"387 and still she stuck"

### SALES BOOMING

Techniques Go Like Hot Cakes In Preliminary Round

The third day of sign-ups for Technique 1917 closed with a total of 387 slips issued to date. This represents the results of the preliminary sales only, as the real systematic canvassing has not yet begun. When the fine-tooth combing of the drawing rooms and laboratories begins the total is expected to soar at once, as the sales to date represent mostly spontaneous desire for Techniques unassisted by urging of clever salesmen, who are saving their heavy guns for the rest of the campaign.

The Juniors are still well in the lead, as to sales, with the Seniors second. That there are still a good many freshmen green enough not to appreciate the value of the year book is shown by the low number in that class. The division of sign-ups is as follows: Seniors, 110; Juniors, 140; Sophomores, 70; freshmen, 50; Faculty, 5; Grad. and Sp. 12.

### ALUMNI ASSOCIATIONS

Many Meetings Are Being Held Around The Country

Last week was a busy one among Technology clubs in the eastern part of the country with meetings that have in view the securing of a large attendance at the dedication ceremonies in June. Last Saturday the New York Technology Club had its meeting with distinguished speakers including President Maclaurin, while Monday night the New Bedford Club met, with Professor Edward F. Miller, Henry J. Horn, president of the Alumni Association and I. W. Litchfield, field manager of alumni associations, as the speakers. Meanwhile the good work has been going on in the Middle States, where Professor Tyler finished on Saturday a whirlwind tour among associations, speaking to the Syracuse graduates at their dinner, having visited the clubs of Buffalo and Rochester on the two previous evenings. Work of this character is carried on with great regularity and during the past few months no less than fifty meetings of Tech alumni have been addressed by Boston men; these meetings being outside of the home city of the Institute.

On Monday, Mr. Litchfield started on a round-up of the associations of the Mississippi Valley and on Thursday evening spoke at a meeting of the Chicago M. I. T. Club, at which he showed the latest pictures of the (Continued on Page Three)

### MUSICAL CLUBS TRIP

The train leaves Back Bay station for Sharon at 7.00 today. All men on the clubs, whether they went on the trip or not, are expected to go.

ad Z

### I. W. W. SPEAKER

George C. Roewer, I. W. W. Attorney, To Speak In Union

Mr. George C. Roewer, who first won fame by his able defence of the Lawrence strikers several years ago, is to speak at the Union next Tuesday. Mr. Roewer was the leading lawyer in the defence of Etor and Giovanitti, and has been a candidate for Attorney-General of Massachusetts. All are invited to hear him speak on "Some Aspects of the Labor Problem," under the auspices of the M. I. T. Forum.

## ODEN B. PYLE CHOSEN FIRST SENIOR MARSHAL

James M. Evans Second With Vote of Eighty-Three—Kemerton Dean Third With One Vote Less

At the Senior Class Day Elections held yesterday, Oden Bowie Pyle, of Baltimore, was elected first marshal, receiving 89 votes. James Morrison Evans of Hoboken, N. J., was second with 85 votes, and Kemerton Dean, of Brookline, third, with 82. The total number of votes cast was 196. The entire class day committee of twenty-five men who were elected is given below:

O. B. Pyle, Jr.—89—Course I—Phi Kappa Sigma; Walker Club; Theta Tau; C. E. Soc., Pres. (4); Chair. Entertainment Com. Summer Camp 1914; Class Relay (2) (3); Class Vice-Pres. (3); Jun. Prom Com.

J. M. Evans—85—Course II—Phi Sigma Kappa; Cosmo. Cl.; M. E. Soc.; Exec. Com. (2); Class Baseball (2); Electoral Com.; Jun. Prom Com.; Fin. Com. (3); Inst. Com. (4); Chair. Fin. Com. (4); Class Gov. Board (2) (3) (4).

K. Dean—82—Course II—Sigma Alpha Epsilon; Osiris; Theta Tau; Beaver Club; M. E. Soc.; Capt. Class Track (1); Inst. Com. (2); Class Relay (1) (2); Class Cross Country (2); M. I. T. A. A. (4); Jun. Prom Com.; Fin. Com.; Electoral Com.; Track Team (3 years); Advisory Council (4).

