general, the results bore out what has been assumed in practice. The center of pressure on the sail was practically at the center of area, and the wind pressure for a velocity of 15 miles an hour was .85 pounds per square foot when the sail was set at right angles to the wind. It was also found possible to determine the angle at which the boom should be set with the centerline of the boat, when sailing a given course, in order to obtain the best results from the sail.

C. E. SOCIETY

The C. E. Society has arranged for a trip through the new subway from Park to Summer streets. The number of men in the party is limited to twenty-five and for this reason early sign-ups with Hastie or Thomas will be necessary. The trip will start at 2 o'clock, the meeting place to be announced in Friday's issue of The Tech.

Nominations for the various offices of the Society are in order any time during the two weeks between tomorrow and Thursday, the 22nd. Papers may be left with Hastie or at the Cage.

We're thinking of your Spring clothes.

We hope you're thinking of ours.

Watch out for a telepathic wave!

MUSICAL CLUBS

The Musical Clubs will give a concert Friday night at Framingham under the auspices of the Senior Class of the local High School. A special trolley car will be run leaving Park Square at 6.15. The car will return after the dance, leaving Framingham about 11.30.

On Saturday night the Clubs will be entertained at the Trinity Parish House, Newton Center. The train will leave Trinity Place at 5.50. Following the concert there will be a dance. The following men are to appear for the latter concert: Allen Abrams, F. H. Archard, F. H. Barray, W. J. Beadle, M. M. Brandegeee, P. W. Carr, E. S. Coldwell, P. B. Craighhead, P. M. Dinkins, R. H. Dickson, C. R. Duryea, E. A. Ekdahl, W. B. Ford, F. L. Ford, H. B. Gardner, C. W. Howlett, C. L. Kingsbury, K. T. King, W. R. McEwan, J. S. Marine, Alex. Martin, H. Mendelsohn, W. L. Ogden, H. P. Pinkham, D. L. Patten, S. E. T. Piza, R. S. Rowlett, A. C. Sherman, Jr., R. H. Wells and P. C. Woodward.

CLASS DAY COMMITTEE

The regular meeting of the Senior Class Day Committee will be held in 11 B at 4.30.

POSTERS SAFEGUARDED BY NOVEL SCHEME

Institute Committee Inaugurates Plan To Prevent Their Removal.

The bulletin board committee of the Institute Committee has perfected a plan which is now in use to prevent the theft of attractive posters from the bulletin boards before they have finished their term of usefulness. Posters, on going up, will be stamped in red ink, as follows: "This poster is the property of the Institute Committee, and if in the possession of any individual, has been stolen from the bulletin boards." In addition, each poster bears a serial number, and is registered under a descriptive title. This enables the committee to keep track of the location of all posters and to know immediately if one is stolen. The posters so stamped will be collected every two months by the committee and sold at auction, the profits to be turned over to the Institute Committee, thus adding another source of revenue. At the time of auction the stamp will be covered by an attractive seal in black and white, about two inches square, bearing the Institute seal, and stating that the poster has been sold for the benefit of athletics. In addition the name and description of any missing poster will be immediately published. It is thought that these measures will serve to prevent the indiscriminate removal of posters, while aiding to procure money for athletics.

TECH SHOW

(Continued from Page One)

In Front: J. P. Gardner, '17, Premiere Danseuse; W. A. Wood, '17, as Towser; and D. G. Tarpley, '17, leading the ballet.

Regular rehearsals at the Opera House are doing much to give the new men confidence, by approximating conditions as they will be at the performances. These rehearsals also give the orchestra opportunity to play in its regular place, and furthermore to work simultaneously with the "business." The orchestra shows pronounced improvement over the first of the year, and is having ample opportunity to gain the desired familiarity with its work.

Six members of the cast have had previous experience in the Tech Show. I. B. McDaniel played the part of Jim in "A Royal Johnnie" last year. R. H. White played the Russian Ambassador, and R. M. Rennie, Boschenka, chief of the anarchists, in the same play, while J. P. Gardner was premiere danseuse, as also this year. In addition, J. F. Staub took part in "Money in Sight," Tech Show 1913.

