VOL. XXXV. NO. 76

BOSTON, MASS., MONDAY, MARCH 6, 1916

PRICE THREE CENTS

NEXT PANTECHNICON TO FEATURE LADIES

Issue Out About March 15—Will Contain Timely Information Concerning Reunion

The next issue of the PANTECHNICON will appear about March 15. When interviewed yesterday morning, Mr. George C. Wales, chairman of the reunion publicity committee and editor-in-chief of this serio-comic Reunion sheet, was found busily engaged in arranging for the second issue of his paper. In a mood reminiscent of student days in '89, Mr. Wales spoke of the value of Sunday's uninterrupted hours for real accomplishment, and in words of his own reiterated Mr. O'Neill's now famous saying, "Six days shalt thou labor, and do all thy work; and the seventh day do back work."

The PANTECHNICON will follow the precedent established in its first issue, treating reunion affairs in lighter vein, at the same time giving real facts about the arrangements which have been made for the celebration. This issue will give considerable space to the plans for entertainment of the ladies who will accompany their husbands to the Reunion. There will also be reports of the various committees on their work. A feature of the sheet will be the publication of further songs entered in the Silver Cup Song Contest.

The first issue of the PANTECHNICON, owing to the limited number of copies, was not widely circulated among the student body. The twelve thousand copies were distributed among the alumni, and a few were sent as exchanges to other colleges. At the present time the issue is completely exhausted.

Mr. Wales expressed the hope that it would be possible to put a few copies of the coming issue in the Union, so that the students may have a chance to keep up with the work of the committees. "We do not wish to make this entirely an alumni affair," he said. "We need the interest of the undergraduates, and their cooperation."

ARCH. ENG. SOCIETY

Mr. Whitney To Speak—Informal Discussion To Follow

The Architectural Engineering Society will hold a meeting on Thursday afternoon, March 9, at 4.00 o'clock in Room 42, Pierce. The speaker will be Mr. Whitney, designer for the Widden-Beckman Company, Engineers and Contractors. The subject of his talk will be "Columns." After the talk there will be an informal discussion in which Mr. Whitney will be glad to answer any questions on points of design.

Up to this time the Society has done nothing but collect dues with the exception of one meeting held to make arrangements for the reorganization of the Society. The meeting next Thursday will be the first this season at which there has been an outside speaker. From now on it is planned to have a series of instructive meetings. The talk and discussion will be open to all men in both Options of Course IV.

TECHNIQUE PICTURES

The following pictures will be taken this week for Technique: Today, 1.05, 1918 Governing Board; 1.35, Hockey Team. Tuesday, 1.10, Gym Team. Thursday, 1.25, Combined Musical Clubs. All pictures will be taken in the Studio, Pierce Building, where the men can make any necessary changes. No photographs will be taken after this week.

SENIOR PORTFOLIO

A small number of Seniors have failed to reply to the cards sent them by Technique with regard to their Portfolio insert. These men will be omitted from the Portfolio unless heard from by Wednesday.

RELAY SPRINGS A SURPRISE ON CORNELL AT FOUR A MEET

O'Hara Second In Seventy—Courtellotte Elected To Executive Committee—Leland Stanford Made Member Of Association

(Special to The Tech.)

New York, March 4.—The great sprints shown by James E. Meredith of Penn in the three-lap relay race, by John W. Overton of Yale in the six-lap relay race, and the performance of M. I. T. in winning the forty-eight-lap relay race were features of the second annual indoor track and field meeting of the I. C. A. A. A., held at Madison Square Garden this evening.

The biggest surprise of the evening was the defeat of Cornell, considered to be a sure winner over the 4 4-5-mile distance. Herzog, although getting a slow start, managed to hold the lead for Technology against Windnagle of Cornell, with the first runner for Columbia, the third team in the race, trailing. A mixup occurred in passing the baton from Herzog to McCarten; it was dropped, and Columbia took the lead with Cornell second. McCarten recovered quickly, however, passed both the Columbia and Cornell men and handed over a good lead to Half- (Continued on Page Three)

New York, March 4.—Undergraduate delegates in their annual meeting held at the Waldorf-Astoria this afternoon voted unanimously to hold the forty-first annual outdoor track and field championships of the Intercollegiate Association of Amateur Athletes of America in the Harvard stadium. The meet will be held on Friday and Saturday, May 26 and 27.