### INSTITUTE COMMITTEE

Reports Read And Appointments To Committees Ratified.

At a meeting of the Institute Committee held last night, James M. Evans, '16, read a report of the Budget Committee, and H. B. Shepard, '16, reported for the Informal Show Committee. The Electrical Engineering Society made application to be readmitted to the Institute Committee and the petition was granted.

The chairman of the meeting was commissioned to appoint a committee to investigate the advisability of entirely abolishing the M. I. T. A. A. The Uniform Class Constitution was amended to permit governing boards to fill vacancies occurring within themselves subject to ratification by the Institute Committee.

Appointments of D. G. Bradley, '18, and J. G. May, '18, as assistants in the Stage Department and of A. W. Caird, '18, and D. O. Mayer, '19, as assistants in the Publicity Department of the Tech Show Board were ratified by the committee. Five men were appointed to a committee on the change of elections to the Spring term as follows: D. B. Webster, '16, chairman; H. E. Lobdell, (Continued on Page Three)

### T. C. A. TALKS

The T. C. A. wishes to announce a series of six talks to be given by prominent professional men of Boston, before the Technology Class at the First Baptist Church, Commonwealth and Clarendon Streets, for six successive Sundays at 12.00. Mr. J. R. Ramsbottom leads the class and Mr. W. H. Foster, secretary of Ford Hall, will open the series next Sunday.

### STAGE COMPETITION

Freshmen who were unable to attend the meeting yesterday may still enter the competition for the position of Assistant Stage Manager of the Tech Show by reporting to Manager Hunter at one of the coming Show rehearsals.

Levering Lawrason—75—Course II—Sigma Alpha Epsilon; Beaver; Theta Tau; M. I. T. A. A. (2); Class Relay (2); Electoral Com.; Track Team (3 years); Technique Board.

R. H. White—75—Course I—Delta Tau Delta; Osiris; Masque; Walker Club; Gen. Man. Summer Camp Minstrel Show; Tech Show Cast (1-2-3); Stage Director (4); Cheer Leader (4); Fennis Club (4 years).

C. W. Lawrance—72—Course VII—Phi Gamma Delta; C. E. Soc.; Chem. Soc.; Cosmop. Club; Class Treas. (2) (3) (4); Budget Com. (2) (3) (4); Sec. Fin. Com. (3) (4).

C. T. Guething—70—Course II—Chi Phi; Osiris; Capt. Track Team (4); Class Pres. (1); Cross Country (3 yrs.); M. I. T. A. A. (4).

R. Alfaro-Moran—66—Course I—Beta Theta Pi; C. E. Soc.; Exec. Com. (4); Cosmop. Club Pres. (3); Walker Cl.; Catholic Cl.; Monthly Treas. (3); Bus. Man. (4); The Tech Bus. Staff (2); Inst. Com. (3) (4).

E. W. vanC. Lucas, Jr.—63—Course I—Chi Phi; Osiris; Walker Cl.; Masque; C. E. Soc.; Technol. Cl.; Tech Show Publicity, Mgr. (2) (3); Chairman Tech Night Com. (2); Purser Boat Club (2).

J. P. Uhlinger—63—Course IV—(Continued on Page Three)

### MUSICAL CLUBS

Successful Season Concluded—Future Program

During the past term, the Combined Musical Clubs gave six concerts in and around Boston and the season was concluded by the mid-year trip, on which six more recitals were given. Engagements for this semester have been booked up for almost all available dates. The first concert is scheduled for tonight at the High School in Sharon, Mass. Other cities in which the club will entertain are Wakefield, Brookline, Whitman, Lynn, and Somerville. The season will end with the annual Spring Concert, which will probably be given about May 4.

### ARCHITECTS' TRIP

About sixty members of the Architectural Society took the trip on Wednesday afternoon to the studio of Mr. Hugh Cairns, the sculptor. The first step shown them was the making of a rough plaster case for the clay model. This is then filled with soft melted gelatine, which, when cooled, is stripped off and forms the mold from which the final casting is made. Mr. Cairns actually performed the different castings so that the men were able to see all the steps in the process.

