PLANS COMPLETED FOR SENIOR DINNER

Prominent Speakers Secured For The Banquet Tomorrow Evening.

Tomorrow evening at 6:30 o'clock the Senior class will hold their annual dinner at the Hotel Lenox. Owing to the fact that this year, one-fifth of the expenses are being paid by the class, the charge for the tickets is only one dollar. Although the sale has been large, there are a few left and they can be obtained from any one on the following committee: W. J. Farthing, R. H. White, R. Alt- faar, H. B. Cowell, C. P. Wallace and C. R. Lord or at the Cage. The committee in charge wishes all those selling tickets to report to them as soon as possible so that the final arrangements can be made.

The Senior dinner is one of the important events of every man at the Institute and needs the support of all the Seniors to assure its success. The committee have done their utmost to secure interesting speakers and promises a first class dinner. A prominent orchestra has been engaged to furnish the music and President Farthing of the Senior class will act as toastmaster. After the dinner itself Dean Burton, Bursar Ford, Professor Spofford, head of Course I, and Professor Miller, head of Course II, will talk.

E. E. SOCIETY

Mr. D. L. Galusha Will Give A Talk On "The Keokuk Dam."

There will be a meeting of the Electrical Engineering Society in the Union tomorrow at 8:00 p.m. Mr. D. L. Galusha of the Stone and Webster Corporation will speak on "The Keokuk Project."

Mr. Galusha is a thoroughly competent engineer and a good speaker; and his lecture will be particularly interesting as he was intimately connected with the construction and completion of the Keokuk plant, which is the largest of its kind in the world. The lecture will be illustrated by lantern slides taken while the work was actually in progress.

ELIMINATION BOUTS

Beginning Wednesday, a series of elimination bouts will be held between the members of the freshmen wrestling squad. These bouts are being held to get a line on any Varsity material and to cut the size of the squad.

NEWS MEETING

There will be a regular news meeting of The Tech today at 5:00 o'clock in the lower office.

SUBJECTS FOR SHOW LYRICS ANNOUNCED

Titles Given Out At Yesterday's Meeting—All Material Due Friday.

Yesterday afternoon the men interested in writing lyrics for the Tech Show met for the first time. R. L. Koals, '16, announced the policy of the show in selecting the lyric writers. The men submitting the most original and clever as well as suitable material will be chosen to write the remaining songs.

The songs open at present to competition are as follows: "If I Could Only Figure On You," song by the hero and heroine, and a song dealing with the search for love and the futility of trying to understand its language. A solo is planned to be written by the leading man. Other songs to be competed for are an Indian love song, the scene of which is laid in Arizona, and is sung by an Indian chief or squaw; a humorous Ricikmo song, a ballad about the New Tech on the Charles, a lyric dealing with some of the stunts being attempted during Junior Week, and a serious love song.

All these lyrics, whether completed

CHEMICAL SOCIETY

Delayed War Meeting To Be Held In Union Friday Night.

On Friday evening at 7:30 o'clock in the Union the Chemical Society will hold its War Meeting, which has already been twice postponed. The speakers for the evening have chosen topics that have a direct bearing on the present war. Professor F. J. Moore of the Chemistry Department will talk on "Modern High Explosives" and his colleague, Professor H. Fay, will speak on "The Life of the Big Guns." Lieutenant Hansaker of the Institute Aeronautical Department will lecture on "Airships in War." Refreshments will be served.

The Chemical Society extends a cordial invitation to the members of the Officers club to be present at the meeting.

STUDENT TALK

"BILL" FAR'THING.

President of Class of '16

HOCKEY MEETING

There will be a meeting of all candidates for the Hockey Team and for Assistant Manager of the team in 10 Rogers at 1:00 o'clock today. Plans for the season will be discussed.

The competition for Assistant Manager is open to Sophomores.

ATHLETES SPEAK AT BIG TRACK MEETING

Guething, Benson And Coach Kanaly Discuss Work Of Squad.

A track meeting was held in Huntington Hall on Monday afternoon, November 29th, for the purpose of outlining plans for the coming indoor season. Captain Guething, Benson, a former Technology star runner, and Coach Kanaly, spoke. Guething dwelt particularly on the value of coming out and trying, and gave numerous examples of men who had tried and made good, although without having had previous experience.

Both Benson and Mr. Kanaly spoke of the immense value of athletics to a man, not only here at the Institute, but also as a training of bringing him for after life. Mr. Kanaly told the work for the season.

