SENIOR DINNER AT THE LENOX

Event To Be Held One Week From Tomorrow Evening—Prominent Speakers And Entertainment

The Senior dinner is to be held at the Hotel Lenox on December 5th at 6:30 o’clock. Although the cost per plate will be $1.25, the tickets will be sold for $1.00, the class paying for the remainder.

The committee say they have the four best speakers in the Institute who will be the feature of the evening’s entertainment. The names of these men will be announced in an early issue of The Tech. Rusty LaBarron will have charge of the program and be prepared to spring some surprises on the worthy Seniors.

The music will be furnished by one of the prominent orchestras of the city. President Bill Farthing will preside as toastmaster.

Tickets will be on sale tomorrow and may be obtained from the following men: W. J. Farthing, R. H. White, R. Allison, H. R. Crowell, C. P. Wallace, C. R. Lord and also at the Cage.

The Senior dinner is an important event in the life of every man at the Institute and all the Seniors should turn out and support it. The Committee has done the utmost to give the best of everything in the line of entertainment and also promises a fine dinner.

CONCERT TO BE GIVEN AT ROXBURY CHURCH

The Musical Clubs are preparing for their next concert which is to be given at the Dudley Street Baptist Church, Tuesday evening, November 20th. This is one of the preliminary concerts in which the club will appear in preparation for the Winter Concert to be held December 17th. A group of Glee Club men are working on a bit which will feature the concerts of this season but it is doubtful whether this will be ready for the Dudley Street Church concert.

The Indian War Dance with which the Banjo Club surprised the audience at the Franklin Square House will also feature this concert. This is a dramatic piece of acting by the members of the club and introduces the typical Indian camp-fire scene. The complete concert program is given below:

No. 1: Skipper Smile Green.............Ransome
No. 2: Mandolin Club.............W. J. Farthing
No. 3: Winter Song ..........................Foote
No. 4: Glee Club ..........................Reading
No. 5: Popular Medley ..........................Howard Mann ’17
No. 6: Glee Club ..........................Selected
No. 7: Mandolin Club.............Dudley Street Church

No. 7: Mandolin Club.............Dudley Street Church

The great football battle between THE TECH and the Tech-unique will be held at the Tech on Saturday of the Varsity football game.

The officials of the contest will be as follows: the referee is Bing Pang Pong of the International Fatima Coupon Co. Ltd., the Umpire is John Goodwin, the well known chief of the Pirate A. A. 1: the Line-Official is Blaine Gray of the 1916 champion football team; the Extra Official is Jonathan Ritchie of one of Boston’s Yellow Trams; the Under-Center is O. H. Cook for THE TECH and P. C. Leonard for the Tech-unique; the Marshals, Present and Acting will be Stewards of the Famous Trinity Place Restaurant; Bill Fielding, Ink Slinger for all good Technology publications, and Frank Kanaly, Scout for the Technology track teams. Chairmen of the Tailgating committee will be Charles Wheeler of the Tech-unique and Arie-Wyman Brooks for THE TECH.

The honorary marshals will be the President of the Alumni Association, Eddie Myhren, I. W. W. Walsh and W. Jenny Bryan.

TALK ON SEA SLEDS GIVEN BY MR. HICKMAN

Naval Architects Hear Lecture On Rough Weather Sea Sleds.

At the meeting of the Naval Architectural Society held yesterday Mr. Albert Hickman gave a lecture on the new sea sled or rough weather speed boat. The speaker took the subject up in detail, explaining the design of the sled, its operation and its use. Everything is fixed in it in itself including its hull, its propelling system and its steering gear. The boat gets its name from its resemblance to the ordinary sled and hence respects is not unlike the hydroplane of (Continued on Page Four)

NEW WRESTLING COACH

Former Penn State Star Now Coaching Technology Varsity.

The appointment of Mr. Levi Lamb as coach of the wrestling team has made the outlook for a winning team much brighter. Mr. Lamb is a graduate of Pennsylvania State College, being a member of the 1915 class. He was a member of the Varsity Wrestling Team for three years and captain of the team during his last year. He has been defeated only once in collegiate wrestling, and that time by Dorrance, of the University of Pennsylvania, the intercollegiate heavyweight champion.

Not only was Mr. Lamb a wrestler of note, but he was also a member of the Varsity football, basketball, and truck teams. At present, besides coaching the Technology Wrestling Team, he holds the position of Instructor at the Huntington Y. M. C. A. school. He is coaching the football and basketball teams there.

