ELECTION RESULTS ANNOUNCED AT MASS MEETING TONIGHT

Results of Senior, Junior, and Sophomore Class Officers Will Remain Secret Until 7:30—All Voting Must Be Done Today.

Huntington Hall will be the scene of action tonight when the three upper classes assemble. Each election committee is scheduled to commence the count of votes at 5 o'clock this afternoon and every member is required to keep the results a secret. No elections will become known until after 7:30 tonight at the mass meeting.

No ballots will be given out to those who have not paid dues up to date, but this does not prohibit any student from paying up at the polls.

C. E. PLANT INSPECTION

New England Sand And Gravel Company Visited.

Yesterday forty members of the Civil Engineering Society made a complete tour of the New England Sand and Gravel Company at West Peabody, Mass. The trip was perfectly conducted by Professor C. B. Breed of Course I who was consulting engineer when the plant was being constructed. The plant has just been finished and is one of the most modern in the country, having an output of one thousand tons of sand and gravel a day.

TECH SHOW

A meeting of the scenario writers for Tech Show 1916 is to be held in the Union next Monday afternoon, October 25, at 5:00 p.m. It is essential that the actual editing of the book be begun at an early date and at this meeting something more definite in the way of a general scheme will be worked out. All men with original and novel ideas for unique scenes and specialty acts are urged to be present.

WALKER CLUB

Members Greet Students Coming From Other Colleges.

Last evening, in the Union, the Walker Club received the men who are entering the Institute this year from other colleges. The two principal speakers of the evening, Dean Burton and Professor Prescott, president of the Technology Club, offered a hearty welcome to the guests, and held great stress upon the fact that they are just as much a part of the student body as any of the undergraduates, and as such they should enter into all the student activities. The number entering the Institute from other colleges is rapidly increasing, and this year there are over 300 men here who are graduates, or who have been students elsewhere. Until this year, no greeting has been extended to them, and many have been led to feel that their place was short. This will be the last time this fall that Coach Kanyal can go over the course of the squad and he is desirous of having as many candidates as possible.

BIOLOGICAL SOCIETY

Professional Club Organized Along New Lines.

At the first meeting of the Biological Society held a few days ago, the advisability of organizing a purely professional club was discussed, and a committee composed of Y. L. Ellicott, C. W. Lawrence and T. H. Duff was appointed to draw up a constitution.

Twenty men were present at the second meeting yesterday noon and the proposed constitution was read and accepted. No definite plans were made for the future, but it was decided that the purpose of the society would be primarily to promote good fellowship among its members. All men taking Courses VII or XI are eligible and any wishing to join should see one of the men on the constitution committee.

CALENDAR

Friday, October 22, 1915.

8.30—Polls Open, Class Elections. Union.

4.00—1916 Tag-of-War. Oval.

4.00—1919 Tag-of-War. Gym.

4.00—Gym Team Practice. Gym.

4.15—Menorah Society. 11 Eng. B.

4.30—Boat Club Elections.

4.30—Polls Close, Class Elections.

4.30—Mandolin Club. Union, Room B.

7.30—MASS MEETING. HUNTINGTON HALL.

Saturday, October 23, 1915.

2.00—Gym Team Practice. Gym.

2.00—Boat Club Trip. Leave North Station.

2.04—Hare and Hounds Chase. Leave Back Bay.
A New Model Typewriter!

The No. 9 OLIVER
BUY IT NOW!

Yes, the crowning typewriter triumph is here
It is just out—and comes years before experts expected it

For makers have striven a lifetime to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "g." Think of touch so light that the tread of a kitten will run the keys!

CAUTION!

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

Oliver Number "9" with more...the world's crack visible writer, with the famous PRINTYPE, that...the whole control of 84 letters and characters in the little...operate of any standard typewriter...found only to these men or to E. L. Pung at the Cape. As next Friday will be election day, dues should be paid by Wednesday, if possible, to avoid confusion at the polls.

Thus writers of all other machines can immediately run the Oliver Number "g." with more speed and greater ease.

WARNING!

This brilliant new Oliver comes at the old-time price. It costs no more than lesser makers—now out-of-date when compared with this discovery.

For while the Oliver's splendid new features are costly—we have equalized the added expense to us by simplifying construction. Resolve right now to see this great achievement before you spend a dollar for any typewriter. If you are using some other make you will want to see how much more this one does.

If you are using an Oliver it naturally follows that you want the finest model.

17 CENTs A DAY
Remember this brand-new Oliver "g." is the greatest value ever given in a typewriter. It has all our previous special inventions—automatic spacer, 6½-ounce touch—plus the Optional Duplex Shift, Selective Color Attachment and all those other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every user can easily afford to have the world's crack visible writer, with the famous PRINTYPE, that writes like print, included FREE if desired.

