CROSS COUNTRY TEAM DEFEATED BY HARVARD

Captain R. G. Brown Of Tech Finishes First—Leads By Sixty Yards.

The Technology Cross Country team was defeated by Harvard last Saturday in a six and an eighth mile run over the Belmont course, 27 to 29. Three of the first five men to finish were of the Institute team but Harvard got the next seven places.

At the start, Fuller of Harvard jumped into the lead and held it until headed off by Captain R. G. Brown of M. I. T. Brown took things easy at first but gradually came up to the front and finished a hundred yards ahead of Fuller, who was second. The run was a practice one, the unofficial time for the leaders being: Brown, 24:15; Fuller, 24:53; and Guething of Tech 25:57.

The order at the finish was as follows: Capt. Brown, Technology; Fuller, Harvard; Guething, Technology; King, Harvard; MacVicker, Technology; Bancroft, Harvard; Whitehouse, Harvard; Twitchell, Harvard; Boyd, Harvard; North, Harvard; Cook, Harvard; Bechtel, Harvard; Wall, Technology; Hughes, Harvard; Davidson, Harvard; Babcock, Harvard; Parker, Technology; Dodge, Technology; Merriman, Harvard; Moorehead, Harvard.

The next time the two teams meet will be at the intercollegiates on November 20.

Technology was hampered by the absence of Graff, who through misunderstanding arrived at the course an hour late, and Bradley, who was unable to run.

GRADUATE RECEPTION

President And Faculty To Act As Hosts.

The graduate students in the Institute will be welcomed on the evening of Thursday, November 4 at a reception in Rogers Building at 5:00 o'clock. President Macaulay and the members of the Technology Faculty will be the hosts for the evening.

There will be a brief address in Huntington Hall on “The Spirit of a Profession” by James B. McVicker, Ropes of Harvard University, after which the reception will be held. Refreshments will be served in the student lounge and the members of the graduate students in the Institute have been invited to the reception, which will be strictly informal.

FALL HANDICAP

The Track Management has announced that the Annual Fall Handicap Meet will be held next Saturday, October 25, on the ground at Suwanee Field. Many from all classes are allowed to compete.

“CHARACTER FIRST” VERDICT OF AMERICAN ENGINEERS

Character Building the Prime Object of the Technology Christian Association—How Results Are Accomplished.

In fulfilling its purpose, the T. C. A., as it is familiarly known about the Institute, has no narrow views or year, and is at the highest level of activity. The non-sectarian character of the Association is avowed in its object as it appears on its membership application cards. It seeks “to unite all men of the Institute who desire the moral and religious welfare of the student body, for the purpose of promoting among them the Christian principles of thought and action.” Members of other religious societies are included in its membership and it freely cooperates with these societies, as well as with the nearby churches. Students are enlisted as workers for various kinds of social reform organizations. Every man is the Institute, whether member not, is considered within its A of service.

As a matter of actual fact, the All-Institute character of the T. C. A. is of very great importance. The membership has grown from 19 in 1911-12 to 500 in 1914-15 with the promise of a corresponding increase the present year. It was only four years ago that the popular Thursday T. C. A. Talks in the Union were started, talks by prominent men, who have had a large influence in broadening the outlook and elevating the ideals of “Tech” men. The Freshman Advisory System was inaugurated about the same time, to give every freshman much-needed assistance during his first year at the Institute. Each school has seen the system more nearly perfected, so that the one hundred upper-classmen engaged at present in this service are pledged to render any needful service throughout the year, giving occasional tutoring and friendly advice.

HARVARD SECOND WINS

The freshmen were able last Friday to hold the Harvard Second team to the score of 21 to 0. In the first quarter the teams seemed to be well matched, but in the second quarter the Harvard men pushed over two touchdowns. The touchdown in the third quarter was the result of a successful forward pass.

SOPHOMORE FOOTBALL

Last Saturday afternoon, the Sophomore football team played a tie game with Lowell Textile School at Lowell, the score being 7-7. Both made the touchdown for 7-7. Bottenberg kicked the goal. Only one point is at present, and Manager Milliken urges more men to come out before it is too late in the season.