After the visit to the studio, an hour was spent in watching the manufacture of stained glass in the shop of Mr. Charles J. Conick, whose work recently won the gold medal at the San Francisco Exposition.

### SOPHOMORE BASEBALL

All Sophomores wishing to try for the class baseball team are requested to report in the Union today at 1.30 o'clock. Plans will be discussed for the present year and the schedule will be announced. Besides last year's letter men, all those wishing to try for assistant business manager will please attend. The position is a competitive one and this year's assistant manager will become manager next year.

## TECH SHOW WORK OFFICIALLY BEGUN

150 Men Hear Plans For Year Outlined By Authors, Coach And Management

The Tech Show smoker, which annually precedes the work of production, was held in the Union last night. About 150 men attended and much enthusiasm was shown. R. A. Fletcher, general manager of this year's Show, presided.

R. H. White, one of the co-authors of the book, then explained the composition, characters and plot in detail. M 34 is represented as being an illustrated lecture in Tech. The hero, Bob Baxter, who is a member of the class, as well as Aileen Angel, the heroine, falls asleep. The following seven scenes are his dreams as influenced by confused ideas of Aileen Angel and the lecture in progress. In the ninth scene Baxter wakes up and finds that it was only a dream.

The cast consists of two leading parts and sixteen other characters, all of which are double parts. A quartette of inventors are the parts second in importance. In all, there are 18 in the cast and 32 in the bal- (Continued on Page Four)

### FINANCE COMMITTEE

Change In Hour Of Meeting—"Pa" Coburn Speaks

The Finance Committee had its meeting last night. It was decided that future meetings should be held on the first Wednesday after the first Monday of each month at 5.00 p. m., instead of in the evening, as it has been formerly. This change was made because it has been found difficult for the members to come in the evening, and also because a whole evening is more time than need be spent on a meeting.

A motion was made and passed that cards be printed from the registrar's list of students, and be sent to the class treasurers, to increase the thoroughness with which dues may be collected.

"Pa" Coburn, who was largely responsible for the organization of the Finance Committee, was present and gave much advice on the management of the committee's affairs. He emphasized the necessity of maintaining the credit of Institute organizations in good form, and of holding the individual treasurers up to the standard. He also mentioned the advisability of auditing between changes of treasurers.

### WANDERING GREEKS

All members of Greek letter fraternities attending the Institute as well as all members of fraternities represented at the Institute, who have not affiliated here, will confer a favor by leaving their names and fraternities with Societies Editor Whitney, of Technique 1917, at the Technique Office, as soon as possible.

### CALENDAR

Friday, February 11, 1916.  
1.30—Sophomore Baseball. Union.  
5.15—Gym Team Practice. Gym.  
7.00—Musical Clubs Leave B. B. Station.  
7.45—C. E. Society. Union.  
Saturday, February 12, 1916.  
7.30—Wrestling Meet. Gym.  
8.00—Freshman Track Meet. Lowell.

Subscriptions within the Boston Postal District, and outside of the United States must be accompanied by postage at the rate of one cent a copy.

Subscriptions, \$1.50 per year in advance. Single copies, 3 cents.

FRIDAY, FEBRUARY 11, 1916

The mid-year examinations always have surprises for everyone, but perhaps the biggest jar of all was received by the freshmen who substituted work on some of the athletic teams for gym. It is to be hoped that the misunderstanding which now exists will be cleared up as speedily as possible for the mutual benefit of everyone concerned.

President Farthing in the Institute Committee meeting yesterday submitted the suggestion that the activities represented on the Institute Committee select one man who shall always act as the representative of that activity, and, in case of his being unable to attend, that a note be sent to the secretary of the Institute Committee bearing the name of any temporary representative. Upon the degree of the support which the activities give this suggestion will depend largely the efficiency with which the Institute Committee meetings are conducted. At best there are about half a dozen men who can ever summon enough courage to get up and speak in the Committee meetings, and it greatly inhibits the possibility of general discussion if the student governing board is made up of a different body of men every time it convenes.