TODAY—Write for Full Details and be among the first to know about this marvel of writing machines. See why typists, employers, and individuals everywhere are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to tell you about it.

The Oliver Typewriter Co.
146 Congress Street, Boston, Mass.

C. E. PLANT INSPECTION

New England Sand And Gravel Company Visited.

Yesterday forty members of the Civil Engineering Society made a complete tour of the New England Sand and Gravel Company at West Peabody, Mass. The trip was personally conducted by Professor C. B. Heath of Course 1 who was consulting engineer when the plant was being constructed. The plant has just been finished and is one of the most modern in the country, having an output of one thousand tons of sand and gravel a day.

TECH SHOW

A meeting of the scenario writers for Tech Show 1916 is to be held in the Union next Monday afternoon on October 25, at 5:00 p.m. It is essential that the actual editing of the book be begun at an early date and at this meeting something more definite in the way of a general scheme will be worked out. All men with original and novel ideas for unique scenes and specialty acts are urged to be present.

BOAT CLUB ELECTIONS

A meeting of the Boat Club was held in the Union Tuesday afternoon on October 25, at 4:30 p.m. All members were present. The following officers were elected for the present year: M. S. Welles, '16, commodore; F. J. Berkelionis, '17, vice-commodore; P. M. Dickson, '16, manager; A. T. Cauby, '17, purser; R. P. F. Brooks, '17, assistant manager.

Indoor work for the crew will be started soon after mid-years.

BIOLOGICAL SOCIETY

Professional Club Organized Along New Lines.

At the first meeting of the Biological Society held a few days ago, the advisability of organizing a purely professional club was discussed, and a committee composed of V. E. Flett, C. W. Lawrence and P. H. Duff was appointed to draw up a constitution.

Twenty men were present at the second meeting yesterday noon and the proposed constitution was read and accepted. Provisional plans were made for the future, but it was decided that the purpose of the society would be primarily to promote good fellowship among its members. All men taking Courses VII or XI are eligible and any wishing to join should see one of the men on the constitution committee.

2:04—Hare and Hounds Trip. Leave Back Bay.

CROSS COUNTRY MEET WITH HARVARD TEAM

To Run Tomorrow At Belmont—Hare And Hounds Chase At Hyde Park.

The Cross Country run with Harvard will start at 12:30 o'clock tomorrow from Belmont Center. The course consists of six and an eighth miles of fairly hard running. All Cross Country men are eligible and Coach Kanaly hopes that all will start who possibly can. The team went over the course on Wednesday in preparation for the meet.

All men who cannot run at Belmont on account of one o'clock classes should start in the Hare and Hounds run at Hyde Park, and should leave the Back Bay station at 2:04 o'clock. The pace for the run will be slow for the benefit of new men and the course will be short. This will be the last time this fall that Coach Kanaly can go over the course with the squad and he is desirous of having as many candidates as possible.

WALKER CLUB

Members Greet Students Coming From Other Colleges.

Last evening, in the Union, the Walker Club received the men who were entering the Institute this year from other colleges. The two principal speakers of the evening, Dean Burton and Professor Prescott, president of the Technology Club, offered a hearty welcome to the guests, and laid great stress upon the fact that they are just as much a part of the student body as any of the under graduates, and as such they should enter into all the student activities. The number entering the Institute from other colleges is rapidly increasing, and this year there are over 250 men here who are graduates, or who have been students elsewhere. During this year, no greeting has been extended to them, and many have been led to feel that their place (Continued on Page Two)
BISHOP WM. LAWRENCE
TALKS ON "PERSPECTIVE."

Ability To Speak Well—Love Of Color—Sense Of Humor—
Essential Attributes.

"Perspective" was the subject which the Rt. Rev. William Lawrence, Bishop of Massachusetts, spoke on at the weekly T. C. A. talk held in the Union yesterday.

Bishop Lawrence stated that one of the requisites for a man to have a good perspective was a good voice. "Today, in our intense life, we do not stop to think about our voice. The man whose voice carries is the one who forgets that he is talking to a large number of people. The fault with many speakers is that they think their voices must be pitched according to the number in the audience before them."

Sense of humor often gives a person the ability to laugh off an argument instead of making a quarrel. The use of the English language causes many people to get out of a good perspective. "The exaggerated form in which we often talk shows lack of perspective. We are losing the capacity of expressing ourselves in strong ways for we use them every day in very common incidents."

It is a great thing to know how to stand right for it leads in part to success. A part of life's education is not only the grinding work of school but also the development of perspective—to know how to use the eye. A man can observe enough in going from the Union to Huntington Hall to carry him through a lecture, so the speaker stated.

