

THE TECH

VOL. XXXV. NO. 79

BOSTON, MASS., MONDAY, MARCH 13, 1916

PRICE THREE CENTS

JUNE 12-13-14

GREAT PRIZE CONTEST TO START WEDNESDAY

Next Wednesday the Tech will contain the announcement of a great undergraduate prize contest. Every student of the Institute will be eligible to enter. The work necessary will be very little. It is to be a test of ingenuity and originality. There will be no long waiting for results, and the prize will be worth while.

FORUM ADDRESS

Rev. Gerhard Dehly Of New York To Speak Wednesday

Rev. Gerhard Dehly, of the Church of Social Revolution, is to speak in the Union tomorrow at 1.30 o'clock under the auspices of the M. I. T. Forum on the subject of "Money and the Military Mania." The Church of Social Revolution is a new sect originated by Boucl: White, of New York City, who spoke in the Union last November. Rev. Gerhard Dehly recently sprang into prominence through his officiating at a new ceremonial wedding.

M. E. SOCIETY

G. H. Clark of Institute Will Speak Before A. S. M. E.

At the meeting of the Boston Section of the A. S. M. E., to be held tomorrow night in the Engineers' Club Auditorium, Mr. George H. Clark, '13, of the Institute will present a paper on safety valves. Mr. Clark has spent much time in investigations and tests of safety valves, and has discovered some new and valuable principles of construction.

The main topics of the paper are: (1) Present state of the art and the available theory for design, (2) Absolute and imperative need of valves of higher discharge capacity, (3) The limiting possibilities of the spring loaded type and the portion attained by standard valves, (4) Reasons why the standard valves cannot be designed for increased capacities, (5) Theoretical considerations which govern the design to govern the action of all safety valves, (6) Description of a new type, its theory, the results obtained on test, and the advantages of the design.

The meeting will start at 8.00 o'clock in the Engineers' Club on the corner of Commonwealth Avenue and Arlington Street.

GYM TEAM DEFEATED

Last Saturday night at Providence, Brown defeated the Technology gym team by a score of 44-10. Brown men captured first place in every event of the meet, and also won a majority of the second and third places. Technology's best showing was made by manager Mendelsohn, '16, and Captain Bliss, '16, who won second and third places respectively at the Horizontal Bars.

M. I. T. CORPORATION

At the last meeting of the Corporation, five new members were elected. These were two life members, Pierre S. duPont, '90, of Wilmington, Del., and Frank A. Vanderlip of New York City, and three members to hold office for five years, The latter were Harry J. Carlson, '92, of Newton Center, Henry J. Horn, '88, of Brookline and Samuel J. Mixer, '75, of Boston.

