ELECTIONS ANNOUNCED AT WEDNESDAY SMOKER

Large Number Out For The Tech—Short Lecture By John Ritchie, Jr.

Forty-five students of the Institute, connected with the Tech met in rooms A and B of the Union on Wednesday evening at a smoker. Various subjects with a bearing on work on the paper were brought out by members of the managing board and the results of the recent election made to be present at the meeting of the Institute, 1916 will be held in the Show Office, Room B.

Ritchie's talk was interspersed with references to various newspapers throughout the country. He emphasized the growing importance of the daily press as the medium in influencing the public and alluded in particular to the use of the news sheet by the German government to turn the American people in the interest of Germany in the present day strife. He also spoke of the frequency with which departments of the U. S. government utilize the space of the whole nation in contact with the people instead of relying wholly upon the older method of issuing pamphlets. He

WIRELESS SOCIETY

Mr. H. A. Affel Describes Research Work At Institute.

Owing to the fact that Mr. H. J. Power was unexpectedly called to Providence yesterday, he was unable to be present at the meeting of the Radio Society and Mr. H. A. Affel, a graduate of the Institute, gave a very clear and concise description of research work that he has carried out. He stated that his work had been undertaken primarily with regard to the determination and measurement of high frequency resistance of wires

LYRIC WRITERS

The first meeting for those interested in writing lyrics for Tech Show 1916 will be held in the Show Office, Tuesday afternoon, November 30, at 4.00 o'clock. In order that the men may get an idea of the character of the lyrics to be used, portions of the book will be read, and the three authors, R. H. White, I. B. McDonald, and E. B. Freeman will be present to explain details and answer any questions.

CALENDAR

Friday, November 19, 1915.

1:00—ALL TECHNOLOGY PHOTO

Copley Green Chosen For First Picture Of All Institute Undergraduates.

At 1:05 o'clock today, a memorial of the last student body of the old structure will be made with the taking of an All-Technology photograph on the Copley Green before the Public Library. The Seniors and Juniors will meet on the side of the green facing Boylston Street under the leadership of Bill Parthing and Pen Brooks, the Class Presidents. John Clarkson is to have charge of the Sophomores who will congregate on the side nearer the Copley-Plaza, while the side facing the Library is reserved for the first year men. Rusty White will act as master of ceremonies.

The idea of this school picture meets with the hearty approval of President Macfdrin and Dean Burton. At a five and enthusiastic response is shown by a representative school showing for the picture, it will be used in Technique 1916. It will be the first All-Technology photographs ever taken.

MEN AND THE CHURCH

A. E. Miles, Actor, Scientist And Preacher Speaks.

Mr. Miles of Dorchester spoke yesterday at the Union on "Men and the Church" before a large audience. He said, "In the earliest times women were the shamers of men. The women were ungodly and governed by men for themselves. Gradually women became more interested in the affairs of men to such an extent that the men became alarmed at the progress women were making. To avoid this rising spirit of women St. Paul gave out his rules which should govern the church, men and women. Christ was the leader of men and men were the leaders of women. It was a disgrace for women to offer prayer with their heads uncovered. Gradually changes have taken place which now women are the mainstay of the life of the church. Men support.

TECH SMOKER

TECH THE ONLY TRUE AMATEUR INSTITUTION

That Technology would remain as the only institution with an unimpaired amateur standing if the rules of the Amateur Athletic Union were enforced strictly is the contention of the Boston Herald in an editorial yesterday morning. The rules refer to the placing upon the ineligible list all teams that have played against combinations containing professional players, or those who have themselves played against such teams.

The cause for trouble at the present time is the action of Trinity College in insisting on playing Boston on her eleven. If the A. A. U. rules were strictly enforced every team that has played or that does in the future play Trinity would lose its standing, and in turn every team that Trinity's opponents must be likewise affected. "And so," says the Boston Herald, "the clubs make a chain which reaches all the way to the far coast and back again; and in the end, of the twenty-nine members of the Intercollegiate Association, only Tech remains unseated."

TECH SMOKER

(Continued from Page One)

An eminently fitting remembrance of the last year of the "Tech on Boylston Street" will be the photographic of the whole undergraduate body which is to be taken on Copsey Square this "All-Technology" the event has been advertised, and this does not mean a fifty or seventy-five percent to handle the news as the reporter must sooner or later learn to do, by presenting facts that are "new, timely, and written in a concise style." He produced numerous clippings from papers from different sections in this country to show the nature of his work in putting the Institute before the public.

The results of the Fall elections were then read. They are as follows:

In the circulation and business departments, O. S. Lorens '17, O. C. Looman, Jr., '19, and R. VanNeste '19 were elected to the business board and D. F. Willey '18 and W. H. Bassett, Jr., '18, were placed on the business staff.

SEA SLED LECTURE

Professor C. H. Peabody announces that a lecture will be given in Room 11, Engineering B, at 4:00 p.m. Thursday, November 29th, by Mr. Albert Hickman, on the Sea Sled.
