The Tech Tackles Technique

Panic Reigns Among Junior Ink Singers at Prospect of Tomorrow's Battle.

Tomorrow afternoon at 2.30 will be staged the greatest battle in the history of the Institute. The Tech and the Technique football teams will come together on Tech Field with such a bang that ink, pens, and copy will be scattered to the winds—there are always four of them—and as there are only three things, pens, ink and copy, the Technique will have to be sent in the fourth direction.

The Technique team was to have submitted to a hard and thorough beating, but late last night they decided to “fight fiercely” and oppose the wonderful Technique combination with all of their numskulls. This decision came as a surprise but they are evidently trying something sly. They have monopolized the beef trust and concentrated it on their line, but the TECH team will have a chance to get in a whack at the doomed ones.

This is your day, Technology. The desire of many long years—reducing to a nonentity of those junior classmen who are the pests of the Institute—will at last be accomplished. Be on hand at the Tech Field tomorrow at 2.30 to watch the process of dilatation.

European War Expert to Speak At Engineers' Club.

Next Tuesday evening at 8.00 o'clock there will be a meeting at the American Society of Mechanical Engineers at the Engineers' Club. Mr. Frank B. Gilbreth will speak, his subject being "The Work of the Crippled Soldiers." Mr. Gilbreth made a most thorough study of the problem presented by the immense number of disabled soldiers in service in the European War, and in his researches abroad has crossed more than a dozen frontiers. He considers that its solution is one of the most imperative and immediate tasks which will devolve upon mankind at the close of this war.

The work of the fencing team will be started after the meeting to be held in the Union on Monday afternoon, November 25, at five o'clock. The outlook for a good team is exceedingly promising. Among the members of last year's team who are back this year are Clark, Heine, Marce, Stafford and Shakespeare. Marce was the captain of last year's team. He is considered as almost sure of winning the intercollegiate saber championship owing to his wonderful showing at Ann Arbor last year, when he defeated the (Continued on Page Two)

Fencing Team

Work To Start Monday—Meeting Will Be Held In Union.

The active preparation for the indoor track season will begin next week. A meeting will be held Monday at which all candidates are expected to be present, and this meeting will constitute the formal opening of the work.

The managers are now arranging a schedule for both the Varsity and freshman teams. The Varsity meets will all be relay events, but the fresh-men will have several complete indoor meets, it is hoped. The Varsity will probably have a team in the B. A. A. Coast Artillery and Irish-American meets in Boston, and at the big Madison Square Garden meet in New York in March. Two teams, a mile and a four mile, will go to the New York meet if things work out favorably.

For the freshmen, meets are being sought with Lawrence High, An-dover and other schools near by. Any insights provided to the committee to make the event worthy of success, and the support of the class is alone needed to com-pete that success.

MECHANICAL SOCIETY TRIP TO L. STREET

Will Visit Edison Light Co., And Boston Elevated Stations.

The Mechanical Engineering Society will take a trip tomorrow to the power stations of the Edison Electric Illumination Company of Boston and the Boston Elevated Railway company at L. Street, South Boston. The different methods of handling power apparatus will be investigated and the relative advantages of each method will be discussed.

Seniors At Prospect Of

Big Event Set For Next Week—Four Speakers Engaged.

Next Thursday, December 2nd, one of the year's biggest events, the Senior class dinner will take place at the Hotel Lenox. One-fifth of the cost of this affair is to be paid by the Senior class, the rest being represented by the charge for tickets, which are priced at one dollar. As these tickets are rapidly dwindling in number, it may not be long before the available supply is exhausted, so 1916 men should obtain them from members of the committee as soon as possible.

The names of the four speakers have not been announced by the committee in charge, but will be available for Monday's issue. It is intended, however, that there will be several other surprises for the Seniors at the banquet. A prominent orchestra of this city has been retained to provide musical entertainment during the evening. President Parling is ex officio to preside in the capacity of toastmaster.

Every effort has been put forth by the committee to make the event worthy of success, and the support of the class is alone needed to complete that success.

CalenDar

Friday, November 26, 1915.

1.15—Start for Chemical Society Trip, Copley Square.

4.00—Prom Committee Nominations Due at Cage.

5.00—6.00—Mandolin Club. Room B, Union.

7.15—Pi Delta Epsilon Meeting. Room A, Union.

8.00—Chess Team Start for Boston Chess Club.

8.00—Catholic Club Dance. St. Cecilia Hall.

Saturday, November 27, 1915.

2.30—Legalized Murder, Tech—Technique—Tech Field.
THE TECH
Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1917.

Treasurer 4:00 to 5:00 P. M.
Subscriptions, $1.50 per year in advance. Single copies, 10 cents.
Subscriptions within the Boston Postal District, and outside of the United States must be accompanied with postage at the rate of one cent a copy.

WEDNESDAY, NOVEMBER 24, 1915

Tech students are no exception to that tendency in human nature which causes men to put things off until the last possible minute. Consequently we occasionally hear someone say, "When I get back after Christmas I am going to cut all engagements and put in three or four weeks hard work." There are two factors in this statement. First, but little more than two weeks remain after the Christmas vacation, and second, the time which it was hoped could be spent in preparing for the examinations is usually taken up by long hours of labor in the shops or in the drawing rooms or in the laboratory. The student who plans on such a program will find himself trusting to luck that there will be no convenient intervals in his exam schedule during which he can sit up until two or three o'clock in the morning bringing his notes up to date and reading his Pol. Econ. assignments. There is no time like the present to begin preparing for examinations, and a glance at the calendar will show that the end of the term is but little more than six weeks off.