Leland Stanford University, one of the leading figures in Pacific Coast collegiate athletics, was taken into the national body yesterday, but the application of the University of Pittsburgh was dismissed.

The executive committee was increased from a membership of five to seven after an extended debate. Gustavus T. Kirby spoke against enlarging the body upon the ground that efficiency was not gained by numbers, but the motion carried by a vote of 10 to 5.

The committee appointed and the votes polled by the respective mem- (Continued on Page Four)

ARCHITECTS' SMOKER

Mr. C. H. Blackall To Address Society Tomorrow Evening

The Architectural Society will hold its fifth scheduled smoker at 8.00 o'clock tomorrow evening. Owing to the fact that the talk will be illustrated by lantern slides, the meeting will take place in 11 Eng. B. The speaker of the evening is Mr. C. H. Blackall, of the firm of Blackall, Clapp, and Whittemore. Mr. Blackall is best known as the architect of many of Boston's theatres, among which are the Majestic, the Colonial, the Shubert, and the Wilbur. He is furthermore the author of a comprehensive series of articles on theatre architecture, which were published in the "Brickbuilder," a well known architectural publication. He will speak on "The Responsibility of the Architect as the Writer of Modern History." Refreshments will follow Mr. Blackall's address.

SENIOR SMOKER

This coming Friday evening the Class of 1916 will hold a smoker in the Union. The time is set for 7.30 o'clock. The Class Day Committee, which has been divided up into its sub-committees, will report its plan of action to the whole class. At the smoker the calendar for commencement week is going to be explained in detail. Following the Class Day Committee report there will be a talk by Mr. Litchfield upon the Big Reunion and the part that the Class of 1916 is going to take in it.

The committee in charge of the smoker have arranged for professional entertainment to last throughout the whole evening. Steward Colton is preparing a buffet banquet to be served in Rooms A and B. The program of speakers and events will be announced in Wednesday's Tech.

M. E. SOCIETY

Next Wednesday afternoon at 4.00 o'clock Professor G. L. Hosmer of the Institute will address the Mechanical Engineering Society, taking as his subject, "Knots and Hitches." Each man attending the talk will be given a piece of rope with which he can practice the knots as they are demonstrated by Professor Hosmer. The meeting will be held in 11 Eng. B.

SWIMMERS BEAT BROWN

Team Wins Fifth Straight Meet Friday At Providence

Last Friday night the Technology Swimming Team won its fifth straight victory of the season by defeating Brown at Providence by a 42 to 8 score. Root '17 was the star of the meet, winning the dive, 200-yards, and swimming on the relay team which won easily.

The Institute swimmers won every first place, while Brown scored only one second. Untersee '19 tied for first in the 100-yard swim with Foster '18 (Capt.), who won the 40-yards. Wales '19 captured the plunge. The next meet of the season will be with Wesleyan on March 18.

The summary:
Relay: Won by M. I. T. (Gray, Root, Untersee, Foster). Time 1.53 4-5 seconds.

Dive: Won by Root, M. I. T.; Wood, M. I. T., second.

50-yards: Tie for first between Foster, M. I. T., and Untersee, M. I. T. Time 26 4-5 seconds.

200-yards: Won by Root, M. I. T., Bolan, M. I. T., second. Time 2 min. 38 sec.

Plunge: Won by Wales, M. I. T. Distance 62 feet.

100-yards: Won by Untersee, M. I. T.; Foster, M. I. T., second. Time 1 min. 4 2-5 sec.

E. E. SOCIETY

The Electrical Engineering Society will hold its joint meeting with Harvard next Thursday evening in the Union at 8.00 o'clock. Mr. Farley Osgood, Assistant General Manager of the Public Service Electric Company of Newark, N. J., will talk on "What Is Engineering, and What Is an Engineer." Refreshments will be on hand, and the meeting will be arranged in a way to allow the men to get well acquainted.

GYM TEAM LOSES

Friday night Harvard won from Dartmouth and Technology in the Triangular Gym Team Meet held at Hemenway Gym, Harvard. Dartmouth took second place.