There are now a hundred and twenty men out for wrestling, of whom ninety are freshmen. From this number the freshmen are expected to turn out a good team. As yet it is too early to predict the chances of either Varsity or freshmen, but chances for good teams appear favorable, according to Captain Lee.

JUNIOR PROM

To date only one nomination for the Junior Prom Committee has been handed in. Nominations will be closed Friday, November 30th, at 4:30 o’clock. Nominations must be turned in at the Cape not later than that time, and must be endorsed by at least ten members of the class. The committee will consist of five members besides E. P. Brooks, chairman. The ballots will be mailed to each member of the class by the first of next week, and votes must be polled on or before the following Friday.
TECH MAN KILLED AT FORE RIVER MISHAP

Barry '15 Killed In Collapse Of Staging In Fore River Construction Work

Thomas James Barry '15, a graduate of Course IV, Option 2, of the Institute, was killed yesterday morning in an accident at the Fore River shipyard in which another man was also killed and still another fatally injured. The accident came to the collapse of a staging suspended forty feet in the air which broke without warning.

Barry was employed as foreman by the Aberhart Construction Company of Boston, which is erecting a plate and angle building for the Fore River Company.

After the mishap, the cause of which has not yet been determined, Barry, who was internally injured, was removed to the Quincy City Hospital, where he died shortly after his arrival.

Barry had been active in Institute affairs. He came from Dorchester and prepared for Technology at the South Boston High School. During his Institute career he was on the 1915 class track team and the treasurer and afterwards president of the Architectural Engineering Society. He was a member of the Catholic Club and on the Technique Electoral Committee.

THE POINT SYSTEM.

While the provisions of the Point System are pretty uniformly observed, instances of men carrying more than ten points for a considerable length of time have been entirely too numerous. The suggested plan of cataloging the offices which the undergraduates are filling should afford quite a large number of overzealous students. The success of the scheme, however, must depend on the active and sympathetic cooperation of the various activities. The undersigned practice of working overpointed men into positions, even though it be only for a short time, with the excuse that they are able to do the work, would shortly destroy the whole fabric of the Point System. The Point System was not instituted to prevent men from hurting themselves by doing too much work, an objection, as a prominent alumni has pointed out, that might appeal to a fond parent. It was instituted to prevent a few men in the Institute holding all the others in the dark. Institute activities cannot appreciate too fully the responsibility that rests with them in keeping the student life here thoroughly democratic.

FACULTY NOTICE

Freshman English: Mr. Roger's Thursday section will hand in outlines at Rogers 13 on Friday, November 26.
A New Model Typewriter!

The No. 9 OLIVER
The Standard Visible Writer

BUY IT NOW!

Yes, the crowning typewriter triumph is here

It is just out—and comes years before experts expected it

For makers have striven a life-time to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9." Think of touch so light that the tread of a kitten will run the keys!

CAUTION!

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little fingers of the right and left hands. And it lets you write them all with only 28 keys, the least to operate of any standard typewriter made.

Thus writers of all other machines can immediately run the Oliver Number "9" with more speed and greater ease.

17 CENTS A DAY

Typewriter. It has all our previous special inventions—visible writing, automatic space, ¾-ounce touch—plus the Optional Duplex Shift, Selective Color Attachment and all these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every user can easily afford to have the world's crack visible writer, with the famous PRINTTYPE, that writes like print, included FREE if desired.

TODAY—Write for Full Details and be among the first to know about this marvel of writing machines. See why typists, employers, and individuals everywhere are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to tell you about it.

The Oliver Typewriter Co.
146 Congress Street,
Boston, Mass.
CATHOLIC CLUB WILL GIVE DANCE FRIDAY

Others Planned For The Future—Club Has Many Members—Officers Elected.

An informal dance will be given under the auspices of the Technology Catholic Club next Friday evening at 8:00 o'clock in St. Cecelia's Hall near St. Cecelia's Church on Belvidere St. Plans for a series of these informal dances during the coming season are now being considered by a dance committee appointed at the last meeting of the club. If present plans materialize, activities of former years under the club's auspices will be completely eclipsed. Formerly the annual Catholic club ball has been practically the only public affair conducted.