SOPHOMORE BASEBALL

A manager for the 1918 baseball team will be chosen at the next meeting of the Governing Board and any man wishing to try for the position should hand in his name at the cage by next Tuesday, November 30. Candidates should state what experience they have had in managing a team and other qualifications they may have for the work.

FENCING TEAM

Entire Navy team single-handed. With so many experienced men back, and with the possibility of finding some good men in the new material, the fencers look forward to a successful season.

COMMUNICATION

To the Editor of The Tech:
My experience in studying the so-called "sporting columns" of the press, as well as in viewing several actual games, has been enough to convince me of the innate brutality of the game of football. The national vice has gained such a firm hold on the warped minds of the present generation, however, that it is useless to protest in any ordinary case. Yet so flagrant a violation of the basic laws of humanity as the conduct of the present Institute must overcome my reticence. Several issues of this publication have featured announcements of football games between two factions in the Institute which, to judge of the descriptions, evidently calculated to attract the lowest appetites, is to be an act of human strife comparable to the bull-fight. It is evident, from the mention of 100,000 spots, that this degraded spectacle has the sanction of the student body; a condition of affairs to appal the calmest observer. At the risk of unpopularity I must protest against this immoral exhibition. FRISHEMAN.

BELGIAN RELIEF FUND

Second Annual Appeal Made To New Englanders.

All New England people are urged to contribute funds at once for the purchase of new clothing and shoes for the Belgians. In no other way can relief be so quickly and securely given to these people. The New England Belgium Relief Fund has thoroughly investigated their needs, and the methods of meeting them, and it is satisfied that whatever we send will actually reach the war sufferers. We shall adopt the suggestions of Mr. Herbert C. Hoover, chairman of the Commission for Relief in Belgium, who has just visited this country. Without this help three millions of people will go without clothes and without shoes the coming winter. 

Cloth can be sent, as it is now possible to have this made up into clothes in Belgium by destitute Belgian workmen, who are thus given employment.

Second hand goods are no longer wanted, as the regulations of foreign governments forbid their entry into Holland and Belgium. Arrangements are being perfected for purchase and transportation, free of cost to us, and we feel safe in assigning to the people of New England that we can do what we undertake.

President Wilson has cordially approved this relief work and appointed a supplementary committee to help.

The Commission for Relief in Belgium and other agencies are zealously taking care of the needed supply of food, and we are especially requested to concentrate our efforts in the direction of clothing and shoes.

Give at once. Maintain or improve the record of last year's generosity. Let us show the same interest in the clothing of the suffering Belgians that we have shown in the clothing of the American soldier. Let us appeal to our superior patriotism and to our love of humanity.

The Institute of Technology.

THAR's three kinds of tobacco—good tobacco, better tobacco, an' VELVET. For VELVET is the better sort of tobacco with its best brought out by again'.

A headquarters, first-class hotel, with all the luxury of New England's traditions, dating from 1849, with the most up-to-date service, in every respect.

LUNCH: 12 to 2, 5 to 7.00.
SUPPER: 6:30 to 8:30.

FOOD: Our chefs will prepare the most tempting dishes for our guests.

LITERATURE: A selection of the latest books in English and foreign languages.

THE TECH, BOSTON, MASS., FRIDAY, NOVEMBER 26, 1915
THE TECH TEAM

There will be secret practice today in the lower office at 12:30 sharp, and every man must be present. These can who will go to the field for practice at 2:30 o'clock, and the rest follow as soon as their classes are over. Remember every man must make a touchdown, otherwise he will die of thirst, for the "open" season to the key at one end of the field is a touchdown.

M. E. SOCIETY

(Continued From Page One)

The members of the society will leave the steps of Revere building at 1:45 o'clock. Those wishing to go should sign up with J. E. Weinschach, '26; W. L. Pryor, '27; A. P. Dunham, '17, or J. A. Clark, '18.

At the Edison Company's plant there are three twelve-thousand kilowatt General Electric Curtis vertical turbines; three fifteen-thousand kilowatt and two five-thousand kilowatt turbines. The normal output of the plant is sixty-six thousand kilowatts, and the maximum is a hundred and fifteen thousand kilowatts.

At the Elevated plant there are twenty-six-hundred horsepower board boilers of two thousand pounds pressure, equipped with Taylor stokers and forced draft boiler feed. There are also three fifteen-thousand kilowatt General Electric Curtis vertical Direct Current Turbine-Generators and Terry Turbines with Centrifugal Pumps.

CATHOLIC CLUB DANCE

The Catholic Club dance will be held this evening at eight o'clock in St. Cecilia's Hall, near St. Cecilia's church on Belvidere street. This is the first of a series of formal dances that the club proposes to conduct. Music for the evening will be furnished by Delaney's orchestra.

MUSICAL CLUBS

Tuesday evening, November 30, the Combined Musical Clubs will give a concert at the Dudley Street Baptist church. This constitutes one of the preliminary entertainments previous to the Winter Concert on December 17. Among the specialties to be given are to be included: "Winter Song," sung by the Glee Club; "Serenade," by the Mandolin Club, and "Indian War Dance," introducing an Indian camp-fire scene.

CHEM. SOCIETY TRIP

The second trip to the Watertown arsenal will be held today. The squad will leave Copley Square at 1:15 o'clock. Sign-ups must be made before 5:00 o'clock today with R. A. Miller.

Need a good reliable fountain pen? The Tech has a limited number of Moore's Non-leakable pens to sell. Call at The Tech office at 5 in the evening and learn of our mutual benefit scheme of buying suits, shoes and fountain pens.