SENIOR CLASS ELECTS FARTHING PRESIDENT

Juniors Choose Brooks—Sophomores J. W. Clarkson, At Last Friday’s Election.

A record vote was polled at the elections of the three upper classes held last Friday, the Senior Class casting 188 votes, the Junior 165, and the Sophomore 189. The elections were less close than they have been in past years, as most of the winning candidates received an ample majority.

FINANCE CAMPAIGN

Five Hundred Dollar Budget To Be Raised.

On Tuesday, Wednesday and Thursday of this week the Technology Christian Association will devote its energies to canvassing the student body to raise the five hundred dollars estimated to be the amount needed to carry on the work for the year. About one hundred men have been secured to solicit subscriptions, following the plan used by N. E. Kimball, treasurer last year, when $300 was raised. H. H. Hastie, treasurer for this year, has a more complete organization than was possible then and this, with the better understanding among the student body of the useful activities of the Association, will, he hopes, enable him to secure the increased amount necessary for the growth of the organization and its widened scope of work.

FOOTBALL TICKETS FOR INSTITUTE STUDENTS

Agreement With Harvard Gives
Privilege Of Applying For Tickets.

Technology students in courses I, II, III, VI, and XI, have the right to apply for tickets for the Harvard football games. Applications of Technology students are considered with those of the members of the professional and graduate schools at Harvard, and very good seats may be obtained.

Single seat applications receive the best attention, two seat applications coming next, and four seat applications being considered last. For the Princeton and Brown games students may apply for one to four seats, but only one and two seat applications for the Yale game are allowed. Those wishing to sit together must enclose their applications together.

Applications must be made at the Harvard Athletic Association, whose office is in the Harvard Union in Cambridge, a few minutes walk from Harvard square. A signature card must be filed at the H. A. A. office before any applications will be honored. Applications for the Princeton game, which is to be played at Princeton on November 6, close today at 4 p.m. The price of tickets is $2 and the special rate return-trip fare is $7.75. The applications for the Brown game, November 13, close on October 29, and for the Yale game, on November 4. Both these games are to be played in the Stadium, and the price of tickets is $2 for the Yale game, and $1.50 for the Brown game.

Tickets for the Cornell game, to-morrow, and the Penn. State game, October 30, may be obtained at the gate.

Students applying for tickets for the Yale game must promise to use one of them personally or return the tickets. Any student violating this rule, or attempting to sell tickets for a premium may be "blacklisted," and his applications will be therefor refused. Yale and Princeton students attending M. I. T. should apply to their own manages for the game with their universities.

CATHOLIC CLUB
(Continued from Page Three)

At Cambridge, he continued, there will arise a new and greater opportunity for self-government. The feeling of home-life, so markedly absent in the present location of the Institute, will change the entire relation of students to one another. Each must acknowledge an individual responsibility for maintaining law and order. The dormitories will be in charge of student committees, and the proctors of the buildings will have but nominal powers. The speaker’s conclusion was an earnest wish for the continued success of the policy of student self-government. The Dean’s address was followed by that of Bursar H. S. Ford. In his short talk he reminded the students to work well and was possible for an efficient career.

When the Bursar had concluded, Dr. R. J. Wiseman, a graduate student, was introduced and told of the wonderful development of the club in the eight years of his membership, and enumerated the advantages of the club. He touched on the necessity to a student of influences to draw him away from the danger of over-specializing. Dr. Wiseman introduced to his audience Dr. Carney, a Yale graduate and an honorary member of the club, who has been interested and active in its affairs for many years.

At a business meeting which followed the addresses three officers were elected: McLaughlin, a Sophomore, was chosen assistant treasurer; Hughes was made freshman member of the Executive Committee; and Ryan was elected secretary to fill the vacancy created by the resignation of the trustee. The date set for the next meeting was Wednesday, Nov. 16th.
CROSS COUNTRY TEAM DEFEATED BY HARVARD

Captain R. G. Brown Of Tech Finishes First—Leads By Sixty Yards.