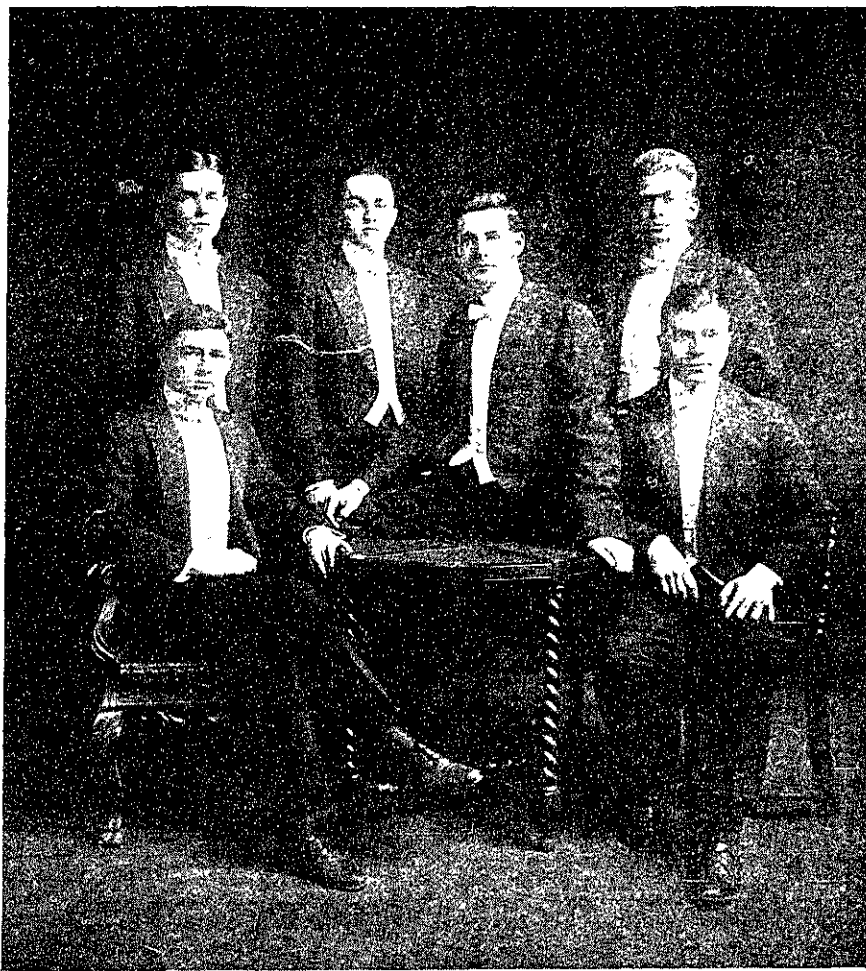

Don't fail to be on hand March the 24th.

JUNIOR PROM COMMITTEE OPENS CAMPAIGN TODAY

The preliminary preparations for this year's Junior Prom have been completed and the sign-up campaign will commence today at one o'clock in the Union, a table being open from 1.00 to 2.00 o'clock each weekday from now until April 22. A deposit of one dollar will be required with each sign-up, the remaining five dollars to be paid on or before April 22.

On account of Easter Sunday coming later than usual this year the Faculty sanctioned a change of Junior

Week from the customary time, the middle of April, to May 4, 5, and 6. The Prom will take place at 9.00 o'clock on Friday, May 5, at the Copley-Plaza Hotel, Teel's Orchestra furnishing the music. Technique will appear at 1.35 o'clock on Wednesday, the Spring Concert will take place on Thursday evening, the Bowdoin Dual Meet on Friday afternoon, and the week will be closed by the student and alumni performances of Tech Show 1916 on Saturday afternoon and evening respectively. The Spring Meet will not be included in the Junior Week schedule this year but will take place as usual in the middle of April.

JUNIOR PROM COMMITTEE

(Standing—Dunning, Atkinson, Woodward. Sitting—E. P. Brooks, Medding, Gay.)

INTERCLASS MEET

The freshmen won the interclass meet held last Saturday afternoon at the Gymnasium by a score of 42 to 30. The most spectacular of the events was the mile run. G. F. Half-acre, '18, led the field until the last two laps, when G. C. McCarten, '19, sprinted and took first place. By some error on the part of the officials, the tape was stretched one lap too soon, by reason of which Half-acre lost his stride on his last lap. The time in this event, 4 min. 44 2-5 sec., establishes a new record at the Gym.

E. E. SOCIETY

Mr. Osgood Speaks On "Exactness" in Education

At the last meeting of the Electrical Engineering Society, Mr. Farley Osgood, of the Public Service Company of Newark, N. J., gave a talk on "What is Engineering and What is an Engineer." The greater part of Mr. Osgood's address was devoted to the subject of an engineer's schooling.

The next meeting of the Society will be held in the Union on the evening of Thursday, March 23. As this will be the last meeting in March, it will be necessary at that time to choose an election committee to supervise the election of next year's officers.

SOPHOMORES LOSE

On last Friday evening the Sophomores and freshmen held their annual Interclass wrestling meet at the Gym. Davis, '19, in the 115-lb. class, threw Means, a second team man. In the 175-lb. class Parker, '19, won a decision over Todd, a varsity man. McMorrin, the freshman captain, in the 135-lb. class, threw Wooten, '18. The Sophomores were able to win only two bouts. McFarland, '18, in the 125-lb. class, won a decision from Inglis, and in the 135-lb. class Parsons, '18, won a decision over Holt. Elwell, '19, and Nangle, '18, in the 145-lb. class, took part in a very fast bout, but Elwell threw his opponent. In the 158-lb. class Kitchin, '19, threw Kiley, '18.

During the past season the freshmen won three out of four meets. They defeated Huntington School, Tufts, and the Sophomores, and were defeated by the Harvard freshmen.

SHOW REHEARSALS

There will be a ballet rehearsal this afternoon at 4.30 o'clock in the Union, Room B. The chorus will assemble in the Union Dining Room at 5.00 o'clock this afternoon to be measured for costumes.

Seulement onze jours. Mars le vingt-quatrieme, la nuit de grands evenements.