The team's next meet will be with Brown, at Providence, next Saturday.

CAPTAIN PING YOK LOO STARS FOR TECHNOLOGY

Wins Featherweight Title In New England Intercollegiate—Yale Wins Meet

Yale won the first New England Intercollegiate wrestling meet, held Saturday afternoon and evening in the Hemenway Gymnasium at Harvard, by scoring a total of 34 points. Technology and the Springfield Y. M. C. A. College tied for second place, each scoring 11 points. Harvard scored 9 points, Bates 8, and both Brown and Tufts were unable to win any points.

Yale was able to place six men in the finals, four of whom won their bouts. Technology placed three men, Loo, Hoffman, and Morse in the finals, but Captain Loo was the only one to come through. Yale won 4 finals, Technology 1, Springfield 1, and Bates 1.

Captain Loo was easily the star for Technology. His first opponent was a Tufts man whom he threw in 6 minutes, 17 seconds. His second match was with Dewart of Harvard. The bout was very close, and went an extra 6-minute period, Loo finally (Continued on Page Four)

C. E. SOCIETY

Comparison Of Harbors The Topic Of Engineer's Talk

At the second meeting of this term, held last Friday evening, the Civil Engineering Society was addressed by Desmond Fitzgerald, well known hydraulic engineer and one-time superintendent of the Boston water works.

The speaker chose as his topic "Rambling Notes on Harbors and Dams." Slides from photographs taken by Mr. Fitzgerald were shown, among them some views of Boston Harbor taken in the course of his work with the Boston Commission for Harbor Improvement. From the standpoint of potential capacity, Mr. Fitzgerald said, New York has the largest harbor in the world. Poor arrangement, however, in some measure detracts from its value. Liverpool and Hamburg were among the other ports mentioned.

The next meeting of the society is set for March 24. Mr. John R. Worcester, a noted bridge engineer at present engaged in a bridge project at Portland, will speak. The annual banquet will take place April 27.

CLAY MODELLING

On account of the smoker of the Architectural Society tomorrow night, the class in clay modelling will be held Thursday, March 9, at 7.30 P. M. in Room 40-A Pierce.

About 35 Course IV men have enrolled in this class, and under the instruction of Mr. Hugh Cairns, the well known architectural sculptor of this city, some very creditable work is being done.

CALENDAR

Monday, March 6, 1916.

1.05—1918 Governing Board. Pierce Studio.
1.35—Hockey Team Picture. Pierce Studio.
4.00—Junior Prom Committee Meeting. 32 Eng. C.
4.30—Tech Show Rehearsal. Union, Room B.

Tuesday, March 7, 1916.

1.10—Gym Team Picture. Pierce Studio.
1.30—Medal Award Committee Meeting. Geological Lab. Eng. B.
4.00—Mandolin Club Rehearsal. Union, Room B.
5.00—Glee Club Rehearsal. Union, Room B.
5.00—Tech Show Rehearsal. Union Dining Room.
7.30—Chauncy Hall Club Meeting. Unions, Rooms A and B.
7.45—Architectural Society Smoker. 11 Eng. B.

THE TECH

Subscriptions, \$1.50 per year in advance. Single copies, 3 cents.

MONDAY, MARCH 6, 1916

The detail of Friday's and Saturday's athletic successes are given elsewhere in The Tech. The Swimming Team won from Brown, the Wrestling Team tied with Springfield for second place in the Intercollegiate Wrestling match (Harvard taking fourth place), but undoubtedly the most spectacular victory was that of the four mile relay team in New York. To Brown, Halfacre, Herzog and McCarten belongs the credit of winning a very hotly contested race. Behind these men the coach and the track management are justly entitled to commendation. The long distance runners, however, do not have sole claim to honor. The brilliant work of O'Hara in the seventy-yard dash is most laudable. The results of the meet certainly justify Technology's intercollegiate competition.

Today the sale of tickets for the Freshman Dinner will close. There will be as usual, a few who have intended to get their tickets, but have neglected purchasing them until too late; and others who, at the last moment, will change their minds and wish that they could attend.

