

THE TECH

VOL. XXXV. NO. 48

BOSTON, MASS., WEDNESDAY, DECEMBER 1, 1915

PRICE THREE CENTS

PLANS COMPLETED FOR SENIOR DINNER

Prominent Speakers Secured For The Banquet Tomorrow Evening.

Tomorrow evening at 6.30 o'clock the Senior class will hold their annual dinner at the Hotel Lenox. Owing to the fact that this year, one-fifth of the expenses are being paid by the class, the charge for the tickets is only one dollar. Although the sale has been large, there are a few left and they can be obtained from any one on the following committee: W. J. Farthing, R. H. White, R. Alfaro, H. R. Crowell, C. P. Wallace and C. R. Lord or at the Cage. The committee in charge wishes all those selling tickets to report to them as soon as possible so that the final arrangements can be made.

The Senior dinner is one of the important events of every man at the Institute and needs the support of all the Seniors to assure its success. The committee have done their utmost to secure interesting speakers and promises a first class dinner. A prominent orchestra has been engaged to furnish the music and President Farthing of the Senior Class will act as toastmaster. After the dinner itself Dean Burton, Bursar Ford, Professor Spofford, head of Course I, and Professor Miller, head of Course II, will talk.

E. E. SOCIETY

Mr. D. L. Galusha Will Give A Talk On "The Keokuk Dam."

There will be a meeting of the Electrical Engineering Society in the Union tomorrow at 8.00 p. m. Mr. D. L. Galusha of the Stone and Webster Corporation will speak on "The Keokuk Project."

Mr. Galusha is a thoroughly competent engineer and a good speaker; and his lecture will be particularly interesting as he was intimately connected with the construction and completion of the Keokuk plant, which is the largest of its kind in the world. The lecture will be illustrated by lantern slides taken while the work was actually in progress.

ELIMINATION BOUTS

Beginning Wednesday, a series of elimination bouts will be held between the members of the freshmen wrestling squad. These bouts are being held to get a line on any Varsity material and to cut the size of the squad.

NEWS MEETING

There will be a regular news meeting of The Tech today at 1.05 o'clock in the lower office.

SUBJECTS FOR SHOW LYRICS ANNOUNCED

Titles Given Out At Yesterday's Meeting—All Material Due Friday.

Yesterday afternoon the men interested in writing lyrics for the Tech Show met for the first time. E. L. Kaula, '16, announced the policy of the Show in selecting the lyric writers. The men submitting the most original and clever as well as suitable material will be chosen to write the remaining songs.

The songs open at present to competition are as follows: "If I Could Only Figure On You," sung by the hero and heroine, and a song dealing with the search for love and the futility of trying to understand its language. The latter is to be a solo by the leading man. Other songs to be competed for are an Indian love song, the scene of which is laid in Arizona, and is sung by an Indian chief or squaw; a humorous Eskimo song, a ballad about the New Tech on the Charles, a lyric dealing with some one of the student activities during Junior Week, and a serious love song.

All these lyrics, whether completed

(Continued on Page Three)

CHEMICAL SOCIETY

Delayed War Meeting To Be Held In Union Friday Night.

On Friday evening at 7.30 o'clock in the Union the Chemical Society will hold its War Meeting, which has already been twice postponed.

The speakers for the evening have chosen topics that have a direct bearing on the present war. Professor F. J. Moore of the Chemistry Department will talk on "Modern High Explosives" and his colleague, Professor H. Fay, will speak on "The Life of the Big Guns." Lieutenant Hunsaker of the Institute Aeronautics Department will lecture on "Airships in War." Refreshments will be served.

The Chemical Society extends a cordial invitation to the members of the Officers club to be present at the meeting.

CATHOLIC CLUB

The Catholic Club meeting for this month will be held this evening in rooms A and B of the Union. A Dutch supper will be served at 6.00 o'clock.

The speaker for the evening will be Rev. Fr. McClinchey, head of the New England section for foreign mission work. His topic will be "Effects of the Great War."

TICKET ARRANGEMENTS FOR WINTER CONCERT

All Those Wanting Tickets In Groups Of Ten Be At Union Saturday.

The fraternities and groups of persons who have reserved ten or more tickets for the Winter Concert of the Combined Musical Clubs are to send a representative to the main room of the Union at 2.00 o'clock Saturday, December 4th, when the seats will be allotted them in the order in which the applications were received. The management states that fraternities not represented on Saturday lose their standing to the next in line.