E. W. ROUNDS ELECTED WRESTLING CAPTAIN

A. E. Moody Chosen Manager—D. M. McFarland And J. M. Bugbee Assistant Managers

Saturday night the Wrestling Team held its annual banquet at the Plaza Hotel on Columbus Avenue, at which Dean Burton presented Captain Ping Yok Loo, '16, of this year's team with a watch chain and knife on behalf of the team, remarking in his presentation speech that Captain Loo was a typical Technology man.

E. W. Rounds, '17, of Tacoma, Washington, was elected captain for the coming year. Rounds is a member of the Kappa Sigma Fraternity and is a student in Courses II and VI. He has been on the team for three years, has made his "wTt," and gave promise of making his "T" this year at the Intercollegiate, but was injured shortly before the meet.

Alvah E. Moody, '17, of the Theta Delta Chi Fraternity, was elected manager. He is taking Course XV. James M. Bugbee, '18, of Course III, and David M. McFarland, '18, of Course X, were elected assistant managers. McFarland was a member of the freshman team last year, captained the Sophomore team this year, and was a substitute on the Varsity. He has wrestled in one Varsity meet this season, the Brown Meet, in which he won his bout.

After the dinner Dean Burton, Dr. (Continued on Page Four)

FRESHMAN BASEBALL

First Practice Of The Year Held Wednesday

The first freshman baseball practice of the year was held last Wednesday in the Garrison street gym, when about a dozen battery candidates reported to Manager Denison.

A schedule is being arranged by the management, which already includes games with Lynn English High, Norwood High, Lowell Textile School, and three games with the class of 1918. Games are pending with Malden, Melrose, Newton, and other of the Greater Boston Preparatory Schools.

Today at 1.20 o'clock there will be a meeting of all the candidates for this year's team in the gym. Candidates are requested to bring their own gloves.

CHEMICAL SOCIETY

The Chemical Society is to hold a joint meeting with the Harvard Chemical Society at the Harvard Union Friday night. Dr. A. A. Noyes, of Technology, and Dr. Richards, of Harvard, will be the speakers. A special car for the Technology delegation will leave Copley Square promptly at 7.30 p. m.

CALENDAR

Monday, March 13, 1916.

- 1.20—Freshman Baseball Meeting, Gym.
- 4.00—Prom Committee Meeting, 32 Eng. C.
- 4.30—Ballet Rehearsal, Union Dining Room.
- 5.00—Costume Measurement for chorus, Union Dining Room.
- 5.00—Cast Rehearsal, Room B, Union.
- 6.00—Tech String Quartet, Main Room, Union.

Tuesday, March 14, 1916.

- 1.30—M. I. T. Forum, Main Room Union.
- 4.00—Mandolin Club Rehearsal, Room B, Union.
- 5.00—Engineer Corps Meeting, 23 Walker.
- 5.00—M. I. T. A. A. Meeting, 8 Eng. C.
- 5.00—Glee Club Rehearsal, Room B, Union.
- 5.00—Cast Rehearsal, Dining Room, Union.
- 8.00—A. S. M. E. Meeting, Engineer's Club.

MONDAY, MARCH 13, 1916.

Much food for thought surely was carried away by those who, at last Friday's Electrical smoker, heard Mr. S. Farley Osgood describe the progress of the engineer after graduation. Mr. Osgood's contention, that the college man creates for himself a false atmosphere in regarding his degree as an ultimate goal, is the mature decision of an eminently successful engineer, of a man advanced in his profession, who frankly says that not until three years had elapsed since his own graduation did he realize what a complete failure as a technical man he had proven. The fostering of a reasonable self-confidence is not foreign to the purpose of technical training; but if that confidence is so framed that the student will consider his days of study over with graduation from college, it is well to call a halt and consider how to avoid the spread of such dangerous fallacies. The young engineer's first job—shoveling coal off the pile—his subsequent transfer to the office, followed, just when he fondly believes his troubles are all over, by relegation again to weary and apparently useless tasks; these typical episodes embodied in Mr. Osgood's vivid outline must have spread a chill of foreboding among those who expected soon to meet the conditions he had pictured, and who had nursed other dreams. More than a ray of hope was, however, to be gleaned from the speaker's convincing statement that industry and faithfulness in the technical novitiate do not pass unnoticed by his employers; that the worker always is under the discriminating scrutiny of men who are personally interested in advancing him, and who will do so if only he, by evincing what the speaker termed "human intelligence," will give the opportunity.