The Technology Cross Country team was defeated by Harvard last Saturday in a six and an eighth mile run over the Belmont course, 37 to 35. Three of the first five men to finish were of the Institute team but Harvard got the seven next places.

At the start, Fuller of Harvard jumped into the lead and held it until the starting of the first mile of the 5-kilometer race. Fuller was second. The run was a practice one, the unofficial type for the leading: Brown, 34:17; Fuller, 34:52; and Justing of Tech 35:57.

The order at the finish was as follows: Captain Brown, Technology; Fuller, Harvard; Guelph, Technology; King, Harvard; McVicar, Technology; Bancroft, Harvard; Whipplehouse, Harvard; Twichel, Harvard; Boyd, Harvard; North, Harvard; Cook, Harvard; Alden, Harvard; Walsley, Harvard; Force, Technology; Portrait, Technology; Dodge, Technology; Man, Harvard; Moorehead, Harvard.

The next time the two teams meet will be at the intercollegiates on November 23.

Technology was hampered by the absence of Gleason, who through a misunderstanding arrived at the course an hour late, and Bradley, who was unable to run.

GRADUATE RECEPTION

President And Faculty To Act As Hosts.

The graduate students in the Institute will be welcomed on the evening of Thursday, November 4 at a reception in Rogers Building at 8:00 o'clock. President Macdonald and the members of the Technology Faculty will be the hosts for the evening.

There will be a brief address by Huntington Hall on "The Spirit of a Professor" by Professor James Hardy of Harvard University, after which the reception will be held. Refreshments will be served in the general lobby of the Institute, and all graduates of recent years are invited to the reception, which will be strictly informal.

FALL HANDICAP

The Track Management has announced that the Annual Fall Handicap is on Saturday, October 29, on the New Field. Men from all classes are allowed to compete.

"CHARACTER FIRST" VERDICT OF AMERICAN ENGINEERS

Character Building the Prime Object of the Technology Christian Association—How Results Are Accomplished.

In fulfilling its purpose, the T. C. A., as it is familiarly known about the Institute, has no narrow view or conception of the field of activity. The non-sectarian character of the Association is avowed in its object as it appears on its membership application card. It seeks "to unite all men of the Institute who desire the moral and religious welfare of the student body, for the purpose of promoting among them Christian principles of thought and action." Members of other religious societies are included in its membership and it freely cooperates with these societies, as well as with the near-by churches. Students are enlisted as workers for various kinds of social welfare organizing. Every man at the Institute, whether member or not, is considered within its field of service.

As a matter of actual fact, the All-Institute character of the T. C. A. is of recent attainment. The membership has grown from 19 in 1911-12 to 500 in 1914-15 with the promise of a corresponding increase in the present year. It was only four years ago that the popular Thursday T. C. A. Talks in the Union were started, talks by prominent men, which have had a large influence in broadening the outlook and elevating the ideals of "Tech" men. The Freshmen Advisory System was inaugurated about this time, to give every freshman much-needed assistance during his first days at the Institute. Each year has seen the system more nearly perfected, so that the one hundred upper-classmen engaged at present in this service are pledged to render any needed service throughout the year, such as giving occasional tutoring and friendly advice.

MONDAY, OCT. 25, 1915.

To "Bull" Parthen has been entrusted the direction of undergraduate affairs for a year that is to be one of the most critical in the history of Technology—a year of transition. His office offers splendid opportunities and there should be no doubt in the minds of those who heard his simple, straight-forward, sincere words Friday night that he will "do his best.". It now remains for the Senior Class, no matter whom the various members may have voted for, to "do their best" in co-operating with their President.

The mass meeting for the announcement of election results indicated that Technology spirit is coming to its own. The viva with which the undergraduates gave their class yells, and with which they sang the Stroot Song on Rogers steps before dispersing, will bring the realization that attendance at a student gathering means a running good time, Duty becomes pleasure under such spontaneous enthusiasm as was exhibited at Friday's meeting.