Each man that goes will have a good time, for the banquet will be made as enjoyable as possible; but enjoyment is not the only summons. The freshman class is just beginning to find itself. So far, it has not always been easy to tell just who's who in the class, but with the participation in activities, the public spirit shown by different men begins to assume definite and recognizable form. The banquet will offer almost the last opportunity for men to advertise their public spirit before the class becomes settled in its opinions. Those who attend will be recognized as being public spirited; those who stay away will occupy no position in the notice or esteem of the rest of the class.

So varied have been the views on the return of the Lounger which have poured into the office, that it is a well nigh impossible task to ascertain what the general sentiment is. We have attempted to be guided, however, not so much by the bulk of the material which has been received, as by what we know of the correspondents. Discarding what seems to have been prompted by a somewhat hysterical attitude, we are left with a deal of sober advice which advocates the Lounger's return in unmistakable terms.

Moreover, extracts from some of the Lounger's former work taken at random from old volumes of The Tech, seem to indicate nothing in the least incendiary. For example, in his welcome to freshmen, there is nothing to cause fear for the future of Technology. "The second week of the term," he says, "finds the class or of freshmen to large and interested audiences. . . . After all, this is a some- (Continued on Page Four)

of Technology (and the Co- is too, God bless 'em) the Lounger meets you with that deep feeling which has come only after years of service for Technology. He feels that he will soon be as welcome with his new acquaintances and in his new surroundings as he is in the old familiar haunts which he still recognizes. It is surprising how many of the beloved old characteristics will survive. In Rogers there is the same old helical stairway to the dungeon, the isthmus where so many students have backed down on coming in opposition to the faculty. It was here that the Lounger made his first hit with Professor Currier. Then there are the flights of stairs that lead up to "those drawing rooms," and now, in addition, to Ike Litchfield's habitat; to say nothing of the same old mob, most homelike of the homely, who are still petitioning the faculty.

Walker building still belches the terrible smokes and smells. The Lounger pauses to watch a freshman, and CRASH!—up goes a generator and a Sophomore ruins a pair of pants. Can it be?—Yes, it is Chollie Cross, with the same handkerchief, the same little red ball, and the same lectures the Lounger took back in '04. This old building has changed least of all, although three of the underclassmen assure the Lounger that it was named after a coed and not after the grand and honored general who devoted his life to Technology.

The Engineering buildings show marvelous augmentation of equipment. Technology may well point with pride to the drawing rooms and laboratories, with their hordes of harassed toilers. The same old ice is left unmolested on the stairs, and Professor Miller still has a class in fairy tales. The Union is entirely new to the Lounger, and contains so many noteworthy features that it will be minutely examined at a later date.

The Lounger does not forget Chapel in his pilgrimage; he notes that the tired and thirsty still pause for that inspiration furnished by the goodly men of white robes and smiling countenances. No, say what you will, the Chapel spirit is as strong as ever at Technology, and Chapel attendance, though not compulsory, is still enjoyed by all.

More poignantly welcoming landmarks, however, are to greet the Lounger. On visiting the lecture and class rooms he hears, at the same time and in the same place, the same puns and the same jokes which have been repeated annually in Techniques of the past decade. The students laugh as in the old days, and the professors are just as happy.

Technology has not changed. In fact, the Lounger finds so much in common with his old times that he believes his experience will be of inestimable value. He still declares Technology to be the "Best School of All," and invites each student to drop in on him any time at the Union, and discuss anything on his mind.

CHESS MATCH

Last Friday the Bay State Chess team played Technology at the Union, winning by 3 1-2 games to 2 1-2. The summary is as follows:

| Technology | Bay State |
|--------------------|-----------------|
| Kenigsberg ½ | Taylor ½ |
| Dean 0 | Lee 1 |
| Pray 1 | Sanger 0 |
| Woodbridge 0 | Herrington .. 1 |
| Sanger 0 | Daly 1 |
| Costelloe 1 | Defaulted |

T. C. A. SPEAKER

The T. C. A. speaker Thursday noon was Father Harvey Officer, an Episcopal monk of the Order of the Holy Cross, who is well known and liked in the colleges of the East. Father Officer chose as his text a poem by Henley, the last verse of which ran:

"It matters not how straight the gate,
How charged with punishment the scroll;
I am the master of my fate,
I am the captain of my soul."