### TWO HOCKEY GAMES

#### Team Leaves Today For Amherst And Williams

The Hockey Team will leave the North Station today at 8.07 o'clock for Amherst, where they will play this afternoon at 2.30 o'clock. Besides the game with Amherst, there is a game scheduled with Williams College on Saturday. The following men are going on the trip, their positions having not yet been fully decided: Capt. Cochrane, Swain, Tuttein, Clarke, Keeler, Watt, Thomas, and Lowengard. Prospects for victory look bright to the management, although Wanamaker cannot go on the trip. Williams has a record of two games won and none lost for the season.

### FACULTY NOTICE

Provisional schedule for French and Spanish electives is as follows: French L61 on Tuesday, Wednesday, and Friday at 4.00—first class on Friday, room L22. Spanish L81, Tuesday and Thursday at 4.00, in room L21—first class on Thursday, February 10.

### 1917 CLASS PICTURE

The Class Photograph of 1917, taken on Rogers steps, is on exhibition at the Cage. Orders for the picture may be left there or at the Technique office. The price of the picture is \$1.25.

## BLANKET TAX ADMITS TO WRESTLING MEET

### Wrestling Team vs. Springfield Y. M. C. A. College Tomorrow

A Blanket Tax coupon will admit the owner to the wrestling meet tomorrow night, the first home meet of the season. The home team will be matched against the Springfield Y. M. C. A. College team. There will be seven bouts staged, one in each class.

Last year Technology was defeated at Springfield by a very small score, and the meet tomorrow should be very close. It is hard to compare the two teams so early in the season. Technology's team, however, is undoubtedly stronger than it was last year and it seems to have an even chance to win. The absence of J. M. Todd in the 175 lb. class will be somewhat of a handicap to the team. His place will be filled by either Parker or Root, both freshmen and inexperienced.

The remainder of the team will be as follows: 115 lb. class, P. Y. Loo; 125 lb. class, E. W. Rounds; 135 lb. class, E. P. Giles; 145 lb. class, H. G. Morse; 158 lb. class, H. L. Wirt; unlimited class, E. L. Sache. Admission by Blanket Tax or tickets which are 35 cents.

### TRADE GUILDS

#### Professor Cram To Address The Civil Engineers.

The Civil Engineering Society will hold its first meeting of the second term at 7.45 o'clock this evening in the Union. Professor Ralph A. Cram, the head of the Architectural Course, will explain to the society an architectural and engineering experiment which is now being carried on in Philadelphia.

Prof. Cram is a member of the firm of Cram & Ferguson, of Boston, under whose direction a large church is being built under the old English system of trade guilds. The application of this system to modern building administration is quite an innovation. The talk will be illustrated by stereopticon slides which Professor Cram has collected. Refreshments will be served after the meeting.

### WEDNESDAY NOON TALK HELD IN THE UNION

#### Subject, "The Engineer In Society"—Meeting Jointly Of T. C. A. And M. E. Society

Mr. Calvin N. Rice, secretary of the A. S. M. E., gave the first talk of the new term yesterday in the Union before a large number of students. His subject, "The Engineer in Society," was treated in an interesting manner. The speaker stated that the Mechanical Engineering profession was only about one hundred years old. Engineering as a profession began when man manufactured power. Previously, there had been no way of getting power except by increasing the number of men or animals in the work.

"The work being done by the T. C. A. is fitting men for greater responsibilities in life," so Mr. Rice said. The most important thing is a sound body and the next a trained mind. The friendships made in college are the most important not only while in school but in one's later life, for then those friends will be the most helpful. To obtain friends, one must have wide sympathies. Until the engineering profession gives away service, it will not be on the same level with the other professions. The work in the engineering societies trains a man to make a good appearance of himself before others.

The speaker mentioned the importance of the capacity to handle men. "Everyone should serve his country in the best manner possible, and the best manner to be a good citizen is to render service." The engineering profession is steadily increasing in importance. Every man can serve his profession best by becoming an active member of his society.

**"EFFICIENCY" TALK****Mr. Hobart Gives Exhaustive Address On Electrical Methods**

The first meeting of the Electrical Engineering Society for this term was held yesterday evening in 26 Lowell. Mr. H. M. Hobart, consulting Engineer of the General Electric Company, addressed the society on the subject of "Efficiency."

