CONVOCATION FOR MR. G. S. EDDY TODAY

Doctor Maclaurin To Preside At Huntington Hall Meeting.

Today at one-thirty in Huntington Hall a convocation will be held in honor of G. Sherwood Eddy, Doctor Maclaurin will preside at the meeting. Mr. Eddy will talk on "America and the Chinese Republic." He has spoken to four or five of the largest American universities lately where he was very well liked and enthusiastically received. In February he addressed student meetings on four successive evenings, having an attendance each time of over one thousand.

After his graduation from Sheffield Scientific School, Mr. Eddy started doing Y. M. C. A. work. He began in India and has since worked in Asia as a whole. Recently he made an extended tour through China, lasting five months. Mr. Eddy's intimate acquaintance with China and the Chinese enables him to hold the close attention of his audience while talking.

TECH SHOW

Train Leaves Trinity Place At Three-thirty.

The first performance of "Getting A-Cross" will be held tomorrow evening in Northampton. A special train will leave Trinity Place at three-thirty.

The band, led by Roswell Rennie, will assemble on Rogers Steps at 2:45, and will give a short concert until time for starting the parade. The band will then embark in the Institute's big red auto truck and will lead the parade past the library and the Copley Plaza to the field. The preparatory gun will be the signal for the contestants to line up, and the starting gun will come one minute after. This year there will be no barriers or obstacles, each man will have a clear path to the house and all will have an even chance. Each entrant must have a receipt for the full price of the book. The final payment of two dollars may be made just before the rush. As is customary, the twenty books to be given out will have the signature of President Maclaurin, and the letter arrangements introduced at Winter Concert To Be Followed

An Affair Of Vital Interest To All Students—Short Concise Talks.

This afternoon the big student Mass Meeting, at which the student body will hear all of the details of Junior Week from the men who are planning the various affairs, will start at 4.15 o'clock. It is to be understood that this meeting is distinct from the Convocation which is to take place at 1.30.

The Technique Rush will be explained and the rules made public; the Prom Committee, The Tech, the Track Management, and the Institute Committee will get in touch with the students. The spirit of the gathering will be furthered by the singing of Technology songs.

Arrangements have been made whereby most of the laboratories will be closed at 4 o'clock. The meeting will be brought to order at 4.15. There is to be no tax.

JUNIOR WEEK ISSUE

There will be a special Junior Week Issue of The Tech on sale in the lobby of the Boston Opera House next Saturday afternoon. The issue will contain a full account of the morning's Spring Meet as well as a number of cuts of the Show principal parts and chorus. In addition there will be cuts of the heads of the different Junior Week activities. The full issue will comprise at least ten pages and will be sold for ten cents a copy.

CLASS DAY COMMITTEE

The meeting of the Class Day Committee this afternoon is cancelled on account of the Mass Meeting.

Swearer of the English Department will speak on "Corbulo." In the department of Egyptian Art, Mr. Downs Dunham will speak on "Art of the Old Empire" at 4.15.

PHYSICAL TRAINING

Men desiring a final physical examination must report to Mr. Kansley either this morning or tomorrow morning at the Gym.

CHEMICAL SOCIETY

Homer Albers Of B. U. And Dr. Talbot Speak.

At the meeting of the Chemical Society last night Homer Albers, the Dean of the Boston University Law School, gave a very characteristic talk on the general topic of "Success." He outlined the essentials and in so doing brought home the necessity of genuine hard work.

A short business session was held after Mr. Albers' talk in which a constitutional amendment was passed to the effect that in the election of officers the polls will be opened for an entire day. Dr. Walker then outlined the coming trip to Lawrence. Further notice of this trip will be given.

Dr. Talbot gave an interesting talk on the subject of Radiant and Radioactivity. A further account of the meeting will be given in the next issue of the Tech.

TECH SHOW SPECIAL

The May Issue of the Technology Monthly will contain four photographic plates of Tech Show pictures printed on one side of the paper only and suitable for framing. In addition the issue will contain as a leading article, "The Harem," by Joseph Farsi, who is a Technology student from Turkey. "Neutrality" is the title of the cartoon page of the Monthly—a drawing by Hatch. The issue will appear during the afternoon before the Convocation.

WIRELESS SOCIETY

There will be an important business meeting of the Wireless Society on Thursday afternoon at 4.30 o'clock, in 31 Eng. E. The future of the society depends on the way the members show up Thursday afternoon and all interested are urged to be present.