The church is the way by which one can get himself into a better perspective. The body and mind are fed every day and there must be relaxation, of high ideals, with love of color, with sense of humor, and with the ability to speak with ease and grace, are the ones with a good perspective.

THE TECH, BOSTON, MASS., FRIDAY, OCTOBER 22, 1915

WALKER CLUB
(Continued from Page One)

was on the "outside" of student affairs.

With the conclusion of the speeches, all gathered around the piano, and sang the songs and cheers of their former colleges. Refreshments were served.

CHEMICAL SOCIETY

The first regular meeting of the Chemical Society for the year will be held in the Union Monday, October 25th. It is to be a "War Meeting," various members of the faculty will speak on topics relating to the present war. Further details as to speakers and program will be announced in Monday's edition of The Tech.

MORE TUG-OF-WAR CANDIDATES NEEDED

Only One Out For Freshman Manager—Sophomore Football Weak.

The results of the Sophomore team are now becoming apparent in the increased number of candidates for the Freshman team. The tug-of-war teams have drawn the most interest but the other teams have also been added to. The managers of the several teams, however, are anxious that more men report at once as they feel that the teams are far from strong. The 1918 football team in particular needs added strength, as is evidenced by their showing against Waltham last week.

There has been only one man out for manager of the freshman tug-of-war so far, and as this position must be filled before Field Day, the temporary manager would like to see a little competition.

The preliminary trials for the freshman relay team were held last Monday and Tuesday at the Field, and Coach Keenly considers the records made surprisingly good. No other freshman team in recent years has done as well. The Sophomore trials were held yesterday and will be finished today.

SOCcer NotIcE

Owing to the fact that very few men have shown up for practice during the last two weeks, the management has deemed it necessary to cancel all soccer games that had been arranged for this fall.

A selected smart style from Chamberlain’s comprehensive display of proper hats for every occasion.

FOOTBALL TICKETS FOR INSTITUTE STUDENTS

Agreement With Harvard Gives Privilege Of Applying For Tickets.

Technology students in courses I, II, III, VI, and XI, have the right to apply for tickets for the Harvard football games. Applications of Technology students are considered with those of the members of the professional and graduate schools at Harvard, and very good seats may be obtained.

Single seat applications receive the first attention, two seat applications coming next, and four seat applications being considered last. For the Princeton and Brown games students may apply for from one to four seats, but only one and two seat applications for the Yale game are allowed. Those wishing to sit together must inclose their applications together.

Applications must be made at the Harvard Athletic Association, whose office is in the Harvard Union in Cambridge, a few minutes walk from Harvard square. A signature card must be filed at the H. A. A. office before any applications will be honored. Applications for the Princeton game, which is to be played at Princeton on November 6, close today at 6 p.m. The price of tickets is $2 and the special rate return-trip fare is $7.75. The applications for the Brown game, November 13, close on October 29, and for the Yale game, on November 4. Both these games are to be played in the Stadium, and the price of tickets is $2 for the Yale game, and $1.50 for the Brown game.

Tickets for the Cornell game, to be played here October 30, may be obtained at the H. A. A. office at Cambridge, a few minutes walk from Harvard square. A signature card must inclose their applications to fill the seats, and Ryan was elected secretary of the group.

CATHOLIC CLUB
(Continued from Page Three)

At Cambridge, he continued, there will arise a new and greater opportunity for the student in his feeling of home-life, so markedly absent in the present location of the Institute, will change the entire relation of students to one another. Each must acknowledge an individual responsibility for maintaining law and order. The dormitories will be in charge of student committees, and the presidents of the buildings will have but nominal powers. The speaker’s conclusion was an earnest wish for the continued success of the policy of student self-government. The Dean’s address was followed by that of Bursar H. S. Ford. In his short talk he reminded the students of the work which should be done and of the character and training which such a career would give them. When the Bursar had concluded, Dr. R. J. Wiseman, a graduate student, was introduced and told of the wonderful development of the club in the eight years of his membership, and enumerated the advantages of the club. He touched on the necessity to a student of influences to draw him away from the danger of over-specializing. Dr. Wiseman introduced to his audience Dr. Carney, a Yale graduate and an honorary member of the club, who has been interested and active in its affairs for many years.

At a business meeting which followed the addresses three officers were elected: McLaughlin, a Sophomore, who has been interested and active in its affairs for many years.

At this meeting which followed the addresses three officers were elected: McLaughlin, a Sophomore, who has been interested and active in its affairs for many years. The data set for the next meeting was Wednesday, Nov. 10th.
