CHEMISTS HEAR TALK ON FOOD SUBSTANCE

Substance is Essential to Normal Development of Body Says Professor Woodman — Mr. Frances M. Franke Talks on the Rubber Industry

RAQUET ON MAY 15

Professor Woodman gave an interesting talk on "Vitamins" at the meeting of the Chemical Society last Thursday, and the audience showed the usual interest in getting a better understanding of the importance of these substances in concentrated form as well as in the foods we eat. These substances were not found in the foods until they were known as such, but they have been proven in small amounts in many different foods. The importance of these substances in concentrated form lies in the fact that they are necessary to all life processes and the lack of them results in poor health.

In the soaking of lard in the manufacture of pickles, the oils are removed, but the vitamins are still present. This is the name for the group of vitamins that are found in the lard, which are not found in the oils. In the soaking of lard in the manufacture of pickles, the vitamins are still present. This is the name for the group of vitamins that are found in the lard, which are not found in the oils.

The Advantages We Offer

An efficient and courteous organization, progressive methods, large resources and three offices, conveniently located in different sections of Boston, combine to make the Old Colony Trust Company the most desirable depository in New England.

Capital and Surplus $12,000,000
Total Deposits over $125,000,000

ELECTRICAL ENGINEERS
HOLD FINAL MEETING THURSDAY

The last meeting of the Electrical Engineering Society for this year will be held Thursday afternoon at 5:05 at the old building on Cambridge Street. At this time Mr. J. R. Daniels '96 will give an informal talk on "How and When to Get Out, and What to Do With Them After You Get Out," Mr. Daniels is connected with the Stone & Webster Engineering Corporation, and his talk will include advice regarding the securing of positions to college men. The meeting is open to all undergraduate members.

JUNIORS' TRIM SOPOPHOMES
13 TO 18 IN BASEBALL SATURDAY

The Juniors were from the Sophomores in the interclass baseball series last Saturday with a score of 6 to 2. The game was played at Amoskeag Park. This year the Juniors are making a strong showing in the series. The last game was won by the Juniors with scores of 2, 1 and 3 respectively.

SERVICE AND THE DRAFT

The passage of a selective draft bill for national service does not change the duty of Institute men, or make necessary any premature departure from the natural path of Technology education. The approach made to the Armed Forces of the United States by the Engineers and Military Science which will graduate men with standing as officers; and until the present time no provision in the nature of a draft has been made. Men trained in the mechanical arts will be given ample opportunity to train for and enlist in the branches of service for which they are best fitted, before the question will arise of their being drafted. Underclassmen whom the question of conscription has made restless are recommended to the advice of the Committee representing Technology's students. The best counsel to the men who will meet Brown next year, is that they continue at the Institute until their technical training is completed—for them, this is the most effective kind of national service which they can perform.

Old Clothes Wanted

By MAX EREZER

If you have some extra clothes that you no longer need, please bring them to the Old Colony Trust Company, 14 Milk Street, Boston. They will be glad to accept them for charitable purposes.

T. C. A. DINNER

(Continued from page 3)

The relationship between the Faculty and the student is gradually narrowing. He recommended Mr. Cushlman, general secretary of the T. C. A., for the work which he has done toward setting the pace for other activities and stated that the T. C. A. stands for sacrifice in that the students ideally offer all of their time and labor for the benefit of others. Professor Wickenden emphasized the importance of the foreign students carrying the friendship of the foreign students back to their countries from which they came, and stated that in the end "we will be capable of bearing dividends." He closed his talk by predicting a successful year and pledging his support.

Mr. Francis Miller made a distinction between military and moral or spiritual preparedness, stating that if one was not capable of serving in the former, he must serve in the latter or else be called a "moral slacker."

While dinner was being served, Earl Collins '15 played some selections on the piano.

**C. E. SOCIETY TO HOLD BANQUET**

There will be a banquet held by the C. E. Society at the Engineers Club, Friday, May 4, at 7:00 o'clock. The sponsors will include the Chief Engineer, New York Central Railroad, the engineer Public Service Commission, New York City, Esquire B. T. B. and Professor W. H. Stanford, Consulting Engineer and head of the Department of Civil Engineering.

**INTERFRATERNITY BASEBALL**

The following interfraternity baseball games were played Saturday morning:

- Alpha Tau Omega 5, Lambda Pi 2, on Kenmore Field, Batteries: Greismer and Eaton, Richardson and Foster.
- Phi Sigma Kappa 4, Sigma Chi 3, on Ford Field, Batteries: Mesler, Berry and Mason, Chickick and Smith.
- Delta Tau Delta 4, Theta Delta Chi 2, on Ames Street Field, Batteries: Hipple and Philbrick, Young and Hughes.
- Phi Delta Theta 2, Sigma Alpha Epsilon 2, on Harvard Field, Batteries: Hipple and Philbrick, Young and Hughes.
