The close of the second week of Technique signups sees only six hundred slips redeemed. The response has been most marked in the Junior class—64 percent of which is signed up. Only 41 percent of the Seniors, 29 percent of the Sophomores and 21 percent of the Freshmen have signed. Their desire to keep a permanent record of the year 1915-1916 at the Institute is sending a one-mile radius will all be present tomorrow evening in the trials an-Brown '16 and Halfacre '18. Both appointed to interview every option 2.

PRICE THREE CENTS

AL SYREN offers

ALL SYRENE

This latest extravaganza from our friend Al's fertile brain opens tonight evening in Wadsworth, with the assurance that the loyal press will back the audience to the limit in an expression of their good will. The editors-in-chief of the "Bing-ville Bugles" from a wide radius will all be present to pass upon the merits of the "All-Sirenes" and it is probable that by Wednesday this column will contain some real drool on the cantering Bally Roost and also spring some of Watchful Wallie's gallery-shaking witticisms.

C. T. GUETHING '15

Captain Track Team

Scrimmage '16, while the two-mile team will be run by Gephart '16, Harrup '16 and Halfacre '16. Both teams have been making good time in the trials and are expected to have a good chance of winning. The nearest competition is expected to be the Dartmouth aggregation which is reputed to be the best ever developed at Hanover, and which has not been defeated this season.

O'Hara, who has been doing phenomenal work recently in the shorter dash, may have difficulty in holding the pace in the longer distance, but has as good prospects as any of his competitors. Teachers of Harvard and Wadsworth of Dartmouth and both dashing men and Folsey of Harvard is also admitted to have a chance.

TECHNOLOGY LOSES TO

HARVARD WRESTLERS

Crimson Matmen Reapt Victory Of Last Year In Glosely Contested Meet

Harvard won from the Technology wrestling team Saturday night in the 145-pound class, while Cook of Technology in 2 min. and 55 sec. In the 115-145 class both the booths went extra periods. These resulted in a draw for the men of Technology and Morse of Harvard. After a minute of stalling, Miller secured a dangerous hold, but Hoffman managed to escape. When time was called he had Miller almost pinned, thus gaining the decision. Scores of Harvard had the distinction of securing the only fall of the evening when he threw Sussex of Technology in 2 min. and 6 sec.

ARCH. ENG. SOCIETY

Re-organization Meeting Will Be Held Thursday Afternoon

The members of Course IV, option 2, held an informal meeting last Thursday at which it was decided to reorganize the Architectural Engineering Society. A date was set for a regular meeting in which to take action upon this question, this meeting to be held in Room 42 Pierce at 5.00 o'clock on Thursday, Feb. 24.

The dinner was tendered by members of the corporation. Professor Frank C. Allen, at a recent dinner at the Boston City Club, was presented with a magnificent Loving cup, a gift from his fel-low professors. In acknowledgment of his magnificent service, he was presented with a loving cup, a gift from his fel-low professors. In acknowledgment of his magnificent service, he was presented with a loving cup, a gift from his fel-low professors. In acknowledgment of his magnificent service, he was presented with a loving cup, a gift from his fel-low professors.

The society has done nothing this year except to accept new money, and it was owed to the desire of the members to get something for their money that this meeting has been called.

ART COMPETITION

The competition for Art Editor of next year's Techites closes on Friday of this week. Conditions for the competition may be obtained in The Tech of Wednesday, Feb. 16, or upon application to O. C. Lorena, D. D. Bradley, or K. H. Rasker at 42 Pierce.

TECHNOLOGY ENGINEER CORPS TO BE FORMED

Purpose Of Plan For Volunteer Corps Outlined At Meeting

A meeting was held Friday night for those men interested in the project of forming a Techni-tion military engineer corps. Col. Cole presided, and opened the meeting with an interesting talk upon the proposed body. The project was called the first opportunity to become a mil-litia organization.

Regarding the organization of the proposed body, Major Cole said that, although he was greatly in favor of the men, he emphasized the fact that it would not be his organization, but an organization of the students. The Admissions of the State will be the organization of the State, but as far as is legally possible, and in the event of authority being given for the formation of a military engineer corps, the Technology Corps will be given the first opportunity to become a militia organization.

Major Cole then introduced Col. Porter, Military Advisor of the Engineer Corps, who expressed himself in complete-ly impressed with the excellent military material latent in the Institute. 

The dinner was tendered by members of the corporation. Professor Frank C. Allen, at a recent dinner at the Boston City Club, was presented with a magnificent Loving cup, a gift from his fel-low professors. COMMUNICATION

Mr. Wilson:

Please consider this letter an invitation. Although I am a regular subscriber to your 'pub' and, as you'll find by con- sulting your mailing list, I have not the pleasure of your acquaintance, and therefore feel no 14th January about writing you, raise the circumstances in which I am forced to mention.

My name is nearly identical with mine, but am not particularly a critic; rather, I am a social worker who delights to help people. You will notice on the face of your letter the name of your friend, Mr. A. L. Longnor of the University of Pennsylvania, who can supply you with some idea of the，

I am well known to the President of the Union, and regard it as my duty to invite you to my college. I cordially extend my congratulations to you, President Wilson, and his able Executive Committee. The other professional societies will be able to laugh at the circumstances in which I am forced to mention.