SUNDAY clothes don't make a gentleman, an' "processes" don't make a quality tobacco. Those are jobs for Nature. **VELVET** is nature-cured.

CORNELL DEFEATED

(Continued from Page One)

acre. Halfacre increased the Technology lead and gave Brown about a half a lap on Potter of Cornell and a complete lap on the fourth Columbia runner. In his quarter of the distance Brown again lapped Columbia and barely missed lapping Potter, finishing a good 175 yards in the lead, making the time of 23 min. 13 4-5 sec. for the race. Potter of Cornell was the individual winner of the Four A Cross Country run at New Haven two years ago and he and Windnagle were the mainstays of the Cornell team in the distance runs at last year's intercollegiate at Franklin Field.

O'Hara was second in the first heat of the 70-yard dash, Smith of Michigan, intercollegiate champion in the 100 and the furlong, taking first in 7 3-5 secs. There were no Technology men in the second or fourth heats, but in the third Doon captured second; in the fifth Kwan finished a close second; while in the sixth and last heat Russert finished fourth, getting a poor take-off. O'Hara had the misfortune to draw the same semifinal with the Michigan runner, but again took second. The other wearers of the cardinal and gray were eliminated, only O'Hara reaching the finals in which he again ran second

to Smith of Michigan, the time being 7 2-5 sec.

In the six-lap relay in which Columbia, Cornell, Yale, Syracuse, and Michigan were entered, Yale led at first with Michigan a close second for some time, until Beckwith of Cornell passed both leaders, bringing the crowd to its feet. At the start of the last quarter of the race Cornell, Yale, Michigan, Syracuse stood in the order named, Columbia having dropped out. The crowd went crazy when Overton of Yale passed Windnagle of Cornell almost at the finish after trailing him for over a lap. The time of the race was 9 min. 55 1-5 secs.

As expected the triangular between Harvard, Penn, and Columbia, each man running three laps, developed into a struggle between Harvard and Penn, the former fighting for revenge for the Hartford trimming. Harvard easily led with both second and third runners, but the last two men, Meredith for Penn and Bingham for Harvard, ran shoulder to shoulder for the whole three laps, Meredith finally winning by a little over two yards, much to the delight of the stands.

The following is the standing of the teams (unofficial—official scores not given out tonight): Cornell 36, Penn 25 1-2, Yale 22, Princeton 8, Michigan 8, Columbia 8, Technology 6 1-2, Harvard 6, Penn State 4, Syracuse 1.

The summary: Relay race, teams of four men, each man to run 3-5 mile, total distance 2 2-5 miles—Won by Yale (Overton, Roife, Barker and Cooper); Cornell, second; Michigan, third. Time—9m. 55 1-5s.

Relay race, teams of four men, each man to run 3-10 of a mile, total distance 1 1-5 miles—Won by Pennsylvania (Meredith, Scudder, Lennon and Dorsey); Harvard, second; Columbia, third. Time—4m. 22s.

Relay race, four man teams, each man to run 1-5 mile, total distance 4-5 mile—Won by Princeton (Wallace, Eddy, Richardson and Moore); Cornell, second; Penn State, third. Time—2m. 42 2-5s.

Team race, 24 laps, two and two-fifths miles—Won by Cornell, 11 points; second, Pennsylvania, 25 points; third, Columbia, 42 points. Time—1m. 3 3-5s.

Medley relay race, four, two, six and eight laps, total distance 2 miles—Won by Pennsylvania (Scudder, Lennon, Berry, Pope); Harvard, second; Cornell, third. Time—8m. 45 4-5s.

Seventy-five-yard hurdles—Won by F. H. Starr, Cornell; J. V. Farwell, Cornell, second; L. E. Grubb, Cornell, third; D. M. Brown, Penn State, fourth. Time 10s.

Seventy-yard dash—First semi-final heat—Won by H. T. Smith, Michigan; F. P. O'Hara, M. I. T., second; L. L. Ricketts, Yale, third. Time 7 2-5 secs. Second semi-final heat—Won by H. I. Treadway, Yale; Henry Berg, Jr., Yale, second. Time 7 3-5s. Finals—Won by H. T. Smith, Michigan; F. P. O'Hara, M. I. T., second; H. I. Treadway, Yale, third. Time 7 2-5s.

