To the Editors of The Tech:
A "Senior" is evidently personally acquainted with the present Board of The Tech, and he may perhaps be prophet and a seer, but isn't he running a pretty hard race? Possibly some members of the Board are equally clever (they can read the stars or something) and have foreseen that the "future" is really nothing more than ordinary cramming and tutoring may be necessary and of no date. But still it is rather a mean thing to speak as harshly as "A Senior" does about a Board which has actually been infected by the germ of a great idea. Besides, he is too aware that the Lounger of former years ceased to breathe after making a certain department "O.K."
His good fortune has been that his forefathers have prepared him more effectually for being a dangerous character.
Perhaps one of the pleasantest recollections of The Tech is its ability to print what it is given to print. ENGINEER CORPS HAS
ITS FIRST MEETING

New Volunteer Organization To Study Defense—Is Well Backed By State

Much general enthusiasm was evidenced Friday afternoon at the first drill of the new Technology Engineer Corps. About 150 men assembled at 4:30 p.m. and drilled under the command of the officers of the freshman regiment. Two companies were formed, A and B, under Capt. Millard and Capt. Lieber, respectively. The companies were divided into squads, each under a member of the freshman regiment, and the drill was spent in going through elementary drill.

The organization is to be a student branch of the Coast Artillery. It is to be in no way affiliated with the militia, although the officers are being supported by the College authorities. Capt. Millard has generously given the men the use of the armory.

It is planned to put the men through some drill practices, and later to conduct a course in lectures. The Corps will meet every Friday afternoon hereafter at the armory at 4:30 o'clock.

The next drill will be held at 4:30 p.m. next Friday, at which time the manual of arms will be taken up, and instruction in using arms will also be given.

SWIMMING TEAM WINS

NEWS COMPETITION

The Sporiting Department of The Tech will hold a short essay competition beginning this week, for students who wish to test out for the news board. The work contains mainly in announcing athletic events and in writing up the games and meets. A meeting for candidates will be held in The Tech office Wednesday, March 1, at 1:30 o'clock. Those unable to attend the regular meeting may see the sporting editor before then, or leave a note for him at The Tech office. This contest is for Sophomores especially.

The Tech is in a position to offer you exceptional values in clothes and shoe trade. See the general manager or treasurer, at 9 o'clock any evening. Apply at once as our offer is good for one month only

CONVOCATION (Continued from Page One)

ent nations from breaking away. Every nation that ever went to war has the idea that it is fighting for the defense. If Austria had known that she would face the united forces of the rest of the world, there would be no war at the present time. Such an arrangement would insure publicity and publicity is essential for peace. Nations are bound by secret treaties and others know nothing of these. Traditional diplomacy calls for getting the better of other nations by hook or by crook.

Before and after the talk, a detail of Tech's football orchestra played several selections.

FORUM SPEAKER

Floyd Carr To Talk On “Fraternalism Versus Socialism.”

On next Tuesday at 1:30 o'clock the Rev. Floyd Carr of the Boston College chaplaincy will speak in the Tech Union. Mr. Carr will appear under the joint auspices of the T. C. A.