The dancing of the ballet has been under the supervision of Miss Virginia Tanner, well known in Boston as a solo dancer and as a pageant director. As in previous years, the dancing specialties will be strongly featured, especially the work of Gardner as a toe dancer. The personnel of the different divisions of the chorus is as follows:

**ENTERTAINMENT BY
COSMOPOLITAN CLUB****Stage To Be Erected In Union
—International Cast Of
Performers.**The annual entertainment of the
Cosmopolitan Club is scheduled to
start at 8 o'clock sharp in the Union
tomorrow evening. This event is to
take the place of the National Nights
which have been given in previous
years. As a means of offering more
convenience to spectators and actors,
a stage will be set up at one end of
the main room.The numbers included in the pro-
gram are as follows:Banjo solo Albert C. Sherman, '15
Exhibition of Chinese Diabolo,
S. S. Kwan, '18

Quartet by the American members.

Chinese Instrumental Trio,

C. T. Chu, '15; J. Z. Zee, '15;

T. C. Hsi, '15.

Spanish and Cuban folk songs,

Gustavo A. Saladrigas, '16

Play adapted from the French,

Latin-American members

The performers are all well known.
Sherman is a soloist with the Banjo
Club, S. S. Kwan is the freshman
sprinter and member of the first year
relay team, T. C. Hsi is vice-presi-
dent of the Club, while President
Alfaro takes a leading part in the
play.Following the entertainment an or-
chestra will take possession of the
stage and dancing will be held until
midnight. At intermission refresh-
ments will be served in one of the
smaller rooms.Each member of the Club has been
given six complimentary tickets to
distribute among friends, and a few
remaining may be obtained at the
Cage.**RIFLE CLUB****More Ammunition Obtained—
Medal Award.**For the second consecutive time,
bad weather prevented the projected
trip of the Rifle Club last Saturday.
A third attempt will be made this
Saturday. The party will be com-
posed of the same men scheduled to
go last time, and no other men can
be accommodated.A recent order of the Adjutant
General of the State provides that
the South Armory be closed at one
o'clock Saturdays; the armorer,
however, has agreed to remain until
ten minutes past the hour to ac-
commodate the club. Hence it will
be necessary for members to obtain
their rifles before this time. In or-
der to facilitate the distribution of
rifles for Saturday, rifle permits have
been left at the armory for those
men participating in the shoot. These
men should get their rifles as soon
as convenient.The Executive Committee has de-
cided to purchase two thousand
rounds of ammunition to increase the
present scanty supply. The commit-
tee has also decided to award indivi-
dual medals, a first and second
prize, to the freshmen, Sophomores
and upper-classmen making the best
scores during the remainder of the
season.**YOU MAY HAVE THOUGHT SO!**Others did. But the idea is all wrong. Don't think any longer
that our prices are sky high. We do make many suits at a higher
price, but our \$25 suit is something great, in style, quality, and skil-
ful tailoring, and something we are proud of, and you'll say we
have a right to be when you see it.A suit made to fit you personally, at a less price, than you'll
pay, very often, for clothes made for nobody in particular. Think
this over—and see what's the answer. Come early—you'll get the
best selection.**BURKE & CO., Inc.**

CONVOCAATION
(Continued from Page One)

China's government to the republican form is controlled by one man, who holds more power over human lives, who is facing greater problems and obstacles and who is attempting a more Herculean task than any man in all the world. That man is President Yuan Shih-kai. China looks to America as her best friend among the nations, the great sister republic of the Pacific. She deserves our help and sympathy. The Yellow Peril is today the Golden Opportunity of the West."

The Chicago Post states: "Any man who is a driving force in the world today is well worth listening to. We consider G. Sherwood Eddy such a driving force."

John Philip Sousa

The March King, says:

"Tuxedo gives an absolutely satisfying smoke, fragrant, mild and pleasant."

John Philip Sousa

Tuxedo in the Day's March

All the vim, energy and enthusiasm you get out of a Sousa march you get out of the steady use of Tuxedo. Tuxedo is as cheering and inspiring as the "Stars and Stripes Forever," because Tuxedo is always refreshing, beneficial and wholesome. To be pipe-happy is on a par with being mind-happy. Then you can get the punch into life! And it's certainly worth while. The short-line to pipe peace is via

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Made by the famous "Tuxedo Process," Tuxedo is the one tobacco in the world that will not bite your tongue, no matter how much you smoke of it.

The extra-choice Kentucky Burley leaf from which Tuxedo is made is acknowledged by experts to be the world's premier smoking-tobacco leaf. This is why Tuxedo is so mild and mellow, so pleasantly aromatic, so delicious in flavor.