Relay race (four man teams, each man to run 12 laps), total distance 4 4-5 miles—Won by M. I. T., with H. A. Herzog '19, G. C. McCarten '19, G. F. Halfacre '18, R. G. Brown '16; Cornell second with L. Z. Windnagle, G. M. Taylor, C. L. Beckwith, D. F. Potter; third, Columbia. Time 23 min. 13 4-5 secs.

Medley relay race (four man teams, men to run 4, 2, 6 and 8 laps, respectively, a total distance of 8

miles)—Won by Pennsylvania, with Lawrence C. Scudder, Thomas F. Lennon, Thomas E. Pope, and Joseph H. Berry, Jr.; Harvard, second; Cornell, third. Time—8m. 24 4-5s.

Time race—24 laps (teams of four men, total distance 2 2-5 miles)—Won by J. S. Hoffmire, Cornell, F. J. Burke, Cornell, second; J. C. Corwith, Cornell, third; Clayton McMichael, Pennsylvania, fourth; A. H. Main, Cornell, fifth. Time—12m. 3 3-5s.

NINTH REGIMENT MEET

At the Ninth Regiment Meet, held at the East Armory Saturday evening, Technology fared rather less

successfully, due to the fact that so many of the track men were in New York. In the 300-yard run Guething, '16, finished third, and in the 600 Bent, '19, came in for third place.

TECHNOLOGY ALUMNI

An interesting group of names of Technology Alumni has been brought together in the recent annual exhibit of the Architectural League in New York City. It includes Cass Gilbert, '80, who received the gold medal of the league; William Welles Bosworth, '89, whose plans for the New Technology were shown; Guy Lowell, '94, and Daniel C. French, '68.

FRESHMAN BANQUET

The Class of 1919 will have its annual dinner in the Union at 6.30 o'clock Wednesday, March 8. The principal speakers will be Dr. H. P. Talbot, whose subject is "The Class of 1919 as a World Power"; Mr. Isaac W. Litchfield, who will discuss the plans for the reunion in June, and Dean Burton, whose subject will be "Next Year's Sophomores." Other speakers will be Major Cole and Mr. Blachstein. EDITORIAL
 (Continued from Page Two)

what expected state of affairs, for although a few of the more glaring and more protuberant eccentricities have been removed, there is yet discernible that peculiar something which everywhere betokens freshman adolescence"; and later on, "Vast throngs of messenger boys were pouring in and out at the portals, each member of the noble 'army' close buttoned to the chin in brassy jacket and topped with gilt emblazoned cap. The Lounger was on the point of interviewing the Secretary to find whether these youngsters were perchance bearers of bequests to Technology from benevolent testators, when a closer inspection of their habiliments convinced him that those whose identity he had first mistaken were but the doughty wights of the freshman battalion." Equally harmless is his characterization of the annual elections. "Another revolution of the whirligig of time has again brought that opportunity for sport which our politicians easily find in the class elections. Each year as the science of class politics becomes more elaborate and permits of greater finesse and strategy, the Lounger awaits the recurrence of this period with increasing expectancy, not unmixed with curiosity. For the past few weeks, however, no particular novelties have manifested themselves; the Lounger has been an amused spectator of the superlative cordiality which each candidate exhibits prior to the election; has marveled in the customary way at the sudden widened circle of acquaintance in which the aspirant delights to move; and has observed likewise this person's utter indifference after the formalities of election, to the men whose friendship was erstwhile in such demand."

Certainly there seems to be no evidence of the venom here that would destroy anything of the good-fellowship which already exists at Technology. We believe, rather, that what well directed fun in which the Lounger sees fit to indulge will only serve to strengthen the bond of good feeling between the students and Faculty. We are, therefore, extending to the Lounger our heartiest invitation to return, and, as he puts it, to resume his mentorship of Institute affairs.

I. C. FOUR A MEETING

bers follow: P. F. Sanborne, Cornell, 15; F. P. Clement, Harvard, 14; N. E. Tourtelotte, M. I. T., 13; F. B. Starratt, Brown, 13; Casper W. B. Townsend, Pennsylvania, 11, and A. H. Bunker, Yale, 11. They are to act with the president.

