WRESTLERS TO ATTEMPT REVENGE ON HARVARD

Both Teams Have Lost Two Men Since Last Year When Harvard Was Victor By Score Of Three To Five

The men of the wrestling squad are on their toes to beat Harvard in the meet tomorrow evening. The management has announced that the competition will not be affected by any injuries, and it is expected that all the men will be in top form. The Harvard team is expected to send its usual strong contingent, and the meeting is likely to be a hard-fought battle.

SHOW REHEARSALS

There will be a rehearsal for the chorus of the Show this afternoon at 5:30 in the Union Dining Room. The chorus is expected to be in top form, and the rehearsal promises to be an exciting event.

MILITARY HOP

Annual Dance Of The Regiment At Lenox

The annual ball of the Technology Regiment will be held on the evening of Thursday, March 2, in the main dining room of the Hotel Lenox. This innovation of holding the dance at a place other than Horticultural Hall is expected to give better satisfaction among the members of the Regiment, although it is necessary to limit the number of couples to ninety. Tickets will be thirty-five cents each for those not holding blanket tax cards. The wrestling will begin at eight o'clock.

SHOW REHEARSALS

TREASURE

There will be a rehearsal for the chorus of the Show this afternoon at 5:30 o'clock in the Union Dining Room. The chorus is expected to be in top form, and the rehearsal promises to be an exciting event.

GRAY AND DAVIS TRIP BY E. E. SOCIETY

Members Shown Through Various Departments Of Factory Yesterday

About twenty members of the Electrical Engineering Society went on the inspection trip of the Gray and Davis works in Cambridge yesterday afternoon. Gray and Davis manufacture starting motors and generators for lighting and power use in automobiles. The factory itself is interesting from many points of view. It is very modern in construction and the system of operation is typical of the well regulated and managed manufacture on a large scale of a specialized product.

CATHOLIC CLUB DANCE

St. Cecilia's Hall Is Scene Of Informal Affair

The second informal dance of the Catholic Club, held last evening in the Union Dining Room, was attended by a large representation from the Institute and many from neighboring colleges. The cut dances proved to be the more popular and the music furnished by Delaney's orchestra called for repeated dances. It is expected that one or more of these dances will be held in the coming months.

ENGINEERING ASSETS

Professor Sedgwick Speaks On Broad Topic

At 2.30 o'clock yesterday Professor Sedgwick, head of Course VII, spoke to the Union by a large gathering. His topic was, "The Engineer's Most Essential Qualities." He said, "It is very necessary to a professional engineer to have a knowledge of such men as Darwin, did great things without its aid. Truth, on the other hand, is what an engineer needs most. The great problem is to avoid recurring failure and social ruin. It is therefore necessary to study mathematics, physics, and chemistry."

CHEMICAL SOCIETY

Professor Alexander Smith, who is the author of the Freshman Chemistry book and who is one of the professors of Chemistry at Columbia University, will speak to the Chemical Engineering Society in the Union tonight at 7.45 o'clock.

M. E. SOCIETY TRIP
Inspected Plant Of Sturtevant Company At Hyde Park

Last Wednesday afternoon 39 members of the Mechanical Engineering Society went to Hyde Park to inspect the plant of the Sturtevant Manu-
facturing Company. The party was divided into squads, each being con-
ducted through the factory by one of the firm's engineers. Certain routes had previously been mapped out, in order that one squad might not con-
sult the movements of another.

One of the interesting operations which the party witnessed was the pouring of cast iron, steel, aluminum, and bronze.

The most spectacular feature of the trip was the testing of three steam engines. The room was so great that it was impossible to make one's self heard above the noise of the engines. The Sturtevant Company is putting on the mar-
inest steam pumps for motor weighing 30 tons and developing 110 horse
power.

ATTENTION, TECH MEN!
