AVIATORS GO IN WALKER MEMORIAL;
START NAVY FLYING SCHOOL MONDAY

NEW BUILDING WILL OPEN SEPTEMBER FIRST

Institute Will Turn Over New Union on Completion This Fall to Army and Navy Training Schools

RUSH TO FURNISH INTERIOR

The Walker Memorial will open on September 4. It will be immediately turned over to the training schools of the aviation section of the signal enlisted reserve, now housed in building two, the oldest of the naval reserve, now occupying the first two stories of building two and the new naval school which will open Monday in the top story of building two. Such was the announcement given out at the office of Bursar Ford yesterday.

Work of completing the building will now begin. Industries' activity will continue and serve as a show for social intercourse among Institute students. The memorial building will be ready for occupancy on September 1.

Building Walker Memorial seems far from completion, but the contractors say that the "new system" will be ready for occupancy on the date set.

That fact that the Institute library in the Walker Memorial, will begin work Wednesday morning taking all the bread, pastry and coffee to be supplied, is an ample if not a long-lasting completion of the building.

(Continued on page 4)

JUNIORS GO TO CAMP

Leave Saturday Morning For Newen—Return Monday

General Orders No. 53.

All men will report at the Institute on Saturday, July 14, 1917, at 8 A.M., in full uniform, regardless of the weariness of the body or the discomfort of the mind.

Each Junior must be dressed in full uniform, with a blanket roll or a small pocket blanket, boots and shoes, underclothing, overclothing, and the necessary toilet articles. Each Junior must report individually to his company officer, who will report to the Quartermaster, returning Sunday, (except 6 P.M.) in full uniform and lightly wrapped in compact package and bagged with overcoat, making the Junior will be a minimum charge for uniform and fares.

By order of
L. P. Macdonald,
Acting Commandant

COURSE FOR MILITARY ENGINEERS STARTS WITH 20

Seam Men May Get Berths Without Having Salt Line Duty

Technology's few course for the training of engineers for our Merchant Marine started last Monday. With no enrollment of twenty-six men, who have been accepted by the United States Government. Twelve men are expected to report at once, and the other eight men after conclusion of the course.

The first hour of the morning is devoted to inspection of the Junior's work in the field, after which the Junior will be given an opportunity to draw in his work. The Junior will be allowed to continue work on his own in the field, but he will not be allowed to do any work in the office.

The Junior's work is similar to the work of the regular students.

In the afternoon, the student will be required to work in the office and see the different offices, and to work in the field and see the different offices.

The Junior will be required to work in the office and see the different offices, and to work in the field and see the different offices.

The Junior will be required to work in the office and see the different offices, and to work in the field and see the different offices.

The Junior will be required to work in the office and see the different offices, and to work in the field and see the different offices.

The Junior will be required to work in the office and see the different offices, and to work in the field and see the different offices.

The Junior will be required to work in the office and see the different offices, and to work in the field and see the different offices.

The Junior will be required to work in the office and see the different offices, and to work in the field and see the different offices.

A WORTHY DEDICATION

This fall there is to be completed a building which perhaps means more to the hearts of Technology men than does any other part of the great memorial project. This is the Memorial Dormitory舍'now near forward to the completion of the Walker Memorial, a monument conceived and started as a memorial for the memory of Francis A. Walker, President of the Massachusetts Institute of Technology, who died six years ago. The building has, this summer, been taking form in the midst of the strenuous war work being done at the Institute. New and

cently comes the opportunity to see it for a greater purpose than was originally conceived of—for the housing of the five hundred students in the Engineering Department舍 which are a part of the forty

room for these men in the regular Institute rooms, especially in view of the

destruction of these rooms by fire.

Two hundred army aviation students, sixty naval cadets, and two

hundred men for the proposed Naval Aviation School, will be quartered

here by September. When school reopens there will be little

room for these men in the regular Institute rooms, especially in view of the destruction of these rooms by fire.

The completeness and magnitude of the Walker Memorial, a monu-

ment in such a position. I beg you, however, to be guided in your work by the receipts in the Memorial to the condition of my service for the housing of the five hundred students舍for the housing of the five hundred students舍"in a fitting way than this to dedicate the Memorial舍 and future undergraduates舍 for the It was thus that Francis A. Walker,

said Walker舍—"I write to friends and relatives in Russia舍 to say that the

journey which I have had 'but little inclination; to spend at least the summer in the Russian front舍 and to cooperate with wives, matrons, and the strength and bread of training舍 are the main elements in the

"making for broad and liberal culture舍 the spirit of the "Four H. W. Waterfall, '11

NEW YORK BOSTON CHICAGO

FRONT OF WALKER MEMORIAL
THE PRESIDENT'S MANSION

FROM THAT HOURSE TO 1912, ON ACCOUNT OF THE IMPOTENCY OF THE INSTITUTE'S FACIULITIES FOR SPORTS, THE EVENTS WERE CONDUCTED AT DIFFERENT TIMES, IN VARIOUS PLACES.

A picture was taken of the en
tire assembly, and, although the
weather was not altogether satis-
factory, the event was an enjoy-
ment to all who were present.

Mr. Advertiser:
Do you know that THE TECH, which is the official organ of the Massachusetts Institute of Technology, has now a guaranteed circulation of nearly TEN THOUSAND?

And, do you know that this number includes practically every man who ever went to Technology, a class of men more intelligent and more prosperous than any similar body in the country?

Mr. Advertiser:
do you realize what this means to you as an opportunity to add to your clientele men unequalled in their buying power and in their ability to appreciate your wares?

The news circulate by THE TECH is largely news of National Service being rendered in the present crisis by Technology men. It is vitally interesting and vitally important to readers.

It Will Be Read.
You, sir, know the value of that. Let us make you acquainted with the attractive details of our proposition.

Recommend—Twice a week we reach Ten Thousand Technology business men.

PLEASE ADDRESS YOUR INQUIRY TO:
ADVERTISING MANAGER, THE TECH, CHARLES RIVER ROAD, CAMBRIDGE, MASS.

Walter Memorial Committee as con-
tinued the building of the gymnasium, which the Institute would have to provide for the fifty men who would form their commissions if necessary, and a great fund for the stadium under the new conditions, will have supplied to them. The use of the Institute's field has been looked to as an additional source of income for the future, and the opportunity of associate with other favorable conditions for possible instruction.

The Walker Memorial will have sufficient means to complete the erection and equipping of a gymnasium.

The gymnasium is situated overhead, the first three weeks the men receive standing instruction in the mechanics and principles of the art of flying, until it is too dark to maneuver, the men are seated in the gymnasium, where lectures are delivered by Institute professors. The remainder of the eight weeks' stay at Tech, the flyers receive instruction in aeronautics, telegraphic code work. During the second period of the eight weeks' stay at the Institute, the flyers receive instruction in military life, and are sent abroad to receive the first allotment of the American training.
