AL SYREN

All P.—AL SYREN

We are dit assisted to announce that we can offer no select facilities of the Pawtucket opening of A's show, as we promised. The editors have been directed that the club's did not kick through with their usual ball although they did make a bully good hit. Perhaps they didn't dare to kick too much, they didn't dare to say anything. Still again maybe they cared too much to say anything.

Our special correspondent was on hand but he was when the audience gathered together he refused to stay and see the agony out. Hence it is probable that this column will not have any real credit and the show returns to Huntington Hall, as the A's show. The going down into the Connecticut and we can't get a live wire to go down there and monkey around for a week chasing a side show.

VICTORY AND DEFEAT

Huntington Hall, at which Goldsworthy Lowes Dickinson, fellow of King's College, To Discuss Methods of Minimizing Future Warfare

President Maclaurin has called a Convocation for next Friday at 10 o'clock in Huntington Hall, at which Goldsworthy Lowes Dickinson, fellow of King's College, Cambridge, and son of the late Lowes Dickinson, prominent in the field of artillery, will make a speech on the relationship of nations to minimize the probability of war. His talk will not bear directly upon the present conflict but will deal with the readjustment of European politics after this war.

Mr. Dickinson has been for a number of years lecturer at King's College and the London School of Economics and Political Science. He is the author of a number of books, as "The Development of Parliament in the 19th Century," "Religion: A Criticism and Forecast," and "An Essay on the Civilization of India." Perhaps his most noted book is "International Arbitration China, the Chinese, and the Chinese, a supposed Chinese ambassador. So realistic are these "letters" that William Jennings Bryan once remarked that it was plain to see that his author was a Chinese who had never been outside of China.

ARCH. ENG. SOCIETY

Members Endavor To Awaken Interest In Society

At an informal meeting held last week by the members of Course IV, option 2, decided to hold a meeting tomorrow at 9.00 o'clock in Room 12 for a talk on the recent lecture of Mr. Lamson, assistant in Course V, T.T., and the effort is now being made to thoroughly reconvene the society so that members who have been on the fence for this may at least yet their mind worth of their membership.

E. E. SOCIETY

C. R. Underhill To Lecture On "Electromagnetism."

Mr. C. R. Underhill, chief Electrical Engineer for the Acme Wire Company, of New Haven, will give a lecture on "Electromagnetism" at a lecture of the Electrical Engineering Society in the Union tomorrow evening at 7.45 o'clock. Mr. Underhill will illustrate his talk by demonstrations on the principles of the theory of electromagnetism and stating observations on certain products manufactured by the Acme Wire Company which have been presented to the Electrical Engineering Society by the Institute by the company.

The articles which will be exhibited are twenty representative coils, together with a card describing them, a framed picture of the plant a framed card of wires, and several magnets, brushes, and fuses. Two small test circuits with a panel to be run into the Union to be used for 24. Underhill's demonstrations.

TECH ORCHESTRA

The Tech Orchestra will hold a re-hearsal this week to decide this school's entries in Room B. Every member is requested to be present because special business is to be brought before the meeting. Tech show material is to be practiced, and instruction about the program which is to be taken at Tech's evening and day will be given.

MILITARY HOP

The Technology Regiment will hold its annual ball, as already announced, in the Hotel Lenox, Thursday evening. This year's theme is "From King to Regiments," the "Craven," one of Parliament in the 19th Century," and "Religion: A Criticism and Forecast," and "An Essay on the Civilization of India." Perhaps his most noted book is "International Arbitration China, the Chinese, and the Chinese, a supposed Chinese ambassador. So realistic are these "letters" that William Jennings Bryan once remarked that it was plain to see that his author was a Chinese who had never been outside of China.

BETTA THETA PI LEADS

General Average A Little Lower Than A Year Ago

"During the past year, that is from June 1914 to June 1915, another study of the relative standing of students has been made by the Registrar, the average records of the first, second, third, and fourth year have been plotted and compared with the records of these classes as they were a year previous. In 1913-1914 the average records of the classes were: first year 66.7%, second year 68%, third year 65.9%, and fourth year 71%. Last year, 1914-1915, the records were: first year 67%, second year 66.5%, third year 67%, and fourth year 70%. While there was not much change in the average of all the classes for the school year, the students of 1914-1915 stood a little higher than those of the following year.

The average standing of the fraternity students in 1914-1915 rose above the standing of the fraternity students in 1913-1914. The standing of the fraternity students during the past year was the same as the average of all the students, a condition which is considered quite unusual as in practically all colleges the fraternity men have a lower standing than the non-fraternity men. Moreover the difference between the standing of the first and last fraternity is not nearly so great as in 1913-1914. The relative standing of the fraternities this time was: Beta Theta Pi, Theta Chi, Theta Xi, Sigma Chi, Delta Kappa Epsilon, Delta Tau Delta, Kappa Sigma, Lambda Chi Alpha, Phi Sigma Kappa, Delta Upsilon, Phi Beta Epsilon, Alpha Tau Omega, Phi Gamma Delta, Lambda Delta Phi, Theta Delta Chi, Phi Kappa Sigma, Sigma Alpha Epsilon.

WALTER HUMPHREYS

WHAT we'd call "determination" in ourselves, we of'en mistake for "bull-headedness" in the other fellow. But we never over mistake real true genderness in a man or a tobacco.

Tech Advertisers

A business firm of New England traditions, eating from a newly furnished with every comfort convenience.. the best known and fountain pens to sell. Call at The Tech stop The Lounger. It will take the necessary steps to avoid The Lounger. I should think that every student would have his own loyalty or cares for the Institute Committee or anyone that desires you won't print it. I see a great many hands in the other fellow. But we never over mistake real true genderness in a man or a tobacco.

It is a matter of much speculation to many whether the poor, down trodden masses leading to the entrance to Engineering A, and those of the University as well will be able to hold their own until the close of the last year. Old buildings. Falling up stairs has grown to be the customary diversion in gaining the Union these days.

COMMUNICATION

To the Editor-in-Chief:

I was amazed and astonished to see that in your last issue you openly acknowledge that you contemplate to invite The Lounger back to Tech. Now the Tech has long assumed the role of arbiter around the Institute, giving what pleased them or what their personal friends desired, so I realize that this letter has little to do with any leadership in the public eye. Therefore I demand that this letter be published, because I have said my Blanket Tax and if it isn't I will further invoke the wrath of the Institute Committee.

You are aware that the Tech contains anything that personal or interesting is repulsive to me. And even in printed so that the Boston papers may copy them and thus spread it...
DOCTOR GILL FINDS
ROMANCE STILL ALIVE

Technology Professor Manages
To Block Theft Of Estate
In Law Suit

Dr. Gill had an interesting experi-
ence the past vacation when he was
sent to Boulder, Colorado, to ex-
amine a document whose genu-
ineness there was a difference of
opinion between two handwriting ex-
erts. By his knowledge of paper
and ink which subjects he had studied
for many years, and by the use
of the microscope, he was able to
pronounce it genuine.