Donelson M. Lake, of Princeton, was elected president to serve for the ensuing year. Roger F. Evand, of Dartmouth, and George H. Kimber, of Syracuse, who obtained nine and four votes respectively for places on the executive body, were chosen vice-president. George G. Brown, of New York University, was selected as secretary, with Creigh M. Heydecker, of Columbia, as treasurer.

has been engaged to furnish entertainment for the evening. After 5.00 o'clock today no tickets can be obtained, as the committee must know by that time the number to be present in order to make necessary arrangements with the caterer. Up to 5.00 o'clock tickets will be on sale at the Cage. A meeting of all those selling tickets for the banquet will be held at 1.45 o'clock today at 21 Rogers.

WRESTLING MEET
 (Continued from Page One)

winning on decision. Meanwhile Fowler, the Yale 115-lb. man, had thrown his opponent from Brown, and drew a bye in the semi-finals. When the finals came he had wrestled only one bout of 7 minutes, while Loo had wrestled two bouts amounting to 19 minutes. Captain Loo pushed Fowler around during the first period, but no mat work was done, and they had to wrestle an extra 6-minute period, this also resulting in a draw. In the second extra period Loo of Technology showed a distinct advantage over his opponent and won on decision. Loo wrestled a total of 38 minutes during the meet. By defeating the Yale man he won the 115-lb. Intercollegiate championship of New England.

In the 135-lb. class Hoffman of Technology first threw his opponent, a Harvard man, in 4 minutes, 37 seconds. In the semi-finals he drew a bye. He wrestled Kreider of Yale in the finals and lost a decision. Morse of Technology in the 145-lb. class had a draw with Taber of Brown in the preliminaries, but finally won on decision after an extra 6-minute period. In the semi-finals

Morse was matched against Hull of Harvard. In this meet they wrestled to a draw during the regulation period, but Morse beat his man on decision in an extra period. In the finals he was against Bennet of Yale, and the latter won on decision after an extra period of 6 minutes.

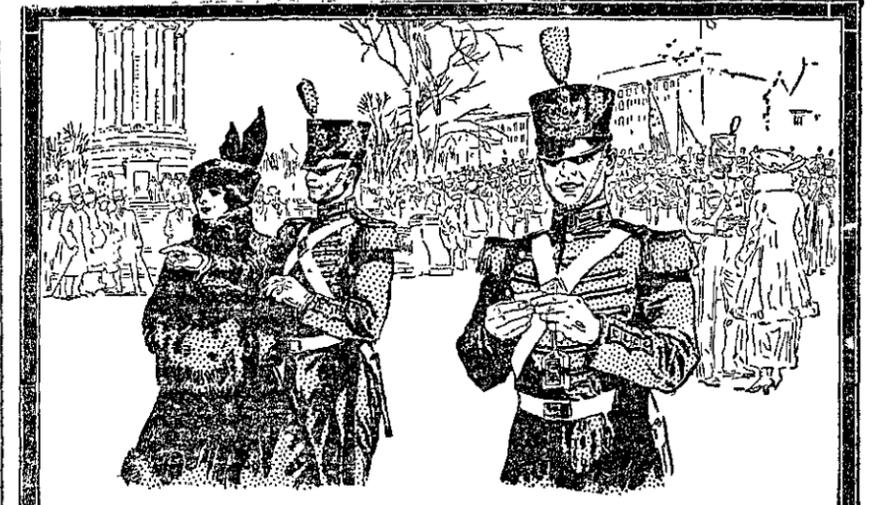

Rounds of Technology three weeks ago injured his shoulder, but he entered the meet in spite of the fact. In the preliminary bout he wrestled a draw with Wallace of Yale, but his shoulder gave way, and he was unable to wrestle the extra period. Bretschneider of Springfield won in this class. He was defeated by Rounds in the Technology-Springfield meet some time ago.

Wirt, in the 158-lb. class, was unable to take part in the meet, and Ellwell, a freshman, was entered and lost to Cook of Harvard on a close decision.

Todd of Technology was thrown by Adam of Bates in the preliminary bout.

Sache, Technology's heavyweight, owing to injuries, was unable to wrestle in the meet.
