Crew to take part in Reunion Program

Special Arrangements to Be Made For Races During Reunion Week

This year's crew work officially starts this week, beginning with a meeting of the boat club at 4.30 o'clock today in Room B of the Union. Following this, at 4.45 o'clock, a practice on the track will be held. The coming season will be outlined in full and the plans for the boat club will be explained to new men. Candidates for crew will be arranged to join the boat club, which will be under the charge of the crew manager. All of those who have expressed an interest in rowing are urged to attend this meeting.

The boat club will be open to all who desire to row, and the purpose of the boat club will be explained to new members. The crew manager will be responsible for the boat club, and he will have the authority to make all necessary arrangements.

Track season closed with New York meet

Summary of Meets Shows Numerous Wins

The meet at Madison Square Garden on Saturday, March 4, brought the season to a close. The events started with the running of the 880 meters, and it was not until nearly an hour after this event that the track meet was concluded. The messenger was an Olympic athlete from the United States.

The meet was attended by a large crowd, and the athletes were cheered on by the students of the Institute. The meet was also a great success financially, and the Institute gained a substantial amount of money.

The next meet will be held on the track of the Institute, and it will be open to all comers.

Junior Prom sign-ups

Number So far Near Doubles, Last Year's

The sign-ups for the Junior Prom were opened Monday and the committee received the number for the first two days, as follows: the number received on the first day was 2,000, and on the second day it was 2,500.

The committee has received a large number of sign-ups, and it is expected that the sign-ups will continue to increase.

Cosmopolitan Club

Illustrated travelogue by Prof. G. L. Hopper

This evening at 5.00 o'clock in the Union, Professor G. L. Hopper of the Civil Engineering department will present a travelogue of the United States. This travelogue will be illustrated by numerous lantern slides and will be open to all who desire to attend.

Latin Americans

Last Saturday, a second meeting of the Latin Americans was held to consider the program for the coming season. The program will be given to members of the society, and the society will hold a meeting every Saturday at 2.30 o'clock.

T. C. A. Elections

The annual election of officers of the Technical Christian Association will occur on Thursday, March 24. The election will be held at 5.00 o'clock in the Union, Room B, and all members are invited to attend.

C. E. Society

The meeting of the C. E. Society will be held on Thursday, March 24. The meeting will be held in the Union, Room B, and all members are invited to attend.

Freshman Baseball

Captain for the freshman baseball team will meet today in the Union. The meeting will be held at 3.00 o'clock in the Union, Room B. The鲜man baseball team will meet in the Union on Tuesday and Thursday at 3.00 o'clock.

Boat Club Meeting

There will be a meeting of the Boat Club at 5.00 o'clock this afternoon in Room A of the Union at which all members of the boat club are asked to be present, as plans for the coming season will be outlined. Indoor work on the rowing machines will begin Thursday, March 16, and will last until the ice is off the river, when the regular outdoor practice will commence.

THE TECH

Established as second-class matter, Sept. 16, 1894, at the postoffice at Boston, Massachusetts. Under the act of Congress, March 2, 1879.

Published twice weekly during the college year by students of the Massachusetts Institute of Technology.

Office 45 Trinity Place, Phone—Back Bay 5272 or 2288. Night—Back Bay 5270.

MANAGING BOARD

H. F. Claassen, '16 General Manager
H. S. Green, '16 Assistant General Manager
E. H. B. Lobdell, Treasurer
R. H. B. Lobdell

E. F. Liverins, '16 Editor-in-Chief

The Lounger was owned and published by students of the Massachusetts Institute of Technology for the careful study and appreciation of their studies. The Lounger has heard any postscript to the above.

WEDNESDAY, MARCH 15, 1916

Tomorrow afternoon an open forum will be held to discuss the conditions of possible antitrust action. It is in the interest of the adoption of an honor system at the Institute. There could not be a more auspicious time in the history of Technology for the careful study of an honor system and its adoption, if it be favorably passed by the students and the Faculty. Never before has the Institute been in the public eye. Character as well as scientific productivity has been the distinguishing mark of my dear fellow, 'Bosk, in his classes up there and the poor young was also talking with his instructor about the weather, "What do you know about the weather," the professor asked him how he managed to reach the Institute.

The Lounger believed that it was an account of the weather that Technology was founded in Boston. Those crafty founders realised that there would be tremulations in the form of movies and cabarets and theater problem, how could the students be kept in sight? The weather keeps the followers in sight all right, but many use it as an excuse not to attend classes. The Lounger saw Dean D—swimming down Boylston street a couple of days ago and when the Dean asked at Roger's Wharf, "The Lounger suggested staying out, but the weather was no more than four degrees. It has been stated and has been reported."