This confidential talk, given by a man who well knows the ins and outs of engineering, had the effect of dispelling many illusions, but it supplied in their stead good, strong ideals of honesty and perseverance. Now that we realize, from the testimony of an eminent authority, what a long, hard pull the first years after graduation are going to be, those of us not graduating this year are forced to consider a gravely important question in regard to our attitude toward the work of the Institute. In a word, should one take life easily while he may, or (strange fancy), should he work harder than ever, so as to be ready for the real grind, when he has earned his degree? The answer is, of course, one of temperament and Mr. Osgood was wise in not propounding a general solution.

BULLETIN NOTICE

The list of candidates for the degree of Bachelor of Science the present year has been presented to the Faculty, and all persons whose names are on it have been notified individually. The list cannot now be changed except by vote of the Faculty, and any student expecting to be recommended for the degree this year should consult A. L. Merrill if he has not been notified that his name is on the list.

Last Thursday morning when the Lounger went into the Union dining room for his regular morning meal, he found Steward Colton in a rather glum mood; whereupon he began a long and subtle discourse, hoping to draw from his usually genial friend the reason for such despondency. In this he was, of course, eminently successful: he learned that the whole trouble was caused by the loss of five monetary units of the realm. The Steward, unable to overcome his gambling propensities, had bet President Griffin, of the freshman class, that less than two hundred men would appear at the class banquet. He lost not only the money, but also his reputation as a seer.

The optimistic Lounger rejoices that he cannot be caught in the unfortunate predicament of his portly adviser. He has at this writing only thirty cents in his pocket; and as for his reputation, the less said the better.

The Lounger wishes the top of the morning to Bill Frith-g, whom he met again Friday evening at the Senior smoker. The Lounger was feeling a little disconsolate at the time, having just dined at Hayes', and he felt the need of fellowship. He was very warmly received by B-1, and was introduced to several of the important personages present, including two doughnuts and a stein.

The speeches, musical numbers, and term-end plans interested the Lounger greatly; in fact, he became so enthusiastic that he absent-mindedly tried to clap with the stein in one hand, thereby unintentionally liquidating some of his neighbors. A little refreshment, he found, often goes a long way in a crowd of good fellows. The Lounger was glad he could take in so much of the Senior smoker.

The Boston spring proved too much for the Lounger Thursday afternoon. He had planned to attend the Institute Committee meeting but suffered a very damaging mishap on the way to 8 C. The agent of the same was a slippery spot in front of the Hotel Oxford, where the footing proved altogether too elusive for the Lounger. When his downward progress was arrested, he jolted the filling from one of his molars, and immediately on recovery betook himself away to repair his injured dentality.

COMMUNICATION

To the Editor of The Tech:

As I have attempted to analyze the arguments for and against the Honor System at Technology and the elements for its success if adopted, it seems to me that those elements are at least four, as follows:

First, the satisfactory working of the Honor System depends on whether some men are willing to make the sacrifice of leadership, who are willing to see the project honestly administered irrespective of personal ease or popularity. The history of the remarkable success of undergraduate activities of Technology give abundant evidence that we have that kind of men here.

Second, it depends upon the sincerity and honesty of the student body. That we have men of unusual qualities of sincerity and of purpose is the testimony of everyone acquainted with both this and other schools.

Third, it depends on the moral courage of some students in occasional instances. There have been remarkable examples of such courage among Tech students on certain occasions in the past, often, however, exhibited in such a quiet way that it has not attracted public attention, but enough evidence to give us confidence that such men will rise to the occasion if necessary.

Fourth, it depends upon real college spirit. Here is where many would say we were lacking. Perhaps we are in the frothy demonstration of it. When it comes to genuine devotion to the Institute and its ideals, I believe we have sufficient for the satisfactory working out of the Honor System. Few institutions enjoy a more hearty and loyal backing by their alumni than Technology and this would not be true if these men during their student days had not acquired a deep and lasting affection for their Alma Mater. Furthermore the effort to work the Honor System here would do as much to develop college spirit and loyalty to the Institute's ideals as anything I could conceive.

The honor of the student body is at stake, not the honor of the Faculty, in the conduct of students during examination. The Honor System is a student obligation and I believe Technology students will accept it as they have accepted every other responsibility in student government and in conduct of student activities.

A. G. CUSHMAN.

HAUGHTON REMAINS

Although no official announcement has been made, it was learned on good authority at Cambridge yesterday that Percy D. Haughton, the owner of the Braves, would be Advisory Coach for Harvard football next fall. Leo Leary is to be field coach, subject to the advice of Haughton. It is also rumored that Charlie Brickley, the star of two years ago, would return as coach for the backfield if he could close his engagement with Johns Hopkins. The other coaches at Harvard will be the same as last year.