My name is nearly identical with yours, but am not particularly a critic; rather, I am a social worker who delights to help people. You will notice on the face of your letter the name of your friend, Mr. A. L. Longnor of the University of Pennsylvania, who can supply you with some idea of the，

The contents of the letter, published in another column, from a correspondent who was likewise a student of the "Lounger," will大概是 more or less interesting to the Institute, especially among those whose memories go back to the years when The Tech was a popular weekly publication, and when the first issue of the "Lounger," which was founded in 1885, was issued.

The "Lounger" was named after the usual thoughts of the undergraduates, and was founded in 1885, and has its thoughts found expression in a manner much resembling the workings of the unconscious mind, gathering impressions here and there, thinking them away in the proper brain cell, and suddenly letting them pop out in unexpected places. So it is from the unconscious that the invitation for the "Lounger" is returned to us, and is returned from The Tech. If the undergraduates feel that there is a need for the expression of their feelings, and that they will communicate to The Tech, so that the letters may be published before next Friday, the following:

TECHNIQUE PICTURES

Today the following pictures will be taken for Technique 1917: 1, 000 of the Tech Board, as Engravers, members of the Union, is no small indicator of success. The growth of the Society since last year is all the more remarkable, when it is considered to what a low rating it fell in previous years.

The success of such a society depends upon two things, an active and a systematic and responsible organization. The first condition, obviously includes the sponsor. Of the importance of this most of the activities are connected. The point at which the professional societies are found wanting, however, is their failure to obtain the confidence of the students in their respective departments. Undergraduates do not care for membership in the society if the account of the money involved. The fees vary very little. The technique in the inequality of some cases, but the amount of the fee is not sufficient to encourage the efforts of the students. It is in this respect that the Chemical Society is primarily successful.

The TECHNICIAN pictures for The Tech Board will be photographed Wednesday at 1:00, at Bachrach's, and will be followed by the 1918 Governing Board at 1:00. Other groups will be announced later.

The informal photo of all Sections who are to be included in the Portfolios will be made by March 8th. A large number of negatives will be taken. The Tech Board office ready to be reconnected, and the pictures may be obtained any afternoon from 5:00 to 6:00 o'clock.

A COMMUNICATION

dear Al—

What do you mean, have some sense and come to the Tech this year? You see it was this way, you go to improve your health and they said, "whoever is out for leading men," and I went up. It is a very fine speech and after I had read my speech he didn't want the other fellows to so that he had chosen me so he just said, "who else is there?" He gave me a little nod which meant that I had cinched the deal, but no me. So I went to All Syringes.

NAVAL ARCHITECTS

Charles W. Furlong To Address Course Thirteen

Tomorrow evening at 6:30 p. m., the Naval Architectural Society will hold its banquet in the Union followed by an illustrated lecture by Mr. Charles W. Furlong. The speaker will take as his subject "By Land and Sea About South Africa and Cape Horn." His lectures are the result of several years of travel and research. He has lived among the people he describes and studied both the lands and peoples from the viewpoint of an explorer, scientist, painter, and amateur photographer. Every lecture is illustrated with samples of travel and research. The material comprises over forty thousand miles of travel, forbidding regions of strange lands and savage peoples. He has traveled through the hills of Madagan, twice, and has spent long months in the bitter cold regions of Cape Horn. All slides are extended an invitation to go to one of us and show the picture in the Union Film Room this afternoon at 5.00 o'clock.

ATTENTION, TECH MEN!

We offer our best photographs to members of all classes at $1.00 at Senior Class rates.

Make your appointments early and have your pictures for the holidays.

ANDOVER DEFEATED
Second Wrestling Team Wins by 9-3 Score
The second varsity wrestling team defeated Andover last Saturday afternoon by the score of 9 to 3. Out of the five bouts Andover was able to win only one. One bout was a draw while the other three were won by Technology. All bouts were the limit, except in the 153-lb., where McFarland of Andover in 2 min., 20 sec. Andover's only win came in the 135-lb. class when Kennedy gained a decision over Elwell of M. I. T., the bout going 9 min. In the remaining bouts Bone and McFarland won decisions over their opponents while Kitchen drew with Walker of Andover.

The summary:
115-lb. class—Bone (M. I. T.) won decision from Towley. Time 2 min.
115-lb. class—McFarland (M. I. T.) won decision from Hermit. Time 9 min.
135-lb. class—McMoran (M. I. T.) drew with Scott. Time 2 min., 20 sec.
135-lb. class—Kitchen (M. I. T.) drew with Walker. Time 9 min.
158-lb. class—Elwell (M. I. T.) lost decision to Kennedy. Time 9 min.

The Brisk Smoke—"Bull" Durham
When you see an alert-looking young man in a lively argument roll a "Bull" Durham cigarette—it's the natural thing. He likes to punctuate a crisp sentence with a puff of "Bull" Durham. His mind responds to the freshness that's in the taste of it, and his senses are quickened by its unique aroma. A cigarette of "Bull" Durham just fits in with keen thinking and forceful action.

GENUINE "Bull" Durham Smoking Tobacco
Made of "bright" Virginia North Carolina leaf, "Bull" Durham is rich, fragrant, mellow-sweet—the mildest, most enjoyable of smoking. "Roll your own" with "Bull" Durham and join the army of smokers who have found that so good a cigarette cannot be obtained in any other way.

FREE An illuminated Booklet on Smoking "Bull" Durham, "How to Roll Your Own Cigarettes" and a "Bull" Durham sample will be mailed to you by the American Tobacco Co. in U. S. on request.