A COOPERATING ACTIVITY.

The Technology Christian Association occupies a somewhat unique position among Institute activities, in that it is a cooperating rather than competing organization. This idea was forcibly brought out by the Dean in a recent interview, when he remarked, "Even if a man holds all the offices allowed by the by-laws, he still has a little time left to help others. The T. C. A. can take good care of his spare moments."

The desire to help others is characteristic of the true Technology man; and the T. C. A., through its organization, offers the best opportunity for the efficient expenditure of this effort in this direction. It accomplishes all its work by demanding an hour a week from each of its volunteers—time which does not interfere at all with the more exacting activities. Thus it includes in its committees members of the Musical Clubs, Tech show, athletic teams, the Editors-in-Chief of two publications, the Manager of the Wrestling Team, and many others prominent in student affairs. By assembling these men, it serves to unite the activities on a common ground of service, and is enabled to cooperate with all of them to assist in the realization of their several objects.

T. C. A. BOYS' WORK

Men Needed To Conduct Boys' Activities.

The Boys' Work branch of the T. C. A. is composed of students interested in the leadership of boys' clubs and societies. These men volunteer to conduct classes of an educational, social or religious nature.

Foreigners Taught.

Students Give Classes In English.

Eight students are now engaged in teaching English to foreigners in Cambridge not far from the New Technology. The work is among the Lithuanians and done under the auspices of the Cambridge Y. M. C. A. Each man gives two hours one night a week. The foreigners are very appreciative of this service and the teacher has the compensation of experience in dealing with the kind of men with whom he will eventually have to do. Work of this sort was started by the Industrial Department of the Y. M. C. A. seven years ago and at the present time there are more than three thousand students engaged in this work coming in contact with fifty thousand men. Sheffield Scientific School has been a pioneer in work for foreigners and has a very large number of students engaged in this service. More men are needed and those interested should report to F. S. Ford, '17, or call at the T. C. A. office in Room 5, Eng. B.

FINANCIAL CAMPAIGN
(Continued from Page One)
activities. The collections in each course are organised under a chair- man, with from three to twenty commit- tee men, depending on the size of the course. Each of these collectors have a certain number of men to see.

The Christian Association has no membership dues for two reasons:
First, because all are not able to con- tribute in equal amounts; and second because the work done is for all the men of the Institute regardless of whether they are members or not. Members who contribute one dollar or more are entitled to a ticket giving regular membership privileges at the B. Y. M. C. A., and the B. Y. M. C. U., and the right to purchase such additional privileges as they desire.

The typical subscription in last year's campaign was one dollar, and ranged all the way from twenty-five cents to ten dollars. The average subscription amounted to a little more than one dollar.

RIFLE CLUB

Two Trips This Week—Score- books At Armory.

This week the Rifle Club will make two trips to the range at Walnut Hill, one Wednesday and the other Saturday. A list will be posted as usual on the Union Bulletin board. W. J. Blackford, '18, made the highest score this season Saturday when he rec- eived eight bullseyes, a four and a three for a total of 47 at 500 yards.

President Keating has left a number of score books given to the club by the U. S. Cartridge Company, at the Armory. Members can obtain these free of charge by signing with the armorer for them.

PROMINENT SPEAKERS.

Thursday Noon Talks By Men Of National Note.

Boston, as a center from which much of the original thinking in America has originated, is particularly well situated to secure the broadest men in America. The speakers who have thus far appeared before the students this year are Dr. A. Z. Con- rad of the Park St. Congregational church; Mr. Edwin Mulready, State Commissioner of Labor and Indus- tries; Dr. Peter Roberts, Secretary in the International Y. M. C. A. office in New York City; the Rt. Rev. William Lawrence, Bishop of Mas- sachusetts. Among the tentative speakers are Mr. Chas. D. Hurney, General Secretary of the Committee on Friendly Relations Among Foreign Students; Rabbi Levi of Boston; Mr. A. Lincoln Fiske of Wm. Fiske's Sons Co.; Dr. Geo. A. Gordon of the New Old South Congregational church; and Rev. Henry Roe Cloud of the Roe Indian Institute in Kin- nakeet.