Mr. Hobart first made it clear that mechanical or electrical efficiency is by no means the only consideration affecting the desirability of different machines or systems. Such things as initial cost, cost of upkeep, cost of renewal, and other factors of expense, all enter into the computations. There are, he pointed out, two systems of efficiency, mechanical or electrical efficiency in the production and transference of power, and the cost efficiency.

The efficiency of the steam locomotive, from fuel to drawbar, is about 3 percent. The efficiency of an electrically operated railway, from fuel to drawbar, is about 6.5 percent. If these figures were to stand alone as the criterion, we should have to consider the electric system twice as desirable as the steam locomotive system. There are, however, the considerations of cost, or cost efficiency. The cost of delivering one horsepower to the drawbar is practically the same in each case, unless coal is very expensive, or unless water power is available.

Mr. Hobart also touched upon the efficiency of dynamos and motors, and upon the part played by cost efficiency in the development of different types.

On March 9th the society is planning to have Mr. Farley Osgood talk at a joint meeting with Harvard; the place of the meeting has not yet been definitely decided.

**SENIOR ELECTION**

(Continued from Page One)

Phi Kappa Sigma; Osiris; Arch. Eng. Soc.; Civil Eng. Soc.; Electoral Com.; Mgr. Class Relay (1-2); Glee Club (1); Treas. Technique 1916; Fin. Com. (3) (4); Member Blanket Tax Com., Treas. (4).

New Technology buildings. The presentation will be repeated this evening at St. Louis Society of the M. I. T., and on Saturday the alumni in Kansas City will have a summary of the gossip of the Institute. Mr. Litchfield will then return to Boston for the meeting in Lowell of the Merrimack Valley Club, which he will address on Wednesday, February 16th.

**TECH UNION DINING-ROOM OPEN AGAIN****Large Number Served In First Term—Employment For Students**

The Union Dining-room is open again and following are some interesting figures about this co-operative venture. It is run exclusively for Institute men and is under the direction of the Bursar's office, and men may be accommodated in any manner they please. During the last term 50,000 meals were served, averaging more than 600 a day, and this does not include the dinners of societies, of which there are many.

Owing to the fact that the restaurant seeks only to cover expenses, the students may eat at the rates of cheap restaurants and yet receive excellent food, good enough so that one or two long tables are constantly reserved for members of the instructing staff. Besides the advantage of convenient and economical service, student waiters benefit to the extent of about \$1200 a year. Every man may feel when he pays his check that five percent of the money will go to help some one of his fellow students financially.

Superintendent Colton has organized an association of fraternity stewards, in order that all may have the benefit that attends the large quantities implied in their joint purchases.

N. MacRae—46—Course II; Chi Phi; Osiris; Round Table; Tug-of-war (1), Capt. (2); Capt. Frack Crew; Electoral Com.; Exec. Com. (3); Commodore Boat Club (2); Man. Hockey (2-3).

I. B. McDaniel—46—Course IV—Delta Tau Delta; Osiris; Masque; Walker Club; Exec. Com. (4); Arch. Eng. Soc.; Tennis Club; Mandolin Club; Glee Club; Tug-of-war; Electoral Com.; The Tech; Grind Editor Technique (3); Tech Show, Cast, Music, Lyrics (1-2-3), Author (3).

H. B. Shepard—41—Course II—Phi Gamma Delta; Osiris; Beaver Club; Glee Club (1-2); Treas. and Temp. Gen. Mgr. Musical Clubs (2); Electoral Com.; Bus. Mgr. Technique (3); Inst. Com. (3); Finance Com. (2).

**TECH SHOW WORK**  
(Continued from Page One)

let. The schedule of rehearsals has been made in order to simplify this part of the work.

Mr. Samuel Hume, the coach, who selects the cast, spoke briefly of the prospects for the present Show. He remarked of his responsibility in this Show as the entire book and scenery were influenced by his suggestions. He urged everybody to try out for the parts which they thought themselves fitted for.

A. R. Freeman, the other author, then spoke about the scenery and the attempts to introduce modern ideas. Sketches, all of which are to be used in some way, were then exhibited. Mr. Macomber, author and actor in former shows, followed with an explanation of the two-fold purpose of the Show. The first aim of the Show is to make money for athletics; the second, to afford an opportunity for the men to demonstrate the human qualities of Tech students.