In order to avoid a misunderstanding, the general manager states that reservations are made for any party of ten or more, whether they represent a fraternity or not. By this system any group of men who wish to sit together are enabled to get better seats than they could otherwise.

Preliminary dance orders will be distributed to those holding tickets on next Saturday.

"BILL" FARTHING.

President of Class of '16.

HOCKEY MEETING

There will be a meeting of all candidates for the Hockey Team and for Assistant Manager of the team in 16 Rogers at 1.00 o'clock today. Plans for the season will be discussed.

The competition for Assistant Manager is open to Sophomores.

ORCHESTRA MEETING

The orchestra will meet this afternoon at 4.15 o'clock in the Dining Room. All men who intend to come out should be present this afternoon, as Mr. Howard will hold tryouts and assign the parts.

ATHLETES SPEAK AT BIG TRACK MEETING

Guething, Benson And Coach Kanaly Discuss Work Of Squad.

A track meeting was held in Huntington Hall on Monday afternoon, November 29th, for the purpose of outlining plans for the coming indoor season. Captain Guething, Benson, a former Technology star runner, and Coach Kanaly, spoke. Guething dwelt particularly on the value of coming out and trying, and gave numerous examples of men who had tried and made good, although without having had previous experience.

Both Benson and Mr. Kanaly spoke of the immense value of athletics to a man, not only here at the Institute, but also as a means of training him for after life. Mr. Kanaly then told of the work for the season.

Formerly there have been four periods a week in which to train, three indoors and one outdoors. This year, however, no outdoor track is available, so that only three days in the week can be used. Since practically every school in the country has six days for training this means an immense handicap for Technology to work under. Hence, every man who is out for indoor track must show that he is a willing worker if he wishes to

(Continued on Page Three)

STUDENT TALK

T. K. Cory To Speak In Union On "Handling Of Men."

Tomorrow noon at 1.30 o'clock, T. K. Cory, store manager of Wm. Filene's Sons department store, will speak on "Handling of Men." The opinion of an experienced business man on a problem which business men must constantly face has a value which will make this T. C. A. talk well worth listening to. Tact and judgment, Mr. Cory says, are the qualities most requisite for the successful management of men.

CALENDAR

Wednesday, December 1, 1915.

1.00—Hockey Candidates, 16 Rogers.

1.05—News Meeting, The Tech. Lower Office.

WEDNESDAY, DECEMBER 1, 1915.

THE SENIOR DINNER.

Of the dinners held by each class which goes through Technology, there are two which stand out above the rest, and for much the same reason. There is the freshman dinner, held at the beginning of the year, when the new men meet their classmates for the first time and learn something of what the Institute expects of them while they are students here. Then there is the Senior Dinner, at which classmates, many of whom are now calling each other by first names, meet for the last time at one of these splendid occasions where students and faculty come together on common ground. This time, however, the spirit of fellowship is more prevalent than ever before. Here, also, the students learn something of what the Institute expects of them as men. The Senior Dinner stands out as one of the events in the life of a Technology man in which it is a privilege to participate and from which he will derive a great deal of benefit and satisfaction.

BLINDFOLD CHESS

Saturday, December 4, A. H. Kenigsberg of the Technology chess team will give an exhibition of blindfold chess. He will play match games with four members of the team simultaneously without sight of any of the boards.

Next Friday evening, the Tufts chess team is to be at the Union for a Metropolitan League match. All interested in these events are invited to be present.

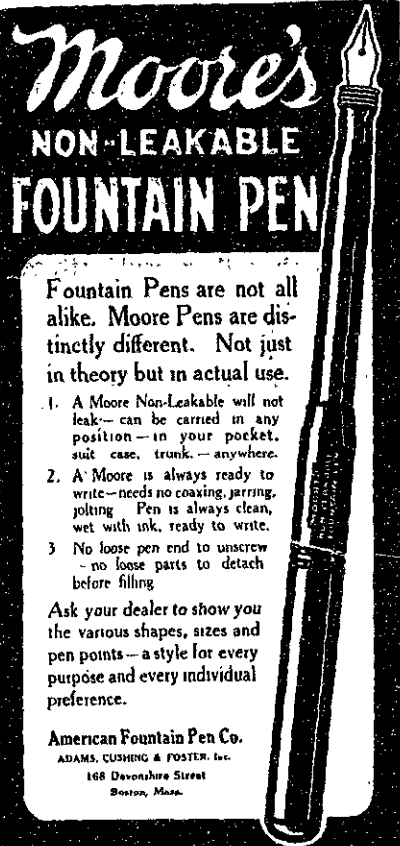

CORRECTION

In last Monday's Tech, under the list of Junior Prom nominations, the name of F. P. Bill, '17, was misprinted.