More enthusiasm and interest on the part of the members is being shown this year than ever before, and a good reason is looked for. The club now has the largest membership of any Technology social club, and meets the first Wednesday of every month.

The committee in charge of next Friday evening's dance consists of George E. MacLaughlin, Chairman; Arthur G. Brooks, James W. O'Brien, John K. McCarthy and Ralph G. Mahony.

Officers for the club this year are: President, John E. Woods; Vice-president, John J. Hickey; Treasurer, William W. Drummey; Secretary, William P. Ryan; Executive Committee, Charles J. McCarthy, Lee Hildebrandt, William B. Collesary, and Thomas J. Hughes.

CHESS MEET

First Match Against Boston Chess Club Friday.

Friday evening the Technology chess team will play their first Metropolitan League match at the Boston Chess Club. The latter is considered to be the strongest among the League teams, having come out at the head of last year's games.

The tournament among members of the Chess Club is not advancing very smoothly. In order to facilitate playing and arranging for the games, an informal meeting will be held in the Union Saturday afternoon, when the players may make appointments for the tournament matches. Scores should be placed on the poster in the Union.

TECHNOLOGY PICTURE

Majority Of Students Turn Out On Monday Noon.

An All Technology Photographic was taken last Monday for the first time in the history of the Institute. The large crowd was arranged on Copley Square Green, and the picture was promptly taken. No trouble was given to the photographer, the student officers having handled the machine with great efficiency. Those desiring a picture may secure one from N. E. Tourtelotte, '17, who will have the privilege of distribution in the Track office next Friday.

SEA SLEDS

(Continued from Page One)

which a great deal is heard during the present time. Nevertheless it shows that the electric motors in that while running at full speed it throws up practically no spray, a pronounced characteristic as far as boats are concerned.

Otherwise the device adopted on the sea sled has already demonstrated its advantages. The propellers in use on these types of boats are known as surface propellers, some of their advantages being abolition of the unnecessary resistance which under water propellers require, possibility of running the boat in shallow water or weedy areas without damage to propeller blades, and the absence of loss of energy in gear boxes or transmission shafts. In addition the boat can be run in half the depth of water required for a hydroplane of similar size and weight, its propellers cannot race if they come out of water in rough weather and there is a marked lack of vibration due to the direct drive from the motor to the propeller which has not yet been perfected in the hydroplane.

The sea sled is steered by means of side plates which are attached to the sides of the craft, slightly forward of the extreme stern. These plates are turned by means of push rods which also help to support them.

FENCING TEAM

The Technology Fencers have not been able to hold a meeting this week as was intended but are to get together next Monday in the Union at 5:00 o'clock. All men interested in fencing are asked to come.

University of Pennsylvania and Bowdoin teams are beginning their practice this week and Harvard, Yale, and Navy have already been at work for some time, so the management of the Institute team is desirous of getting the practice started.

CALL FOR CANDIDATES

All men wishing to try out for baseball manager of the class of 1918 team should hand in their names at the Cage stating what experience they have had in managing a team. Men who have had no experience but feel that they have some special qualifications for the position should specify what they are in a written statement to be handed in with their names. Candidates should have their names in before next Tuesday, November 30th.
SWIMMING TEAM SQUAD PREPARING FOR MEETS

Good Schedule To Be Arranged—Practice Regularly Held At Y. M. C. A.

The Technology Swimming Team has been practicing during the past few weeks at the Boston Y. M. C. A. tank in preparation for the meets arranged. The first meet which is scheduled with Huntington School, will take place at an early date and, although some good material is out for the Institute team, the training for this meet will necessitate hard practice. Meets have been scheduled with Harvard and Andover, both of which were met last year, and other big college meets will probably be held.

The squad has been picked, but those who failed to make the team are asked by Manager Gould to come out for practice. The following men have been retained: Foster, captain; Gould, manager; Bevins, Bolan, Gay, Maloy, Parkinson, Poller, Peirce, Root, Undercooks and Wales.

Announcement is made that there will be no practice held this afternoon.

RIFLE CLUB

Indoor Practice To Start This Friday At South Armory.

After two weeks of enforced idleness, the Rifle Club will resume its practice indoors at the South Armory on Irvington Street beginning Friday of this week.

Permission has been granted to use the Armory on the three drill days, Tuesday, Wednesday, and Friday. As yet the hours are undecided, but will probably be from four to six o'clock. The practice Friday will be held during the regular hours.