Formerly there have been four periods a week in which to train, three indoors and one outdoors. This year, however, no outdoor track is available, so that only three days in the week can be used. Since practically every school in the country has six days for training this means an immense handicap for Technology to work under. Hence, every man who is out for indoor track must show that he is a willing worker if he wishes to

THE TECH

THE TECH, BOSTON, MASS., WEDNESDAY, DECEMBER 1, 1915

An agreement has recently been made between President MacArthur and Mr. Edward F. McSweeney, the Chairman of the Board of Port Directors, whereby Technology will test samples of the materials to be used in the construction of the new dry dock in the laboratories. Such a task will require the examination of about thirty thousand individual specimens, but only a slight increase in apparatus will enable the Institute to cope with the situation readily.

THE TECH LABORATORIES AT STATE SERVICE

Samples Of Material For New Dry Dock In Boston Harbor To Be Tested.

An agreement has recently been made between President MacArthur and Mr. Edward F. McSweeney, the Chairman of the Board of Port Directors, whereby Technology will test samples of the materials to be used in the construction of the new dry dock in the laboratories. Such a task will require the examination of about thirty thousand individual specimens, but only a slight increase in apparatus will enable the Institute to cope with the situation readily.

Fe'v'ry man's name described him as well as VELVET'S name describes it, a lot of folks I know would be applyin' to the legislature.

or not, must be handed in at the Cage before 5 o'clock Friday. Men who were unable to attend yesterday's meeting should see some member of the Show Management at their earliest opportunity.

TRACK MEETING
(Continued from Page One)

remain on the squad. The following periods will be devoted to track work exclusively in the gymnasium: Tuesday, 3:00-4:00 and 5:00-6:00; Thursday, 3:00-5:00; Saturday, 1:30-5:00.

Freshmen are eligible to Varsity teams, and there is also to be a freshman indoor team. The indoor season has always been Technology's best season, but to maintain her high standard this year will require harder work on the days when practice can be held.

WHEATON CONCERT

Complete List Of Men Who Will Make This Trip.

The fact that a man does not take the Wheaton trip does not mean that he is dropped from the Clubs and he should report at rehearsals as usual.

MINING SOCIETY

Rogers' go Will Speak On "How To Examine Mines."

The Mining Society smoker will be held at the Hotel Westminster Dec. 10 at 7:30 p. m. The speakers will be George A. Packard '89 and A. H. Rogers '90. Mr. Rogers will speak on "How To Examine Mines," a subject of the utmost importance to miners and all Course III men. Mr. Packard's subject has not been announced yet. Tickets are twenty-five cents.

RIFLE CLUB

Indoor practice will be held at the South Armory today and Friday as posted. Next week it is hoped that permanent arrangements can be made which will allow the club to use the Armory every day.

President Keating wishes it understood that if any member finds that the day assigned him is unsatisfactory, he is at liberty to change it.

Wheaton Trip.

Nine Scenes For This Year's Show—Painters Wanted.

Tomorrow afternoon at five o'clock there will be a meeting in 42 Pierce for those men who wish to enter the competition for painting the scenery of Tech Show 1916. O. H. Freeman, who has charge of this branch of the work, will describe the scenes wanted, and the methods to be followed in preparing sketches.

This year the Show will require nine scenes, some calling for a drop design only, others for a full stage setting. At the close of the contest, which is to be short and for which there will be no second call, a miniature portfolio will be arranged in which the scenes submitted will be tried for the lighting effects.

**Senior Pictures**

Those Seniors who have not yet hand in their activities cards and informal negatives for the Senior Portfolio will have an opportunity to do so at the Class Dinner Thursday evening, when a representative of the Technique Board will be present to collect them.

**How To "Roll Your Own"**

It's a simple, easy process. You can do it with your eyes shut after a little practice. And what a joy is the fresh, fragrant cigarette of "Bull" Durham rolled by your own hand, to your own liking! You "roll your own" with "Bull" and note the difference.

**Genuine**

**Bull Durham Smoking Tobacco**

All over the world men of energy and action are rolling "Bull" into cigarettes. Probably not one of these millions of men "rolled his own" successfully at first. There's a knack in it—"rolling your own" is an art—but you can learn it if you will follow these diagrams. Keep at it for a few days and you'll soon be able to make for yourself, to suit your own taste, the smartest, fivelister, mildest smoke in the world.

"Bull Durham" made of "bright" Virginia North Carolina leaf, has a mellow-sweetness that is unique and an aroma that is unusually pleasing.

Start "rolling your own" with Bull Durham today and you'll never again be satisfied with any other kind of a cigarette.