Proposed Trip At Mid-Years Will Be Similar To That Of Last Year.

The Combined Musical Clubs, comprising the Glee, Mandolin, and Banjo Clubs are already actively engaged in preparation for what is predicted to be their best season in their history.

The preliminary season will open on November 16, when the Clubs will begin their year's work with a concert at the Franklin Square House, this performance being an annual affair. Other concerts already planned are at Wheaton College, Sharon High (Continued on Page Seven).

ADVISORY BOARD
Prominent Men Back Of T. C. A. Will Raise $2500.00

The T. C. A. Advisory Board was instituted by Dr. Macaulay to insure permanence and efficiency in the management of the Association. To accomplish this the employment of a General Secretary to organize and guide the work has been found to be absolutely necessary. The necessity is evidenced by the fact that in the first year of secretarial service (1911) under the direction of the Advisory Board the Association membership was increased from 10 to over 200; this year it will undoubtedly include over one-third of the student body.

Dr. Macaulay realized that neither the Institute nor the undergraduates could undertake to provide the necessary funds, but that this was a peculiar opportunity for support by every alumna who has the welfare of the Institute at heart. The Advisory Board therefore accepted the responsibility of raising the necessary funds from the alumni. The budget for the current year is about $2500 to cover the salary of an experienced general secretary and the incidental expenses of administration.

The Board as now constituted comprises the following alumni, faculty members and others active in work for young men:

Walter I. Snow, '91, Chairman, Publicity, Dean, and President of Alumni Association.
George R. Haven, '94, Treasurer, Professor of Architecture.
Alfred E. Burton, Dean, Institute.
Dugald C. Jackson, Professor of Electrical Engineering; in charge of the Department.
Henry L. Dunning, '97, Civil Engineer, Superintendent of Walls Memorial Institute.
Arthur S. Johnson, President of the Board of the Boston Young Men's Christian Association; Chairman of the Committee for Student Work in Mass. and R. L. Franklin L. Locke, '86, President Boston Young Men's Christian Union, Former President Alumni Association.

F. Nathaniel Perkins, wool merchant and worker among young men at Trinity church.

HURREY AND ESCOBAR
HERE THIS WEEK

Will Speak At Receptions To Foreign Students—Hurrey Speaks Thursday.

Mr. Hurrey, Hurrey of New York, will be remembered by many students as a speaker last year at the Cosmopolitan Club, and as one of the T. C. A. speakers in the Union. He is now the secretary of the Committee for Friendly Relations Among Foreign Students, and is visiting among the foreign students of Harvard, Technology and other schools this week. He is accompanied by Mr. Jose Escobar of Mexico. Mr. Escobar has had some very interesting and thrilling experiences in the revolutions in Mexico and has always been the champion of liberty and justice among his people. During the past three years he has travelled in the United States visiting colleges and universities from coast to coast. He is an eloquent speaker and has been enthusiastically received by the Latin American students in most of the universities and colleges.

Mr. Hurrey and Mr. Escobar have been invited to speak at the Cosmopolitan Club on Thursday evening. Mr. Hurrey will give the T. C. A. Talk in the Union Thursday at 1:30, speaking on the subject: "The Demands of Our Times on Technical Men."

Thursday afternoon, the Latin Americans will be entertained at a reception at the home of Prof. C. H. Penboyd on Commonwealth avenue. A reception is being tendered to the Chinese students of Boston by the Boston Y. M. C. A. on Friday evening. Mr. Hurrey, Dean Burton and others are to speak. On Saturday, the Japanese students are being entertained at Wellesley Farms at the home of Mrs. Jones.

ADVISORS TYPIFY "TECHNOLOGY SPIRIT" 

Improved System This Year Reaches More Men Than Ever Before.