THAR's mo' luck in findin' opportunities than fo' leaf clovers. But even a opportunity is just the raw material for you to make something out of. Even Kentucky's best tobacco has to be made into VELVET.

It is the two years' ageing which Kentucky's Burley de Luxe receives that gives that aged-in-the-wood mellowness to VELVET. The Smoothest Smokey Tobacco. Bc tips and 5c metal-lined bags.

As your shoe commissioners Coes & Young can give you the best that taste and fashion have produced for the season.

COES AND YOUNG CO.

20 SCHOOL STREET

YOU MAY HAVE THOUGHT SO!

Others did. But the idea is all wrong. Don't think any longer that our prices are sky high. We do make many suits at a higher price, but our $5 suit is something great, in style, quality, and skillful tailoring, and something we are proud of, and you'll say we have a right to be when you see it.

A suit made to fit you personally, at a less price, than you'll pay, very often, for clothes made for nobody in particular. Think this over—and see what's the answer. Come early—you'll get the best selection.

MECHANICAL'S TRIP TO WATERTOWN ARSENAL

Plant Visited By Students Last Monday—Sixteen-Inch Gun Inspected.

About fifty men availed themselves of the opportunity to see some of the machinery and methods used in making Uncle Sam's guns and ammunitions last Monday afternoon on the Mechanical Engineering Society trip to the Watertown Arsenal. The party on its arrival was divided into three squads, each of which was conducted through the plant by a guide who explained the various machines.

The gigantic sixteen-inch gun which was made at the Watertown Arsenal and which is the largest of its kind in the world, is awaiting completion of its base. When this has been finished it will be taken to Panama to be placed at the entrance of the Canal. This gun has a maximum range of twenty-one miles and throws thirty long tons. The cost of every pound of propellant is $50.00. It will crash a bar of iron at red-heat with a muzzle velocity of 2250 feet per second. The length is about the same as the first. The party will probably see this gun when it is ready for distribution.

No pol-parrot-like repetition among our Spring suits and overcoats. Every pattern designed for this Spring—many of our own ideas, others the result of collaboration of our designers with those of the best mills, both foreign and domestic. Complete showing of everything we show in our four stores in New York at The Tech Office, Tech Union:

FRIDAY, APRIL 30th.

time for each dance will be limited so that the last will be of the same length as the first. The party will end at 2 a.m., with an interval for each dance being limited to ten minutes.

SPRING CONCERT (Continued from Page Four)

Large Attendance At Second Dinner Of The Class In The Union.

The annual dinner of the freshman class was held last night at the Union with about a hundred and fifty men present. The class evidently was not too waked up to the appeal made that they show some class spirit for there was plenty of the same sort in evidence that was displayed in the banquet held last fall. During the dinner entertainment was furnished by A. Fred Phillips at the piano and H. McGowan soloist.

Harry Lauder
World Famous Scotch Comedian

Harry Lauder
World Famous Scotch Comedian

“Tuxedo for mildness, purity and fragrance. THE tobacco for me. With my pipe filled with good old TUXEDO, all my troubles go up in smoke. In all my world-wide travels I’ve yet to find its equal as a slow-burning, cool-tasting, sweet-flavored tobacco. TUXEDO satisfies me completely.”

Tuxedo Keeps the World in Good Humor

Here is the man whose life work is to make millions of people happy. In pursuing his call, he travels the wide world over. He is a greater lover of his pipe, and to all sorts of corners of the earth he has tried all sorts of tobaccos.

What is his unqualified statement in regard to Tuxedo? Read it again: “I’ve yet to find its equal.” This is the frank and candid opinion of a thousand and thousands of experienced, judicious smokers. Tuxedo is absolutely the best all-around tobacco that modern tobacco science can make.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Uncoiling a tin of Tuxedo is like lifting the lid on concentrated sunshine. And then, when you fire up! Well! The first puff’s a revelation, the second’s a revelation, the third just gets you happy-like! Then you’re off—just as sure as you’ll see the green grass and hear the birds sing next spring.

The exclusive “Tuxedo Process” brings out the unsurpassed mildness, delicate fragrance and mellow flavor of the Burley leaf in a way that has never been successfully imitated. At the same time it refines the tobacco until every trace of harshness and “bite” disappears.

YOU CAN BUY TUXEDO EVERYWHERE

Convenient, flawless—wrapped, 5c famous green tin, with gold lettering, curved to fit pocket
In Tin Humidors, 40c and 80c
In Glass Humidors, 50c and 90c