TECH LABORATORIES AT STATE SERVICE

Samples Of Material For New Dry Dock In Boston Harbor To Be Tested.

An agreement has recently been made between President Maclaurin and Mr. Edward F. McSweeney, the Chairman of the Board of Port Directors, whereby Technology will test samples of the materials to be used in the construction of the new dry dock in its laboratories. Such a task will require the examination of about thirty thousand individual specimens, but only a slight increase in apparatus will enable the Institute to cope with the situation readily. In his correspondence with Mr. McSweeney, President Maclaurin explained the policy of the Institute when he wrote, in speaking of the tests to be made, "We undertake this without any idea of commercial profit, charging for the use of our equipment merely enough to cover the actual cost of operation."

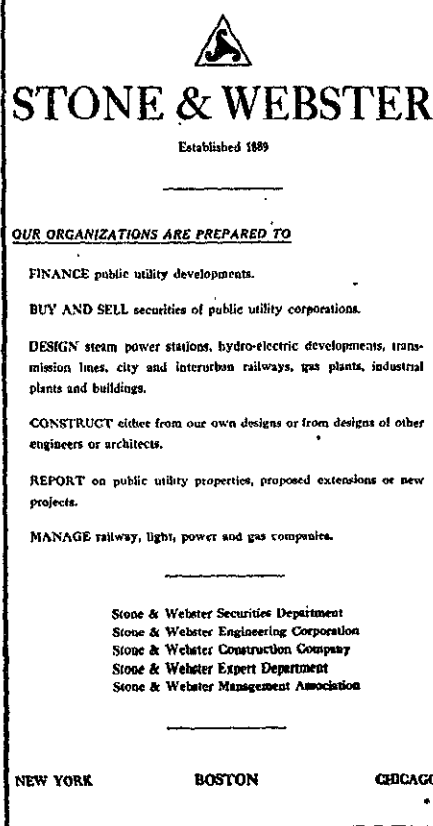

Moore's
NON-LEAKABLE
FOUNTAIN PEN

Fountain Pens are not all alike. Moore Pens are distinctly different. Not just in theory but in actual use.

1. A Moore Non-Leakable will not leak—can be carried in any position—in your pocket, suit case, trunk—anywhere.
2. A Moore is always ready to write—needs no coaxing, jarring, jolting. Pen is always clean, wet with ink, ready to write.
3. No loose pen end to unscrew—no loose parts to detach before filling.

Ask your dealer to show you the various shapes, sizes and pen points—a style for every purpose and every individual preference.

or not, must be handed in at the Cage before 5.00 o'clock Friday. Men who were unable to attend yesterday's meeting should see some member of the Show Management at their earliest opportunity.

TRACK MEETING
(Continued from Page One)

remain on the squad. The following periods will be devoted to track work exclusively in the gymnasium: Tuesday, 3.00-4.00 and 5.00-6.00; Thursday, 5.00-6.00; Saturday, 1.30-5.00.

Freshmen are eligible to Varsity teams, and there is also to be a freshman indoor team. The indoor season has always been Technology's best season, but to maintain her high standard this year will require harder work on the days when practice can be held.

WHEATON CONCERT

Complete List Of Men Who Will Make This Trip.

The following men of the Combined Musical Clubs will make the trip to Wheaton College next Saturday, December 4th: Allen Abrams, D. E. Bell, P. Blouke, M. M. Brandegee, M. C. Brock, D. W. Campbell, G. Y. Cannon, P. W. Carr, J. L. Clark, E. S. Coldwell, E. P. Collins, P. M. Dinkins, R. H. Dickson, G. R. Duryea, E. A. Ekdahl, E. G. Farrand, F. L. Ford, W. B. Ford, W. S. Fraser, R. H. Gilbert, T. L. Goodwin, T. Z. Haviland, L. C. Hibbard, J. H. Holton, J. C. Howe, K. T. King, C. L. Kingsbury, I. B. McDaniel, R. P. Martin, Jr., H. Mendelsohn, W. L. Ogden, W. K. Pike, E. H. Raymond, R. S. Rowlett, H. E. Shabacker, E. C. Shultz, R. L. Sidelinger, F. G. C. Smith, S. R. Stibling, L. A. Swan, E. M. Woodward, P. G. Woodward, N. C. Works, V. Young.

The fact that a man does not take the Wheaton trip does not mean that he is dropped from the Clubs and he should report at rehearsals as usual.