This year the freshman advisers were a more active group of men than the T. C. A. has so far secured, and the freshman class has better in-

stitute and class spirit as a direct result. Last spring the T. C. A. se-
lected about one hundred men who were asked to act as freshman ad-

visers. They agreed to the following duties: To correspond with from three to five members of the class of 1910 and answer all questions re-
garding admission or anything else that the new men might wish to know; to meet them when they arrived in Boston and help with regis-
tration and getting rooms; to make them acquainted with other students, both of the same and higher classes; and to help them with their studies whenever the need of tutoring is felt.

WHY SUPPORT THE T. C. A.?

I. FOR WHAT IT IS.
1. It is an All-Institute organization, whose membership includes any man in the Institute who believes in its practical service object.
2. Its work is not for its members but for every student.
3. It is the only organization at the Institute that conducts an aggressive campaign for the development of character and the promotion of all that is finest and best in Institute life.
4. It has no dues, first, because everyone cannot support it in an equal amount, and second because its work is for all students and all should be given the opportunity to help.

II. FOR WHAT IT DOES.
1. Organizes and carries on the freshman advisory system.
2. Publishes and distributes free to all students and faculty the "Tech Bulletin."
3. Investigates and publishes an approved boarding house list.
5. Secures prominent men for T. C. A. Talks in the Union.
6. Carries on the Freshmen Discussion Group, and also groups for upperclassmen for discussion of fundamental problems.
7. Maintains library of helpful books in the General Library.
8. Secures students, in cooperation with the churches, a welcome to these churches and provision for their special needs.
9. It secures membership privileges at the Boston Y. M. C. A. and the B. V. M. C. U. for its paying members. ($1.00 or more.)
10. It does practical social service, through an efficient organization of student workers, which Institute men as a whole are in sympathy with but all are not able to do personally.

III. FOR WHAT OTHERS THINK ABOUT IT.
President Macaulay.—"The T. C. A. has been steadily broadening the scope of its activities, and is doing a work that greatly needs to be done."
Dean Burton.—"The work of the T. C. A. is a most helpful influence in student life."
President Sedgwick.—"The T. C. A. stands among us like the church or spire of a town, emblematic of striving and spiritual things."
The Alumni believe in it to the extent of providing the salary and expenses of a general secretary and the expenses of an advisory board.
An Advisory Board believes in it to the extent of putting in valuable time and money in its general direction and support.
The officers of the Institute and the faculty have been loyal supporters and many of them have rendered valuable assistance from time to time.

IV. BECAUSE IT NEEDS TO RAISE THE FOLLOWING BUDGET:

T. C. A. ACTIVITY

(Continued from Page Three)

broadened grounds of Christian principles; the book having been compiled from the answers to letters to prominent men and women in all American colleges.

Our one hundred sixty freshmen have thus far signified their desire to enter the various groups, which are to be conducted during a vacant hour in the gun. The leaders are upperclassmen who have been prominent in Institute activities and include J. M. DeBell, editor-in-chief of The Tech, and M. B. Dalton, President of the class of 1915.

M. E. SOCIETY

There will be a trip to the Chestnut Hill Pumping Station next Saturday, held under the auspices of the Mechanical Engineering Society. For further details see future issue of The Tech.

T. C. A. ACTIVITY

(Continued from Page Three)

The T. C. A. is now holding practice every afternoon at the Gymnasium. To date only about fifteen candidates have reported for practice, many from among this number having had previous experience. Captain Bliss is anxious to have more men work out, even though they have had no previous training. Work begins at 4:30 p.m. every day at the Gymnasium.

T. C. A. BOYS' WORK

(Continued from Page Two)

Last year, the T. C. A. had from ten to fifteen men employed in this manner. Among the many successful classes under the direction of these students, were those in Bible study, sketching, amateur photography, gymnastics and Boy Scout work. Another season is now commencing and a good opportunity to gain valuable experience in handling boys is open to volunteers.

GYM TEAM

Captain Bliss hopes to develop an excellent team.

T.C.A. SECRETARY HAS A SUCCESSFUL YEAR

Mr. Cushman Had Large Experience In College Association Work In Iowa.