Fletcher concluded the meeting with a statement regarding the advanced cost of production this year due to the necessity of obtaining entirely new scenery and costumes. Most of these, however, will be made by Tech students, co-eds having offered to assist in the costuming. The management is also considering the idea of making a trip to New York. Carr then played some of the new music after which the meeting was adjourned.

**GYM TEAM PRACTICE**

Hereafter gym team practice will be held on Mondays, Tuesdays, and Fridays at 5.15 o'clock. All men on the team should be on hand today as suit measurements are to be taken.

Any men who have done club swinging or have worked on the horizontal bar, rings, parallel bars, or tumbling are urged to come out. The first meet, which comes in two weeks, will be an exhibition one with Tufts College.

A brown overcoat with a brown velvet collar was taken from the Union yesterday by mistake. The person who took it is requested to communicate with J. R. White, '18.

**ARCHITECTS' SMOKER**

**Mr. Maginnes To Address Society At Smoker Tuesday**

The first of the Architectural Society's regular smokers of the term will be held next Tuesday evening in the studio of the Pierce building. Mr. Charles D. Maginnes of the firm of Maginnes & Walsh, the architects of the new Notre Dame Academy in the Fenway, will be the speaker for the meeting. Mr. Maginnes is further noted as one of the most skillful draftsmen of pen and ink work in the country. The subject of his address will be "Some Phases of Modern Architecture." Refreshments will be served after the talk.

**FRESHMAN TRACK**

**First Indoor Meet Of The Year With Lowell High**

Next Saturday night the freshman track team goes to Lowell where they will hold their first meet of the year, when they compete with the local High School.

The team has been practicing since the first of the year and Captain Herzog will have a well trained bunch of men behind him. There will be about twenty men taken. The provisional list of entries is given below. These men will report at the gym tomorrow not later than five o'clock to receive final instructions in regard to the time and place of departure.

The entries are as follows: 30 yd. Dash: Jackson, Ilsley, Langille, Bent, and Scranton; 35 yd. Low Hurdles: Jackson, Scranton, and Pike; 300 yd. Run: Jackson, Scranton, Bent, Ilsley, and Langille; 600 yd. Run: Bent, McCloskey, and Scranton; 1000 yd. Run: McCarten, Herzog, McCloskey, and Westland; High Jump: Bent, French, Goodrich, and Lockwood; Shot Put: Boley, Bryant, Wasgatt, McCloskey, and Wales; One Mile Run: McCarten, McCloskey, Herzog, and Westland.

The men for the team race will be chosen from Balfour, Bent, Ilsley, Langille, Jackson, McCloskey, Scranton, and Westland.

**CATHOLIC CLUB**

**Members Hear Mr. Fay of Common Cause Society**

After the supper of the first meeting of the term on Wednesday evening the members of the Catholic Club were addressed by Mr. Charles A. Fay. The speaker, who is the active leader of the Common Cause Society, gave a lecture on the reason for the foundation of the society and told of the frequent debates held with the Socialistic Clubs to thrash out the question of the good and evil of Socialism. These meetings have served to give laymen a more comprehensive view in regard to social reform and labor questions. The Society is but a little over three and one-half years old, yet in that time has become of importance in arousing in its members the sense of responsibility in life and its existence has caused Massachusetts Socialists no little worry.

Mr. Fay also spoke of the application of knowledge and appealed to those present to apply their learning in as broad a field as possible, at the same time striving to devote part of their worth to public service.

**TRACK MEET**

**O'Hara To Run Against Drew At Hartford**

On Monday, February 21, the track team will go to Hartford and there take part in a track meet to be held at the State Armory. There will be a one-mile relay race with the Catholic University of Washington, D. C., and a two-mile relay race with Dartmouth. O'Hara and Drew are to compete in a special race.

The Catholic University has the fastest relay team in that part of the country, and on February 5 Dartmouth beat Syracuse at the B. A. A. meet. The race between O'Hara and Drew will probably be the feature event. About a week ago Drew broke the world's record in a race at Melrose, and on Tuesday last he ran the one-hundred-yard dash in ten flat at the N. Y. Athletic Club meet at the State Armory. Drew and O'Hara are both fast men, and a close race will be the result.
