The Mass Meeting for the purpose of discussing the Honor System will be held on Thursday afternoon at 1.30 o'clock. This meeting will be carried on under the direction of the Institute Committee for over a month, the attention of the student body toward system, being the feature most discussed. It was finally decided that the logical way to determine the sentiment toward the Honor System would be to clear the issue. At the conclusion of the meeting the sentiment toward the system will be recorded, and every student will be asked to vote. No questions on any point will be taken. After the voting there will be an opportunity to ask questions on any points which may not be clear. At the conclusion of the meeting the sentiment toward the Honor System will be given to the Institute Committee, which has been conducting the investigation. The investigating task will be to determine the sentiment toward the Honor System. If opinion in favor of the system is given by an overwhelming majority of the students, the system will be adopted. If opinion is unfavorable, further efforts will be abandoned.

APRIL MONTHLY

Honor System And Reunion Articles Are Featured

The April issue of the Technology Monthly will make its appearance tomorrow. The history of the Honor System, and why it will work at Tech, is described in a well-documented article by Richard H. Catlett, Jr., editor. The student publicity agent of the Institute, tells about the working of the Committee, and why the system will work. The coming of spring has put an added zest into the student's viewpoint. The coining of a new system is an unusual event, and why it will work at Tech, is described by Edward Tuttle, Jr., chairman of the committee, to look after the finances, and will illustrate his lecture by the engineering society will be held April 27.

WIRELESS SOCIETY

On Thursday evening, March 21, 1918, at 4.30 o'clock on the program of the Wireless Society, be entitled the following: Professor T. H. Smith, one of the professors of electrical engineering, will give a lecture on the science of wireless telephony. The lecture will cover the principles of wireless telephony, and will be illustrated by a demonstration of a wireless set. The lecture will be followed by a discussion of the topic. The lecture will be open to the public, and will be free of charge. The lecture will be given at the Wireless Society's meeting room.

**SUMMER CAMPS**

**GATHER FRIDAY**

Members Of Faculty To Address Machias Dwellers At Camp Reunion

Friday evening, March 31, the students who attended last year's Summer Camp at East Machias will hold their annual reunion and dinner is the Union. Practically all the counselors have signified their intention of being present, some of them going so far as to say that even a badger fight would not keep them away. Professor Cotton has lost several nights' sleep devising an original means, and the committee has secured a novel entertainment in the appearance of now famous Summer Camp Minstrels. It is also rumored that Professor Breed has saved up for this occasion a fund of stories similar to those he taught his students last summer, and that Professor Howard will give the "bones" achieved while running the railroad—also that he will impart some advice of a greatly needed nature, if not sufficiently appreciated, to his audience.

**SHOW REHABILSALS**

The rehearsals of the show for the remainder of this week will be as follows: This afternoon the ballet will rehearse at 4:30 o'clock in the Union Dining Room. Friday the cast will rehearse scenes three and seven at 9:00 o'clock. Monday, scenes four and eight at 5:00 o'clock, in 16. The chorus rehearsal in the Union Dining Room will be at 5:00 o'clock. Saturday the entire cast will rehearse at 2:00 o'clock in the Union Dining Room.

**CORRECTION**

P. A. Parker, '19, was appointed to the Union Council at the meeting last Thursday instead of D. H. Parker, '17, who was erroneously voted in last Friday's issue of The Tech.

**FINANCE**

The Finance Committee has been somewhat busy this week, and it is expected that some suggestions will be made in the near future. The committee has been working on the problem of the Honor System, and it is believed that a satisfactory solution will be reached soon.

**COMMUNICATION**

To the Editor of The Tech:

That true socialism embodies a vast and often vital literature, some people are willing to admit. The students of Technology, being on the whole liberal-minded, are willing to grant that the T. C. A. Forum, as a Socialist organization, has offered an admirable example. This is of course, on the whole, fine speech. But the T. C. A. Forum has no right to compel anyone willing to listen to it if such is not satisfied. Let us hope that the freshman record of 238 will even exceed the 250 mark.

---

**JOBS IN NEAR EAST**

Second Lecture By Mr. Brewer Eddy Thursday

Mr. Brewer Eddy will give the second of a series of lectures on "Jobs Foreign Lands" tomorrow at 5:00 o'clock in 22 Walker. His topic will be "The Road to Civilization," and will deal especially with reconstruction in Turkey after the war. Mr. Eddy, the brother of G. Sherwood Eddy, who is at a conversation last year, is connected with the Board of Education, and has made a study of engineering conditions in the near east.
Why have Murads

become the leading cigarette in the business and social world?

Because smokers have found that the Turkish tobacco used in Murads are better than they can get in most 25 Cent cigarettes.

Murads has not won its World Leadership in a day or by accident. It has been a question of pure, honest value — Of giving for 15 Cents far more than any other manufacturer ever thought it possible to give — Of offering the consumer a 15 Cent cigarette that can only be compared with the BEST 25 Cent cigarettes.

REMEMBER — Turkish tobacco is the world’s most famous tobacco for cigarettes.