Mr. A. G. Cushman, General secretary of the T. C. A., is an Iowaan by birth and spent the first part of his life in that state. In 1900, he graduated from Morningside College and immediately started in doing college association work. He spent two years at Highland Park College in Des Moines where about one thousand men were actively engaged in the work. He occupied the position of state secretary of Iowa for a year, having direct charge of the work in twenty-five colleges. In 1913, he went to Bates College, Maine, to be general secretary there for three years.

Mr. Cushman came to Technology in 1914. At that time the T. C. A. was in its fourth year. L. R. Tulbott had previously been a part time secretary but the need was felt for a man who would devote all his time to the work. Furthermore, the T. C. A. Board wished to put the Association on a firm basis before the Institute moved to Cambridge so that there might be a chance to take up the work vigorously. This led to the securing of the services of Mr. Cushman who has carried on the work of the T. C. A. since 1914, giving all his time to it.

FRATERNITY FORUMS

Last Year's Successful Plan To Be Extended.

The Fraternity Forums held in three fraternities last year proved so eminently satisfactory to these organizations that invitations have been issued to the remaining sixteen to avail themselves of this phase of T. C. A. service. This year it is intended to widen even more the scope of the informal after-dinner talks given under the original plan, by providing expert speakers on any subject of general interest.

Under the present scheme of operation, the fraternity designates the particular topic it desires to have discussed, and then its representative, working in conjunction with the T. C. A., selects the speaker from a list of prominent available men.

MUSICAL CLUBS

(Continued from page five)

School, Lynn, and the Winter Concert, the date of the latter being fixed for December 17, the Friday before the Christmas Recession. An all-night trip comes December 7, when a concert is given in New Bedford.

The Clubs are planning a repetition of their mid-year's trip of last year. It will be recalled that on this trip approximately 1500 miles were covered and concerts were given by the Combined Clubs of 49 men at Montclair, N. J., Philips, Pa., Washington, D. C., Butler, Pa., Rochester, New York, Northampton, and Springfield, Mass.

The Itinerary of this year's trip varies considerably from that of last year's, although in almost every case the plan of visiting held out offers for a return engagement this year. The men will leave on the last Friday of exam week by boat to Norwalk, and then go to Baltimore. There they will take a special Pullman sleeping, which will be their home until Boston is reached on the return. The trip will then carry the men gradually northward, stops being made in Phila., Pa., Montclair, N. J., and New York City, ending probably in Springfield after a concert at or near Albany, N. Y. At the first two mentioned places the popularity of last year's concerts has been testified by the attractive contract under which the Clubs are returning.

The proposed concert at New York City, something never attempted before or since 1910, is regarded with great interest by the alumni in and around the metropolis, as it will not only serve as a criterion of the drawing power of the Musical Clubs, but also will give a good idea of what might be accomplished by the Show should it undertake the trip too.

After returning from the trip, the men will finish the season with local concerts in and around Boston, ending with the Spring Concert, which will occur as usual as one of the chief Junior Week festivities in the middle of April.

W. B. FORD, '17, General Manager.

CAUTION!

The new-day advances that come along on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little fingers of the right and left hands. And it lets you write them all with only 28 keys, the least to operate of any standard typewriter made.

Thus writers of all other machines can immediately run the Oliver Number "9" with more speed and greater ease.

17 CENTS A DAY

Remember this brand-new Oliver comes at the old-time price. It costs no more than lesser makes—now out-of-date when compared with this discovery.

For while the Oliver's splendid new features are costly—we have equalized the added expense to us by simplifying construction.

Resolve right now to see this great achievement before you spend a dollar for any typewriter. If you are using some other make you will want to see how much more this one does.

If you are using an Oliver it naturally follows that you want the finest model.

The Oliver Typewriter Co.

BUY IT NOW!

Yes, the crowning typewriter triumph is here

It just out—and comes years before experts expected it

For makers have striven a lifetime to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9." Think of touch so light that the tread of a kitten will run the keys!

TECH UNION BARBER SHOP