All members may report, so that only members whose names have been posted on the Union bulletin board will be allowed to shoot.

There will be a meeting of the Medal Award Committee in room 11-A Eng. B, Friday at 1.30, followed by a meeting of the Executive Committee in the Union at 5.00 o'clock.

TECH ORCHESTRA

The Technological Orchestra will hold its regular rehearsal today at 4:15 o'clock.

The management hopes that in spite of the nearness to the holidays, all the men who possibly can will attend this afternoon, as Mr. Howard will commence his coaching.

CONCERT NOTICE

General Manager Ford wishes to inform those members of the Musical Clubs who are selling tickets for the Winter Concert that the price of two dollars printed on the tickets applies to single admissions only. The subscription for two tickets is three and one-half dollars.

VARIOUS ACTIVITIES TO BE CATALOGUED

New Scheme Devised By Institute Committee For Listing Activities.

The Institute Committee has authorized the Point System Committee to issue to every activity in the Institute a blank which is to be filled in with all the offices, the names of the officers, date of appointment and number of points, before Wednesday, December 1st. From these blanks, the Point System Committee will compile a card index of every man in the Institute taking part in activities, and a blank which he holds. This index will be kept up to date by the activities handing in to the committee notices of new appointments and changes in the officers, etc. In this way a complete list of the points of every man will be obtained. The point system ratings may be found in the Tech Bible.

The Committee has not been able to see the proper officer of each activity who is to fill in these blanks. The secretaries of the following activities and the captains of the following teams are to call at the Cage for the blank which bears the name of the activity at the top: Architectural Engineering Society, Biological Society, Blanket Tax Committee, Chemical Society, Chess Club, Chinese Club, Electrical Engineering Society, Gym. Team, Naval Architectural Society, Rifle Club, T. C. A., Track Team, Union Committee, Wireless Society, Wrestling Team.

The proper officers of the activities not listed have been seen and blanks given to them.

The Tech is in a position to offer you exceptional values in clothes and shoe trade. See the general manager or treasurer, at 5 o'clock any afternoon. Apply at once as our offer is good for one month only.

No, Philburt, I am not a-arguing with you. I'm just a-telling you—when you want a real smoke, get behind a pipeful of Tuxedo and watch all the big and little Worries that have been a-besieging you, evacuate their trenches and make a rushin' advance to the rear. Those fragrant whiffs of Tuxedo make them feel too joyful—no self-respecting Worry can stand for that.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

The combination of the best smoking-tobacco leaf in the world and the best method ever discovered for refining and mellowing tobacco puts Tuxedo in a class by itself.

Kentucky's ripest, mildest Burley leaf, when treated by the original "Tuxedo Process" loses every trace of bite—develops a wonderfully pleasing fragrance and flavor that are not found in any other tobacco.

No other manufacturer knows the "Tuxedo Process"; that's why no imitator ever equals Tuxedo!

M. E. SOCIETY TO TAKE TRIP NEXT SATURDAY
Will Visit Edison Light Co. And Boston Elevated Stations.

Saturday the Mechanical Engineering Society will take a trip to the Edison Electric Light Company and the Boston Elevated Railway Stations at 1 Street, South Boston. The different methods of handling apparatus can be examined and the relative advantages can be compared.

The men will leave Rogers steps at 1.45 o'clock. Those wishing to go should sign up with E. A. Weissbach '16, W. L. Pryor '17, A. P. Dunham '17, or Z. A. Clark '18.

At the Edison plant there are three 12,000 K.W. G. E. Curtis vertical turbines, three 15,000 K.W., and two 5000 K.W. turbines. The normal output is 60,000 K.W., and the maximum is 115,000 K.W.

At the Elevated plant there are twenty 600 H.P. Band boilers of 200 pounds pressure, equipped with Taylor Stokes, and forced draft boiler feed. There are also three 15,000 K.W. Curtis Vertical G. E. Direct Current Turbine Generators and Terry Turbines with centrifugal pumps.

LYRIC WRITERS

The first meeting for those interested in writing lyrics for Tech Show 1916 will be held in the Show Office, Tuesday afternoon, November 30, at 5.00 o'clock. In order that the men may get an idea of the character of the books to be used, portions of the books will be read, and the three authors will be present to explain details and answer questions.

UNION NOTICE

The Union Committee requests that all societies send in a list of officers for the present year to be placed on the Calendar boards.
