CROSS COUNTRY MEET TO BE HELD SATURDAY

New England Intercollegiate At Franklin Park—Brown Of Tech May Lead.

The Fourth Annual N. E. I. C. A. Cross Country run, which is scheduled to take place next Saturday at Franklin Park, Dorchester, is expected to be a contest between the Gorham, Maine, and Technology, with Brown and Colby as possibilities. The Industrial Art Department is abetted by experts to have less bright prospects for winning than last year, because of the lack of interest shown by candidates for the team. Several of last year's men, namely, Bradley, Harvengton, and Wall, are unable to run at this meet and this is expected to be a handicap. Other colleges represent (Continued on Page Two)

M. E. SOCIETY TRIP

Technology Society And Brown Branch To Be Entertained.

Members of the Mechanical Engineering Society are invited to attend a convention of the Brown branch of the A. S. M. E. and the Providence Association, which will be held next Thursday afternoon and evening in Providence. In the afternoon there will be excursions to the Gorham Manufacturing Co., the largest firm of silversmiths in America; to the Gen- eral Fire Extinguisher Co., the largest fire prevention company in the world; to the Brown & Sharpe Manufacturing Co., and to the mechanical laboratories of Brown University.

In the evening a banquet will be served at the Hotel Narragansett for $1.50. At each man's place will be a telephone connection with San Francisco. The Governor of Rhode Island will be among the speakers.

Making this trip will leave the South Station Thursday afternoon at 4.05 o'clock, returning from Providence on the 9.55 o'clock train. While in Providence the men will be the guests of the Providence Association and the only expense above railroad fare will be $1.50 for the banquet.

All men who intend to go on this trip must sign up with C. K. Rich- mond '16, R. M. Snyder '16, A. P. Daum '17 or J. C. Clarkson '17 before next Monday noon.

CROSS COUNTRY NOTICE

All checkers for the N. E. I. C. A. Cross Country meet are expected to report to Manager N. A. Tourtelotte at the Refectory, Franklin Park, at 10.00 o'clock Saturday. Those who cannot come at that time on account of 9.00 o'clock classes, should report as soon after as possible.
INSTITUTE COMMITTEE

At a meeting of the Institute Committee yesterday afternoon the following committees were appointed:

Blanket Tax Committee, Bell, Merlowing committees were appointed.

At a meeting of the Institute Committee Monday yesterday afternoon the following were appointed:

Bell and Dempsey to depend on.

There will be a meeting of candidates for the business department of Tech Show in the Show Office today between 1:00 and 4:00 o'clock.

COMMISSION

To the Editor of The Tech:

At the Institute Committee meeting November 11, barely a quorum was present, due to the carelessness and neglect of the different representatives, as sufficient notice was given to all through The Tech. It is the duty of each man who represents an activity on the Institute Committee to be there at the meetings held every other Thursday in 8 Engineering C. at 5:00 o'clock.

WALTER HARRINGTON.

BUSINESS CANDIDATES

There will be a meeting of candidates for the business department of Tech Show in the Show Office today between 1:00 and 4:00 o'clock.

INSTITUTE COMMITTEE

A number of years ago appears this quotation:

"As idle as a painting ship Upon a painted ocean."

Some such vision was probably haunting today's communicants, but there seems to be no real cause for alarm. The numerous absences of yesterday were probably due to other pressing business to which other matters had to be subordinated. Those who control the student affairs of nearly two thousand men would not habitually neglect so high a trust, and it is entirely possible that the Institute Committee will not experience another low water mark for the next five years.

UNION ASSIGNMENTS

Attached to the regular Union room blank, both of these cards may be had at the Cage. These cards after being properly filled out, are to be placed in the mail box beside the calendar. If the application is approved by the Union Committee, the name of the class, club, or society, the room and the time will be on the calendar by noon of the following day. If the application is not satisfied with the assignment made by the Union Committee, one of its members should see either H. L. Bickford or L. S. Blodgett, and then if no satisfactory terms can be made, the matter will have to come up before the Institute Committee.

The members of the Union Committee will be in the Union the following days during the noon hour: Monday-E. P. Pearson; Tuesday-J. F. Bickford; Wednesday-H. L. Bickford; Thursday-L. S. Blodgett; Friday-H. L. Bickford; every night—R. M. Snyder.

NOW

BITTLE DIAGRAM

The use of a little diagram will always help to clarify a point. Here is an example from the laboratory handout:
MANDOLIN CLUB

Members Are Elected For The Coming Season.

The makeup of the Mandolin Club, for the present, will consist of the men whose names are listed below. As the rehearsal this evening will be the last before the concert at the Franklin Square House Tuesday night, all are expected to be present.

1919 Nominations

Nomination sheets for officers of the class of 1919, which have to be signed by at least ten men, must be handed in at the Cage not later than 4:30 p.m. tomorrow. Ballots will be sent out by the committee and must be returned to the Cage before Saturday, Nov. 20.

MONTHLY OUT TUESDAY

The December issue of the Technological Monthly will come out next Tuesday morning. This issue contains the following articles: "Why is the Wrestling Squad?" by the manager of the team, G. H. Stebbins, '16; "Development of Tech Show" by Charles Lord; general manager of last year's show; "Work of the Bureau of Standards" by M. D. Hersey, '10; "Mining in Northern Ontario" by Charles Livands; '10; "Faculty Honors, Field Day photos, and cartoons by van Zelm." The following men have not yet received their shingles, or the "WTT" last spring and who will meet in the Show Office today at 5.00 o'clock.

INSTITUTE INSIGNIA

Men who won the "T," the "ATA" or the "WTT" last spring and who have not yet received their shingles, may get them by applying at the Cage.

M. E. SOCIETY

(Continued from Page One)

so as to be assembled with the greatest ease. From patterns are then made from these wooden ones and are used daily while the others are stored in a room which is carefully provided with means of lighting fires. Molds of these patterns are made in flasks that are packed with a special sand which is found only in New York State in a very limited quantity. The sand must contain sufficient clay to render it cohesive, it must be porous to permit the escape of gases, and it must be refractory so that it will not melt. This sand is ground to the fineness of flour in order to insure a clean, smooth casting. Most of the molding is done by hand, although a small part is done by molding machines which have double the capacity of the men. Each casting, as it comes from the mould, is weighed and tested for strength by a hydraulio press. It is then finished so that all surfaces are smooth.

Publicity Competition

Freshman candidates for the position of Assistant Publicity Manager will meet in the Show Office today at 5.00 o'clock.

Show Good Form—
Make Your Own Cigarettes

Millions of the most critical smokers prefer to roll their favorite tobacco in pure, light, thin, tasteless Riz La Croix "papers." You may use any tobacco that suits your taste—but you must use Riz La Croix "papers" if you want the best results and the greatest satisfaction.

RIZ LA+
(Pronounced: REE-EHL-KROY)

FAMOUS CIGARETTE PAPERS

By far the easiest papers to roll your cigarettes with—they are so thin, strong, shapable and naturally adhesive.

Purity and perfect combustion make them absolutely tasteless—you enjoy the pure flavor and fragrance of your tobacco.

Riz La Croix are made from the best flax linen, a pure vegetable product, entirely healthful.

FREE

For interesting, illustrated booklet, use address Riz La Croix—sent anywhere in U.S., free.

Address The American Tobacco Company, Room 347, 400 Broadway, New York.