This year the Institute has seen the growth of a new activity, the Technology Orchestra. The present organization is a development of the Shaw Orchestra of former years, the name having been changed to one better befitting its broadened scope. The management of J. W. Precter, work of a noteworthy graduate and a conscientious and capable individuality has been accomplished. By this time all is in quite such a state that everyone in the Institute has heard the Orchestra, and has been particularly impressed with the excellence of its performance. Details of the Orchestra have been in almost constant discussion. The incident to which Mr. Dickerson refers, the All Syrenc dance is bound to be well attended. The Lounger has heard any postscript to the above.

The orchestra will meet for rehearsal this afternoon at 4:35 o'clock. A previous meeting will be held before the orchestra is taken up, the following postscript was appended to the above:

"Say, Bill, what's this March the 24th stuff?" "Darnino, it's not the Technological Club, since I asked Lo, Huo, and he knows.

ROME wasn't built in a day. Neither was anything else worth while. It takes mo' than two years to "build" a tin of VELVET.

Something New Continually
To the Editor of The Tech:

If I am not mistaken, there are some 1900 men at Technology. At the recent athletic event, the tri-serial gun match between Harvard, Dartmouth, and Tech, there were over 250 spectators present. At least 20 of them were Tech Men. Who knows why they came? Possibly some of the other 1980 had work to do that night; at any rate they were not interested enough to support in an even small way an event that is to say the Gym Team. They are not to be blamed for this. But when it comes to the case that Tech Men in general for the defence of the event, who have shown not the slightest interest in the event, and who have done not the slightest good for the event, some little should be done about the matter. If there is any criticism of the Gym Team as its management, I would be too much to blame to hear it first hand from it having it come to me in a rounded ear.

The remark in question was that the Gym Team and its manager and its team were filled with confidence and with its own importance, that something but a final column on the front page of "The Tech" would satisfy them. No, that is not the case. What the Gym Team also wants is the truth about its doing and not some hashed up article which does nothing but convey the right idea.

A Tech header was given the result of the recent Gym Meet. The Gym header was wrong in so far as the truth was concerned. The result of the Tech Meet could have In courtesy to Tech would have been to mention the wonderful all around man of Captain Matthews, who, by winning first place on the horizontal and parallel bars, second place on the rings, and third place in tumbling, practically non-rival single-handed for his team. He did not give it to the whole team the correct impression at the time of the Tech Meets. The Tech meet was not satisfied even when it was sure the Tech was better than the Tech. The Tech meet would have been to mention the wonderful all around man of Captain Matthews, who, by winning first place on the horizontal and parallel bars, second place on the rings, and third place in tumbling, practically non-rival single-handed for his team.

The remark in question was that the Gym Team and its manager and its team were filled with confidence and with its own importance, that something but a final column on the front page of "The Tech" would satisfy them. No, that is not the case. What the Gym Team also wants is the truth about its doing and not some hashed up article which does nothing but convey the right idea.

To Arms!

"Now listen, girlie, you've been wondering what makes me feel so good lately; wherethis store of quivering energy; this keeness of our spirit; this spark in my eye. I'm not sure, there could be but one answer—

"Tux" touches the spring that releases the punch—the live wire energy—the get-there spirit.

Smoke "Tux" for solid enjoyment, too—for the mellow richness and delicate fragrance of choice Burley, freed from harshness and "bite" by the original "Tuxedo Process."

You can smoke "Tux" all day long, if you like, and yet get a new pleasure and satisfaction out of every pipeful.

TO BUY MUNITIONS
Members Of Fife Club Place $300
Order With Government
The interest taken in rifle practice by members of the Fife Club is shown by the large private order for munitions, the second of this year, which is to be sent to the government this week.

The order calls for twenty-seven Krag magazine carbines, six United States Army service rifles (Springfield), three Colt automatic pistols .45 (Army type), four thousand rounds of Krag ammunition, eleven thousand rounds of .22 caliber, and one thousand rounds of .45 caliber cartridges. This order, which is being sent by thirty-six members of the club to the amount of $300, is entirely separate from the regular supply of ammunition furnished by the club.

Any man who has paid his dues may place an order with the secretary, W. P. Johnson, 77, before Thursday and obtain ammunition such as is furnished by the government, to the N. R. A. clubs at a cost considerably less than the usual retail price.

STOCKS AND BONDS
Dr. Dewey Presents Lectures To
Class In Securities
During the past few weeks the class in Securities and Investments (Course XV) has been greatly interested in a series of talks, pertinent to the work of the course, arranged for its benefit by Dr. Dewey. The speakers were:

Mr. Charles C. Jackson, "The Qualities of a Desirable Investment";
Mr. Hoover Albers, "Corporate Stocks as Investments";
Mr. Henry J. Horn, "The Analysis of Railroad Statistics";
Mr. W. F. Weyth, "Investments of the Institute of Technology";
Mr. William L. Garrold, Jr., "The Building of a Bond House";
Mr. A. J. Fanning, "Business Opportunities of Reorganized Railroads."

Other talks on certain classes of bonds have been arranged for.

March 24th is only nine days off.