MINING SOCIETY

Rogers 'go Will Speak On "How To Examine Mines."

The Mining Society smoker will be held at the Hotel Westminster Dec. 10 at 7.30 p. m. The speakers will be George A. Packard '90 and A. H. Rogers '90. Mr. Rogers will speak on "How To Examine Mines," a subject of the utmost importance to miners and all Course III men. Mr. Packard's subject has not been announced yet. Tickets are twenty-five cents.

RIFLE CLUB

Indoor practice will be held at the South Armory today and Friday as posted. Next week it is hoped that permanent arrangements can be made which will allow the club to use the Armory every day.

President Keating wishes it understood that if any member finds that the day assigned him is unsatisfactory, he is at liberty to change it.

M. I. T. FORUM

The first of a series of talks on subjects relating to militarism will be held at 1.30 o'clock Friday, December 3, in Room 8 Eng. C. These meetings have been arranged through the combined efforts of the T. C. A. and the M. I. T. Forum and are open to all students. Mr. Cushman of the T. C. A. will preside at the first meeting, the subject of which is "Preparedness." Similar open forum discussions held last year proved very successful, besides affording those present an opportunity to express their opinions.

POINT SYSTEM BLANKS

The Point System Committee has not received blanks from the following activities: Chinese Club, Gym Team, Naval Architecture Society and Wrestling Team. These blanks are due tomorrow night and must be left at the Cage for the Committee.

TECH SHOW SCENERY

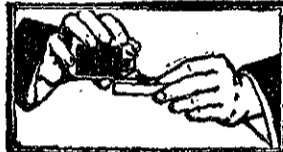

Nine Scenes For This Year's Show—Painters Wanted.

Tomorrow afternoon at five o'clock there will be a meeting in 42 Pierce for those men who wish to enter the competition for painting the scenery of Tech Show 1916. O. R. Freeman, who has charge of this branch of the work, will describe the scenes wanted, and the methods to be followed in presenting sketches.

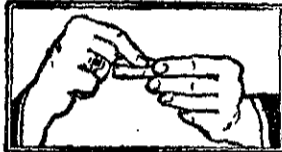

This year the Show will require nine scenes, some calling for a drop design only, others for a full stage setting. At the close of the contest, which is to be short and for which there will be no second call, a miniature proscenium will be arranged in which the scenes submitted will be tried for the lighting effects.

SENIOR PICTURES

Those Seniors who have not yet handed in their activities cards and informal negatives for the Senior Portfolio will have an opportunity to do so at the Class Dinner Thursday evening, when a representative of the Technique Board will be present to collect them.

1. In the fingers of the left hand, hold paper, curved to receive tobacco, poured with the right hand.

2. Spread the tobacco length of the paper, making it slightly hollow in the center.

3. Then place your two thumbs next to each other in the middle of the paper in this position.

How To "Roll Your Own"

It's a simple, easy process. You can do it with your eyes shut after a little practice. And what a joy is the fresh, fragrant cigarette of "Bull" Durham rolled by your own hand to your own liking! You "roll your own" with "Bull" and note the difference.

4. Roll cigarette on lower fingers, index fingers moving up. With thumbs gently force edge of paper over the tobacco.

5. Shape the cigarette by rolling it with the thumbs as you draw them apart.

GENUINE **"BULL" DURHAM** SMOKING TOBACCO

All over the world men of energy and action are rolling "Bull" into cigarettes. Probably not one of these millions of men "rolled his own" successfully at the first trial. There's a knack in it—"rolling your own" is an art—but you can learn it if you will follow these diagrams. Keep at it for a few days and you'll soon be able to make for yourself, to suit your own taste, the smartest, liveliest, mildest smoke in the world.

"Bull" Durham, made of "bright" Virginia-North Carolina leaf, has a mellow-sweetness that is unique and an aroma that is unusually pleasing.

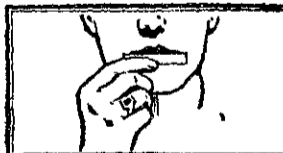

Start "rolling your own" with "Bull" Durham today and you'll never again be satisfied with any other kind of a cigarette.

Ask for FREE package of "papers" with each 5c sack

THE AMERICAN TOBACCO COMPANY

6. Hold the cigarette in your right hand, with edge of paper slightly projecting, and—

7. With the tip of your tongue moisten the projecting edge of the paper.

8. Close ends of cigarette by twisting the paper. The cigarette is now ready to smoke.