**SENIORS HOLD THEIR
LAST SMOKER OF YEAR**

**Plans For Alumni Reunion And
Senior Week Explained By
Mr. Litchfield**

About two hundred Seniors were present Friday evening at their last get-together before Commencement. President Farthing opened the meeting with a detailed outline of the plans for Senior week.

Thursday, June 8, there will be a pageant rehearsal in the afternoon and dinner at the Lenox at 6.30 p. m. The graduation notices will probably be sent out on this day. Friday morning, the class plans to go down the harbor on their picnic, returning for the dance to be held that evening at the Somerset. On the following day the Baccalaureate sermon will be delivered. Monday morning a body of the class is to meet the Alumni boat, while in the afternoon will come the class day exercises. Tuesday the graduation exercises will take place.

Mr. I. W. Litchfield, '85, Secretary of the Reunion Committee, outlined the plans concerning the alumni. He traced the plans, beginning with the entrance of the Technology boat into Boston harbor. After landing, the alumni, with an escort of undergraduates, will proceed to Huntington Hall. At noon, the fraternities will keep open house for their alumni. In the afternoon there will be an exhibition of speed boats, aeroplanes, and submarines in the Charles River Basin. At this time, in the southwest wing of the new buildings an exhibition entitled "Fifty Years of Technology." An inspection of the buildings and an exhibition drill by the freshman regiment will follow. Dinner will be served that evening at the City Club. About 10.30 p. m. the undergraduates, accompanied by the best band in Boston, are to meet the alumni and escort them back to Rogers' steps, and there they will offer the last singing and cheering for the old building. The morning and afternoon of Tuesday will be "Class Stunt Day" at Nantasket. A feature will be the procession of local alumni mascots. In the evening Professor Cram's great pageant will be presented.

Mr. Litchfield then emphasized the responsibilities and work which the undergraduates must assume in order to make the gigantic production possible. The plans of the committee and the money spent will all come to no account without the hearty cooperation of each undergraduate. Mr. Litchfield resumed his presentation of a program of events with a description of the departmental lunches which are to be held in the Puritan and Somerset hotels Wednesday noon. In the afternoon world-famous speakers and a chorus of a thousand voices will assist at the dedication of the new buildings. The final event will be the banquet for fifteen hundred men in Symphony Hall in the evening.

Mr. Ritchie then spoke briefly of the advantages of his position as publicity agent for spreading the news of the Reunion to all parts of the country. After refreshments, Professor Aydelotte of the English Department gave an account of a typical day at Oxford.

ENGINEER CORPS
American Surgeon From French War Zone To Speak

Dr. Morton Prince, who has just returned from France where he had charge of the American Medical unit, will give an illustrated lecture to the Technology Engineer Corps on "Organization" tomorrow at 5.00 o'clock in 23 Walker. This is the first of a series of lectures to be given before the Engineer Corps by prominent men.
 The enrollment of the corps is now two hundred and twenty-five, three drills having already been held in the South Armory. Officers are to be appointed at a meeting which is to be held Friday afternoon in the Armory. A communication has been received from the Chief of Engineers of the United States stating that he is much gratified by the interest being shown at the Institute and that he has recommended the adding of two hundred copies of the Engineers' Manual to the general library, to be loaned to the members of the corps.
 The contract for the uniforms has been awarded to the Harding Uniform Company of 22 School street, Boston. The uniform consists of campaign hat, flannel shirt, breeches and leggings, and costs \$6.50 at contract price. The uniform is the United States Army standard and is the same as that worn at the Plattsburg Military Camp.

Have you made an engagement for March 24th? Hold it open.

WRESTLING BANQUET
 (Continued from Page One)

Rockwell, Mr. Gracey, Coach Lamb, and Dr. Provan of the B. Y. M. C. U. spoke. Dr. Rockwell expressed his pleasure at the success of the team and congratulated the wrestlers on their sportsmanship. Coach Lamb spoke in general on the psychology of wrestling while Mr. Gracey told of its history. Captain Loo expressed his thanks to the Team in a short speech. Manager George H. Stebbins, '17, of this year's team gave a short report of the season's work. The Varsity Team took part in six meets, winning three, the second team won all three of its meets, and the freshmen won three out of four of their meets. Captains McFarland and McMorran of the Sophomore and freshman teams, respectively, were called on for speeches.

SENIOR PORTFOLIO

A large number of informal negatives of Seniors are at the Technique office ready to be returned to the owners.
 There is still a chance for men to hand in informals, but none can be received after today. The number of unphotographed Seniors is so small that their omission will cause no perceptible decrease in the size of the section.
